Escape Fire with Baby

A fire late Wednesday morning nearly ruined Christmas for the Denton Marshes on S. Division St. and almost caused a holiday tragedy.

A waste paper basket next to a stove in the couple's kitchen caught fire and turned the room into a mass of flames. Their baby in the kitchen started to cry and alarmed the parents.

Mr. Marsh, bathing at the time, grabbed his child and the family escaped through a window, unable to exit through the outside kitchen door. Another apartment in the house was not damaged except for some smoke.

Tecumseh firemen quickly extinguished the blaze but not before flames caused some $3,000 damages to the building and about $4,000 to contents.

The family's Christmas gifts were in another room and saved.

The house is owned by Louis Greenman, who lives across the street.

Yes, Deer Are Found In Taverns

Dick and Alberta Crandall may be vacationing in California but their tavern—closed for a couple of weeks—had a customer Friday afternoon.

A doe came pounding through the city parking lot behind the fire station, crossed S. Evans St. and then barged through the door of Dicks Tavern, less than a half block from the center of Tecumseh's business district.

Firemen and police, including the State police, were somewhat baffled by the scared deer, which knocked over tables and chairs in the tavern. A large crowd gathered before officers were able to herd the scared animal to a rear storage room, where it was destroyed by a Tecumseh police officer.

The deer was bleeding profusely from cuts suffered when it crashed through door's glass window.

Police then gave the deer to a local family.

"Remember not only to say the right thing in the right place, But, far more difficult still, to leave unsaid the wrong thing at the tempting moment."

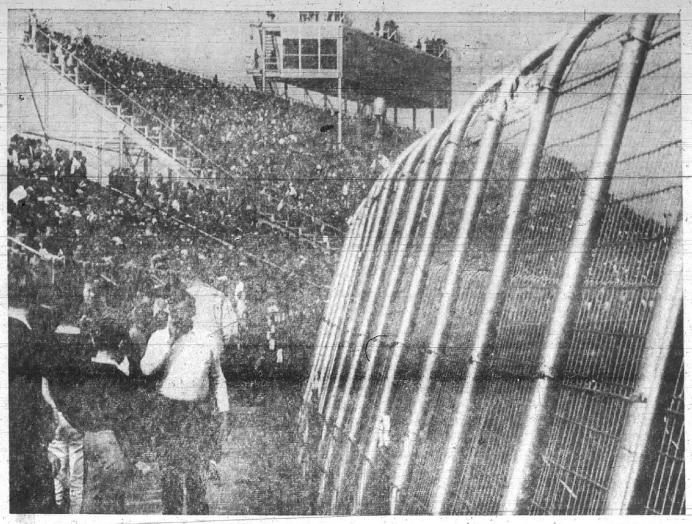
JUNE 26 FLOOD—Local folks will never forget the 1968 flood which washed out Globe Mill Pond dam and nearly took the Red Mill Pond dam on N. Evans St. This photo shows the washed out approach to the bridge over River Raisin on N. Evans. This suspended pavement fell in and traffic was diverted north to Clinton for over a week out N. Union St.



SPEEDWAY OPENS—Plans were announced in 1967 for the Michigan International Speedway and the inaugural race in the fall of 1968 packed the 25,000-seat stadium and infield.

TECUMSEH WILL GET FISHER BODY LAYOUT TO EMPLOY 1,000

NEW GM PLANT

Plans for a new Fisher Body upholstery trim plant in Tecumseh, employing approximately 1,000 people, have been announced by Robert H. Gathman, vice president of General Motors and general manager of Fisher Body.

The new facility is part of GM's record two-year world-wide capital expenditure program of almost $2 billion. The $600 million program was revealed Wednesday in Fremont, Calif., by GM Chairman Frederic G. Donner.

Tecumseh's plant will be located on a 200-acre site ten miles south of Tecumseh on the northeast corner of Occidental Hwy. and Lindy Rd. The site is approximately two miles east of M-52 and is adjacent to the Detroit, Toledo and Ironton Railroad.

Expenditures for payroll and local purchases of materials and services are expected to approximate $9,000,000 annually, Mr. Gathman said.

The new trim fabricating plant will contain about 200,000 square feet of space for producing trim of upholstery for passenger cars. Mr. Gathman said this would relieve the production overload at the Fisher trim plants located at Livonia and Grand Rapids, as well as provide additional capacity for an expanding automobile market.

Construction will start this spring with tentative completion scheduled for a year hence. The building will be a steel and concrete structure to blend with Tele-Trak and aluminum siding.

With the beginning of production, the plant will receive bolts of fabric and other soft trim materials and convert them into seat covers, door panels, headlinings and sun visors.

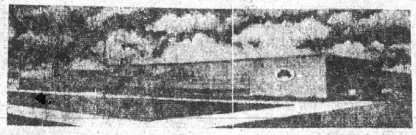
The upholstery materials will be cut both by hand and machine and then sewn together on individually operated sewing machines.

Still other operations will be performed on dielectric presses which bond vinyl and vinyl-coated fabrics together and imprint them with decorative effects. The finished trim then will be shipped to body assembly plants all over the country.

ADMINISTRATIVE OFFICES at the front of the building will contain 34,740 square feet of floor space. Employes' locker rooms and rest rooms on the mezzanine level will contain 10,866 square feet, and a 15,900-square-foot cafeteria will be located on the second floor.

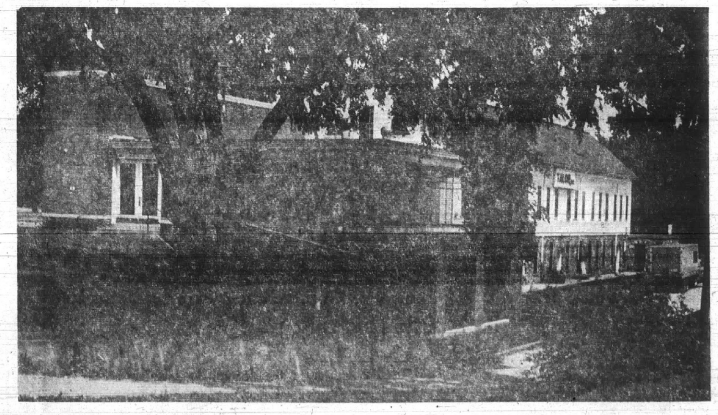
Other construction projects involving Fisher Body include a new metal fabricating plant at Kalamazoo and an assembly plant at Lordstown, O., for Fisher Body and Chevrolet.

With the addition of the Tecumseh, Kalamazoo and Lordstown plants, Fisher Body will operate 25 plants in 17 American cities in 12 states. The division produces automobile bodies for Chevrolet, Pontiac, Oldsmobile, Buick, and Cadillac.



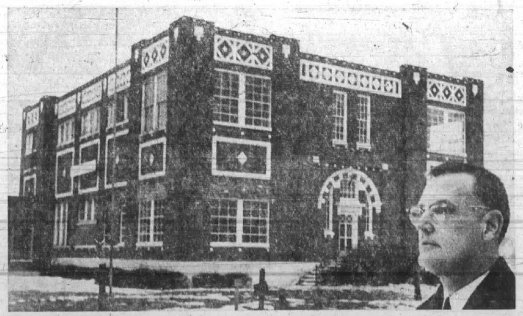
NEW GM PLANT FOR TECUMSEH—This is an artist's rendering of the new 290,000-square-foot upholstery trim fabricating plant to be built by Fisher Body Division of General Motors five miles south of Tecumseh. It will be on a 200-acre site at the northwest corner of Occidental Hwy. and Lindy Rd. The new Fisher Body plant will employ approximately 1,000 men and women and its estimated first annual expenditures for payroll and local purchases will reach $9,000,000 annually.

HEADLINE TELLS ALL —This head in the March 19, 1964, issue of The Herald revealed GM's plans to build the Tecumseh Fisher Body Plant for 1,000 employees.



CENTER DEDICATED—Tecumseh Community Center, a gift from the Herrick Foundation, was dedicated in June 1961 and has since been a center of many activities, including the Teen Club and Senior Citizens organization, and productions by the Tecumseh Play ers.

DOWNTOWN CHANGES—Purchase of Ford agency building from Charles Butler paved the way for a major change in the business row. Don Martin opened a new, large Gambles store in 1961—one to more than double in size in 1968—and leased to a new Woolworth store.



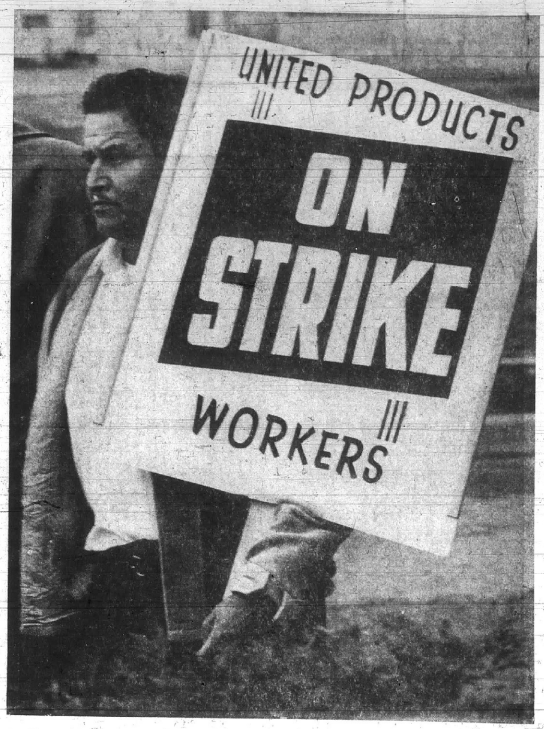
NEW COMPANY — Tecumseh Corrugated Box was founded here in 1963 in the old Quaker Oats building on S. Evans St. The company, a fabricator of containers, has grown rapidly but has expanded mostly in Ohio.

PICTURES OF THE '60s

GROUND BREAKING—Ground was broken in March 1962 for a new Faraday plant on S. Maumee St. Tecumseh-Area Industrial Association officials partici pated in the ceremonies. Since the building was constructed, Gray Mfg. bought the company and then sold it last year to Frank Flack and Fred Kluin.

SPLENDID ASSET—Ground breaking ceremonies were held here in the fall of 1963 for the Herrick Nursing Home, a $225,000 gift from the Herrick Foundation. The Rev. Julian Gresham, third from right, officiated at the ceremony which included participation by Ray Herrick, standing to the right of the former Presbyterian pastor.

PALM SUNDAY TORNADO—Although Tecumseh missed the 1965 tornado, hundreds of other folks just west and north of town were not so fortunate. Tipton and many rural folks were hit hard, losing buildings, contents and livestock. It was the greatest local disaster of our time.



PRODUCTS STRIKE—A six-week strike struck the Tecumseh Products in the fall of 1968, the first strike in the company's history. It was a sad period for both Company and Union—and the community.

BEHIND the COUNTER with CARL LAMB

Behind the Counter Series Four
House Calls

Every once in a while, we hear complaints about a doctor's reluctance to make a house call, and this is often condemned as poor medical practice. We asked one of our medical colleagues about this, recently, and it seems there's been a lot of misunderstanding about all this.

First of all, doctors do make fewer house calls than in the past, and they do ask that more patients be brought to the office or hospital. One important reason for this is that medicine is no longer practiced out of a little black bag.

Your doctor has quicker, more efficient and more complete laboratory tests and aids than were once available. These are more important than just treating the symptoms of an illness—giving an antibiotic just because a child's throat is red.

In other words, the patient receives more scientific, accurate and complete service in the office than in the home.

The reason you really phone a doctor is to seek his advice as to the best thing to do. You may not be an expert at making a diagnosis, but as you describe the symptoms the doctor can decide whether the patient should be brought to the office, be taken to a hospital, or remain at home.

If you trust your doctor, you'll leave the decision up to him. If you don't trust your doctor, you should be looking for another family physician.

Four attendants in rose satin and velvet preceded Sherry Lorraine Dinius to the altar of Grace Methodist Church in Ridgeway Saturday evening for her marriage to Dennis Bryan.

A reception was held in the Youth House of First Baptist Church, where lighted tapers centered the serving tables, flanking the cake table, skirted with rose taffeta overdraped with white net and pink ribbons.

Crystal candelabra filled with pink tapers and centered with pink chrysanthemums, flanked the cake cut by Mrs. Mable Pidd, aunt of the bride, from Dexter.

Mrs. Floyd Bryan, grandmother of the groom, flew from Englewood, Fla. to attend the wedding.

The bride is a graduate of Tecumseh High School and Ann Arbor School of Practical Nursing. She is employed at Bixby Hospital.

Pastor tell me

By DUANE H. McNEIL

Do You Know a Good Resolution?

There are several men in the Bible who made resolutions. We are not told the time of year they did this. Any time of year would be a good time for us to make these same resolutions but especially so is New Years.

Daniel vowed in Daniel 1:8 not to defile himself. He determind to live purely and cleanly. This is a good time for such a stand.

David in Psalm 18:1 said, "I will love, thee, O Lord." Then in Psalm 119: David stated He would be true to the Word of God. One would be hard pressed to match these wonderful vows made to God.

Jacob made vows in Gen. 28:-16-22 to be sure, we are slow to make a commitment like this to God. If you do so, make it private, make it to God alone.

Paul vowed to strive to win others to Christ in I Cor. 9:22. Great Blessings would be ours and others were each of us to seek to get others to turn to the Lord.

The Prodigal in Luke 15, decided to return to the Presence of his father and home. These good resolutions, no harm could come were you to borrow one or more of these and make it your own.

1696 IN REVIEW

When I was small, Gram and Gramps and Auntie Dick often spoke of how quickly the time flew. Youngsters don't see it that way. The school year is an eternity from Thanksgiving till Christmas is unending, and from the holidays to a June birthday is forever. Now, however, I know all too well what they meant.

Time does indeed fly, it hardly seems possible that '69 is almost history nor can I believe that already it is time to look back and take stock of what kind of a year it has been.

January, as far as Mom and I are concerned, was almost a lost cause. It was certainly a lost month. We both entertained (?) the Hong Kong flu bugs. Never have either of us had anything like it — headache, chills, fever, sore throat, aches and pains, sleepless nights, congested chest, drippy nose, coughing spasms, — oh, it was charming.

The long and weary 'getting over the flu' was like nothing else either. Well into spring the coughs, occasional aches and pains, and the dreadful feeling of being tired persisted.

The comments on our January calendar are few and far between. Even near the end of the month there are notations of the day's temperature readings; by the 28, I was down to 99.8 — hurray!

Seriously, the bird and squirrel business was probably as good as ever but nobody did much looking. On the 16 I see that we had juncos, mourning doves, cardinals, and a song sparrow; two chick-a-dees caught our attention the 20: a pair of evening grosbeaks visited the 27; on the 28, there was an ice storm plus a muskrat swimming in the creek. We happily said good-bye to the month on a rainy day which saw the creek flood.

On February 1, we all congratulated Betty Flanders on the start of her fourth year of "Tecumseh Spotlight." By the 4, the window watching became serious business again as a small-ish black squirrel, two nuthatches, chick-a-dees, and a gold-finch welcomed me back.

On the 10, a yellow-bellied sapsucker; the 11 was busy with a brown creeper, crows, a pair of nuthatches, and a male downy woodpecker; Valentine's Day brought news of a black and white warbler at Clara Waldron's and an unwanted Little Red at our feeder.

Sunday, the 16, was a rabbit watching day and a bright warm Tuesday was spent with flocks of cedar waxwings and the yellow-bellied sapsucker. Mrs. Kingfisher, waxwings, a sapsucker, and two does, who took naps on the feeder, filled the 19; the 20 found a muskrat starting what turned out to be a long, long session of nest building.

This also was the day we saw the squirrel rest near the nest hole in the tree across the creek, waxwings, goldfinches, chick-a-dees, juncos, downy woodpecker, a pair of hairy woodpeckers, and cardinals.

The 21 was almost a repeat plus a small hawk, whom we never did identify, and a male goldfinch already showing patches of color.

A kingfisher and a red-bellied woodpecker were highlights of the 24; the song sparrow sang on the 20; the 27 saw hordes of starlings, two blue jays, four squirrels, and many juncos.

MARCH was off to a great start with Ella hearing a flock of geese. Almost every day we had goldfinches and how interesting it was to watch them shed their dark winter clothes and don the springtime bright yellow and black. It was also a busy month for the muskrat. On the 12, two hawks circled over head, again unidentified; a female evening grosbeak and a brown creeper visited on the 13; the 14 was the day of many woodpeckers as well as many yellow crocuss blossoms; the bright Papa Cardinal monopolized the feeder the 16 and Ella's robins were by the 17. The robins were here on the 19 and regulars, it was another good month for muskrats and goldfinches. Also, on the 1 there was a redwinged blackbird; rabbits on the 7; kinglets and towhees at Damon's on the 13; a pair of wood ducks in our front yard on the 15; more ducks the 16. The 17 saw the first bouquet of tulips and daffodils being picked. This was also the day Mom saw the first scarlet tanager.

The 18 brought Baltimore orioles and a peculiar looking white-headed sparrow; towhees at Gertie I's the 20; Three rabbits kept us busy the 23; and on a hot 27, our first ride of the year was out to see Hercules, the Sullivan's baby great horned owl.

Three female towhees showed up on the 28 and on the 30 there were white-throated sparrows, a gray-cheeked thrush, a brown thrasher, and perhaps a purple finch.

A hectic and fun filled May was off to a good start with a rose-breasted grosbeak and white-throated sparrows on the 1 and 2. On the 5 a pair of mallards started a three day visit in the creek; evening and rose-breasted grosbeaks the 6; singing and battling orioles shared the 7 with an invasion of black and white, and myrtle warblers; a woodchuck here on the 8 and Dorothy D. saw two rose-breasted grosbeaks at the top of our creek bank.

Magnolia warblers arrived on the 12; blackburnian warblers invited on the 13; baby sparrows being fed at the feeder on the 14; and a flycatcher and an indigo bunting the 16. Short trip to visit cousins at Pigeon the 20-22. All night and all day serenade by orioles the 23; Dorothy Rundell in with dead black-billed chuckoo the 24 which was also the day of our first catbird; wren on feeder the 25; the red-headed woodpecker the 26; and a lovely oriole visit helped us celebrate Memorial Day.

Casey Family Suffering

Fire not only destroyed the farm residence of the Raymond Casey family early Wednesday morning, but it left the family of seven youngsters almost destitute.

The house, owned by Dale Mitchell, Raisin Township fire chief, was completely destroyed. The family escaped only with the clothing they were wearing.

Folks who have extra furniture, bedding and clothing that they wish to discard, are asked to contact Mr. Mitchell, phone 423-7271, or any township fireman. A home is also being sought as the family is now split up among neighbors.

The youngsters range in age from five to 18. If folks are unable to deliver any of the essentials, Mr. Mitchell says Raisin firemen will be happy to pick them up.

The large, old farmhouse was in flames when the Holloway department was called. Loss is still unknown.

Mr. Casey works for the County Drain Commission, and Mrs. Casey for H. W. Tuttle Co.

Youth Hit, Leg Broken

Icy streets accounted for four of six accidents investigated by the Tecumseh police last week, but not in the case where a young pedestrian was struck by a motorist.

Saturday, Robert Prettyman, 19, of 113 N. Democrat St., was crossing W. Chicago Blvd. at Union and was hit by Richard C. Witherell, 43, Rockwood.

Young Prettyman first thought he had the green light, but later wasn't sure. Witnesses were not sure either. Witherell claims he had the green light and no charges were made. The youth suffered a broken leg.

A resume of other mishaps is:

Dec. 31 — Evelyn M. Hicks, 40, of 9300 Macon Rd., and Stanley Lee Sloan, 24, Sand Creek, were both making right turns off N. Evans St. into W. Chicago and collided.

Dec. 31 — Eileen F. Perry, 19, Britton slid on icy W. Chicago Blvd. and into the rear of a car driven by Thurman E. Stanley, 50, of 509 Brown St.

Jan. 1 — Doug Blumenauer, 18, Manchester lost control on slippery N. Ottawa St. and struck a guard rail and traffic and no parking signs.

Jan. 2 — Cheryl L. Aebersold, 21, of 2203 Russell Rd., slid into William R. Ball, 56, of 209 W. Pottawatamie St., at Adrian St. and W. Chicago.

Jan. 2 — Paul S. McClure, 40, Manchester slipped on icy W. Chicago and hit Warren V. Rowley Jr., 42, Addison. Moments later Lawrence T. Towne, 20, Northville slid into McClure's vehicle. Two passengers in the Rowley car, Donald Mackey, 49, and Harry Haas, 65, suffered minor injuries.

Fire Loss Is $10,000

Fire, originating in a bathroom, extensively damaged the Walter Elwartowski home Wednesday of last week.

Dr. Elwartowski, local chiropractor, says damages to the building will be at least $6,000 and damages to contents and furniture, approximately $3,500 to $4,000.

Tecumseh Fire Department's report blames the fire on electrical wiring.

Firemen were at the scene for approximately two hours.

Eardleys Hosting Park Ice Skating

Supervised ice skating will be conducted at Tecumseh Park Saturday and Sunday, 1 p.m. to 7 p.m., with Mr. and Mrs. Ward Eardley overlooking the activities.

The building will be open for youngsters to warm themselves, and the recreation director and his wife will serve hot chocolate and light refreshments.

NEW OWNER—Charles Trickey Jr. is the new owner of Van-Mer's Department Store, taking over officially on Jan. 1. Chet and Goldie Merritt operated the store here for 11 years.

Trickey Buys Van-Mer's

Charles Trickey, long time clothing representative, has purchased Van-Mer's Department Store from Chet and Goldie Merritt. Sale was effective Jan. 1.

New owner has 20 years experience in clothing lines, as a sales representative for Krolick Co., large nationally known clothier. He also has experience at the retail level and has operated a shop at Belleville for nearly two years.

Mr. Trickey, his wife Betty and three children, live at 9431 Tonneberger Dr. and have been residents of Tecumseh for the past 10 years.

He is a past state commander of AMVETS. Last February he was re-appointed to the state board of the Michigan Veterans Trust Fund by Gov. William Milliken and is a member of the American Legion and VFW.

He is a member of the Tecumseh Country Club and is currently a candidate for the board of directors there.

Mr. and Mrs. Merritt, who started in the clothing business in Clinton in 1948, have operated the store here for 11 years. They plan a trip south for part of the winter.

Collector Quits Week Early

Modern Disposal's refuse contract with the city expired Wednesday of last week, Dec. 31, but city officials and many residents feel the Napoleon trash collector jumped the gun.

Many Modern Disposal sacks were not picked up, some left for over a week. This week Tecumseh's new collector, Maenard Weaver, picked up not only his sacks but also those left by Modern Disposal.

Three residents attended Council Monday night and voiced their criticism of the refuse service.

Mrs. Roberto Diaz, of 416 W. Logan St., complained of poor service and then told officials there were too many dogs running loose in her neighborhood. She said that she would tell the owners about their dogs, if she only knew who the owners were.

William E. Davis, 320 W. Brown St., inquired if Modern Disposal was bonded. When told the company was, he said the city should become hard-nosed and force the company to fulfill its contract.

Mayor Harold Easton told him that the city is withholding a check for Modern Disposal and costs for picking of its sacks will be deducted from final payment.

Weaver has picked up the sacks and will be paid at the rate of 20c per sack.

Marvin L. Hurlburt, 607 Stacy St., told Council that Weaver was scheduled to pick up his refuse Monday, and that it was still there that evening.

City Manager Cal Zorn says that residents on S. Union St., from Cummins to Russell Rd., will be picked up on Thursdays, rather than on Mondays as previously scheduled. Residences will be notified by letter from city hall.

Mr. Zorn also said that Weaver will be collecting refuse as early as 7 a.m., making it necessary in most cases for residents to have their sacks out the night before.

Record Hop, Film for Junior High

Junior High night will be featured Friday evening at the Tecumseh Community Center with a movie scheduled at seven o'clock, followed by a record hop.

Admission is 75c, and the teenagers are urged to bring their favorite record.

Council Tables Appointment

Council tabled an appointment to the Board of Review to the next meeting after officials learned that Mrs. Edwin Goller did not wish to serve another term.

Mrs. Cecile Smith and Perry Satterthwaite were re-appointed to the Election Commission.

Open House at Center Jan. 14-15

Tecumseh Recreation Department will hold an open house at the Community Center, Jan. 14-15, from 7 p.m. each evening, for the public to view the 1970 winter session of classes and to visit with instructors.

Ward Eardley, director, says displays will be exhibited by classes of the fall session, including some from children classes, and a preview of seasonal progress and activities will be offered.

Coffee, refreshments and entertainment also will be provided.

56 Greet Director for Follies

Rehearsals will start soon for the annual Jaycee Follies after a meeting with the director, John Dean, Tuesday night at the Tecumseh Country Club.

Seventy-five have signed for the Follies and 56 were on hand to greet the director. More participants are needed.

1 Dies, 2 Hospitalized in Rooming House Fire

Fire, probably starting from a smoldering mattress dumped in a downstairs hallway, claimed one life early Tuesday morning and sent two others to Herrick Hospital.

Dead is George Ward, 68, retired Tecumseh Products employee. Rushed to the local hospital were John Stuart, who suffered a fractured ankle and first and second degree burns on his face and hands, and Oliver Davis, who was overcome by smoke and sustained a hand laceration.

George Ward retired on July 1, 1969 from the Tecumseh Products Co. He worked in the maintenance department. His funeral services are this Thursday afternoon at Dunn Funeral Home.

Eighteen Tecumseh firemen answered the alarm about 3:44 a.m. Tuesday when flames broke out of windows and the roof of a rooming house at 121 S. Ottawa St. Local firemen were soon assisted by the Clinton department, which stayed for approximately two hours.

Last pumper to return here to the station arrived about 11 a.m., six hours after the alarm.

Firemen theorize that an occupant of the rooming house had a mattress catch fire and attempted to discard it by taking it from a back bedroom down the hallway towards the front door. Enroute, the mattress became entangled in a bicycle and was left smoldering.

Fire soon swept upwards through the old frame building, and when firemen here arrived, flames were through the roof and out most of the windows. Main section of the house was practically gutted, and a wing towards a laundromat and apartment dwelling sustained extensive damages.

One apartment was scorched by the blaze, but little damage was inflicted on the apartments and none on the laundromat.

Firemen battled the blaze for over an hour and a half before they could enter the house. Mr. Ward was found by firemen George Ruhl and Lonal Bishop, face up in his upstairs bedroom. It's believed that he attempted to get out but was overcome by smoke and the intense heat.

Coroner from Hudson pronounced him dead shortly before 7 a.m., about an hour after the two firemen discovered him.

Stuart suffered his injuries after the searing heat forced him to jump from the second floor. Howard Baughey, another occupant, told firemen that he escaped from the second floor by scrambling onto the roof of the connecting wing, where he was able to reach the apartments and safety.

Firemen's ordeal was greater due to the coldness. Temperature was just about zero, coldest day so far of the winter.

The rooming house was owned by Harvey Wilson.

Services for Mr. Ward will be held at the Dunn Funeral Home Thursday afternoon at 3:30, with the Rev. Paul Brantingham officiating.

He was born on June 14, 1901 in Hillsdale and worked in the maintenance department of the Products until retiring in 1969. He was a member of the Eagles Lodge.

Survivors include a half-brother, Kenneth of Vicksburg; half-sister, Mrs. Glenn (Jeanette) Dentler, Three Rivers; a niece and nephew, and his former wife, Mrs. Hazel Ward.

Burial will be in Brookside Cemetery.

School Brochures to Voters

Following is a copy of a brochure about a proposed new Tecumseh High School that is being sent to registered voters.

Tecumseh and its school system are now in a critical period of growth. Increasing numbers of people are moving into our community and school enrollment climbs each year.

We are now at the point where all reserve school space is in use and we have exhausted every method of extending usage, including the scheduling of seven hour days instead of the usual six hour days.

The time has come when building additions and renovation of existing facilities can no longer keep pace with our rate of growth. We, therefore, must plan for a giant step forward; the results of which will enable our town and our school system to expand progressively and to continue quality education.

Since nothing worthwhile can be accomplished without a great deal of effort and a great deal of money, we hope you will take the time to learn all the details of the school proposal, its timing, its benefits, its costs and its financing.

What is the proposal?

Basically this: To build a new self-contained high school with a closed campus. This school to include facilities for the most up-to-date methods of instruction, block team teaching, outdoor scenic area, educational and closed circuit TV.

To remodel the existing high school into an expanded middle school. In addition to the seventh and eighth grades, the sixth grades will be transferred to the middle school. This movement of the sixth grades will free eight more rooms in the elementary schools, reducing the overcrowding there, and permit future growth.

The remodeled middle school will be changed to a closed campus school with a hot lunch program available for all. (Students bringing lunch may also use these facilities.)

What are the benefits?

Greatly improved environment for teaching and learning.

More efficient use of teachers.

Bring sixth graders together with 7th and 8th graders into a more appropriate age group exposure.

Relieve the present, often dangerous, physical conditions of overcrowding.

Enhance our ability to attract high quality teachers.

Closed campuses will keep children at school during noon hour. This will eliminate the present downtown noon hour influx of students.

High School auditorium will provide badly needed auditorium space for citizens' use and public functions.

Help insure for our children the best education, academic and practical, that our efforts can give them.

What will happen to the old Junior High School?

This structure is in poor condition and design. Condemned for public use in 1956, it has only been kept in service by marginal emergency procedures. For example, the small south annex addition completed in 1968 could not, by law, be attached to the old structure without immediate condemnation of the entire school's boiler heating system. It was, therefore, constructed completely independent of the old building.

The preferable solution will be to tear down the old building and keep the new south annex in service. Because of the high cost of building demolition, it may be advantageous to use the old building for school storage only.

What is the estimated cost?

The total cost of the entire project is estimated to be $9,700,000.

New high school $7,983,300
Middle school 1,716,700

This includes not only construction, but complete equip-

Tecumseh and Clinton firemen were given an assist by Quick Lunch and Van's Pastry during the long hours of fighting the house fire on S. Ottawa St. early Tuesday morning. Evelyn Beaubien sent over eight pots of coffee and Leverett DeLonghe sent four dozen rolls and coffee to go with it. Thanks friends.

Whose picture do we have? The Herald would like to return the large photo of Tecumseh's Championship baseball team to the rightful owner. Among the familiar faces are Lee Randall, Earl Pennington, Larry Harrington, BertOusterhout, Sam Sisson, etc.

Tecumseh Service Club is seeking men's clothing and blankets for victims of Tuesday's fire. Anyone in the area wishing to donate such items may leave them at the fire barn on S. Evans St.

Duane Carpenter and Judy Marks were among those 4-H Teen leaders to go to Camp Kett at Tustin for recreation team training, Dec. 29, 30 and 31.

The training prepares the youth to do work in their home area, not only for 4-H groups, but for others who may wish assistance with games and party activities.

Tecumseh teenagers are invited to a fifth quarter party, hosted by the Tecumseh Friends Church, Saturday night, after the Tecumseh-Adrian basketball game. Featured entertainer will be the noted singer Dave Boyer, direct from his appearance at Adrian College Teen Life Crusade. All local teenagers may attend, according to Joe Hayden.

Senator Bursley's LANSING REPORT

Last Week in December, 1969

A happy Holiday Season to all of you. May your coming Holiday seasons of the 1970's be most replete with hope, peace, charity, and Christian practices.

Our country now is nearing 200 years of independence. We are the world's most powerful nation with a majority of the world's scientists, doctors, researchers, and inventors. Military weaponry now mandates the one-world concept. We can no longer be isolationists. And our clear responsibility is to provide as much world leadership as we can. If we don't, someone else will and an alien philosophy, an alien theology, an alien social structure holds out little allure for the great majority of Americans.

We — the maligned establishment of today — rightly merit some of the skepticism and scorn of the younger population. We have permitted the world to become overpopulated, the air and water is become overcontaminated, and the bodies of half the world's population to become underfed. We have done great things but we have had these shortcomings.

Our nation and the United Nations—which also needs a facelifting—face several problems that can brook no procrastination. The world's present 3 billion people will number 6 billion by the year 200. There will be less land on which to grow food. We will have to more than double agricultural production, particularly since over half the world is presently on a less than subsistence level. Farming the sea is one of the greatest potentials for the future. The Japanese already are doing this effectively.

Environmental control is top priority. Its a problem of our own making. We must purify the air we breathe and the water in our lakes and streams. We must set aside parklands and conservation areas for this doubling of the population which the next generation promises. We must rationally ration our natural resources for coming generations. Selfish interests must be ruthlessly pushed aside.

We must restructure our urban-suburban-regional governmental organization to meet modern needs. We can't have, for example, 500 contiguous townships, villages, cities, and counties all making different rules on air pollution control. Regional councils of government — developing along many lines, voluntary or involuntary—are a natural development. But in this growing bureaucracy and population sprawl the rights of the individual citizen must be jealously safeguarded.

These bigger problems to which I refer are properly international and national in scope but they must also be implemented at the state level.

Congress legislates welfare programs, housing programs, and many others that call for state implementation and financing. State legislatures, notoriously understaffed, and sometimes taken in by these programs, may inherit unforseen dollar commitments. We fortunately have an excellent congressman in Marvin Esch, who keeps us informed on federal programs.

In 1970, we will have many state programs of major importance. Various reforms in our educational structure will be considered, and some I shall support. In so far as parochiaid is concerned, I have voted against this issue and will continue to oppose Governor Milliken on it.

On abortion law reform, which I am sponsoring, I do have Governor Milliken's support.

On development of a major statewide transportation policy, including implementation of Southeastern Michigan rapid transit, I have been chairman of a Joint House-Senate committee developing these programs, and, happily, we have increasing support from the Governor's office.

Governor Milliken has asked me to serve on his committee recommending a downtown stadium for Detroit and to serve as a member of the host committee for the visit of Premiere Price of British Honduras to to Michigan in February.

Important new banking legislation will continue to be one of my major responsibilities as chairman of the Senate Committee on Corporations and Economic Development.

On the Commerce Committee, of which I am a member, we will have much legislation to consider effecting insurance, utilities, and liquor control measures.

It is my desire to have small advisory teams in communities in the 18th Senatorial District with whom I can work directly on any of these issues.

Whatever your party and however much you may have disagreed with my views on some subjects, remember that I am still your Senator and that we probably do agree far more than disagree on potentially good things for Michigan.

Therefore, let me know if you would like to actively help in any way in developing new legislative concepts, in solving personal problems involving state government, or in generating active support for specific legislative acts.

Again, my warmest wishes to all of you for the present Holiday Season and for the decade of the seventies.

Letters to the Editor

To the editor:

Know your firemen and be proud of them as I am.

Last night we had a fire of such magnitude that we could have lost the entire center. It was unfortunate we had one fatality. This man must have been dead by the time we reached the scene. We received the call at 3:42 a.m.

We were at the scene at 3:45 a.m. The entire second floor was engulfed in flames. It would have been impossible for anyone on this floor to have been still alive.

First reports were one man was still in the building.

Firemen battled their way up the stairs, but it was approximately 1½ hours later before the body was found in the debris.

Many Tecumseh firemen, all with families, risked their lives to bring this fire under control.

This determination, I feel, is above and beyond their obligation as firemen.

We asked for assistance from Clinton and their response was immediate. It was very much appreciated.

Next door to this building, almost to the point of being connected, was a laundromat, car wash and six apartments on the second floor. This building suffered only smoke damage and slight paint scorching due only to sheer determination by Tecumseh firemen.

Again, I say, a job well done to Tecumseh firemen, and to the citizens of Tecumseh fire district, I say know your Fire Department phone number. This can save precious minutes, and maybe your life.

ment and furnishings.

How will this sum be financed?

(a) It is planned to sell school bonds

(b) The bond debt to be liquidated through the proceeds obtained by an 8 to 9 mills tax increase.

How much is that going to cost the individual?

As a property owner with a home assessed at $10,000, your taxes will increase $7 to $8 a month.

This sounds like a lot of money.

Anything worthwhile costs money. The Board of Education wants every citizen to know all the details of this proposed school program. Knowledge of these details and what they will mean for our children and for our expanding community will permit each voter to judge whether or not the benefits justify the cost.

To assist in this, four separate public meetings have been scheduled to which everyone is invited. Board members, teachers and administrators will be on hand to explain the program and answer questions

Schedule of meetings are:

January 14—Tecumseh Jr. High School, 8:00 P.M.

You Told Us

By DOROTHY GRIGG

The holidays are great but oh the peaceful tranquility of normalcy and a regular schedule. Now if we can just keep on an upward keel through the flu session, we can count the winter entirely successful.

At least the weather is cooperating. This near zero business is bound to kill off some of those old viruses.

Maureen McLain has returned to Denver, Colo., after spending a 10-day vacation with her mother, Mrs. Elliot McLain and her aunt, Mrs. Maude Fisher. All were in Detroit over the holidays visiting relatives and Christmas Day attending a family gathering at the home of Mr. and Mrs. W. J. Williams in Dearborn.

Miss McLain has recently been made assistant managing editor of Plastic World, an engineering magazine and Cahners publications out of Boston.

Mr. and Mrs. Edwin F. Walters and daughter, Debra Ann, of Stacy St., have returned after spending Christmas and New Year's with her parents, Mr. and Mrs. Al Overholt, of Goshen, Ind.

Mr. and Mrs. Ward Eardley and four boys spent Christmas in Freeport, Ill. with her parents and Friday and Saturday in Stillwater, Minn. with his mother, Mrs Ernest Eardley. They arrived home Monday happy from their frolic in the snow and happier because the Vikings won the Western Conference.

Mr. and Mrs. Earl E. Scott and son, Paul, of 419 W. Cummins, entertained at a family dinner New Year's day for Mrs. C. D. Andrews and Mr. and Mrs. Merland Andrews and daughter Jinger of Adrian; Lee Paschal, Onsted; Robert Andrews and son, Brennan, of Lansing; Barry Russell, New York; and Phyllis Radatz of Toronto, Ontario, who was a house guest for the holiday.

Mrs. Dean Eddy and her son, Clarence, and daughter, Marcy Anne, have been spending the last two weeks with her parents, Mr. and Mrs. Jim Mangrum and relatives. Dean Eddy joined his family for the last four days, visiting relatives in Ohio, his father, Paul Eddy, of Cement City, and his mother, Mrs. Elmer Buehrer, of 705 W. Chicago Blvd. January 2, the Eddys returned to their home in Rolling Meadows, Ill.

Mr. and Mrs. William Waara were pleased to welcome seven pound girl, Chandra, to their family Dec. 26 at Bixby Hospital. Mr. Waara is president of Loch Erin.

Mr. and Mrs. James Tonneberger, Mr. and Mrs. Donald Labounty, Mr. and Mrs. Bud Ruettinger and Mrs. Fern Cutler, all of Tecumseh, and Jack Tonneberger, Dale Cutler and Clifford Tripp of Onsted all met at the trailer home of Mrs. Statia Maudie, sister of Mrs. Yale Kerby, and went to Anna Maria Island near Bradenton, Fla. recently for dinner and the evening.

Mr. and Mrs. Walter Hizer were pleasantly surprised New Year's night about 11 p.m. when they received a phone call from their son, Tech. Sgt. Gary M. Hizer, at Eellson AFB in Alaska, about 25 miles from Fairbanks. He said that only nine inches of snow had fallen thus far this winter there, although the temperature has been at 40 degrees below. He expected to leave for England Monday and be gone until Jan. 17. In March he expects to be home en route to Syracuse, N.Y., where he will attend Syracuse University. The Hizers received a letter from another son, DM2 Allen Hizer, in Vietnam, telling of him seeing the Bob Hope Show and how great it was.

Mr. and Mrs. John Hizer of Leslie were Sunday guests of Walter Hizers.

Guests Christmas at the home of Mr. and Mrs. Jack Bryan, Dinius Rd., represented four generations for both the families of Jack and Bonnie. Those present were Wallace Bryan, Robert Bryan, Jack and his son, Todd. The other four generations were represented by Mrs. Mabel Avery, Midland, Mrs. Carl Beattie, Flint, Bonnie and her daughter, Lisa. Other guests were Mrs. Robert Bryan, Carl Beattie, Flint, and Mr. and Mrs. James Culp, Ann Arbor.

Susie and Nancy Bishop spent last week in St. Johns with relatives.

Construction Drops Again

For the fourth straight year, construction in Tecumseh has dropped and 1969 hit a new low figure.

Robert Hamden, building inspector, submitted his annual report to Council Monday evening, and it showed that the city issued 115 building permits last year for $618,539.

In 1968, estimated construction was $680,755, and in 1967, $746,825. Local construction has not topped $1 million since 1965.

Last year there were 12 permits for one family houses with estimated costs at $253,300. In 1968, 13 permits were issued.

Breakdown of Mr. Hamden's report shows one industrial building, Brown Machine Shop on S. Maumee, $30,000; new professional building for doctors next to Herrick Hospital, $60,000; warehouse-type building for General Telephone, $60,000; and the city's new garage, $42,000.

Thomas Tooman has been promoted to S/Sgt. at Grissom AFB near Peru, Ind. His parents, Mr. and Mrs. Harold Tooman, 503 Orchard Lane, visited him and also his sister, Mary, in Indianapolis during the Christmas holiday. Sgt. Tooman's wife is the former Barbara Mukensturm. His duty is in the dispatch room and fire department at the base.

Club Discusses Our Community

Mrs. Truman Rentschler led group discussion on: "What Makes A Desirable Community," at the Monday Club meeting, Jan. 5, in the Baptist Youth House.

Mrs. Rentschler is chairman of Safety, Civic Affairs and Mental Health Committee.

Discussion by 23 ladies was centered around better streets, preventing street litter, updating of business area and beautification of same with trees, shrubs and flowers, stimulus for shopping at home, publication of names of juveniles and parents responsible for law disorder, and improved community meeting place, suitable for plays, concerts, recitals, lectures and movies.

Helen Ann Williams played a piano solo and Mrs. Ralph Comfort gave devotions.

Thank you's were read from Maple Lane Manor and from the Lenawee County Federation officers.

Mrs. Stanley Goodale, federation secretary, invited club members to the Adrian Woman's Club luncheon Jan. 6. Mrs. C. B. Brock and Mrs. Roland Mohr were appointed delegates to go.

Announcement was made of the state convention in Lansing, April 14, 15, 16.

President Mrs. Cecil Smith read two letters, one from Herrick Memorial Hospital Auxiliary regarding tickets for the Town Hall series they are sponsoring, and another from Tecumseh Education Association regarding sneakers who may be procured from the school.

Hostesses were Mrs. Floyd Guy, chairman; Mrs. William Grigg and Bertha LaPointe. Fresh flowers centered the tea table attended by Mrs. Lynn Hubbard and Mrs. Brock.

SNOW BOAT—An all day project, which required the toting of many pails of water, resulted in this super craft made by Danny Eaton and Jeff Johnston. Joe Eaton also helped. The boat was created at the residence of Jeff's parents, Mr. and Mrs. Elroy Johnston, 803 Adrian St., during the holidays.

Resolutions Are Theme

CLINTON—New Year's resolutions and how they can be more meaningful if they concern becoming involved in worthy purposes, was discussed by devotional chairman, Mrs. David Pratt, at the meeting of the Mary Martha Class, Monday night.

Mrs. Robert Vogel was hostess for the meeting attended by nine members.

Mrs. Arthur Hill reported on the recent smorgasbord dinner and bazaar.

Plans were made to sponsor a Valentine card party, Feb. 14, at the Bridgewater Townhall. Mrs. Robert Vogel and Mrs. Harold Calhoun will be co-chairmen of the event.

The class voted to give $150 to the general fund of the United Church of Christ.

This God—his way is perfect.—(II Sam. 22:30).

Life is lived moment by moment. The secret of getting the most out of this particular moment lies in our viewpoint. In doing first things first, and important tasks that should be done, we feel a sense of progress and purpose. This moment blesses us as we look for the blessing in it, as we relate it to the whole of our day, realizing it is important, for it is the moment we are living.

WSCS Sees India Slides

CLINTON — Life in India and the Holy Land was shown on slides by Mrs. Paul Nesbitt of Adrian at the meeting of the Methodist WSCS Monday night at the church.

Mrs. Nesbitt and her husband, were sponsored by the Grange on a tour with seven other farm related persons two years ago.

Her slides showed women doing all the work in those countries, at an equivalent of about 13c a day. Until 1921, women weren't educated at all, so the visitors found they had to communicate mostly with the men since they were the only ones who had learned any English.

Program chairman Mrs. Wayne Powell had arranged a worship center, depicting a Spanish open door, for the theme, "Your House Is My House."

Vivian Powell presented the worship service and the hymns were sung by the members, accompanied by Mrs. Lawson Ward at the piano.

The visitation committee reported 42 home calls were made during December and 612 calls during the year.

The date of Monday, Feb. 23 was set for the annual Father-Son banquet.

Announcement was made of the Dorcas Circle meeting, Jan. 21, with Mrs. Martin Scott. Mrs. Loren Scott will give a picture resume of her recent trip to the Holy Land.

The Faith Circle will meet Jan. 15 with Margaret Knight at 7:30 p.m. The Circle is planning a pie sale, Jan. 23 at Driscoll Bros.

Mrs. Kenneth Smith, Adrian, served refreshments.

SPACE

Is there life on other planets in other galaxies out there? This is a question we ask with increasing frequency these days. When God made our world, was it the only one He fashioned?

We may never know. The answer may lie far in the future. But it is an enticing subject to speculate about.

Many fascinating subjects are being discussed today—in church. If this surprises you, it only goes to show that you haven't been attending church lately. To keep in touch with this challenging world, start going not only to regular services but to some of the special discussions in your church.

Pastor tell me

By DUANE H. McNEIL

What will happen in 1970?

Christians have a popular saying "We do not know what the future holds, but we know who holds the future." I cannot forecast for July or November. There are some things I can be sure will or will not happen because the Bible tells me so.

We will not eliminate poverty. John 12:8

We will not have peace. Matt. 24:6,7.

Individuals will not have peace and will need more and more tranquilizers. Isa. 57:21

Social problems will not be solved, such as racial, moral, crime and riots. II Timothy 3:13

The world will not be destroyed by Atomic destruction at man's instigation. II Peter 3:10-11.

God will not change. Hebrews 13:8

Some things will definitely happen.

Knowledge and Education will increase. Dan. 12:4

The Devil will deceive many people. II Corinthians 4:4

Some will know God's Blessings in their lives and in their churches. Jeremiah 33:3; Philippians 4:13; II Corinthians 5:17.

Life will go on. Luke 17:22

Then Maybe—

Jesus will come in 1970. John 14:1-6; Acts 1:11

You will live for God. Proverbs 3:5, 6

You will be saved. Romans 10:9; John 1:12

BEHIND the COUNTER with CARL LAMB

Behind the Counter Drug Abuse

Americans now consume $4 billion worth of drugs annually, for everything from a stomach ache to massive depression. Most of these have reduced suffering and have saved lives.

But doctors and druggists are worried about the problem of drug abuse—not opium and LSD, but the careless use of prescription drugs. We're worried about the effect of indiscriminately taking pills for several years, in many dosages and combinations.

There are patients who demand — and sometimes get — unneeded and even dangerous drugs. They go from doctor to doctor, and from pharmacy to pharmacy, building up supplies. They forget (or ignore) the fact that popping all sorts of pills into one's system can make a condition worse, or can even create new disorders when the drugs intermix within the body.

Medical and pharmacy groups are seeking ways to block the casual writing and and filling of prescriptions. We're trying to balance the wonderful effects of drugs with the potential danger.

Because the advances made in drug therapy in the last 40 years has been remarkable, drugs have helped extend the life span of many people. Tranquilizers and other drugs have been effective in treating mental illness and emotional problems. Antibiotics, vaccines and other medicines are conquering infection and communicable diseases.

It would be a tragedy if these benefits were curbed because of a few pill abusers in our midst.

165 of Society Meet at Center

About 165 members and guests of the State Line Gem and Mineral Society gathered at Community Center Sunday for an annual banquet.

Guests from other rock clubs in Michigan, Ohio, Ontario and Nebraska were present for the installation of officers and a program of slides of Kymulga Onyx Cave in Alabama, narrated by Roy Dahlke.

Various types of cave formations were exhibited in conjunction with the program.

Mrs. Sylvan Echelbarger of Tipton and Mrs. Lawrence Gregg of Adrian arranged table decorations, including place mats showing birth stones for each month, and favors of Alabama garnets replacing the kernel in acorn cups.

Attractive centerpieces of stones and greens were given as door prizes.

Those on the hostess committee were Mr. and Mrs. Elmer Helm, Adrian; Mr. and Mrs. Julian Strong, Ridgeway; and Mr. and Mrs. Duncan Oliphant, Tecumseh.

Need A $100

Would $100 come in handy?

If the answer is yes, the Michigan Commission on Aging reminds those 65 or over, that they may be eligible to join over 150,000 other senior citizens who are taking advantage of the property tax reduction under Michigan's Homestead Tax Exemption.

The applicant, who must file for the exemption each year at his local assessor's office, can file anytime between Jan 2 and March 1.

To be eligible, Michigan residents must have lived in Michigan for over five of the last 10 years, and have a total yearly income of not more than $5,000—including social security payments, inheritances, pensions, or proceeds from life insurance.

It is also required that the applicant have owned property in his name by Dec. 31, and the value of that homestead and real property does not exceed $10,000 in state equalized tax valuation.

Those who are over 65 and live in a cooperative housing facility or mobile home are eligible in some instances.

The applicant must supply a deed, birth certificate—a driver's license is not considered legal proof of age—land contract or mortgage, a recent tax bill for all real property owned, and his social security number.

He should also be prepared to give the true cash value of property owned out of the state of Michigan and a statement of income.

There are no lien provisions attached to the Homestead Tax Exemption Act, and there will be no attempt by state or local governments to collect from the heirs or otherwise attach the property.

Through My Window

1969 IN REVIEW, PART II

Picking up where we left off last week brings us to a wet and soggy June. A blue jay, so water-logged he could barely fly, typified the first week's action. By the 10th baby birds were here in force, titmice, blue jays, and cardinals especially; a young squirrel found us the 11th; kingfisher busy the 12th; a lonesome quail highlighted the 14th. Heard quail "bob whiting" across creek, and birds starting after ripening mulberries on this side the 19th; baby starlings the 23rd as well as many woodpeckers; our back porch living began the 28th. A good bird month, but warm summer weather slow in coming.

July brought baby birds galore, an extremely good crop of mulberries, bad storms, a visit from Dr. and Marjorie Marsh, Products vacation, and a smattering of good weather.

The first hummingbird appeared on the 8th; brown thrashers the 9th; a hawk the 10th; funny young nuthatch and Papa C feeding junior the 11th. A red-headed woodpecker and a flock of cedar waxwings were highlights of the 15th; hummingbirds, wrens, and two young rose-breasted grosbeaks the 18th; brown headed red heads, many other woodpeckers, young squirrels, Little Red, the cardinals all showed up on the 25th; and a gang of youngsters, especially robins, made the 28th nothing but a bird-watching day.

*

AUGUST WAS another porch month. Sunday, the 3rd, we enjoyed kingfishers, wrens, robins, and a cardinal who whistled almost until dark. Bob called on the 5th with news of another cuckoo suicide; Gertie T. saw a live cuckoo on Chippewa St. the 6th; a beautiful yellow and black tiger swallow-tail butterfly visited the hummingbirds' scarlet bergamot the 11th; flickers busy the 12th; and the 14th brought the first bald blue jay as well as a brown thrasher bathing in the creek and the continuing visits of the brown-headed red head.

More bald blue jays the 20th and the young cardinals the 21st. The month ended with an exciting visit by a cute little chickadee — the cutliest visit ever.

September was a peculiar month. The bird and squirrel business was much the same as any September but, with Gertie T. sick, me sitting up and looking at birds was much curtailed.

In mid-month we took a few days off and went north; Mom attended meetings of the Association of Women Bankers, Michigan group, then we stayed over for an extra visit with Austin and Rog. Beautiful weather, and almost unheard-of-thing for us to have on vacation.

Back in Tecumseh, Papa Cardinal was still feeding two youngsters on the 20th and the 21st was busy with five blue jays, to nuthatches, three titmice, and a yellow-bellied sapsucker.

Every three or four days a flock of robins would congregate, finalize travel plans, and move out. The grackle departure was not so dramatic. On the 27th an ovenbird, who had flown into a window, was brought in and the 30th was the day for two-somes as the blue jays, nuthatches, hairy woodpeckers, and tufted titmice all came in pairs. We also ended the month with a huge flock of sparrows.

*

WINDOW-WATCHING picked up for me in October. The beautiful old elm at Carmeans came down; it was hard to see a beloved tree go, the birds and squirrels miss it, too, but this Dutch elm disease will simply not be denied.

On the rainy 11th, the kingfisher rattled up and down the creek and on the 12th, we chuckled at a squirrel so engrossed with shucking walnuts that he completely ignored the downpour. An early taste of winter — the 13th, 14 to 18 inches of snow in Denver, Colo., a heavy frost in Michigan the 15th, snow flurries the 22nd, and record-breaking cold temperatures (22 degrees) the 23rd and 24th.

The sudden bad weather started geese moving; big flocks seen and heard the 18th, 19th, and on a miserable wet and windy 21st, many reported the sky almost black with migrating geese.

On the 26th, a female junco arrived; kingfishers still around the 21st; Mama and Papa Cardinal dining together on the 22nd which was also a day of downy woodpeckers, both fox and red squirrels, and another large flock of sparrows.

The 23rd, the result of the hard freeze and a brisk wind, the mulberry tree defoliated itself in less than two hours. Also on this Thursday, a sleek squirrel discovered the joys of eating maple seeds from the silly looking tree which, for some reason or other, forgot to shed it's great clusters of wing seeds.

Juncos in full force by the 24th; by morning the 29th, a large flock of cedar waxwings, flicker, blue jays, cardinals, nuthatches and tufted titmice.

*

NOVEMBER STARTED on a dull dismal note, five straight days of rain and gray skies, followed by record-breaking warm temperatures but the Indian summer was short-lived and on the 13th we awoke to see a snow-covered world.

Bird business was ordinary until the 10th when we had three chickadees, Ella and Gertie T. sew evening grosbeaks, and Mack reported a flock of 30 to 40 cardinals at Newburg.

Cedar waxwings helped us celebrate Veterans' Day; everyone was busy the 12th; the 13th was thrilling as we had evening grosbeaks; the kingfisher was still around on the 24th.

The 25th was one of the great bird days, all the regulars plus a robin, kinglets, a pair of blue birds, and Clara entertained a red-breasted nuthatch. Wow!

December, as usual, found Christmas preparations competing with bird-watching and often winning.

And so it is that '69 totals out as another good year — wonder what we can expect from '70?

Three Place in Tourney

Three Indian wrestlers were medal winners in the recent Ann Arbor novice tournament.

Jim Freshcorn took a second in the 98-pound bracket; Don, Cox fourth, 175-pounds, and Tom Van Sickle, a third in the 185-pound division.

The tourney was held for first year wrestlers and attracted approximately 400 boys from 28 schools.

Others from Tecumseh participating were Greg Cote, Art Lewis, Gordy McElroy, Dave Biscupski, Scott Smith, Brad Brown, Dave Lay, John Hewlett, Jeff Winkler, Paul Murray, Al German, Richard Smith, Frank Geisenhaver, Steve Kampmueller and Gary Agnew.

WORKING WAY TO FRANCE — These ambitious and energetic members of the Tecumseh High School French Club are working their way to France. The Club has raised over $400 and is aiming for $4,000. Starting today, members will begin selling subscriptions to The Herald with hopes of doubling the amount in its treasury. Those in the Club and subscription drive are Nat Hopson, Barb Bock, Anne Quigley, Bonnie Skampo and Holly Joachim. Second row, Kent Downing, Pat Weigle, Cathy Cook, Sue DeFoe, Lance Tucker and Doug Dillon. Mrs. Diana Wakeford is their teacher and advisor.

Reasons for New THS Released by Schools

Tecumseh Board of Education has released a question and answer sheet, which in most cases, will inform the public about a proposed new high school and remodeling of the present high school for a middle school.

Any question not answered here, may be asked at one of the four scheduled public meetings, or may be submitted in writing to The Herald, which will print the question and the answer provided by school authorities.

Why Is A New High School Needed?

The present high school was built in 1949-50 to house approximately 400 pupils at maximum. There have been four additions and at present the high school is rated at 800 to 900 pupils in a regular six hour day. The site is too small for further development as a high school.

1. The school is badly overcrowded, it is at 137% of the building capacity. This problem is solved at present by operating 7 hours a day rather than the regular 6 hour day.
2. The site is inadequate as the State Department of Public Instruction recommends a minimum area of 40 acres for a high school. The present site is less than 20 acres.
3. Quality education has been maintained at present by makeshift facilities and teacher make-do. A real quality education for children so that they can cope with the world of today cannot be further continued in the present building with overcrowding of classes as has been occurring for several years.
4. Expanded curricula are needed. These cannot be provided without facilities for large group instruction, team teaching, closed circuit TV; adequate outdoor instruction areas for vocational agriculture and science; recreational and play areas, outdoor physical education areas, auditorium, pool, and expanded counseling facilities.
5. Overcrowding is dangerous, particularly in stairwells, halls, shops, and inadequate auto parking areas. Actually the total width of the halls through which 1100 pupils must move at the end of each period is 7½ feet.
6. There are inadequate food handling facilities to have a closed campus. Many children must leave the school and eat elsewhere, usually downtown.

Why is a Middle School Neeessary?

1. A Middle School will give our 6th, 7th, and 8th grade preadolescent and early adolescent children an opportunity to associate with a large number of other children that are in a similar phase of development and level of maturity. Sixth grade students will be sharing some facilities with seventh and eighth grade students, but they will still have their own area in the building for basic studies.
2. The middle school will provide improved facilities for sixth, seventh, and eighth grades in homemaking, shop, arts and crafts, vocal and instrumental music, and physical education, science and language laboratories, a cafeteria, materials center and large group instruction area will be available for all grades.
3. More flexible grouping of sixth grade students will be possible and programs for slow and gifted children can be developed as there will be enough students together to make grouping possible. At present these approximately 300 children are at six separate locations. These same advantages will also result for the seventh and eighth graders for even though they have been together in one building, there has not been sufficient room.
4. Facilities in the middle school will encourage team teaching, block scheduling, and other current instructional practices that are impossible to follow in our present buildings.
5. Counseling services will be provided for both girls and boys in all three grades. Such counseling is essential at this age and the schools have been unable to provide it.

Why Was the Site at M-52 and Rogers Highway Chosen?

The land for the new High School, 123 acres, has been purchased by the Board of Education, at the price of $100,000.00, and is located east of the City of Tecumseh on the east side of Rogers Highway and south side of M-50.

1. City sewer and water is available.
2. It is easily accessible. City planners have stated that Russell Road will be continued through to Rogers Highway giving easy access from M-52 and Rogers Highway to the heaviest populated area west and south of Tecumseh as well as from the north and east.
3. The site meets the Michigan Department of Public Instruction recommendations.
4. Esthetic location—community pride in the school which can be easily viewed.

Why Was Such a Large Site Purchased for the High School?

1. Large area needed for the building.
2. Public parking.
3. Staff parking.
4. Bus loading.
5. Physical education facilities.
6. Recreation area.
7. Vocational agriculture areas.
8. Outdoor science area.
9. Driver training area.
10. Elementary site when school is needed in the northeast area as the Tecumseh area develops.

How Many Pupils Will the Middle School, 6-7-8, House Adequately?

The middle school will house approximately 900 when opened to a maximum of 1100 in a regular 6-hour day.

How Many Pupils Will the New High School, 9-12, House Adequately?

The new high school will house approximately 1200 when opened to a maximum of 1500 in a regular 6-hour school day.

What Use Will Be Made of the Present Junior High School Building?

The present junior high building was constructed in 1918 primarily for high school use. It was renovated in 1951 for elementary school use and again in 1957 as a junior high.

1. The junior high will be abandoned as a school. This was first recommended by the State Department of Public Instruction in 1951 and again in 1957 at which time the State Fire Marshal condemned it until many alterations were made. It is now approved by the

DAR Picks 3 'Citizens'

Donna Osburn of Tecumseh High School, Linda Seagert of Britton-Macon Area High School, and Barbara Vincent of Clinton High School are the girls selected as Good Citizens this year to represent Abi-Evans Chapter of the DAR.

Since 1934 the National Society of Daughters of the American Revolution has conducted in each state, in accredited high schools, a Good Citizens contest to select the girl in the senior class who has demonstrated best the qualities of a good citizen.

The national Association of Secondary School Principals has placed this contest on the approved list for 1969-70. National approval automatically grants approval of the Michigan Association of Secondary School Principals.

Citizenship refers to the girl as a citizen of her high school regardless of race, creed or nationality. The qualities of good citizenship are based on dependability, service, leadership and patriotism.

Casey Family Appreciates House, Clothing, Money

"We're not complaining, everyone has been so nice and we have enough to get going again," Mrs. Raymond Casey said Wednesday morning.

The Caseys' home in Raisin Township was completely destroyed by fire last Wednesday morning.

They are presently living at 105 Russell Rd. in a house owned by H. W. Tuttle Co., where Mrs. Casey is employed.

Her husband is employed, when weather permits, with the Lenawee County Drain Commission but has difficulty in obtaining employment due to his health.

They had no insurance on their furniture, due to lack of steady employment and the expense of a family of seven.

"It's a matter of getting settled now," Mrs. Casey remarked, but when questioned further she admitted missing her washer and freezer very much. She said the house has facilties for a washer in the basement, and it would be much more convenient than taking large laundries out.

She bought some clothing for the three older boys and daughter, but two younger girls, sizes 7 and 8, could use some school dresses. Mrs. Casey needs size 16 slacks to wear to work.

The family is grateful for the kindness of the community, but is hopeful that they may find a residence in the Blissfield area so the children may return there to school and their friends.

Raisin Township firemen contributed clothing as did Tuttle employees and neighbors.

Dale Mitchell, Raisin fire chief, said his department did not keep track of amounts given, but gave clothing and money to the Caseys as it came in.

Furniture, beds, and other household items came from both the Blissfield and Tecumseh areas.

Tecumseh police contributed $100, from monies raised by their annual policeman's ball, and clothes. City hall employees also contributed, and the Rev. Laszlo Gero of Gloria Dei Lutheran Church collected nine boxes of clothing.

Boys Are Invited to Hockey Meet at Park Saturday

Supervised skating at Tecumseh Park will be held every Saturday and Sunday, from 1:00 p.m. to 7:00 p.m., as long as there is safe ice, Ward Eardley, recreation director, announces.

A youth hockey program will start at the Park this Saturday and all interested boys are asked to attend a meeting in the building at 1:15.

Any men willing to help out also are urged to attend.

Open House Is Tonight

Last night of the open house at the Community Center is this Thursday evening, starting at seven o'clock.

Public is invited to the open house and folks interested in mid-winter classes may talk to instructors and register for the courses. Many displays from the fall classes will be exhibited, and a variety of entertainment is planned for the visitors.

This will include singing and dancing by individuals and groups. Coffee and refreshments will be served.

The open house is being conducted by the Parks and Recreation Department with Ward Eardley, director, in charge. First night of the open house was Wednesday.

Tryouts Are Being Held

Tryouts for the next Tecumseh Players' musical, "Anything Goes," will be held this Thursday evening in the basement of the Presbyterian Church.

Auditions will be conducted from 7:00 to 9:00.

Good singing voices are required for both men and women, although some roles do not. Tryouts are open to the public.

Driver Has Hard Time

Only four accidents were checked by Tecumseh police during the past week, but one had an area motorist talking to himself.

Saturday Leo M. Gonzales, 20, of 5549 Macon Rd., was driving north on the Tecumseh-Clinton Rd. when another motorist forced him off the road. He turned around, passed the other driver and flagged him down on N. Evans at Red Mill Dr.

He then asked the other motorist about the incident, at which time the other driver, Leon J. Richardson, 44, of 9233 Ford Hwy., rammed into the Gonzales car and pushed it across the road and into a ditch.

Richardson then drove to Ed's Standard station where Gonzales caught up with him after hitching a ride. Police were ealled, and upon questioning Richardson he denied being in an accident.

Police then booked him for drunk driving.

A resume of the other mishaps is:

Jan. 9 — Owen A. Fisher, 81, Britton was cited for failure to yield the right of way after turning in front of Jack Curtiss, 45, of 315 W. Shawnee, at the intersection of W. Chicago and Pearl St. Curtiss suffered minor injuries and sought his own treatment.

Jan. 10 — Rosanne Gerten, 17, of 9586 Tonneberger, slid on ice and into a parked car, owned by Gordon Hinsdale, Adrian. Accident occurred at N. Wyandotte and E. Shawnee St.

Jan. 11 — Ernest H. Oliver, 46, of 201 Maple and Charles Miller, 23, of 107 Maiden Lane, collided in the intersection of W. Chicago and Union. A large truck blocked the view of both drivers as Oliver started to turn.

Forgery, Larceny Charges Filed Against Youth

A 16-year-old area juvenile was taken to the county jail Monday afternoon on two charges of forgery, grand larceny and violation of his parole.

The youth, a ward of the court from Oakland County, reportedly forged checks here just before the holidays.

Larceny charges stem from theft of a camera and photography equipment, value approximately $600, from the Tecumseh Herald.

Plan Family Film Saturday Night

A family-type movie will be shown Saturday at 7:00 p.m. at the Community Center with a Walt Disney film and cartoon scheduled for the screen.

Ward Eardley, recreation director, is requesting that some parents be present at the Saturday afternoon movies to help with handling the children.

BEHIND PAGE ONE

"Look at those kids playing out there in the snow," she said. When the **Glenn Williamses** were a little closer they discovered not kids but deer, between 15 and 20 romping in the snow at the end of Maumee Street on Russell Rd. Monday evening. Glenn went back to his parents home, Mr. and Mrs. Albert Williams, and had them come see also. He reported they sat and watched them for several minutes.

S.M. to M.D. 5-18-68—Thus reads the inscription inside the silver wedding band brought to the Herald office Tuesday. It was found in the parking lot behind Quick Lunch. Owner may claim it by identifying it.

Plenty of straw inside his insulated house is what Fido needs these days. Pet Watcher members remind area citizens to take a little extra precaution for their animals on cold days and nights.

Concert Drive Starting

The 1970-1971 Lenawee County Community Concert Membership Drive will be held January 26-31.

This organization is devoted to enlisting the support of the community in bringing the finest musical programs to the area.

Local chairmen Mrs. Warren Peck, phone 423-3527, and Mrs. June Green, phone 423-2472 evenings, have announced that they will attempt to call on everyone in Tecumseh who might be interested in joining them for some fine evenings of musical entertainment.

A membership entitles the holder to attend a minimum of three concerts. The Johann Strauss Ensemble of the Vienna Symphony Orchestra will appear for the first time in this country next season. They have been selected to present a concert.

The First Chamber Dance Company of New York will also present a concert. These young soloists, from major American ballet companies, have become great favorites with critics and audiences as well. The third concert will be announced soon.

All concerts will be held in Adrian at the Croswell Theater.

Reasons for New School

Continued from page one

Fire Marshal, but no more changes may be made in it and the pupil capacity is maximum per hour.

2. The new part of the junior high school donated by Mr. Herrick will be used as a processing center for public library and school library materials. Also, all visual aid and similar materials will be processed from this center.

What Use Will be Made of the Present High School Building?

The present high school will be remodeled and additions completed to house the sixth, seventh, and eighth grades, thus freeing eight class rooms in the elementary schools for use to reduce the number of pupils in present classes and provide room for further growth.

Will the Athletic Field Be Moved?

No, plans do not call for the athletic field to be moved. However, if in the future it becomes necessary to move the field there will be plenty of room available on the 123 acres high school site.

When Will the Buildings Be Ready for Use If Approved on February 10, 1970?

If approved on February 10, 1970, it is estimated that the High School and Middle School would be completed by September 1973.

Construction drawings for the High School would be ready in December 1970 and bids would be opened in January 1971. The construction drawings for additions and remodeling of the present high school for a middle school would be ready in January 1972 with both buildings to be completed by September 1973.

Will Additional Buses Be Needed for Transportation?

Yes, at present time an equal number of buses are used for the early and late run. If the 6th grade is added to the early run and all city students provided transportation it will be necessary to add buses to the fleet.

Will the Auditorium and Pool Be Available for Adult Public?

Yes, both facilities will be available, as schedules permit, for adult public use.

How Will the Ballot Read?

Shall Tecumseh Public Schools, Lenawee County, Michigan, borrow the sum of not to exceed Nine Million Seven Hundred Thousand ($9,700,000) and issue its bonds therefor, for the purpose of erecting, furnishing and equipping additions to and remodeling the present high school building for middle school purposes; constructing and equipping physical education facilities; and developing and improving sites?

How Will the $9,700,000 Be Used?

$7,983,300.00 will be used to erect, furnish and equip a new high school, (9-12), construct and equip physical education facilities and develop and improve the high school site $1,716,700.00 will be used to erect, furnish and equip additions and remodel the present high school building for a middle school (6-8).

How Will the Program Be Financed?

The $9,700,000.00 will be raised by the selling of bonds maturing in 30 years. To keep the tax rate for these bonds as low as possible the State School Bond Loan Program will also be used. The State School Bond Loan Program provides that schools may borrow a percentage of monies needed to meet the amount of the principal and interest payments on all outstanding bonds which require over a 7 mill levy.

In the case of Tecumseh, we will pay the first 7 mills; then we can borrow 65% of the amount above 7 mills from the State School Loan Program. The money borrowed from the state will be paid back to the state when the amount required to meet our interest and principal payments is less than 7 mills, which in our case will be about 1987.

How Much Millage Will Be Required?

At present time we are levying 1.62 mills for debt retirement. It is estimated it will require 9.5 mills to carry present debt and new bond issue, plus borrowing from the School Bond Loan Program. It means a millage increase of about 8 mills.

How Much Will My Taxes Go Up?

If your home has a state equalized valuation of $10,000 your taxes will go up $80.00 per year ($10,000 x 8 mills) $10,000 x .008 = $80.00.

If your home has a state equalized valuation of $15,000 your taxes will go up $120.00 per year ($15,000 x 8 mills) $15,000 x .008 = $120.00.

Who May Vote?

All registered electors may vote. However, separate voting machines will be used for property owners and non property owners.

In accordance with the present interpretation of the 1963 constitution a majority of property owners must vote in favor of the proposition in order for it to carry.

What Is the Election Date?

Tuesday, February 10, 1970.

Where Will the Election Be Held?

Tecumseh High School Cafeteria and polls will be open from 7 a.m. to 8 p.m.

May One Vote In the February 10, 1970 Election By Absentee Ballot?

Yes, absentee voter ballots will be available at the Board of Education Office at 304 West Chicago Boulevard.

What Will Happen If the Proposal Is Not Approved By the Electorate at This Time?

1. All of the schools will be more overcrowded.
   (a) The elementary schools now lack two elementary classrooms.
   (b) The junior high and senior high day will be of necessity extended more hours; they operate now one hour longer than most schools as there is a seven hour day.
2. Curriculum offerings will be curtailed because of inadequate instructional areas.
3. Quality of instruction will deteriorate because of lack of room to maintain or develop new methods of instruction.
4. More and more children will be on their own during noon periods necessary as the length of the school day increases.
5. Some children will go to school at 7:20 a.m. and others not until 9:20 a.m. Some will get out at 2:50 p.m. and others not until 4:50 p.m. It is difficult and costly to run such a bus schedule.
6. Athletic and other extra curricular activities will be limited. It is impossible to have effective athletic teams when boys cannot practice together because they are not in school at the same time. Fewer boys will be able to participate. Band and chorus activities will also be effected in the same manner.
7. Building costs are expected to continue to rise and the necessary buildings will cost more money tomorrow than today.
8. All Tecumseh area children today will not receive as adequate an education as would be possible with the needed facilities.

BEHIND the COUNTER with CARL LAMB

Tranquilizers — any time

Tranquilizers have become one of the most widely-accepted of the newer drugs, especially those used for non-psychotic patients who experience occasional anxiety.

Whether or not a person receives these drugs is decided by his physician. But while tranquilizers are prescription drugs, the doctor has no control over the number of pills that a patient takes at any one time. If he ignores the doctor's orders, the patient may become "intoxicated"—drowsy, confused and irritable. He has impaired judgment and movement, and has difficulty in thinking clearly. He is more apt to get into a fight, or to be involved in an automobile accident.

Tranquilizers have proven to be too valuable for them to be abandoned because of occasional abuse. They are widely accepted as safe, effective and non-addictive, when taken in small doses. The "major tranquilizers" have been helpful in treating mental illness. Others, who are not ill enough to be put in an institution, can function effectively with "minor tranquilizers."

It is the patient's responsibility not to misuse this (or any other) prescription drug. He should consult his doctor if he intends to drive, drink alcoholic beverages or take other drugs while taking tranquilizers. And he should not attempt to refill the prescription without his doctor's instructions.

Switzerland Is Goal

Girl Scouts of the Irish Hills Council are planning another big trip, this time to Switzerland where the international Girl Scout-Girl Guide Center is located near Adelboden, Germany.

It is more commonly known as the Chalet.

A pre-organizational meeting was held Sunday in the multi-purpose room of St. Joseph Shrine with about 65 to 70 girls and 15 adults making application to go in August of 1972.

Those from here attending and planning to go are John Robinson, chairman, and Mrs. Robinson, treasurer, Mrs. James Hedley, Suzanne Groover, Jana Robinson, Meg Beardsley, Patsy Shelton, Laura Downard, Helen Benjamin, Michele Filber and Mary Gallant.

The girls are members of eighth, ninth and tenth grades.

The group will meet once each month beginning Feb. 14, the second Saturday, to plan and carry out money making projects to obtain funds for the trip. An estimated $600 will be needed per girl.

Working their way to France!

These members of the Tecumseh High School French Club are working their way to France. Most of them are planning—and hoping—for a trip to France this summer. Some will go next year, perhaps in 1972.

Their goal is $4,000 to help cover some of the expenses. They have had several money raising projects in the past, and have others planned. One is selling and renewing subscriptions to The Herald. They will be knocking on doors and calling by phone; or, you may call one of them, their phone numbers are listed. Help these ambitious teenagers by subscribing or renewing your subscription—and still enjoy The Herald.

The Tories, behind the scoring of Jim Lister with 23 points, took a 74-64 victory.

In the fourth quarter most of the Tories' whole squad saw quite a bit of action but were outscored, 21-17.

Rams Bomb Indians

By PAUL CUNNINGHAM

Confrontation between Flat Rock, the pretender to the league throne, and brash upstart Tecumseh began like a comedy of errors and wound up looking like a full-scale Greek tragedy.

With 37 turnovers between the two squads and a combined shooting percentage of only 35%, the crowd present may have thought it had walked into a grade school game by mistake.

The Rams won, 71-50.

Tecumseh was colder than a January just as it couldn't hit the basket with a blunderbuss. By the time an Indian — Bill Puffer — could find the hoop, Level Pebble had run up 9-1 edge. The best Tecumseh could do was 8 points in the first quarter, shooting at just 25%. Flat Rock, supposedly a power in the Huron League, wasn't doing much better, shooting 28%. At the half it was 30-20, Flat Rock.

Coach Vic Lawson couldn't solve the Rams' attack with either a 2-1-2 or a 1-3-1 zone defense and P-R repeatedly got second and third shots, especially from their 6-7 center.

Alex Gibson was the offensive bright spot for the Indians, dropping in 16 points and nailing down more than his share of rebounds. Scott Dalton took defensive honors as he scrambled everywhere, harassing the opposing guards constantly.

In summary, Tecumseh couldn't seem to hold the ball (21 turnovers) long enough to score. Flat Rock's press gave the Indians fits at times, but showed it could be beaten.

Tecumseh could not get the second and third shots underneath that it had to have to win — they gave away an inch or two per man.

If Tecumseh had put it all together, the Rams wouldn't have had a snowball's chance in Havana. As it turned out, Flat Rock shot 33% but still won by 21 points.

Box score

SPARKS VICTORY — Craig Smith collected eight points in the third period to pace Tecumseh against Adrian.

Indians Take Adrian, 56-53

Tecumseh hiked its won-lost record to 3-4 here Saturday night when the Indians rebounded from a Friday night pasting to post a 56-53 victory over Adrian.

The Maples, possibly remembering the night before when they bowed by 41 points to Lansing Everett, dropped their fifth game in seven starts.

Coach Vic Lawson's club rebounded in the second half to trip Adrian and showed some signs of the basketball expected of them this season.

Down 29 to 24 at the half, the Indians tallied 20 points in the third quarter to gain a 44-43 lead. Tecumseh dropped 12 more points through the hoop in the final period while the Maples were able to muster just 10.

Alex Gibson, 6'4" forward, and Craig Smith sparked Tecumseh in the final two quarters with Smith scoring eight points in the third period with Gibson controlling the boards, adding seven.

Smith finished with 13 points, tied with Bill Puffer for Tecumseh scoring honors, while Gibson netted 12. Ken Pieh also scored in double figures for the Indians with 11.

The game was marked by numerous fouls and both teams lost players via the foul route. Tecumseh's ability to cash in at the free throw line provided the win.

The Indians scored 19 goals to Adrian's 20, but out shot their rivals at the free throw line. Tecumseh tallied on 18 of 32 attempts while Adrian picked up 13 in 21 attempts.

Tecumseh Jayvees bowed in the opener, 62-54, with Dan Gunder leading the Indians with 19 points, tops for both teams.

Brother Romain Is Re-assigned

MACON — —Brother Romain Healy has been assigned to St. Patrick High School, Liberia, Africa. Brother Romain is a 20-year veteran teacher at Boysville.

In 1949 Brother Romain was assigned to Boysville. He was educated at Eastern Michigan University, obtaining a degree in Business Education. He has spent the past two decades at Boysville as teacher, dormitory counselor, bookkeeper and athletic director.

For his many friends in the Tecumseh-Adrian area, and indeed throughout the state, he will probably be best remembered for the work he did as athletic director. He was instrumental in the school's joining the River Raisin Athletic League when Boysville offered varsity sports in football, basketball, track and baseball.

BROTHER ROMAIN

A native of Detroit, Brother Romain was born March 5, 1921. He entered the Brothers of Holy Cross in 1939, and made his final vows in 1944. He has been a member of the Brothers of Holy Cross, a religious community of men headquartered at Notre Dame, Ind., for over 25 years.

Brother Romain has asked for some time to be assigned to Africa. He is much interested in missionary life and activity. Among other pursuits, he expects to teach a number of business classes in St. Patrick High School.

Friends and relatives gathered at Boysville on January 4, to pay him tribute. At noon a Mass was celebrated, followed by a dinner. Included among the sneakers at the dinner were Frank Lawrence, State Deputy of the Knights of Columbus; Brother Gonzaga Day, Mission Promoter for the Brothers of Holy Cross, Notre Dame; Brother Rex Hennel, Assistant Provincial of the Brothers of Holy Cross; Brother Robert Hormann, Executive Director of Boysville.

Representative Robert Stites, who was prevented at the last minute from attending, sent a testimonial from the House of Representatives and the people of Michigan. This testimonial read in part: ". . . through his dedication and educational efforts he has aided hundreds of Michigan youth. Therefore we, the people of the State of Michigan wish Brother Healy continued success in his dedication to the advancement of youth throughout the world."

Brother Romain is currently caught up in all the frenzied activity that is necessary to prepare for overseas travel. His current plans call for leaving this country around Feb. 10. He will be in Liberia for three years before returning to the states for a vacation.

While he expresses the feeling that he will miss all his neighbors and friends, he also expresses great enthusiasm and zeal for his new work.

1960

First annual public gathering of the Tecumseh Community Chest Fund Foundation resulted in the naming of a citizen's group to prepare plans for a program of public financing of improvements in the city.

Jim Smith, local architect and member of the city planning commission, presented a preliminary drawing of Tecumseh 1990. The commission authorized him to make more detailed plans for the city master plan, commercial and business zoning. In his proposal, Mr. Smith advocates a giant area, four blocks long, (Pearl to Maumee) and two blocks deep (Pottawatamie to Logan) to be encompassed into a single block with no cross traffic. Chicago Blvd., and cross streets in the area would be transformed into malls, with off-street parking behind the stores. In the east end — in the city hall area — would be a large park section in which various public buildings would be erected.

Q Why have power pools become necessary?

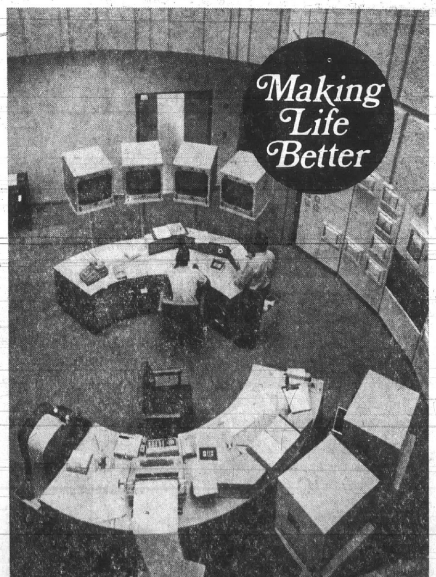
A Power pooling is the most economical way to achieve complete electric service reliability. Electricity has to be generated at the exact moment it is used. During periods of peak power demand, therefore, it is vital to be able to draw on the generating capabilities of neighboring electric companies. This is the reason for and meaning of a power pool.

Q Isn't Consumers Power itself able to meet the growing power needs in its service area?

A Yes — to the extent that any individual power company can meet its customers' needs. We are continually planning and building for the future. We use the most efficient and economical ways to meet these needs. That is why we built the Big Rock Point nuclear plant near Charlevoix in 1962, and near Port Sheldon, the James H. Campbell coal-fired units in 1962 and 1967. The Palisades nuclear plant, 35 miles west of Kalamazoo, begins operations in 1970 with 10 times the capacity of Big Rock Point. A third nuclear plant, near Midland, at twice the capacity of Palisades, will be fully operational in 1975. It is still vital, however, to be completely prepared for seasonal or unexpected peak demands and for emergencies. The Michigan Power Pool — and our interconnections with Indiana, Ohio and Canada — assure this utmost reliability.

Q Just how fast is the need for electric power growing?

A In 1958, the average American family used 3,384 kilowatt-hours of electricity per year. By 1968, the average family used more than 6,000 kilowatt-hours of power. This is a reflection of our growing standard of living and of the many electrical appliances and devices that have made our lives more convenient and enjoyable. Before 1980, this demand for electricity is expected to double again. It has been estimated, for the country as a whole, that within the next 10 years electric companies must add more generating capacity than has been developed since the invention of the light bulb.



Jack and Ray watch TV to guarantee reliable electric service to Michigan customers.

Watching six TV sets is all in a day's work for operations controllers at the Michigan Electric Power Pool control center near Ann Arbor. There's no entertainment on these screens. Just information — part of a complex, computerized system that constantly monitors the entire systems of Michigan's two major electric companies, Consumers Power and Detroit Edison. ■ This new control center makes it possible for our two companies, at any instant, to draw on the generating capacity of power plants serving the Michigan Power Pool . . . and draw on additional power from Canada, Ohio and Indiana in times of emergency. ■ Consumers Power Company (and Detroit Edison) are building today for Michigan's tomorrow. Because we care about making life better for all of us.

Narcotics Topic for Clinton PTO

CLINTON — "Narcotics, Pits of Depression," will be the subject of a talk by Detective David Snyder of the Lenawee County Sheriff's Dept. for the January meeting of the Clinton PTO.

The meeting will be held at the elementary school at 7:30 p.m., Monday, Jan. 26.

A film strip will be shown and an open discussion held.

An award will be given to the elementary room having the most parents present. Dues will be payabue at this meeting.

Night Skaters

CLINTON — It's apparent that winter has arrived in the village—officially. The ice is ready for skating at the Community Center rink, and the youngsters are already taking advantage of it.

Lights are on evenings for the convenience of skaters.

Legion Head Is Speaker

CLINTON — Mrs. Milton Finkbeiner, of Saline, district president of the American Legion Auxiliary addressed the 15 members of the local American Legion Auxiliary at its meeting last Tuesday at the Community Center.

Mrs. Finkbeiner spoke of the servicemen's needs and suggested projects for the group's consideration. She was accompanied here by Mrs. Theo Graban, district secretary.

It was reported by Mrs. Charles Voll, rehabilitation chairman, that Christmas gifts and cards were sent to 40 area servicemen. Legion pens were included with the gifts.

Next district meeting will be Jan. 25 at Ypsilanti.

Mrs. George Bowman, Mrs. Junior Feldkamp served refreshments during the social hour.

Philathea Class Donating $25

CLINTON — "What makes a wonderful person" was the theme of the devotions presented by Anna Heimerdinger at the meeting of the Philathea Class of the United Church of Christ.

Mrs. Leo Smith was hostess for the meeting, attended by 10 members last Thursday.

Mrs. Dayton Sell had charge of the program and conducted a name game for diversion.

The group voted to send $25 to the Spaulding Orphan's Home at Chelsea.

Mrs. Linn Weaver will be hostess for the Feb. 12 meeting.

Primary Vote Not Needed

CLINTON — Apparently it will not be necessary to hold a primary election in the Village of Clinton as previously reported.

Although two candidates for two offices of trustee were previously appointed to fill unexpired terms, John Jansen and Richard Peterson, they are the only candidates who filed petitions for their particular offices by the Dec. 29 deadline.

Therefore, the unopposed Republican slate of officers for Village office is to be elected at the annual spring election, Monday, March 9.

Feb. 6 is the last day for qualified electors of the Village of Clinton to register with the Village Clerk, John B. Fox.

Glen Bihlmeyer Is Moderator

CLINTON — Glen Bihlmeyer was elected moderator of the United Church of Christ at the annual meeting Monday night.

Other officers elected were:
Clerk—Mrs. Norman Randall.
Treasurer—Bertine Walker.
Auditors — Glen Bihlmeyer and Arthur Hill.
Church school superintendent —Mrs. Robert King.
Assistant Superintendent — Mrs. John Bauer.
Trustees — Mrs. James Heimerdinger, Charles Steffens.

Board of Deaconesses — Mrs. Rosemond Jenkins, Mrs Robert Vogel.

Following committee members were elected: Christian education, Charles Steffens; World Mission and Christian Concern, Mrs. Harold Calhoun; music, Mrs George Heimerdinger; nominating, George Heimerdinger.

Delegates elected were Ben Mahrle II and Clarence Heimerdinger, Sr.

Following a charge to the membership by the pastor, Earl Lawrence, the meeting was conducted by the moderator, Robert Vogel.

Among the annual reports given was the conclusion of the three-year remodeling program report by Mrs. E. John Hoelzer. During that time, the church and Sunday School rooms were completely redecorated, exterior was resided and storm windows added, and the parsonage was decorated and garage repaired, at a total cost of nearly $25,000.

Other reports included the Christian Enlistment committee given by David Pratt; Deacons, Don Corwin; Deaconesses, Mrs. Agnes Geiger; church school, Mrs. Robert King; trustees, Mrs. Martin Hoelzer; Women's Fellowship, Mrs. Arthur Hill; Men's Fellowship, Leo Smith; Philathea Class, Mrs. Frank Stuwe; Mary Marthas, Mrs. Donald Corwin: Priscilla Class, Mrs. Hoelzer; Youth Fellowship, Terry Calhoun; and report of conferences attended by Ben Mahrle, delegate.

Among those whose terms of office ended were Clarence Heimerdinger, who had served as clerk since 1960 and who recalled he had made his first public recitation at the church 72 years ago at the Christmas program.

Mrs. Roy Porter also ended a long period of service as treasurer and assistan treasurer, since 1951.

Much of the meeting was spent considering several changes to the by-laws. The changes must be read for three Sundays during the worship service before being voted upon at a congregational meeting.

The pastor announced a new program is being initiated whereby every member will be called or will receive a letter each month.

Clarence Heimerdinger Sr., and son, James Heimerdinger, submitted tentative plans for a parking lot, which could be constructed at the rear of the church to accommodate 19 or more automobiles.

The board of trustees was authorized to study the matter before bringing it to a vote of the congregation.

CLINTON — Sister Catherine, field representative of the mobile unit for religious education of the Archdiocese of Detroit, addressed the members of the St. Dominic's Altar Society Monday night.

Attending the meeting at the Community Center were 16 members and the Rev. Fr. Leon Kengedy.

Sister Catherine stressed the need for giving children positive goals and beginning early to allow them to make small decisions in order to gain a sense of responsibility.

Named to committees are: Mrs. George Brunner, hospitality; Mrs. Walter LaSorage, program; Mrs. Jacob Bauer, altar flowers; Mrs. George Sowinap, funeral luncheons; Mrs. Lenn Gray, calling.

The group will sponsor a public card party on Saturday, Jan. 24, at the high school cafeteria with Mrs. Fred Schultz and Mrs. Edward Blom in charge.

Mrs. Dan Reilly, Mrs. Gray, Mrs. E. J. Kehoe and Mrs. Edward Jacobs were named to a committee to have charge of the afghan project.

Through My Window

A HALF-SNOWY FEEDER

In late fall and early winter, after the color is gone and before the "pretty" cold weather blows in, there is apt to be a boredom of wet, dark days. During this seemingly unending stretch of dreariness, nothing exciting happens — even the bird feeders are unvisited.

To get ourselves through these dismal periods, we resort to such whistling-in-the-dark statements as, "Oh, well, just wait 'til the snow flies. A good blanket of white will bring all sorts of free-loaders!"

A perfectly good idea, it helps on those dull days to be a little Pollyannaish. The only thing is that when the snows do come, the feeders aren't always the beehives of business we expect them to be.

At least this year they weren't and it worried us. The good snows came during the Christmas Holidays — the falls were heavy and thus the ground quickly acquired a deep, soft carpet of white. The near-my-window feeder grew a gorgeous high fluffy top.

Except for the color, it was reminiscent of the towering bearskin caps worn by the English soldiers who take part in that impressive changing of the guard ceremony at Buckingham Palace.

★

OUR SNOW COVERED world was lovely to see and exactly the type we had in mind a few months ago when all of those brave statements about snow bringing birds were made. But where were the birds?

Daily we put fresh scratch feed and a generous portion of sunflower seeds on top of the snow on the feeder only to sit all day and watch it disappear. Disappear meaning slowly sinking into the snow and out of sight, not disappearing down hungry birds' throats. It was most frustrating.

After several days of this, we had a mountain on the feeder—an enormous pile of snow covered scratch feed which built higher with each snowfall. And I was stubborn.

The logical thing was to have the snow shoveled off of the tray. Perhaps the beggars insisted on being choosers, perhaps the birds simply were not going to wade through snow for their hand-outs.

But in my mind's eye, I saw lovely pictures of cardinals and bluejays and titmice and chickadees artistically gathered on the snow-covered feeder and happily snacking on goodies.

(Note of explanation — I know the theories about keeping bird food dry, serving it in a sheltered area, etc. I subscribe to them all. I maintain two covered feeders and, in most instances, would advise people to entertain their birds with this type of feeding arrangement. However, the near-my-window feeder is a flat tray, purposely left uncovered. The camera takes better pictures this way.)

Finally my undeclared war with the birds reached a stalemate. The time for a I-give-a-little and you-give-a-little truce arrived. Reluctantly I had part of the snow cleared away and then a tempting banquet of scratch feed, sunflower seeds, and fresh suet was laid. It worked!

Old friends came from everywhere — cardinals, titmice, bluejays, nuthatches, chickadees, song sparrows, hairy woodpeckers, mourning doves and even a flicker dined. Hordes of English sparrows also showed up, as did the uninvited starlings.

★

NOW, EVEN THOUGH the feeder is not as picturesque as it was before, I continue to keep my part of the pact. Some of the snow is brushed off. The birds are cooperating, too, they are coming regularly and bringing all of their friends.

Suddenly, however, I am presented with a problem. Did the birds truly object to a snowy feeder or was part of their absence due to kid noises?

This was a wonderful Christmas vacation for children, for the first time in many years there was good snow and ice for all of those ice skates and sleds which were found under Christmas trees. It was such fun to watch the good times the sliders and skaters were having that I must be truthful and admit, even though it's good to have the birds back again, I do miss seeing the kids now that school is back in session.

An interesting experiment: after our next big snowfall, invite the skaters and sliders to return and see what the birds do. Somehow I am sure this will never happen — the weatherman will not schedule the snow to coincide with the weekend and the school authorities might frown upon excusing classes.

So it is that I shall forget about wondering why. I shall just enjoy all the excitement at a half-snowy feeder.

Pastor tell me

By DUANE H. McNEIL

DID OLD TESTAMENT PEOPLE REALLY SEE GOD?

God is a Spirit. John 4:24. One cannot see a spirit with human vision. John 1:18, tells us no man hath seen God at any time.

Now we know Old Testament and New Testament saints saw something. Adam walked and talked with God. Isaiah saw the Lord. Moses was hid in a rocky cleft while God passed by the spot. What possible explanation is there for this? It is quickly realized that in order for God to be seen, He must adopt some form easily recognizable by human sight. We find angels appear as men and one of these is God. We find occasions where God adopts human flesh for purposes of becoming known to men.

A careful study of each of these many occasions will show that the person of the Trinity involved in each case is God the Son. Christ became known to man in Old Testament days as the visible Angel of the Lord. Christ also was known to men by a form of humanity He used. This is no wonder to those of us who now know that Christ has come to us in human flesh in a permanent capacity. To see Jesus is to see God.

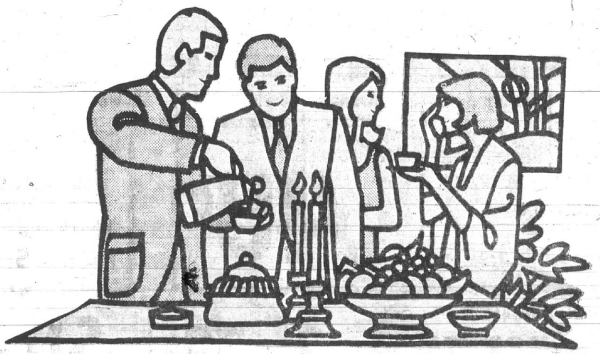
Our Savers Share $1,750,000
In 1969 Earnings



In spite of a nearly disastrous inflationary spiral, 1969 has been another year of sound growth and continuous expansion of our customer services.

High interest rates have forced us to compete against the ever fickle and fluctating bond and investment markets. In the face of this competition our savers increased deposits over $3,000,000 in 1969 to enjoy the highest interest rate, most availability, maximum service and security of their funds. In 1969 First Federal, paid a total of $1,750,000 interest earnings to area savers.

First Federal has always stood ready to serve the mortgage needs of the area. Availability of mortgage funds was maintained throughout 1969.

During 1969 we loaned $9,100,000 at effective rates well below F.H.A. and V.A. money costs. Our loans are all on realistic values, **not** on appraisals inflated to cover point financing.

The economic improvement of the home and personal financial security of all citizens is the constant goal of First Federal of Lenawee.

RECOGNITION PLAQUE — Merlyn Downing, 10-year member of the Tecumseh Community Fund Foundation and recent drive chairman, is given a plaque here for his outstanding work. The Foundation Board reluctantly accepted his resignation last week. Making the presentation is the Foundation's president, Doug Dunn, left.

Mishap Rate on Increase

While our temperatures plummeted down here the past week, bringing along snow and ice, the accident rate jumped in just the opposite direction — up.

Tecumseh police investigated 13 mishaps here during the past week, but only one resulted in personal injury.

A resume is:

Jan. 14 — Earl L. Wainscott, 59, Pettyville, Mo., was cited for failure to yield the right of way after an accident with Jesus A. Espinoza, 33, of 5647 Pocklington Rd., on S. Maumee St. Mr. Espinoza and his wife, Rosa E., 27, were taken to Herrick Hospital for treatment.

Fund Honors Chairman

Resignation of Merlyn Downing from the Tecumseh Community Fund Foundation Board was accepted by officials last week after the local bank officer had served 10 years on the Board.

He is a former president and treasurer and was an original trustee when the Foundation was formed in 1959.

William Herbst, field representative, presented him a plaque in recognition of his outstanding work as campaign chairman in the recent Community Fund Foundation Drive.

Douglas Dunn was re-elected president of the Foundation as were all other officers: Dr. George Burkhard, vice president; Mrs. T. Rentschler, secretary; Mrs. Joseph Galazzi, treasurer; and Mrs. Carlos Knisely, publicity chairman.

Trustees elected were Mr. Dunn and Dr. Burkhard, along with Earl Mason, who had previously been appointed to fill an unexpired term, and Ray Dollison, to replace Mr. Downing.

Next meeting of the Board will be held April 14.

No Heat, No School

CLINTON — High School students at Clinton made out a bit better than their younger brothers and sisters, Wednesday.

School was not held in the high school building because of a faulty boiler, however, buses picked up the elementary school children as usual.

3 Leave Schools, 3 Are Employed

Three teachers have resigned or taken leaves of absence from the Tecumseh schools, but three teachers have been employed to replace them.

Teachers leaving are Mrs. Sandra Balhof, Mrs. Pat Forsyth and Mrs. Fred Baird, who is being replaced by her husband to teach math at the Junior High.

Other new teachers include Mrs. Deborah Baker and Susan Smith.

Auxiliary Nets $1,120 from 'Ball'

Herrick Memorial Hospital Auxiliary announces a net total of $1,120.12 which was realized from its recent Holiday Ball.

They're appreciative of all the assistance they received in making the affair a big success.

Annual Meeting of Bank Tuesday

Annual meeting of the United Savings Bank of Tecumseh will be held next Tuesday afternoon at the Tecumseh Country Club.

Buy Four Buses

School Board voted Monday night to purchase four buses for the 1970-71 term, raising the fleet total to 20, excluding buses for Spevial Education.

The new buses will replace three of the old ones.

Residents May Vote on City Income Tax

Tecumseh continues to draw closer to a city income tax, but such a tax will probably be left to the residents.

Cal Zorn, city manager, says Council is pretty firm in its position to take an advisory vote of the people. Such a vote on April 6 is possible.

If the folks vote for a city income tax, which would allow for a reduction in property taxes, Council would be expected to pass a new ordinance making an income tax effective Jan. 1, 1971.

According to Zorn, a negative vote at the polls would probably end the city's plans.

Local officials met in a lengthy session at Adrian Monday night with representatives from Adrian and Hudson. The meeting was held for reports from a steering committee, formed in December.

Both Hudson and Adrian officials are against an advisory vote.

All three communities are interested in the state uniform income tax ordinance which levies a one percent tax on residents and a one-half percent tax on non-residents working in the city.

If Tecumseh Council decides to seek an advisory vote in April, officials here will probably take necessary action at either the Feb. 2 or Feb. 16 meeting.

And if no action is taken by the 16th, next date for such a vote to occur would be in August, unless a special election was approved.

Mr. Zorn says city officials will meet again with Hudson and Adrian representatives next Monday evening in Adrian.

Adding Section for Police Dept.

An expansion of the Tecumseh Police Department at city hall was approved by Council Monday night.

The addition, costing approximately $21,000, will be 28 feet by 12 or 13 feet, according to Cal Zorn, city manager. It will include two rooms and a basement.

Other remodeling in the department is also figured in on the total cost. Construction will start this spring.

Council approved the expenditure and authorized the city manager to have architectural plans drawn, and ones which would include a new fire station.

A new fire station is not planned at this time, but officials asked for plans which would place the station just north of the police department.

When a new station is built at city hall, officials will move the fire department there from its present barns on S. Evans St.

Mr. Zorn told Councilmen that police could handle all the fire calls at the city hall site for the firemen, and it would not be necessary to have any full time firemen.

Architectural plans for a new fire station, however, will include future expansion quarters for full time firemen.

2nd Session at Ridgeway

This Thursday evening at 8 p.m. the Tecumseh schools will hold their second public meeting in regards to the Feb. 10 bond issue for a new high school.

Wednesday night of last week, between 50 and 70 folks showed up at the junior high for a question-answer session about the $9.7 million bond issue. Only 19 of those present were not affiliated in some manner with the schools. A lack of interest—or support—is apparent.

Next Tuesday night at Tipton, another public meeting will be conducted and folks will be given the opportunity to ask questions about the schools and their problems.

The fourth and final public meeting is scheduled at the high school gym on Feb. 8. This Sunday afternoon session will start at three o'clock.

Inquiries about the bond issue involving eight mills seem to doom the school's hopes for a new high school and conversion of the present high school to a middle school.

Response about the bond issue is negative, indicating an overwhelming defeat of the eight mills.

Two Closed by Gas Leak

A gas leak from a main line into the Gamble Store Wednesday morning not only forced that store to close and vacate but also Woolworth's, next door.

Both stores were closed for approximately three hours, from 9:30 a.m. to almost 1:00 p.m.

Don Martin, owner, said he had noticed an odor and called Consumers Power. Company representatives checked the building and found the gas volume between 20% and 30%, ordered the store vacated and shut off power.

Workmen were still attempting to locate the leak early Wednesday afternoon, and both stores were still without power and heat.

Theft of more than $2,000 worth of sound equipment from Clinton High School is being investigated by State Police.

Apparently removed from the building during the holiday vacation, the loss was discovered when school resumed.

Some of the missing items have been recovered, and local youths are being questioned.

BEHIND PAGE ONE

Mr. and Mrs. Ward Eardley didn't realize they were going to have over 500 skaters to supervise that first weekend at Tecumseh Park or they might not have so generously offered to be hosts. Everything worked out well though according to the recreation man, and so the fun will continue weekends as long as the weather permits.

Postmen and women get cold too. The warmth of your home just inside the door for a few minutes will not only help their fingers and toes but warm their hearts as well. It's a long way around those routes in freezing weather.

It's been a long time since anyone here heard from TAR. What do you suppose he's been up to?

Trees Need Pruning

Principal objective of the Lenawee Soil Conservation District is to assist landowners to get planned soil and water conservation practices installed on the land.

Of the 640 acres of evergreen trees planted in Lenawee County, many need pruning and thinning. Proper pruning and thinning of a pine plantation is important to get quality timber when the stand matures.

Robert Auten, of Ridgeway Township near Britton, pruned several acres of red and white pine. He cut the limbs off flush with the trunk of the tree to a height of about one half the total tree height.

In a short time the growth diameter of the tree trunk will cover the knot area of the removed limbs. The logs from the mature pruned trees when harvested will produce clear, high quality lumber.

Bob began pruning the evergreen plantation, that surrounds years ago. The trees averaged about 18 to 20 feet tall. The limbs can be left on the ground where they fell or taken out of the plantation and burned. Sometimes it will be a good practice to pile the limbs to provide wildlife cover.

Mr. Auten is a cooperator with the Lenawee SCD.

Thinning out deformed and cull evergreen trees in the plantation is important. We start with almost 900 trees per acre at a 7 by 7 foot spacing. At maturity, about 40 to 60 years later, there will be about 80 to 150 trees per acre left. These will be the timber trees. Several thinnings will be needed while the stand is growing.

Soil Conservation Service technicians assist cooperators in working with all land-use practices. Irvin McFarland, area forester of the Michigan Department of Natural Resources, will assist in marking the evergreen plantations that need to be thinned and pruned. You can work through the ASCS office for cost-share of the practice.

Program Is Sung In Foreign Tongue

Mrs. Earl Mason presented a program, "An Evening for Bel Canto," which means an evening for beautiful music, to sixteen members and five guests of the Tecumseh Music Club recently at the home of Mrs. Leland Fogelsong.

The program was sung in a foreign tongue, in the language of the composer, as intended by the composer.

Pat Weigle sang "Florian's Song" by Godard in French, and Cheryl Pobuda sang "The Cradle Song" by Brahms in German. Both were accompanied by Mrs. Mason.

Jamie Danforth sang "Victorious My Heart" by Giacomo Carissimi and "Thou Not Deserving" by Antonio Cabara in German and was accompanied by Mrs. Ashley Chase.

The group also sang a number of choral songs together.

Mrs. Louis Caterina and Mrs. Maynard Mulvaney were co-hostesses for the evening.

Tecumseh Music Club is a member of the National Federation of Music Clubs.

The next meeting will be held at the home of Mrs. Perry Hayden with Mrs. Clarence Brock as co-hostess. Mrs. Fred Oberlin will present a program on "American Music."

Stop Smoking

A second clinic to aid smokers who want to quit is planned Jan. 25 to 29, the Rev. Peter Fritz of the Seventh Day Adventist Church said today.

It will be held in the auditorium of the Palmer Wing at Bixby Hospital.

Registration will begin at 7 p.m. Sunday, Jan. 25. The sessions on the four following evenings will begin at 7:30. Five members of the Bixby Medical Staff will assist Mr. Fritz.

Moving pictures, group discussions, talks and other special features are included in the group therapy clinic. The same format has proved successful and popular in other parts of the country.

Anyone in the community with the desire to stop smoking is welcome. A registration fee of $5 will be charged to help with the cost of materials.

The first local clinic, held in September, drew an average attendance of 39 persons with 35 reporting on the final evening they had stopped using tobacco, Mr. Fritz said.

Mrs. Myrna Tingley has been quite ill at her home. She is recuperating now.

'Long' Shot Wins 59-58

Tecumseh won its third Huron League game Friday night, a 59-58 thriller that will probably be remembered by Scott Dalton the rest of his life.

Dalton, one stride past the 10-second line, let fly—and it never touched the rim! The game was over, the Indians were delirious and a Gibraltor Carlson five stunned.

Events leading to the winning shot were nearly as dramatic.

With 13 seconds remaining in the game, Ken Pieh made the first free throw of a one and one situation, but had his second shot go in and out. Carlson had the rebound and a 58-57 lead.

An Indian foul sent a Carleson player to the foul line with seven seconds left. Joe Lezotte could have wrapped up the game for the visitors but he missed, and Alex Gibson grabbed the rebound.

He immediately flipped out to Dalton who side stepped one opponent near midcourt and then cut loose with the winning shot. The Indians, fans and players mobbed the junior guard at the center of the floor.

Carlson and the Indians put on some kind of show, some good and some bad. Tecumseh jumped off to a 18-8 lead in the first quarter and seemed certain to win easily.

In the second quarter, Carlson roared back, collecting 16 points during one stretch to Tecumseh's two. The visitors more than reversed the initial period by scoring 12 points to the Indians' eight.

At the end of three quarters, Tecumseh held a 42-40 lead, and with less than three minutes in the game, the Indians were on top by three. Carlson then went ahead, and appeared certain to win.

Gibson, 6'4" junior, turned in an excellent performance in the first half and went on to pace his teammates with 16 points.

Pieh collected 14 points, and Bill Puffer, 11, before he fouled out late in the game.

Top scorer was Carlson's Mike Hunter, who fouled out with three minutes left.

Tecumseh Javees had little trouble in winning, trouncing the Carlson 'S' by 27 points, 73-46.

TO THE EDITOR:

Concerning the proposed construction of a new high school and conversion of the present high school into a three grade junior high school, I would like to make the following observations:

The January 8th Herald ran an article concerning construction of residential and commercial buildings in Tecumseh and noted that both have been minimal in the recent past. On the same page, a women's church social decided that one way to improve Tecumseh would be to publish the names and addresses of youthful offenders and their parents, presumably so they would be shamed into either moving away or reforming. I graduated from Tecumseh High School in 1962 and since returning from military service, have noted that less than 25% of my graduating class remains in Tecumseh.

From the above and other observations I would conclude that most young people who grew up in Tecumseh fail to settle here, partly due to lack of economic opportunities and partly, I am sure, because of the lack of cultural and other social activities in the area. I believe Tecumseh is purposely geared to repress influx or retention of a younger, more liberal population.

Projected statistics concerning future 1970s elementary and secondday education enrollment that appeared in the U. S. News and World Report indicate that in most parts of the nation, such enrollment may actually decrease in the 1970s, with only higher (college) enrollment substantially increasing.

In view of my above observations and opinions, I believe enrollment in our schools will decline considerably in the next decade. In view of this reasoning, it would seem that construction of a new high school would not be practical or necessary at this time. As a matter of my personal opinion, it would seem that the rising costs (and deservedly so) of teacher salaries and educational services expansion of our schools demands that present allocations from property owners' taxes to be used for education will substantially increase, even with no population growth in our schools.

In essence, a new building will not necessarily mean a better school education-wise, and in the process of spending might mean a cutback or loss of professionalism in teaching faculty due to lack of funds for salary and benefit increase.

Then again, the rate of property taxation compared to services rendered in Tecumseh has never been favorable. Many citizens of our size provide a comparable education with less tax dollars. I would suggest that improving the qualities of our school system takes priority over construction at this time to insure that more vocational and college preparatory quality is maintained.

I would urge parents, taxpayers and concerned citzens to attend the discussions on this matter at our various schools this week.

Robert E. LaPrad.

To the Editor

Dear sirs:

Our seventh grade health class has started a campaign to "Stamp Out" smoking, drinking, and drug addiction. Our slogan is "Save your body today for better health tomorrow." (We mean by this that millions of people who die of respiratory diseases and overdosages of pills and alcohol are senseless deaths that could and should be prevented). We feel that all girls and boys who do these things are heading for trouble. That means the vital organs of the body are on their way to being destroyed permanently.

We are making posters, buttons, and skits to show at our school. Harvey Jackson is our health teacher. He is letting us express ourselves in many different ways. We are trying to warn the public about smoking, drinking, and drug addiction. We are letting the people know how we feel.

Most people who think of our age group automatically think of hippies and addicts, but we are trying to show that the seventh grade class of Onsted High is a class that cares about our health. We want to try to keep people from making a big mistake; a mistake that causes much grief, sorrow, destruction, and death.

Help us fight this problem. Back our campaign and stamp out this useless destruction. We want to talk with you and show you what we are doing to stamp out this problem. Please contact us in the near future. Thank you for your consideration.

Sincerely yours,
Dennis Barkway

Lee Ann Ward, Michael Gillen Marry Saturday

Lee Ann Ward became the bride of Michael H. Gillen Saturday evening in a ceremony performed by the Rev. Kenneth Strack at Grace Evangelical Lutheran Church.

Tall candelabra fronted with flowers, lighted tapers on the pews and palms were used to enhance the sanctuary.

Parents of the couple are Mr. and Mrs. Frederick J. Ward, 700 Center Ct. and Mr. and Mrs. Fred Gillen of Macon.

Debra Simon played the organ.

Chantilly lace was featured on the front panel and Camelot neckline of the bride's A-line gown of dull ivory satin. Lace edged the full silk organza sleeves and cathedral train.

A Camelot crown of lace and seed pearls held her chapel veil, and she wore tiny diamond ear rings.

She carried a dainty white orchid on her Bible with stephanotis and streamers tied in lovers knots.

Janice Matteson served as maid of honor in an empire styled gown of dark green with ivory lace bodice, accented with an aqua bow, buttons and streamers at the back.

She wore a dark green Camelot headpiece and carried a cascade of carnations and miniature roses tied in aqua.

Gordon Wild of Bridgewater was best man, and 250 guests were seated by David Ward, brother of the bride, and Gary Naugle.

An inverted brandy snifter with miniature bridal couple beneath and topped with a candle, stephanotis and flowers was used on the bride's table at the reception at the United Products Workers Union Hall.

Mrs. Marvin Rumpf and friends of the bride from Ferris State College served at the reception.

The bride is a junior majoring in mathematics at Ferris.

Her husband is a Tecumseh High School graduate, served in Germany in the Army and is employed by General Motors Corp. at the Fisher Body Plant.

Through My Window

IT'S COLD OUT THERE

This brand new decade started right off with a great flourish, didn't it? Only seven or eight days old and there we were setting all sorts of low temperature readings. As the thermometer readings slipped towards zero and below, little interesting bits of cold weather happenings stole the spotlight. Mother Nature's creatures put on a new show for us.

Early one morning, for example, Gertie T. and I were watching our gorgeous Lady Cardinal as she breakfasted on sunflower seeds. This is the glamour girl of all our Mama Cardinals—her colors are brighter and richer than any of the others, and, from the way she acts, it is easy to know that she knows exactly how very special she really is.

This was a bitterly cold morning and, as she fluffed her feathers against the biting weather and settled down into the snow so that her body proctected her bare feet and legs, Gertie T. actually saw the whiteness of her breath.

It was a tiny white cloud she said that puffed out of the bright red bill just as Lady C. reached for a fat sunflower seed.

Unfortunately, my angle of vision was slightly different; the background against which I saw the bird was white and so, of course, white breath against white snow was nothing. However, Gertie T. saw it and this is one of the joys of having a birdfeeder so close to a window.

AND THIS COLD weather happening we could see this year, but we could not have seen it last year. With the lovely old elm gone—well, we still miss it but there are things going on which we are now privy to that in the past were completely screened by those large gnarled tree limbs.

At the beginning of the cold snap we started noticing all sorts of activity at the top of Carmean's chimney. I have read about this before but suddenly, for the first time, I was actually watching starlings warm their feet.

Four, five, sometimes even six of these speckled characters would huddle and enjoy the warmth. The best place was apparently around the edge of the flue but, if that were full, any late comers would perch on the chimney bricks themselves and patiently wait for someone who had hot feet to leave.

THE THIRD COLD weather special set shivers running up and down my back and my teeth chattering. Oh, it was snug and warm enough inside, it was what was happening outside that got me.

About half-way up the creek and almost exactly in the middle of my window picture, the water spilling over the north end of a little stone dam created one of the few open spots in the creek. Even there, however, the current was gradually losing its battle with the temperatures, the open spot was shrinking.

To say that the water was icy is surely no exaggeration. Paying not the slightest heed to such a minor detail, however, was a muskrat. As I shivered, he scrambled out of the water, sat on the ice long enough for Gertie T. to focus the binoculars, then slid back and began swimming in lazy circles, finally he disappeared under the ice.

In 20 or 30 minutes he was back again and this went on most of the morning. If his aim were to keep the water from freezing, his attempt was only half-hearted. It really looked more as though he were doing his muskrat business and having one whale of a good time in the process.

So it is that the deep-freeze weather produced some action which was quite unique but even while thoroughly enjoying all of the goings on, I could not help sliding a bit further under the snuggly blankets and thinking it's cold out there.

Band Is Back, Wife Grateful

Wedding ring found in parking lot behind Quick Lunch was claimed by a grateful Mrs. Michael Deatrick, 709 Riverside Ave., Adrian, Thursday.

It seems, Mr. Deatrick took it off and slipped it in his pocket while working in the lab at Tecumseh Products, along with a tiger-eye ring he wore.

He forgot all about it when he went to the Quick Lunch at noon, and when he was in the plant parking lot that evening, he saw the tiger-eye ring fall from his pocket as he reached for his keys.

Mr. Deatrick thought he'd lost the silver wedding band at the same place, and several fellow employees helped him search the area there.

According to his wife, Sandy, he would never have thought to look at the parking lot where the ring was found.

Michael D. Bryan, business, of Onsted was also included on the list.

Ann Arbor Youth Backs Into Ray

Charles M. Carey, 19, Ann Arbor, was given a summons for failure to yield right of way when he backed his vehicle from a driveway into the path of a car driven by Raymond J. Van Kirk, 28, 116 E. Kilbuck St.

The mishap occurred at 4:30 p.m., Sunday, on Service Rd., just east of M-52.

There were no injuries.

Pastor tell me

By DUANE H. McNEIL

What Must I Give Up to be a Christian?

Getting the cart before the horse is a popular exercise. Though Young People are warned repeatedly of the responsibilities of married life they plunge blindly into matrimony and wake up some time later face to face with reality. In the matter of religion we go to the other extreme. We build the responsibilities and changes into an insurmountable wall. May I offer items for your consideration?

We must give up vileness for virtue. See Isaiah 64:6 and II Peter 1:3.

We must give up Poverty for Prosperity. See Ephesians 2:12 and Psalm 1:1-6, Joshua 1:8.

We must give up Perplexity for Peace. See Isaiah 57:20, Luke 21:25 and Isaiah 26:3, Phil. 4:7.

We must give up sin for Salvation. See Romans 3:23 and Romans 10:13.

We must give up Judgement of Justification. See John 3:18,-36 and Romans 5:1, 8:1.

We must give up Satan for the Son of God. See John 8:44 and I John 5:12.

We must give up Death for Deliverance. See Romans 6:23 and John 11:24.

We must give up Heaven for Hell. See Revelation 20;12-15 and John 14:1-3.

IT'S WORTH THE COST!

Sand Creek '5' Wins, 67-51

BRITTON — Although the Tories fell behind 21-7 in the first quarter, the Aggies hadn't won yet. Jim Brown came into the game and tallied 11 of his 20 points in the second quarter, and Rick Maska made six of his 12 points to make the halftime score 33-29.

The second half showed Sand Creek's height advantage by outscoring the Tories 16-12 in the third period and 18-11 in the last stanza, enroute to a 67-51 victory.

Rebounding helped Sand Creek top the Tories, in which they hauled down 48 to Britton's 29.

Scoring honors went to Paul Bailey and Charles Risner of Sand Creek with 16 markers apiece. Brown and Maska paced the losers with 20 and 12 points respectively.

BEHIND the COUNTER with CARL LAMB

Sleep

Some experts are alarmed over the rapid rise in the use of barbituates by people who are convinced that they can't sleep without being drugged. The main cause of concern: most people are harmed more by their anxiety over the loss of sleep than by the "sleepless" nights.

First of all, not everybody requires eight hours of sleep per night. Our individual needs are different, and our sleeping patterns vary. One man will sleep nine hours a night, while his neighbor does quite well with six. Just lying awake in bed is almost as good for you as "sound sleep," if you don't fret about it.

Now that scientists can measure the way in which we slumber and dream, it appears that most people are poor judges of their own sleep patterns. You may believe you've "tossed and turned all night," while you've actually slept for hours.

Or we imagine that it takes hours for us to fall asleep, when we actually drop off into a light slumber after only a few minutes.

Sleep comes in waves; the soundest (and most beneficial) sleep occurs in the first three-hour wave, which is probably reflected in the old adage, "An hour of sleep before midnight is worth two after." But when you retire isn't vital; regularity may be much more important.

If it makes you restless sleepers feel any better, people with high IQs appear to get along with less sleep than others do.

McElroy Elected Bank President

KENNETH C. McELROY

A new alignment of officers was effected Tuesday afternoon when the Directors of the United Savings Bank elected Kenneth C. McElroy to the presidency, succeeding J. W. "Pat" Meadows.

Mr. Meadows, president of the bank since April 16, 1962 and chairman of the board since Jan. 16, 1968, will continue as board chairman and also as chief executive officer.

Bank's new president has been a vice president here since accepting the position on May 1, 1968. He was previously vice president of the First National Bank of Monroe.

In commenting about the directors' reorganization, Mr. Meadows viewed it as an in-depth successor of management, and said, "I feel that we have a real fine senior management team."

This team is composed of the bank's top two officers and Merlyn Downing, vice president and cashier.

"The moves were necessitated by a tremendous growth of the bank, growing from $18 million to $41 million in the past eight years," Mr. Meadows explained.

The directors' reorganizational meeting followed the annual shareholders meeting Tuesday afternoon at the Country Club.

At their meeting, they elected William Danley to the office of assistant cashier and approved the following designations:

Helen Hodges, assistant to the manager, Herrick Park Branch; Evelyn Hawkins, assistant to the manager, Sutton Road Branch; Marjorie Bilby, head teller, main office; and Carolyn Chase, accounting supervisor.

★

Mr. McElroy has been quite active in the community and its affairs since moving to Tecumseh.

He is an elder and member of the session at the Presbyterian Church and a director and secretary of the Tecumseh Country Club. He has retained his position as assistant district commissioner of the Boy Scouts.

The new president has over 20 years banking experience. In 1949 he was an assistant national bank examiner for the 7th Federal Reserve District, and in 1952, he joined First National at Monroe. He was promoted to assistant vice president in 1955, and four years later he became vice president.

Mr. McElroy belonged to many organizations there and was a president at one time of Kiwanis Club, Jaycees, March of Dimes, Salvation Army unit, and Monroe County Cancer Foundation. Be-

City Income Tax Vote, Millage Drop Planned

Four councilmen and Cal Zorn, city manager, agreed to have an advisory vote for a city income tax on the April 6 ballot at a session Monday evening at city hall.

The four officials — Harold Easton, Dr. Carlos Knisley, Ray Puffer and Wallace Whiting — were firm in placing a city income tax issue before the people and lowering local property taxes.

Although none of the action taken is official, the Councilmen not only formed a quorum but inferred that three other colleagues were in agreement with them.

Official action is expected from Council on Feb. 16.

Councilmen Donald Sunderland and William Holmes were out of town, and Dr. Carlton Cook was unable to attend.

Agreement was reached that, providing an income tax here is approved, four or five mills would be dropped from the present city tax on property, and possibly a further cut in millage after the city fully realizes the amount of revenue collectible through an income tax.

The discussion also led to the approval of dropping the 15-mill limitation to 11 mills, which would remain in effect as long as Tecumseh had a city income tax.

Officials pointed out that an income tax of one percent for residents on total taxable wages, and one-half percent for non-residents, had proved successful and popular in other cities.

Folks who are living on social security or pensions would be greatly benefited, plus receiving additional relief through a drop in millage on their property. Income from social securtiy and pensions would not be taxable by the city.

Also many folks in the $7,000 to $8,000 income bracket would be benefited, as they would pay only a minimum sum in city income tax but would realize a sizable cut in property tax.

City income taxes are completely deductible from the Federal income tax and a proportion from the state income tax. Such a tax would be payable weekly, monthly or quarterly, and the city would be obligated to furnish employers necessary forms for deductions.

Tecumseh, Adrian and Hudson have discussed city income taxes for the past several weeks, although it has been proposed here for many years. A steering committee of the three communities will meet this Thursday evening at Adrian.

A joint meeting of all city officials from the three communities will be held early in February. Both Adrian and Hudson have hedged on an advisory vote and are concerned that Tecumseh is planning one.

School Questions Fly

Approximately 40 residents of the Tipton area attended a public meeting Tuesday evening at the Tipton school for a session about the Tecumseh schools' proposed $9.7 million bond issue.

Aden Mead, School Board president, Supt. James McDowell and Robert Duhan, assistant superintendent were the principal speakers for the schools and explained the needs of the schools and finances required for a new high school and conversion of the present high school to a middle school.

It was the third public session about the bond issue and the best attended. Next meeting for the public is scheduled for Feb. 8 at 3:00 p.m. at the high school gym.

Several Tipton residents participated in a question-answer session.

Supt. McDowell says the high school enrollment is four times the 1949 enrollment, and the district will actually need new facilities even before a new high school can be built.

William Brown, in reply to a question if the millage fails, said the Board has no definite plans, but two shifts—6 a.m. to 12 noon, and noon to 6 p.m.—are possibilities.

Dr. Harold Ocumb answered a question about the construction of a new high school, and told a resident that it would be neither cinder block nor marble, but somewhere in between.

William Macbeth, another board member, explained some of the finances and the reasons why the Board is seeking eight mills at this time.

A variety of questions were asked — folks can't stand more taxes, support schools through an income tax, wait for another method of financing, will state take over school property, and others — and they were answered by school officials.

8,000 Coming to Irish Hills

By DOROTHY GRIGG

Red carpet plans for 8,000 trailer families coming to the Irish Hills area next summer were announced at a banquet meeting Friday evening in Brooklyn.

Representatives, numbering over 100, from the National Campers and Hikers Association, Adrian Chamber of Commerce and the Irish Hills Tourist Association plus press, radio and television media attended.

Fred Bahlou, president of the host group, the Tourist Association, welcomed guests including Representative Robert Stites, Sheriff Richard Germond, Mayor R. A. Piotter of Adrian and Don Woolworth and Hal Stein of NCHA.

Robert Lorenz, chairman of Adrian Chamber of Commerce, introduced guests and showed slides of the Campvention held last year in North Carolina.

The slides presented evidence of the pride the campers take in a clean camp area at all times, even though their get-togethers frequently number 32,000 persons.

Elaborate floats for the annual parade were constructed in the color slide presentation and evening entertainment, attended not unlike the crowds the Bob Hope overseas shows were shown.

Mr. Bahlou remarked that the area will be "on the map" following the Campvention here. He said, "It will do for us what the Dells has for Wisconsin and Gatlinburg, for Tennessee. We ask nothing but cooperation in hosting this fantastic group."

Mayor Piotter told about the parade to be held in Adrian on Thursday of the July week for campers in the area.

Castel of Adrian Area Chamber of Commerce, remarked that there would be 25,000 good will ambassadors from over the nation and Canada, leaving an approximate million and a half dollars in the area.

"We want them to leave Michigan with a kind word to say," he remarked.

Don Woolworth, chairman of the campers, stated that there are 43,000 member families, 4,000 in Michigan in the Association. They have programs for teens and for children as well as adult entertainment.

Three needed items in the Hills area were directed to the legislators of Michigan by a placard on the wall as well as by suggestion from Mr. Bahlou.

"We need help directing tourists to the fabulous Irish Hills Area. We need permanent direction markers on I-94 and US-23. We need a large drive-in facility with rest rooms and picnic areas either on US-12 at Hayes State Park or at Cambridge State Park Grounds. Let's redesign the entrance to Hayes State Park on US-12 for easier and faster movement of traffic."

Water Damage Over $1,000

A lead-in water line in front of the Colonial House of Beauty snapped Wednesday of last week, flooding the basement of the beauty salon and Proctor Shoes, next door.

Sharon Crane, manager of Colonial House, does not know whether her building sustained any damage or not, but the loss at Proctor's could run well over $1,000.

Wes Proctor, store owner, says some 300 pairs of shoes could be damaged by the water and resulting mud, plus window and store decorations for the holiday seasons and some keepsakes from his home in Clinton.

He said water rose about a foot in his basement, which is partially concrete and dirt, and did not drain out until Friday.

Many of his shoes were damaged by the odor, and his loss will depend largely on whether the odor remains. Regardless, he's planning a "flood sale" Thursday and Friday of next week.

Miss Crane says the lead-in water line broke about 2:30 Wednesday afternoon while city employees were in the basement checking a newly installed water meter.

According to the beauty salon manager, the meter was installed earlier in the day. On checking it that afternoon, the water was turned off. Shortly afterwards water started gushing through the basement walls.

City employees were unable to stem the flow of water until about eight hours after the break. Final repairs were completed Friday when a new one inch lead-in line was installed through the old two-inch lead.

City Manager Cal Zorn says the break resulted due to the age of the old lead, which was installed many years ago for a laundry.

Fire Victim Is Not Able to Find Work

Raymond Casey needs work.

The family is recovering from the loss of their home and furnishings in a fire Jan. 7, but things could move much faster if Dad could get a job.

He does work for the Lenawee County Drain Commission when weather permits, but that is not now.

Mrs. Casey, an employee of H. W. Tuttle Co., works the afternoon shift. Employees there were most helpful to the family at the time of the fire. Fifteen men with pick-ups moved the many donations of clothing and furniture into a home at 105 Russell Rd., provided by the Tuttle Co., rent-free until Feb. 1.

Raymond Brehmer, director of personnel at Tuttle Co., provided a list of sizes and ages of members of the family and conducted a plant-wide "help" program for the Caseys.

VOICE of THE HERALD

Folks Already Decided

First two public meetings held by the School Board for informing the electorate about the Feb. 10 election have been busts.

The first session at the Junior High resulted in 19 citizens showing up, and last Thursday night at Ridgeway, just 16 appeared.

Such lackluster interest in the schools and their problems would indicate that folks simply don't care, or they've already made up their minds about voting.

We would tend to believe that folks have already decided. The election could affect their pocketbooks, and that's the important thing—the dollar and not the schools, the education and facilities for Tecumseh students.

We proudly point to many of our fine assets—hospitals, library, Community Center, city hall and churches—when we boast about our community. These assets help make Tecumseh better than other communities.

Do we have to remind you that most of these facilities were largely given to us? How much did we contribute towards them? What have we done in recent years to enhance our town?

We dislike paying more taxes, too, but we need a new high school, and whether we vote for it now or five years from now, we'll build one and be mighty proud of it.

A negative interest in the $9.7 million school construction program can only lead to greater expense. Five years, perhaps in two years, when we finally approve a new high school, we just might look back at 1970 and ask ourselves, "why didn't we pass it then?"

A new school in 1975 is certain to cost more than one now. If we take an interest in a new school now—and pass the eight mills — it is conceivable that a growing school district in just a few years might allow the Board to collect only five or six mills instead of eight.

Such a decrease in bond millage was made in the 1956 program of eight mills. Bonds for that $1.9 million program were retired early and at 6.32 mills—not eight as voted.

As our district grows in evaluation, and perhaps, unfortunately, as state and Federal grants become more available, Tecumseh could have a new high school and middle school at a minimal cost to the tax payers.

We would like to think that in a couple of years we would have a high-school facility to be proud of. Saline has done it and is doing it again. Dundee, Blissfield, Grosse Ile, Chelsea, Bedford, Adrian and others have done it.

Why can't Tecumseh do it?

"During 1969, mortgage funds were always available at our offices for purchase or construction of a home on a conventional loan based on a realistic appraisal. We are proud of our 1969 record."

"We provided mortgage financing in excess of $9 million to 596 new borrowers. Construction loans in the amount of $2,900,000 assisted in the construction of 132 new homes."

"We assisted in apartment, commercial and industrial lending which promoted the growth of our county and its surrounding territory," Mr. Graybiel reported.

Exchange Club Hears McDowell on School Issues

James F. McDowell, superintendent of Tecumseh Public Schools, was the guest speaker at Tecumseh Exchange Club Monday night.

His subject was "Changing Times in the School System." Mr. McDowell pointed out the rapid increase in the student population which results in classroom overcrowding.

He also discussed the proposed new high school and the proposed additions to the present high school, which would be used as a middle school.

There were a number of questions from the Exchange Club members regarding this new proposal.

It was announced by President Doug Dunn that the week of February 8th to the 14th would be National Crime Prevention Week, which is sponsored by the Exchange Clubs throughout the nation.

A delicious ham dinner was served by the Rebekahs.

Bulldogs Nip Tories 87-84

By Elmer Hall

BRITTON — Britton Tories found Ted Tibbets a tough customer to handle Saturday night as the Tories fell to the Summerfield Bulldogs, 86-84.

The big sophomore pushed through 13 field goals and 12 free throws for 38 points.

The Tories had four players in double figures, Jim Brown, 23; Jim Lister, 17; Rick Maska, 16; and Dan Warren with 11.

The game was controlled by the Tories for the first three quarters only to watch the Bulldogs pave the way in the last stanza, having better knowledge of their smaller gym.

With three seconds left the score was tied at 84 all when a time out was called by Britton, which had already used up their time outs. A technical shot was awarded to the Bulldogs, which provided the decisive point. Tim Aldrich was then fouled and added two more points.

BRITTON 84

Brown 9-5-23; Lister 5-7-17; Maska 6-4-16; Tuberville 3-1-7; Warren 2-7-11; Furgason 1-0-2; Judkins 2-4-8.

SUMMERFIELD 87

Degner 8-5-21; Bolster 5-2-12; LaRocca 1-4-6; Tibbets 13-12-38; Bark 1-3-5; Aldrich 1-3-5.

Casey Family

Continued from page one

Other assistance came when Jim Records got busy. Cases of canned goods came from A & P, Krogers, Joe's Market and Vescios, who also provided a $25 gift certificate.

Tecumseh Products repaired and donated a freezer to replace the huge one the family lost, along with a half a steer, a deer, Mr. Casey's first one, and a lot of home-grown vegetables and fruit.

Consumers Power donated a refrigerator and Proctors, some shoes.

Fellow employees of Louise Casey gave a household shower of new items for her on Monday following the fire.

George Ruhls Win Plaque

George and Janet Ruhl were awarded the "Mr. and Mrs. Tecumseh" plaque following the Saturday evening performance of the Jaycee Follies at the Creswell Theatre in Adrian.

Mrs. Dyke Helms and Mrs. Sydney Adams made the presentation.

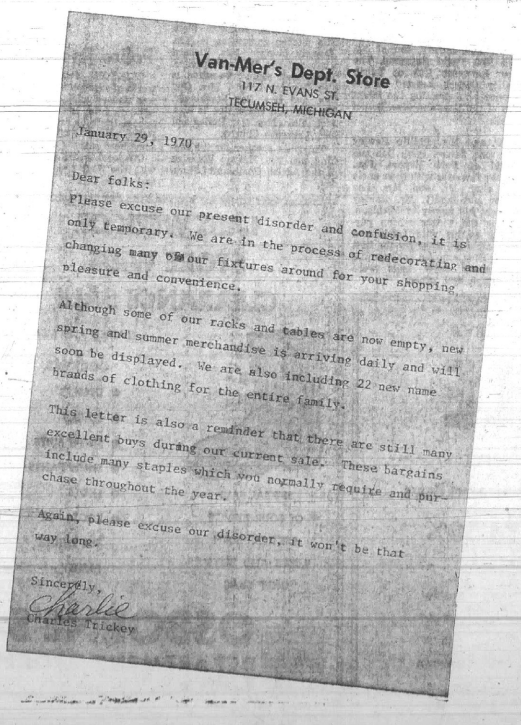
Terry Ridgway, finance chairman, said that profit of the annual event was more than $1,000. Jaycees were well pleased with the attendance and with the members of the Auxiliary wish to thank all of the townspeople for their loyal support.

He said that cooperation of non-Jaycees was tremendous.

Ridgway added that the Follies seemed a fitting event to climax National Jaycees Week.

Dennis Bryan and Mrs. Adams were co-chairmen of the fifth annual production.

Though this was the most successful one to date, the group are already planning a "bigger and better" one to be presented the third week of January, 1971.



BEHIND the COUNTER with **CARL LAMB**

When you're told to take a person's temperature, it is often assumed that everybody knows just how this is done properly. And when it isn't done just right, the resulting misinformation can be dangerous.

Hold the instrument firmly at the top (never by the bulb) and shake it with a quick flick of the wrist until it registers 95°F or less. To read it, roll it back and forth between your fingers — still holding it by the top — until you can clearly see the ribbon of mercury. The degree of temperature is recorded at the top of the ribbon.

Make sure the patient hasn't had a hot or cold drink within 15 minutes prior to taking the temperature. Place the thermometer under his tongue, tell him to close his mouth, and leave the thermometer in place for at least three minutes.

Read the thermometer again, carefully and quickly. An arrow usually marks the normal range between 98° and 99°. Slight variations are usually not important, but should be noted.

After using it, the thermometer should be cleaned with cotton balls saturated in cool water and soap. Rub firmly to get into the grooves and around the bulb. Never put the thermometer in hot water, since it reads only up to 110°F and will break at higher temperatures. Clean it off twice, and then "rinse" with clean cotton saturated with cool water. Always store the thermometer in its case when not in use, to keep it clean and safe.

Memoriam

In loving memory of our son and brother, Michael John Mc Loughlin who left us three years ago, Jan. 30.

Three years ago since that sad day
When one we loved was called away;
They say time heals all sorrows
And helps us to forget.
But time so far has only proved
How much we miss him yet.
God gave us the strength to take it,
And courage to face the blow,
What it meant to lose him
No one will ever know.

Sadly missed by mother, dad and brothers, Mark, David and sister Lori. 1-29c

HS Wrestlers Now 7-1-1

Blissfield wrestlers visited Tecumseh last Thursday and went away with a thrashing, to the tune of 40-10.

The Indians got off to a fast start in this match, sweeping the first nine individual matches. Three of these wins were in the form of fast pins by Abe Valdes (115), Ralph Miller (123) and Gary Jones (145).

Bob Hackett (185) rounded out the Tecumseh scoring with a second period pin.

Other wins were chalked up by Jim Freshcorn (98), Merv Maynard (107), Joe Banley 130), Marv Maynard (137), Steve Tilton (155) and Steve Hinkleman (165).

The victory over Blissfield pushed the Indian record to 2-0 in the league, giving them at least a share of the lead. Their overall record is now 7-1-1.

Tecumseh wrestlers traveled to Michigan Center Saturday to compete in the M. C. Invitational, which featured a field of 16 class A and B teams from across the state.

The Indians made a fine showing, finishing third behind 1969 powers Charlotte (103 points) and Holt (75). Tecumseh, with 65 points, was far ahead of Saline (38) and Monroe C. C. (16).

In the meet, Steve Hinkleman won a first place medal at 155 pounds. Abel Valdes and Merv and Marv Maynard picked up second places. Abel scored the two quickest pins of the day — 15 seconds and later, 32 seconds.

Marv Maynard won his first two matches by pins: Steve Tilton placed third, winning three straight overtime matches. Bob Hackett finished fourth at 165 pounds.

The Indians' next meet will be a league match this Thursday at Airport.

On Jan. 15, the Indians trounced Monroe Jefferson, winning 10 of 12 matches.

Siena Dedicating Room Sunday

Formal dedication of the Adrian Room at Siena Heights College will be held on Feb. 1, Sunday at 2:00, and will be followed by an open house.

The brief dedication ceremony will be an inter-faith service conducted by Father Paul Doyle and Reverand Richard Chilkott, pastor of Christ the Redeemer Lutheran Church.

Richard Reaume, acting president of Siena Heights College, will then turn over the room to Nancy Rockwood, president of Chi Sigma Omega, who will accept the room on behalf of the day students.

The room is to be dedicated in honor of Sister Petronilla, former president of Siena, whose interest and deep concern made the completion of the Adrian Room possible.

Many business and professional people from Adrian assisted in financing the reconstruction and furnishing of the room, with the solicitation of donations to end January 31.

Everyone is cordially invited by the Day Students to attend the dedication and open house on the first floor of Sacred Heart Hall at the college.

HAI KARATE—Herbert Gorzkiewicz, of Vandercook Lake, is the first karate expert to receive a black belt from the Jackson YMCA. He will take over the instructing at the YMCA this week. He received the first degree black belt known as Shodan in Tae Kwon Do style. He is a 1963 graduate of Tecumseh High School, served in the Army and now attends Jackson Community College. His wife is the former Mary Garcia, also from Tecumseh. His parents are Mr. and Mrs. Keith Spencer, 5609 Macon Rd.

9th, 10th Graders Wrestling Here

Tecumseh will host an all-county wrestling meet here Saturday for boys in the ninth and 10th grades.

All schools plus Manchester will participate in the event which will get underway in the high school gym at 1:00 p.m.

Finals will start at 7 p.m.

Win 53-48

Tecumseh Indians bounced back Saturday night to edge Monroe CC, 53-48, for their fourth win against four setbacks in the Huron League.

A near disastrous fourth quarter, however, nearly cost the Indians the victory. Poor foul shooting and turnovers contributed to confusion which saw Tecumseh tally just nine points as CC rallied from a 44-37 deficit to knot the score at 48-48.

With the score tied and with only seven seconds remaining, CC was unable to get the ball in from out of bounds, Bill Puffer then dropped in one goal—giving the Indians a 50-48 lead — and then Bob Pettit added another from the floor and a free throw.

If the Indians had put their game together in the final stanza — they hit just four of 14 free throws — they would have won easily. CC fouled frequently in the final minutes, letting the Indians go to the free throw line and miss, while catching the leaders from the floor.

Three Tecumseh players scored in double figures with Puffer leading his teammates with 14 points. Ken Pieh and Alex Gibson each scored 10 points.

The Indians, who have not played up to expectations this season, took only four shots from the floor in the fourth quarter, and this includes winning goals by Puffer and Pettit.

Coach Vic Lawson has tried about every combination imaginable to get the club clicking, but to little avail. They have shot poorly, rebounded poorly and have generally lacked hustle of past teams.

Unless the club decides to play as a team, their season will be over with the first tournament game, just about one month from now. Several of the players performed better last year, and some were even on the Jayvees.

Folks Are Missing For Registration

Parks and Recreation Director Ward Eardley is wondering where all the folks are who expressed an interest in the furniture refinishing and caning classes, since they failed to register for the classes.

It's not too late, if they will just call 423-2107, extension 25, he'll be glad to activate the classes. Instructors are ready and they need interested students to begin the mid-winter classes at the Community Center.

There are still some openings in the golf classes.

How families may use MULTIPLE OWNERSHIP of savings accounts to provide MAXIMUM F.S.L.I.C. INSURANCE PROTECTION

Thrifty savers across the nation received good news as we moved ahead into 1970. The insurance-of-accounts ceiling was raised from $15,000 to $20,000.

This higher ceiling, of course, makes thrift far more attractive for those folks who had been maintaining accounts at the old $15,000 level. It will also encourage thrift in the years ahead. One thing the new ceiling does point out forcefully is that **insured savings offer a combination of safety, convenience and high-yield features that can be found in no other type of investment.**

It seems to us that prospective home buyers will also benefit from the higher ceiling, because if past experience is any guide, new savings should be attracted to thrift institutions. This will help ease the current "tight" mortgage market that has slowed down homebuilding and residential real estate sales.

The insurance of savings accounts by the F.S.L.I.C. for insured Savings & Loan Associations and by the F.D.I.C. for insured banks has become standardized and is now in effect.

The following illustrations show how typical families may use multiple account ownerships to increase the insurance coverage for family funds.

Mary Lois Lancaster Is Married

Capt. and Mrs. George Grandy, who were married Jan. 10, are honeymooning in Aspen, Colo.

The formal wedding ceremony was held at St. Philip's in the Hills Episcopal Church. Honor attendants were the bridegroom's brother, Emmett Grandy of Alameda, Calif., and Linda Kulpa of Phoenix, Ariz.

The bride, formerly Mary Lois Lancaster, is the daughter of Mrs. Mary Stevenson Lancaster and John Lancaster, both of Tucson, Ariz., formerly of Clinton.

President of the University Ski Club, she was graduated from Palo Verde High School and will receive her degree in art education from the University of Arizona this month.

Captain Grandy is the son of Mrs. Wally Shanz, of Daytona Beach, Fla., and E. W. Grandy of Jacksonville, Fla.

He was graduated from the University of Florida where he was a member of the Alpha Tau Omega fraternity. He is a helicopter pilot with the U. S. Army and has just returned from serving a year in Vietnam.

The bride chose an empire-waisted A-line gown of white peau de soie with re-embroidered lace. The fingertip veil of illusion was held by flowers of matching lace and her full train was secured at the back waistline.

Matching wedding rings were designed and made by Mrs. Grandy.

Bridesmaids, attired in deep strawberry pink silk faille, were Mrs. Allan Harrinton, Jr., of Tucson; Jean Perper, of Santa Barbara, Calif.; and Missy Grandy, the groom's sister, of Daytona Beach, Fla.

Michael McCann, Ward Scott and Jim Holmes, all of Jacksonville, Fla., and the bride's brother, Michael, seated the guests.

A reception was held at The Cliff Manor Hotel and the rehearsal dinner at the Officers' Club at Davis Monthan AFB.

The newlyweds will be at home in Savannah, Ga., in February.

The bride is the granddaughter of Mr. and Mrs. Charles F. Stevenson, former residents of Tecumseh.

STATISTICS, FACTS, AND OTHER ASTONISHMENTS

Do you know what "barb-arians" are? Everyone knows what a without-the-hyphen barbarian is but there is a fast growing group of dedicated souls who call themselves barb-arians. Now prepare yourself for this—these people collect barbed wire.

This unusual group has mushroomed to the point where they have rules and regulations, they even have conventions where collections are displayed and samples are swapped.

The American Association of Barbed Wire has standardized collecting by ruling 18 inch strips as the only size eligible to show. Some collections are large, one man for instance has almost 500 different types of barbed wire.

The first patent ever issued for bob-wire, as it used to be called, was back in 1868 and since then there are well over 700 different patented variations. The barb-arians have lots of room in which to work.

★

ACTUALLY, barbed wire is big business. One man estimates that Yavapai County in Arizona has 230 ranches in it and each averages 75 miles of fencing.

He then got out his slide rule, or perhaps it was a computer, and came up with the following: 75 miles of fence on 230 ranches means 17,250 miles of four-strand barbed wire fencing; and a dollar and cents breakdown shows that this represents $2,750,000 for wire, $5,000,500 for posts, and over $50,000 for staples. (Let's hear no remarks about a 'staple' market.)

Further playing with a slide rule brought Mr. Peplow to the conclusion that the barbed wire in this one county alone could be enough to run a 2-wire fence around the earth at the equator plus fencing the entire state of Arizona with a four wire fence and there would still be miles and miles of wire left over.

There are apparently people who are utterly fascinated with numbers, mathematical problems, etc. But can you imagine the 'counter' who came up with the information that in one perching a ruffed grouse will eat as many as 1,300 aspen buds. (He did not even say whether this was an especially hungry bird.) In a year, however, one grouse may eat well over a quarter million tree buds. And no, I have nothing to offer except that ruffed grouse apparently have budding appetites.

★

ONE OF MY FAVORITE of favorite authors, Edwin Way Teale, is always good for some facts. For instance, did you realize that—1, katydids have ears on their front legs; 2, skunk cabbage have fevers (who measures and how?); 3, toads serenade with their mouth shut (they could teach ventriloquism to Edgar Bergan); 4, wasps sleep hanging by their jaws; 5, monarch butterflies taste with their feet; 6, a male moth has such a highly developed sense of smell that he can pick up the odor of a virgin moth who may be as much as seven miles away; and 7, if a contest between an express train and a dragon fly were ever held, the dragon fly would win. (Depending, of course, on the distance involved.)

Mr. Teale is an expert in many fields but insects are probably his first love. And what a love—at one time he rented the insect nights in a nearby old apple orchard for $10 a year. That is loving to study bugs.

So it is that the above is nothing more than my old hodge-podge type article, wonder why I switched the title to "Statistics, Facts, and Other Astonishments?"

Driver Is Cited After Accident

Gary L. Tietsema, 23, 1088 Highland Rd., Tipton, was given a summons for failure to stop in an assured clear distance when his automobile struck the rear of another vehicle driven by Robert LaGore, 26, of Brooklyn, Saturday.

The mishap occurred on US-12 at Pentacost Hwy. as LaGore slowed down for a left turn into the parking lot at the Sand Lake Inn.

Tietsema was unable to stop because of the icy roadway, and his automobile slammed into the rear of LaGore's car pushing it into a third vehicle, a parked car owned by Russell Young, Onsted.

LaGore, his wife, Wanda, 19, and daughter, Teresa, 1, were treated at Herrick Memorial for minor injuries.

Letters to the Editor

To The Editor:

Enclosed money for one year to the Tecumseh Herald, when time is due. I would like to renew it again.

So be Valentine Day in February 14th, that date recalls many people, young as well as old, sending or giving Valentines.

Since my sister gave me a really lasting Valentine which I like the best of all, since those I got from dear father Ernest A. Daisher.

Because the Tecumseh Herald always tells me that hometown news, I always like to read it.

I do not like TV nor radio. I sure think what a wonderful smart sister I have to give me this kind of a Valentine.

Where others get heart shape box of candies, others, small and large, pretty Valentines, these do not last only a few days.

But newspaper Valentines lasted my long years.

Now was 80 November, last of my Valentines to sister Josephine. What I got when in country school, Dist. No. 3 Williton School, last one was from Miss Anna Carson (not date) I did not want Anna to have it ha! ha! I thought sister Josephine would keep it longer.

The Tecumseh Herald trying to keep up with Tecumseh, biggest little town on earth.

It is growing, so is towns only newspaper.

When we moved from celery farm to Tecumseh, many thought to keep town clean, no more factories should be built.

But TECUMSEH is really nice and clean, all pretty places and often visit to my home town.

Even the Tecumseh Herald travels many places far and near. I miss my hometown.

I wish the editor, also Tecumseh Herald, good luck in years to come and growing.

Miss Elsa Daisher

Pastor tell me

By DUANE H. McNEIL

What Does John 11:25-26 Mean?

Some have been disturbed by these verses for a long time. On the surface it "appears" a Christian would never have to die.

Jesus is telling us His program for His people. We have already been told of His Coming Again. Now, we are informed of our relation to this event.

If when Jesus comes for His own, as I Thessalonians 4:13-17 tells us the believer has physically died, he shall be raised from the dead.

If however, the return of Christ takes place before the believer dies, He will be taken up to be with Christ. In this eventuality, the believer would not physically die. The possibility of this taking place for US is a thrilling expectation. We are not anticipating the Undertaker nearly as much as we are the "Uppertaker."

Verse 26 ends with a question. Believest Thou this? Hebrews 11:6 says, "Without Faith we cannot please God." Ephesians 2:8 says, "By Grace we are saved through Faith." Have you accepted Jesus Christ as your Personal Saviour? One day soon He Is Coming Again. Maybe today!!

Now, in "the quiet years," he has a chance to put the finishing touches on that schooner. When a man's working with his hands, he has time for some thinking, for some looking back.

Our aged friend has a good many years to look back over—some of them good, some bad. But, through all of them, there's been one steady, continuing force, like a thread of steel woven through the pattern of his life.

This force has been the thread of faith—a faith that is sustained and strengthened when a man devotes great time and energy to the Church and its mission.

Now in "the quiet years" he can look back over what has been—he can rejoice because he is able to review a life full of devotion.

You see, it is all-important to be able to review the right kind of life. Don't wait. Start going to church now.

Plymouth Valiant Duster 2-Door Coupe

Duster has a bigger engine
Duster's standard 125 hp Six dusts off Maverick's standard engine by 20 big horses. Even beats Maverick's only optional engine by 5. And if you want performance, you can go all the way up to 340 cubic inches with Duster. No Maverick can match that.

Duster has a longer wheelbase
Duster's 108 inch wheelbase is a full 5 inches longer than Maverick's. In overall length, Duster has 9 more inches. Add Duster's extra 352 lbs., and the result is a smoother ride, and more stable handling.

Duster has a 5-year/50,000-mile power train warranty . . . Maverick doesn't.
Chrysler Corporation warrants against defects in materials or workmanship to the first registered owner only, and will repair or replace without charge for parts or labor at any authorized Imperial, Chrysler, Plymouth or Dodge dealership, the engine block, head and all internal engine parts, water pump, intake manifold, transmission case and all internal transmission parts, torque converter, drive shaft, universal joints, rear axle and differential of its 1970 Duster for 5 years or 50,000 miles and all other parts for 12 months or 12,000 miles, whichever occurs first, excluding only tires, normal deterioration due to wear and exposure, normal maintenance services and parts used in connection with such services, repairs required as a result of accident, abuse, negligence, racing or failure to perform recommended maintenance services. Warranty repairs should be obtained from selling dealer unless he has ceased to do business as an authorized Chrysler Motors Corporation dealer, or the owner is traveling or has moved to a different locality and cannot return to his selling dealer.

Duster has a bigger trunk
A lot bigger trunk. 15 cubic feet for Duster, only 10.4 cubic feet for Maverick. Just because a car is small on the outside doesn't mean it has to be small on the inside.

Duster has bigger brakes
Bigger brakes mean more stopping power, and Duster's got it. Effective brake lining area for Duster: 153.4 sq. inches. For Maverick: only 106.0 inches. And if you like disc brakes or power brakes, Duster offers those too. Maverick doesn't.

Social Worker Heads Program for Auxiliary

Arnett Cole, of the Department of Social Services of Lenawee County, described services available for abused, neglected and dependent children, at a recent meeting of the Herrick Memorial Hospital Auxiliary.

Mr. Cole told of delinquent children in south homes or foster homes, and of the progress the many of them can make in the right environment. He spoke of adoption and how it is virtually impossible to adopt a "blond, blue-eyed baby" through his department.

He spoke glowingly of the foster homes in the county and the need for more. He said the state and county have a tremendous job in the care of neglected and abused children.

During the business meeting it was announced that the sum of $1,120 was realized from the Holiday Ball.

William Groover announced that the EKG machine is now in use at the hospital.

Mrs. Roy Willnow and Mrs. Richard Carmean were welcomed as new members.

Members were reminded that dues are now being collected during banking hours during the week of Jan. 19.

While there in the city they listened to a number of speakers on the subject of Peace. The remainder of the week was spent in Washington, D. C.

While seeing the nation's capitol, they met such legislators as Michigan Congressman, Marvin Esch. The tour also included visits to the Smithsonian Institute and to Arlington Cemetery.

Russell is president of the Youth Fellowship of Grace United Methodist Church of Ridgeway Township. His trip was made possible by donations from the Youth Fellowship and the Women's Society of the church, and by gifts of relatives and friends.

Discuss Special Ed

BRITTON — Britton-Macon PTO met Monday evening in the school study hall.

At the business meeting Mrs. William Saxton, Mrs. Ronald Maschino and Mrs. Cecil Servoss were appointed as nominating committee for new officers.

It was voted to sponsor the annual March of Dimes card party, which will be held Monday, Feb. 2, in the school's study hall at 8 p.m.

Rosemary Niblack and Mrs. William Saxton volunteered to get information regarding the purchasing of new drapes for the gym. The attendance award was won by Mrs. Monagin's fifth grade room.

Program for the evening was a panel discussion on how special education could benefit Britton-Macon.

Members of the panel were Mrs. Geraldine Pobuda, orthopedic; Mrs. Jane Robinson, deaf and hard of hearing; Lindell Cochran, type C consultant and vocation program; Mrs. Thelma Frayer, program for the retarded; Mrs. Evelyn Heimerdinger, school social work program; Mrs. T. Schindler, teacher counselor program for the physically handicapped; and Sherald Haynes, diagnostician.

The program was conducted by Mrs. Bonnie Berkley, speech correctionist for Lenawee County, who introduced each member. A question and answer period followed.

Captain Hurt in Basketball

BRITTON — Captain Ronald Mastie, son of Mr. and Mrs. Henry Mastie, of 265 S. Main St., who is stationed at Ft. Walter, Mineral Wells, Tex., broke his left wrist and right elbow Tuesday night while playing basketball at the base.

Capt. Mastie, while battling to keep his Army team in first place, playing against a rough second place team, was elbowed from behind and lost his balance, crashing against the wall of the gym, breaking his wrist and elbow. He is expected to be laid up for two months.

He is in the Army serving as a helicopter pilot. In August, 1969, he was awarded honors for heroism in Vietnam. He received the Distinguished Flying Cross, Bronze Star, 28 medals for his heroic service in Vietnam, along with several other medals and honors he has earned since being in the service.

He has always had a love for basketball. He will be remembered by many Britton Tory fans when he was a hero twice before. He helped capture the first state basketball championship in school history in March, 1963, and in March, 1964, he again helped win the state hoop crown.

His address is: Capt. Ronald Mastie, Town and Country Mobile Court, Lot 76, Mineral Wells, Tex., 76067.

The Wednesday program will begin at 7 p.m. and will feature the Rev. Robert Crist, a former pastor of the Clinton Assembly of God. He recently completed a three-year term as a missionary to Bogota, Columbia. He will leave the end of June for missionary service in Spain.

Thursday, at 7 p.m., the Rev. Eugene E. Grams, a missionary to the Republic of South Africa, will be the speaker. He has been active in evangelism and establishing churches and Sunday School work. During the missionary rally, he will relate some of his experiences with tent evangelism and establishing congregations.

He was able to build four churches during his last term. He will also have a color film to present.

Friday, at 7 p.m., the Rev. Richard Larson, missionary to Panama, one of the newest of the Assembly of God mission fields, will address the Assembly. He will show films and costumes of Panama.

Sunday, at the 11 a.m. morning worship service, the Rev. Andrew McCabe, missionary to N. India, will show slides, picture, costumes and movies. A Scotsman, born and raised in India, he was educated in England and has been a missionary in India since 1900.

The missionary rally meetings are all open to the public, according to the Rev. Ralph Torgerson, pastor of the Assembly of God.

Mungers Celebrate 58th Anniversary

CLINTON — Mr. and Mrs. Max Munger will celebrate their 58th wedding anniversary Sunday at a family gathering in the home of their daughter and husband, Mr. and Mrs. Nello Stevens, of Deerfield.

It is also the 77th birthday anniversary of Mrs. Munger. Her husband will be 80 years young in March. The two still enjoy hunting, ice fishing and bowling.

15-Year-Old Is Exchange Student

CLINTON — Manola Anna Pia Toschnar, 15, arrived in Clinton, Jan. 15, after a 16-hour plane ride from her homeland at La-Serenna, Chile.

A Youth for Understanding Exchange Student, Miss Toschnar will live at the home of Mr. and Mrs. John Truesdale, and will attend Clinton High School in the senior class.

Her parents are Italian, and she was born in Chile, where she attended an English Catholic School. She speaks English fairly well, having studied it eight years. She also speaks Italian, French and Spanish.

Her favorite subjects are chemistry and mathematics. She says she wishes to become a psychologist.

Her family lives near the ocean on a truck gardening farm. She has two sisters and a brother at home. At the Truesdale home there is Mary, 18, also a senior, and Meg, 13, who will provide companionship.

Manola has already found a kindred spirit in Mr. Truesdale, who shares her avid interest in stamp collecting.

Manola has been to Italy, where her parents were born, but this is her first visit to the United States.

She was most interested in the snow here, since she had only seen it in the mountains in Chile.

'Monty' Speaks to Rotary Club

CLINTON — Local Rotarians and their guests were shown in informative, filmed recording of a speech, "Turned out of Grass" by Leon (Monty) Montague, at their dinner meeting, Jan. 21, in the United Church of Christ.

"Monty," a past officer of Rotary International, is an old Kansas cowhand who began his education in a one-room school and later graduated from Kansas State University and Harvard.

He planned the landseaping for Rotary International's World headquarters at Evanston, Ill. After his retirement, at 65, from Rotary International, he became associated with O. M. Scott & Sons, century-old lawn products company, which provides the recorded, filmed address for service clubs throughout the country.

The talk dealt with stimulating people of any age to realize the importance of discovering and developing their special interests and talents prior to retirement, so they can eventually retire "to something, not from something."

Members of the Manchester Optimist Club were guests for the Jan. 28 meeting at which Waldo Johnson of Adrian showed some of his fishing films. Wes Proctor arranged the program.

Police Promote Marvin O. Krans

Vet Facility Is Explained

CLINTON—A frequent visitor to the Michigan Veterans Facility at Grand Rapids, Mrs. John Monaghan described the hospital for members of the Women's Fellowship at the United Church of Christ Thursday evening.

Mrs. Monaghan, who has a brother at the facility, delivered a gift poinsettia from the Fellowship to Billy Still, a polio patient there for the past several years, and who had lived previously in Clinton.

The facility, built in 1886, has continued to serve the veterans of Michigan through five wars and a total of one million veteran patients.

Mrs. Ben Mahrle II presented the devotions. She also briefly told of the work of the Spaulding Home at Chelsea. The Spaulding for Children program seeks to place difficult-to-adopt children with families for adoption. The Spaulding Home is supported by the Michigan United Church of Christ. The program will be explained more fully by a guest speaker at the March meeting of the Fellowship on March 19.

Mrs. Mary Baldwin led a discussion of "Our Christian Concern — Our Environment." She noted statistics that show the imminent encroachment of metropolitan expansion into the rural areas, and suggested the need to be alert to ways to preserve fresh air and water from the dangers of pollution.

Mrs. Arthur Hill conducted the business meeting at which members voted to underwrite part of the cost of sending several members of the local youth fellowship to a weekend church youth retreat at Hi Scope camp northwest of Clinton.

Mrs. Paul Dunham announced that the material aid committee will have a sewing meeting, Jan. 29, at the church, weather permitting. Anyone may attend who wishes to assist with the tying of quilts and rolling of leper bandages. Meeting is at 10 a.m. with those attending asked to bring a sack lunch.

Mrs. Linn Weaver reported on a recent meeting of the Church Women United in Adrian.

Mrs. Robert Vogel and Mrs. John Fox were named to assist with the annual World Day of Prayer service.

Musser was making a left turn from Allen to Bartlett Rd. and apparently swung too wide, striking the northbound Klanke car on Bartlett Rd.

Steven J. Klanke, 2, a passenger in his father's car, and Mrs. Musser sought their own treatment for minor injuries.

Open Session Is Proposed for School

CLINTON — Various architectural changes were discussed pertaining to the high school at last week's School Board meeting.

All bids for equipment are to be in by Feb. 10.

It was suggested that a general meeting be held, open to the public, at which displays, drawings and layouts of the new high school building and its progress could be explained.

Richard Wegner reported on the recent thefts which have occurred at the high school and which are still being investigated by State Police.

It was voted to retain the law offices of F. M. Thrun & Sons for the year on labor negotiation matters.

The February meeting of the school board will be held a week early, on Feb. 10, since several members are planning to attend the American Association of School Administrators Conference at Atlantic City.

Guidance Director Explains Program to School Board

CLINTON — Daniel Schindler, director of guidance, gave a comprehensive report of the new Michigan Assessment of Education at the Board of Education meeting, Jan. 20.

The state-wide assessment tests are to be given to fourth and seventh grade students this spring. Tests include basic skills, as well as information on social economic background, pupil attitudes and aspirations.

Neither individual pupils or individual teachers will be identified in the reporting process, Mr. Schindle explained. The information gained by the assessment throughout the state will provide information for those concerned with the problems of education in the state.

Officials Pessimistic About 8 Mills For New Tecumseh High School, Middle School

A large turnout of voters is expected at the polls next Tuesday when the Tecumseh schools' request for eight mills goes before the district electorate.

Polls at the Tecumseh High School cafeteria will be open from 7 a.m. to 8 p.m.

The eight mills, if approved, will be used to finance a $9.7 million school building program, including a new Tecumseh High School which has been estimated by architects to cost $7.9 million.

A considerable portion of the total costs has been allocated for additions and remodeling the present high school for a middle school of grades six, seven and eight.

FACE BIGGEST TEST — Tecumseh wrestlers, undefeated in the Huron League, face their stiffest test this Thursday evening when a likewise undefeated team from Flat Rock invades the local gym. Jayvee matches will start at 6:30 and the varsity at eight o'clock. Steve Tilton, one of Coach Pat Connor's top wrestlers, is shown here in a recent match and has gained a big advantage. He and his teammates will have their hands full against the Rams in what Connor calls a toss-up. Tecumseh will defend its league crown at Blissfield on Feb. 14.

School Board and the administration have met for the past two years with building experts and architects, and have gained approval from the State Department of Education for sale of bonds for the construction program.

During the past several weeks, the Board and officials have held public meetings, attempting to acquaint voters with their problems and needs. These meetings have been poorly attended.

This Sunday afternoon at three o'clock, the final public meeting will be held in the high school library. Folks are urged to attend and ask any question relative to the bond issue and building program.

In past weeks, school officials have pointed out the growing enrollment, crowded conditions and lack of facilities and space to continue a first rate educational program.

They have said that a new high school will solve not only a classroom shortage in the upper four grades, but also at the junior high and elementary levels. It's been said that a new high school will allow the school system to abandon the present junior high building — some 50 years old — and by moving the sixth grade into a middle school, it will give the schools eight additional elementary classrooms.

Although Tecumseh plans to open the new Sutton Elementary School in April, or thereabouts, an elementary classroom shortage is almost certain to hit the schools in a couple of years.

Practically all talk has been against the schools' eight mills and proposed building program. Odds are in favor of rejection, and according to school officials, it will merely mean bringing the proposal back again before the voters.

Questions and Answers

By Aden Mead, President
Board of Education

(Following is a sampling of some questions asked by interested folks at recent public meetings about Tuesday's school election. Questions here are ones asked most often.)

We Oppose "Frills" Which We Have Seen in Many School Buildings. How "Frilly" Do You Propose to Make the New High School?

We have never favored "Frills" or excessive ornamentation in any of our buildings. We believe if you will inspect the elementary buildings which have been constructed in recent years this will be borne out. We have chosen the same firm of architects to design the building who have designed Patterson, Tipton, Tecumseh Acres and the new Sutton School. This is a firm which specializes in school design, and we believe their ideas are sound and practical. However, we might say in defense of some of the features such as glazed tile walls in many places where cement block could have been used, or terrazza floors where asbestos tile might have been used, that we have also considered long wear and economy of maintenance. Sometimes putting a little better material at the beginning costs less in the long run and looks much better without excessive maintenance costs for a much longer period of time.

With Building Costs Rising and Interest Rates Going Up, Wouldn't It Be Better to Wait and Launch This Program After Our Economy Has "Cooled Off?"

Building contractors, investment brokers and economists whom we have consulted all seem to agree that costs are due to rise steadily for some time to come. Figures we have at hand which show that costs per square foot of school building have risen each year since 1950 seem to prove this. Under the circumstances we feel it is foolish to wait, since costs next year or the year after will surely be more than they are now. Another factor to consider is that our needs are now; if we wait longer our problems of space will be compounded.

Why Do You Consider Such a Long Bonding Period as 30 Years?

First of all, it does not necessarily mean that we will use the full 30-year period as set up, since as our property evaluation rises as a result of new building in the area within the next few years, we will be collecting more money at the same rate. This will enable us to pay off the bond issue faster, as we have done with every building we have built. None of ou r previous bond issues went the full length of time. However, there is something further to be said in favor of a long-term bond issue. This makes it possible to extend the payment for building facilities to new families who will be enjoying these buildings for years to come. In this way, the one generation of parents are not asked to build buildings which otherwise might be used free of purchase payment by parents of children who will be enjoying them many years hence. It is a method of spreading the responsibility over a larger group of parents.

I Understand Your High School Classes Average About 30 to 35 Students Each. Then Why Do You Say the High School is "Overcrowded?"

It is true that we have tried to keep down class size in order to maintain the best possible teaching situation. Certainly a teacher can give more time to individuals in a smaller class. But, when we refer to overcrowding, we are referring to the number of students who must pass through narrow corridors and narrow stairs which were originally designed to handle less than half the number of students they are now handling. Also, in order to prevent over crowding of classrooms, we have had to put many more students in study halls each period. Our main library study hall is now crowded far beyond its original capacity, and we have had to set up auxiliary study halls which have more than 150 students during some periods of the day. If the size of our study halls were cu down, we would not have classrooms enough to accommodate the students.

What Will Happen If the Bond Issue Does Not Pass?

We suppose that we will just have to try again at a later date; because the problem just will not go away merely by our turning our backs to it. Since the projected completion date of a new high school is 1973, we can see many problems becoming acute long before that time, if our high school continues to grow, we would probably have to undertake half-day sessions with one group of students going to school from 7 to 12 and another group from 12:30 to 5:30, or similar hours. We are now operating a 7-hour day in high school in order to accommodate all students, and we cannot lengthen the day since this would not accomplish our purpose for all pupils in school certain periods of the day. It would also mean continuing use of sub-standard rooms in our present Junior High and probably a return to same sub-standard rooms for elementary students.

Why Will Building a New High School Relieve Over Crowding In Our Elementary Schools?

The new high school is only a part of the package program. Also included is a remodeling program for the present High School to make it into a Middle School for 6th, 7th, and 8th grade students. This will allow us to pull all 6th grade students from our elementary buildings and to use those rooms vacated for other elementary students. This in itself is the equivalent of building one new Elementary Building.

If the Present High School Now Accommodates Over 1,000 Students, Why Do You Need to Make it Larger In Order to Handle Several Hundred Fewer Middle School Students?

Like our present Junior High, a Middle School does not operate similar to a High School. In a Middle School each student is in a class room each period—there are no study halls. Supervised study is handled within each class room. So you need more rooms to handle the number of students who will be involved. Also, newer teaching methods which include team-teaching and closed circuit television require that rooms can be opened up by sliding walls so that several groups of students can be brought together on occasion for special group study. Fixed walls and fixed room sizes in our present high school building do not allow this.

Firemen Opposing Move of Station

Although plans for years have placed a new city fire station at city hall, such may not be the case. The subject was brought up at Council Monday night, and though it was apparently decided previously that a new station would be located at city hall, officials now appeared not so sure.

Wallace MacGeorge, fire chief, presented a letter to each official, expressing the department's opinion about moving from its present location on South Evans St.

He cited where volunteer firemen live in relation to a city hall site, the time which would be lost in traveling to city hall, additional busy intersections which firemen would have to cross in unmarked cars, need of full-time firemen, and the greater population in the west section of town.

"We have stated in the past that we would rather operate as an efficient department in the old building, than be part of a show place at city hall — we still feel this way," remarked the fire chief in his letter.

It has been no rumor that most firemen do not want the station to be relocated at city hall. In his letter, MacGeorge reported that some men on the department will drop out if the station is moved.

He said that when a major change in policy or change in location is in the planning, "we would assume the changes would in some way improve the service, or be more economical to operate, or have some major advantage to warrant a change. In my opinion, this is not the case in relocating the fire station at City Hall."

Cal Zorn, city manager, told Council that he was simply carrying out plans that were made before he came to Tecumseh. He said original plans had called for the station to be relocated and built adjacent to city hall, and that he had known nothing about changing these plans.

He referred to MacGeorge's letter and told officials that perhaps we had better take another look "if firemen are going to quit the department."

City officials discussed the advantages and disadvantages of traffic to the present station and to city hall, the efficiency at both stations, the possibility of rebuilding the north section of the present station, and a station now scheduled for the architectural drawings at city hall.

At the present Tecumseh has three full-time drivers and firemen, four auxiliary firemen and 16 volunteers.

Although most of Council's discussion took into consideration Mr. MacGeorge's letter, the fire chief was present at the meeting, answered a few questions, and invited the Council to the department's regular meeting Tuesday night.

Three Councilmen, Harold Easton, Don Sunderland and Ray Puffer, attended the firemen's meeting and generally agreed that if the firemen wanted the station at its present site, there was no reason why it couldn't stay there.

Clean City Hall for $350 Month

P and R Janitorial Service was given a six-month contract for cleaning city hall by Council Monday night.

Cal Zorn, city manager, told officials that it was costing the city about $400 per month plus materials at the present, and the janitorial service would do it for $350 per month, including materials.

Room Rates, Salaries Up at Hospital

New room rates and salary increases at Herrick Hospital and Nursing Home went into effect last month.

Rooms were increased by $2.50 per bed per day, effective Jan. 1, and salary hikes, generally amounting to 6½%, went into effect on Jan. 5, according to William Groover, hospital administrator.

Private rooms will now cost $43.50; semi-private, $37.50; and ward, $34.50. Rates are comparable to other hospitals in the area.

Beginning scale now for a registered nurse is $3.38 per hour, with a top of $3.76 per hour. Both salaries and room rates were also adjusted a year ago.

Sunderland Not Running

Don Sunderland, a six-year veteran on city Council, has announced his retirement and will not seek re-election in April. He rejected a petition Monday night after the regular Council session.

Three incumbents, however, accepted petitions and apparently will run again. They include Mayor Harold Easton, Dr. Carlton Cook and Wallace Whiting.

Petitions are available at the clerk's office and must be filed there by Feb. 16.

Council Dissolves Cemetery Assn.,

Tecumseh Cemetery Association was abolished by Council Monday night when officals approved a letter of appreciation to the Association's members.

It was pointed out that the Association met just once each quarter and had very little business to conduct.

In reference to investments for Cemetery Perpetual Care Funds, City Manager Cal Zorn recommended the investments be transferred to corporate bonds, paying approximate 9% interest.

These funds include West Shore Railroad Company bonds, redemption of the city of Tecumseh auto parking bonds, cashing in Series H bonds and cashing in of Certificates of Deposit at First Federal Savings.

"You will know them when you see them," remarked one of the co-ordinators at the meeting of the Irish Hills Tourist Association last Friday evening when plans got underway to host the 11th Annual National Campers and Hikers Association Convention this summer.

He was speaking of the colorful vests that most campers, large and small, wear displaying their own special patch. This year Stephen Papovich of the weekenders of Warren received a $25 Savings Bond for designing the red, white, blue and black patch showing an outline of Michigan twin peninsulas with the Big Mac bridge superimposed.

The NCHA patch will be much in evidence the second week in July when the 32,000 campers invade the area. Here's hoping we can be as well organized as hosts as they are as campers.

Both Easton and Wallace Whiting voted against accepting the low bid.

VOICE of THE HERALD

Miracle Is Needed

Only a blizzard or a miracle will pass next Tuesday's eight mills for a $9.7 million construction program for the Tecumseh schools.

There is practically little or no support for the program, although most will agree that the schools need a new high school — or a bond issue will be passed "sometime" for a new high school.

The fact that many agree that a new high school is justified, or that a bond issue will be approved in the future, would indicate a vote of confidence in the local schools. It won't happen, though.

Tuesday's school program is doomed for defeat, only to reappear in the future. Perhaps, as Monroe voters have discovered, it will come again before the electorate at a greater cost to the voters themselves.

We can defeat the bond issue and appreciate the reality that "another" school tax will not be tacked on to what is already a tax burden. Or, we can approve the bond issue, and breathe a bit easier, realizing that what we did was necessary, for the good of education and our youngsters, and at a far lesser cost than what may be necessary in the future.

Tecumseh is going to have a new high school, one we can be proud of. We are going to vote for a new high school, and vote the extra millage necessary to build one.

It may not be eight mills we act upon, but we are going to pass the necessary millage—perhaps 10, 11, or 12 mills—for that new school. It may be in 1972. It may be 1975.

Why not face our problems now and pass the millage next Tuesday?

WHOOOOO PEEEEEE—Tammy Downing and Sue Feight leave the starting shed at Frontier Highlands across from Frontier City for a long ride on the toboggan. Down 1500 feet in the metal runway before the big sleds take off by themselves and glide far out into the fields. Back up again by wagon and lift to the warming shed and then down again. Good way to wear off that excess energy of the young fry.

Revival Services Are Scheduled for Feb. 8-11

Joe Shultz, of Campus Living Association of Canton, O., will be preaching for Revival Services at the Raisin Center Friends Church, Feb. 8-11. Services begin at 10:00 on Sunday and at 7:30 p.m. each evening.

Rev. Dan Frost is the pastor of Raisin Center Friends Church, located on the corner of Raisin Center Highway and Laberdee Rd. A cordial invitation is extended to all who wish to attend these services.

OPEN LINE

Q What is scientific forest management?

A In the early years of Michigan's industrial development, loggers overcut our native forests and left behind eroding riverbanks. Consumers Power helped to restore these lands through reforestation. Today, through scientific forest management, we set limits on the number of trees cut down and continue to plant new trees where needed. Thus the forests provide a continuing harvest for use by the wood and paper industries.

Q What kind of recreation facilities are available on Consumers Power lands?

A Consumers Power maintains 39 recreation areas along the Muskegon, Manistee and Au Sable Rivers. These areas are variously designated for camping, boating, picnicking and fishing. All are open to the public, and we ask only that visitors respect the rules pertaining to use of the lands. For reasons of sanitation, we try to keep the public particularly aware of camping regulations.

Q What are the limits of camping in the recreation areas?

A Camping is permitted only at those sites where it is authorized. These authorized campsites are equipped with the necessary services and facilities. Most are operated by the State of Michigan. Consumers Power must insist that any tents and trailers in unauthorized areas be removed. Only by observing the rules can we keep our recreation sites in good condition for use by all.

Making Life Better®

No, John Halberstam isn't a farmer. He's planting trees for the power company.

For Consumers Power, cultivating trees is an important part of our good neighbor policy. The company owns some 750 miles of land along the banks of the Au Sable, Manistee and Muskegon Rivers. By combining the operation of our hydroelectric plants with scientific forest and land use management, we are able to provide vacationers with some of Michigan's most beautiful recreation areas. Where riverlands have been misused in the past, we have worked with state and federal conservation agencies and with volunteer groups to reclaim the areas. Because we live here and work here, we care about making life better.

STUDY THIS CHART CAREFULLY

See how the nerves go through the spinal openings? Nerve pressure at one or more of these points may be the underlying CAUSE OF YOUR CONDITION!

WHAT'S YOUR PROBLEM?

Have you been wondering just how Chiropractors can tell what your problem is, sometimes without your even telling them your symptoms? A Chiropractor can check a patient's back with careful palpation, the art of feeling, and be able to tell the patient what his symptoms might be.

The reason for this is, during his training he has learned just how our bodies function and what nerves control each functioning part. Each nerve runs down through our spines, which we call vertebras. If one of these vertebraes is out of line it usually is touching a nerve, therefore, causing an interference with that nerve. The part of the body that the nerve goes to will not be receiving the full strength of that nerve flow and then problems begin. The diagram following, shows how, if the nerves are pinched at certain points of the spine, it could be the underlying cause of your condition.

A Chiropractor will then give the patient an adjustment, moving the vertebrae back into its normal position, allowing the nerve to be free of interference and allowing the natural flow of life to again travel its intended destination. Your body takes over and does all the work. "Nature needs no help to get you well, just no interference."

80th Anniversary for Mr. Robison

Ernest Robison was the recipient of a surprise birthday party Sunday when his daughter and husband, Mr. and Mrs. Leo Stoll, of Sydney, Ohio plotted in his favor.

The Sam Robisons of Clinton came for dinner at Ernie's home and he wasn't suspicious when Duncan Robison of Saline showed up or Mr. and Mrs. Robert Dunny and Laura Halstead of Macon, but when they brought a cake, decorated by Mrs. Rose Service, then Ernie began to question.

About 40 gathered to congratulate the long time Tecumseh-ite on his 80th anniversary. He came to Tecumseh in 1929.

Victim Needs Kidney Aid

By Maxine Calhoun

Howard Hyder, 24, victim of Bright's disease which has affected both kidneys, was placed on a kidney machine at University Hospital, Friday.

He must use the machine three times a week, six hours each time, and may have to use it the rest of his life.

Mr. Hyder has been assistant manager of Vescio's, Tecumseh, for the past five years.

Married just two years he resides with his wife, Elona, at 8187 Pixley Rd., Palmyra. Mrs. Hyder is the manager at Mary Sanchez Beauty Salon, Blissfield.

HOWARD HYDER

Mr. Hyder first became aware of his illness two years ago, however, he was able to continue working until he entered the hospital, Nov. 24, and was released just before Christmas week, and then returned to University Hospital on Jan. 1.

Mr. Hyder was given temporary medical treatment until one of the four precious kidney machines at the hospital was available for him.

Efforts to use any of his relatives as a donor for a kidney transplant were ruled out by specialists.

Mrs. Hyder said the doctors told her they were hopeful that medical research in kidney transplants would be advanced in two years to permit successful transplants from deceased donors.

For the next two months, Mr. Hyder and his wife will be trained to use the kidney machine before he is allowed to go home, possibly in April.

The cost of the machine that he will need is $5,000, and it will cost $3,000 a year just for the medication to maintain it. The couple know they will need help to raise this amount of money, since their insurance will be used up before he is released from the hospital.

His parents, Mr. and Mrs. Donald Hyder recently moved from Tennessee, are staying at the home of a daughter and son-in-law, Mr. and Mrs. Clyde Frederick, Adrian.

Jaycee Auxiliaries throughout Michigan have raised funds to purchase six kidney machines by collecting Betty Crocker coupons which they redeem through General Mills, Inc. Tecumseh Jaycees recently sent a large quantity of the coupons to the Michigan Jaycee Auxiliary for that project.

Is there any way to obtain a machine for Howard Hyder?

Grosse Ile Is Good, 78-66

A good Grosse Ile five broke loose in the final three quarters to score a 12-point victory here over the Indians, 78 to 66.

Tecumseh jumped off to a 15 to 11 first quarter lead, but faltered in the second period when the Red Devils switched to a zone defense. The defense collared the Indians while the offense began clicking.

Coach Vic Lawson's club turned in one of its better games and actually out-shot GI from the floor, connecting on 28 goals to 26 for the visitors. If the Indians had shot better at the free throw line, they might have upset GI, which has a 7-1 record in the league.

The Indians shot less than 50% from the foul line, hitting on just 10 of 22 shots, while GI pitched in 26 of 32 attempts. Another big difference and factor was in rebounding, where the Red Devils dominated the boards.

Craig Smith and Bill Puffer paced the Indian attack with 16 and 14 points, respectively. Ken Pich tallied 12 points.

Coach Jim Curth's Jaycee team rallied in the second half to squeak out a 53-52 win. The Indians were down by 10 points at half time.

45-15 Win Is Posted by Matmen

Coach Pat Connor's tough wrestling team, undefeated in the Huron League, posted an easy win over Airport last week, 45 to 15.

Five varsity wrestlers — Jim Freshcorn, Abel Valdes, Joe Bailey, Marv Maynard, Gary Jones, Steve Tilton, Steve Hinkleman, Bob Hackett and Tom Van Sickle — won their matches with pins.

In the Jaycee matches, Tecumseh won 36 to 30, with Greg Cote, Dave Biscupski, Paul Murray, Richard Smith, Mike Tilton and Chuck Albaugh winning by pins.

Girls Keep on Winning

Tecumseh girls basketball teams continued winning as the Jayvees dumped Saline, 2-11, and the Varsity shipped by, 40-32.

Leading scorer for the Jayvees was Mary Jo Rosacrans with 11 points.

The Varsity played its toughest game of the season and trailed at the half, 18-16. The girls rolled in the fourth quarter for a victory, outscoring Saline, 18-9.

There was plenty of action as five players fouled out — Jackie Rodgers, Julie Desmet and Ellen Zimmerman of Tecumseh and Mary Elliot and Shirley T. Outerhout of Saline.

Nancy Dustin scored 14 points for Tecumseh and Jackie Rodgers 10.

Nine-scoring honors went to Mary Elliot of Saline with 16.

Tecumseh Indians at Monroe Friday

Tecumseh Indians hope to make it two straight over Monroe CC Friday night with hopes of a third or fourth place finish in the Huron League.

Indians Lose at Brooklyn

In today's era of high scoring basketball, 12 points a quarter leaves quite a bit to be desired. Saturday night the Tecumseh Indians traveled to Brooklyn and tallied just 12 points total in the two whole quarters.

A 12-point first half was too much for the Indians, who outscored their bigger rivals in the final two periods by one point. Columbia Central eventually won, 49 to 39, and did it rather easily.

Only a 1-point final period by Tecumseh made the score respectable.

For the second straight night the Indians faced a troublesome zone defense, coupled with the taller Columbia team. Tecumseh often managed just one shot.

At the end of three quarters the winners were ahead, 40-23.

The loss dropped the Indians' record to 5-7 for the season. Columbia Central, which had a much better team a year ago, is now 6-3.

Stites To Speak To Rotary Club

Rep. Robert Stites will speak to the Tecumseh Rotary Club next Tuesday evening at the club's weekly meeting at Bauer Manor.

Tuesday night, the club welcomed Jack Whelan as a new member and discussed membership, projects, finances and public service. Visiting Rotarians were Peter Garvin and Roy Brighton of Adrian.

At a previous meeting, Sydney Adams took over the program when the regular speaker was unable to attend due to the weather. He told about his training and professional work as a chiropractor.

Jayvees Win Easily

First annual wrestling tournament for ninth and 10th graders was held here Saturday with the Tecumseh Jayvees walking off with top honors.

The Indians rolled up 133 points with a distant Adrian second with 95 points. Other scores were: Onsted, 48; Manchester, 48; Addison, 34; Blissfield, 24; Hudson, 23; and Clinton, 16. Morenci, in its first year of wrestling, was shut out.

Local wrestlers copped five individual titles: Jim Freshcorn defeated Dan Preston, Manchester, 7-2, for 98-pound crown; Bill Knapp outpointed Jim Handy, Clinton, 123 pounds; Dan Brooks pinned teammate Dave Biscupski, 130 pounds; Mike Tilton pinned Paul Seegert, Manchester, 145; and Richard Smith took Dave Caphin, Manchester.

Second place Tecumseh winners were Biscupski and Paul Murray. Greg Cote, Scott Smith, Jeff Winkler, Don Cox and Tom Van Sickle took third place spots. A fourth place was won by Ed Dragnus.

Three other trophies were awarded at the tournament with Tilton picking up Tecumseh individual honors as one of the two outstanding wrestlers in the meet. Mike pinned his opponent in every match.

Tora Conrad of Onsted, won the other outstanding honor, and also took a second trophy when he pinned an Onsted teammate in just 11 seconds for the fastest pin.

There were 13 individual wrestling matches, and from performances turned in by the Tecumseh Jayvees, the Indians' future in wrestling looks very good.

Hockey Club Loses, 2-1

Adrian downed Tecumseh, 2-1, Saturday in the first inter-recreational department - sponsored hockey game between the two communities.

All of the boys who participated in the game were high school and junior high students.

Boys on the Tecumseh roster were Bob and John Merz, Craig Van Camp, Dwight Burkhart, Mark Graf, Mark Koecho, Tony Caterina, Bill Rohrer, Jeff King, Jim Sisson, Chuck Hanna and Mark Deloy.

Van Camp, assisted by Dwight Burkhart, made the lone Tecumseh goal.

Under the supervision of Ward Eardley and Jim Hughes, it is hoped that more interest will be generated and more boys come out. Practice times are announced at both junior and senior high schools.

Providing there is good ice, the next game is planned for Saturday, Feb. 7, behind the police station in Tecumseh.

At the present time, Mr. Eardley is looking for other community teams to set up a schedule for next year.

Why A New Tecumseh High School?

Because it isa part of the best possible plan to do away with overcrowding in all our schools and to improve the educational program for all our children.

This plan is the result of some two years of deliberation by the teachers, pupils, administrators, qualified college and lay personnel and parents. The high school enrollment this fall was 1,066, over four times what it was 20 years ago when the present high school was built. Despite several additions to the original building and operating it seven hours a day instead of the usual six, this may be the last year that we can crowd the students in the building without running two sessions. This would mean some children would go in the morning and some in the afternoon. Athletic programs, band, chorus, and other extra curricular activities would have to be abandoned. A new building at a new location is desired, because today the minimum land requirement by the Michigan Department of Public Instruction for a high school is 40 acres. We have just over 20 acres at the present location and both the high school and junior high must use the outdoor facilities. Further additions to use the present High School for the upper four grades have been deemed unwise by the Dept. of Public Education and the architects.

Because of the many changes in the last 20 years, particularly in family life and growth in scientific knowledge in the world, we can no longer keep pace at our present high school in providing the quality education needed for college bound students and those entering the world of work. These reasons are basic to a new high school: lack of space to house the pupils and lack of facilities for use of modern aids to education, closed circuit TV, materials center, large group instruction areas, adequate shops and science rooms, language laboratories and vocal and instrumental music areas. One example of this need is the fact that we have to use the cafeteria for band, chorus, and overflow study halls for many years. Actually we house at times during the day over 180 pupils in a study hall library situation that was designed for 100, and at the same time find it necessary to place the balance of 55 pupils we are not able to crowd into this room in a special study hall period in the cafeteria.

Because many parents and merchants do not desire to have over 1,600 pupils turned loose downtown at noon and we cannot possibly keep them in school during lunch hour without much larger facilities than we have at present.

Because we need for the use of the entire district, adults as well as children, an auditorium, swimming pool, and larger gym. Our community has never been able to enjoy the educational and recreational benefits of an auditorium. Our Tecumseh Players are without facilities, and quality professional entertainment and educational programs cannot be seen in Tecumseh. The high school gym will no longer house the crowds attending our athletic events and special programs, such as graduation. With the growth in interest in boating and the abundance of lakes in our area, it is imperative that we teach swimming to all children as well as the adults who wish to learn. This cannot be done in the few summer months that the city pool and pit are open. **Because classroom walls throughout the district are simply closing in.** A new high school solves this problem in grades 9-12, and will allow us to use the present high school for a middle school, relieving overcrowding in the 6-8 grades.

Why A Middle School?

Because our seventh and eighth grade junior high is overcrowded as well as our kindergarten-6th elementary schools and the present high school can, by additions and alterations, house the 6th, 7th and 8th grades. By this plan eight classrooms would be available in our elementary buildings thus providing for both present and future needs.

Because educators, nationally, recommended middle schools, 6-7-8 grades. Pre-adolescent and early adolescent children should be given an opportunity to associate with a large number of other children that are in asimilar phase of development and level of maturitly. Children today that are in the 6th grade have a greater knowledge of the world than in the past, due to the news media, TV, etc., that they need additional subjects beyond the 3 R's, homemaking, arts and crafts, science, beginning foreign language, and more adequate vocal and instrumental music instruction. They need more flexible groupings, as in the Junior High, so that programs for slow and gifted children can be developed as well as improved programs for the average. These programs cannot be developed for the 6th grades in the present elementary buildings because there are no facilities available for this purpose and there are not enough children at any location. There would be approximately 300 children in each grade in the middle school. Counseling services which the children need could also be provided at a minimum of expense for all these grades.

Because the present junior high is over 50 years old and expensive to mantain and operate and has been condemned twice by the State Fire Marshal. Each of these times the Board has complied with the Marshal's demands but at considerable expense to the taxpayers and also by making the building more difficult to use for educational purposes. The heating system is overextended, toilets and lavatories are inadequate, and classroom space at a premium. Approximately 600 pupils are housed during peak periods and are accomodated only by running an extra hour a day as in the high school and by holding vocal music classes in the basement of the public library. The approximate 70 pupils, enrolling for the first time this year in the Tecumseh schools due to the closing of the 7th and 8th grades in St. Elizabeth, have put us near the breaking point to operate at all in the present building. There is no room to expand at this location even if the Fire Marshal and the Michigan State Department of Public Instruction would approve it.

Because the new portion of the present junior high, which was a gift to the schools, can be used as a materials center and processing agency for all of our school libraries as well as the public library. This facility has been badly needed for some time.

What Will This Program Cost Now?

The total cost to eliminate the overcrowding throughout the school system, kindergarten-12 and to provide quality education for children as well as adults, will cost $9,700,000.00. Our school architects have estimated this cost for completion if the proposal is passed by the electorate at this time and construction can be completed within three years. If not, they estimate the cost will be considerably greater. The Board employs experts in Lansing in the field of school law and finance to advise them. Their recommendation is that, through the school bond loan program and 30-year bonds, the total program can begin at 8 mills, or less, depending upon evaluation next fall. As the years go by this 8-mill levy can be decreased as the district evaluation increases. The Board reduced the rate on the last bond issue from 8 mills to 6.32 mills as the evaluation increased. The State Department of Public Instruction has approved our plans and will approve the sale of our bonds, if the proposition is voted affirmatively. Some districts do not receive this approval and bond sales are made more difficult and interest rates more costly.

The cost of school construction has almost doubled in the last 5 years. The Board believes this is the time to solve the problems of overcrowding and to provide the facilities needed for quality education. We cannot continue much longer to maintain the level of education which our citizens have come to expect because there are not enough rooms available to house the children. Providing an improved curriculum for the needs of the children as they grow to adulthood is impossible under present conditions. The plans presented to you are the result of selecting the most economical ways to make a quality education available for all children. We are in serious trouble due to overcrowding today and we can not cope with tomorrow without your help.

Nazarenes Show Progress

By Rev. Herbert Nation

Early in 1962 a building fund was initiated on the local level. There was a march each Sunday, the men and boys against the girls and women to give into the fund. This was discontinued after some time and the plan was devised to take the Sunday School offering, the first Sunday of each month, and place that in the building fund. People were encouraged, and one Sunday $147.00 came in.

When a little over $5,000 was in the building fund, a donor gave $10,000.00 into the building fund, and a few months later another donor was also generous in giving the church $25,000. The church was under construction at this time.

Our own people rallied with gifts of $1,000 and $500, and smaller gifts.

Former members living near Chicago, pledged $1,000 for church furniture.

On Easter Sunday morning in 1968, we held our first service in the new sanctuary. Although the building was not 100% completed, the anthems and prayers rang from the hearts of those in attendance.

Since that time we received another very generous donation which paid our indebtedness completely and allows some to complete our parking area, steeple for the church, and to complete the building for further class room facilities in the basement of the church.

Tecumseh Church of Nazarene has given over 10% to the cause of world missions for four consecutive years — right through the building program. This past year it was over 12%.

Our church showed a decline in Sunday School attendance for a while, but is now beginning to pick up. We will soon have more adequate facilities for a departmentalized Sunday School.

BUT WHAT SPARROWS THEY ARE!

Ordinarily when we speak of sparrows, it conjures up a picture of the dull, drab, quarrelsome, busybody English sparrows. These are not native birds, they really should not be here at all. And my thoughts about the poor misguided soul who imported them are far from nice; in fact, they are not even printable. There are charmers in the sparrow family, however, and they seem to be everything that the English sparrows are not.

Fortunately among our bird feeder patrons there are some of these nice sparrows. An old favorite who is truly doing itself proud this year is the song sparrow. There is at least a trio around and perhaps a quartet. They are round little birds with fat bodies and rounded tails.

They are about 6¼ inches long and beautifully striped. All over they are striped—their heads and back-sides are dark, rich brown with darker brown markings, the small indistinctive bibs high under their jills are white but most identifiable are their soft pearl white and heavily marked breasts whose dark spots are arranged into stripes. Right smack in the middle of these are the true signatures of the song sparrows, the stick pin spots.

Although notorious ground feeders, the song sparrow this year have been forced into paying regular visits to the feeding trays. Whereas they are quite happy in picking up food other birds 'impolitely drop from their plates', when the snow was so deep the left overs quickly sink out of sight and reach. These little birds are well named, they have musical songs and are often inspired to start serenading long before other birds have even begun to think of exercising their vocal chords. Any bright, sunny day is apt to be enlightened by these little characters singing their hearts out from the top of a low bush or fence post.

Our other sparrow visitor, who is even more fun but in an entirely different way, is the tree sparrow. Four of these characters are with us and when they are all dining there is never a dull moment. Cocky, scrappy, and just downright belligerent. The feeders are all large enough for communal dining but one little 6½ inch tree sparrow is seldom inclined to share with another little 6½ inch tree sparrow. He is also not about to share with a nuthatch or a tufted titmouse or a chick-a-dee or a goldfinch and certainly not a common English sparrow. With his two-toned bill open (the bottom mandible is yellow, the top dark brown or black) the feathers on the top of his head brstled up, he takes after anyone uninformed enough to entertain such silly thoughts as sharing.

Appearance-wise the tree sparrow is dapper and quite handsome. The cap on top of his head is almost a rusty brick red; his white throat gradually shades into an unstreaked gray breast with a sharply defined single spot, positioned much as is the song sparrow's; his tail is sharply forked and his wings brightly marked with two white bars; above and below the thin black stripe going through his eye, is a soft, gray area.

Both of these birds have interesting chapters in the bird books. Other names for song sparrow, for example, are silver tongue, everybody's darling, red grassbird, swamp finch, and ground sparrow. This is a story in itself, isn't it? The tree sparrow, on the other hand, is known under the aliases of snow chippy, winter chip-bird, tree bunting, and artic chipper. Actually, these are very apt names because the tree sparrows are winter birds. They nest in the far north and come to spend their 'happy winter in the sun' with us. Incidentally, this sparrow is a prodigious weed seed eater, a conservative estimate mentions ¾ ounce of seed per bird per day. This doesn't seem overwhelming until that man who plays with side-rules and compasses, came up with the gem that, in a state such as Iowa, the population of wintering tree sparrows would probably eat at least 875 tons of weed seeds. One wonders if we should not encourage tree sparrows instead of spending so much money on and causing so much harm with chemical weed killers.

So it is that the bird watching business is booming lately and a great deal of fun centers around sparrows — but what sparrows they are!

Camp Fire Girls Pick Indian Name

Fourth grade Camp Fire Girls of Ridgeway have chosen their Indian name — Kez hi Kone, wik mun kee wees.

At their first January meeting the girls enjoyed candy brought home from Columbia, South America by their guardian Mrs. Jorge Galindo.

Mrs. Galindo and her family spent the holidays visiting relatives in Bogota, Columbia. During her absence the girls continued meeting at her home to work on Christmas gifts for their parents.

Their assistant Mrs. Richard Birdwell held meetings with help of two mothers, Mrs. William Mason, and Mrs. William Browne.

The Kez hi kone, wik mun kee wees, recently received an honor at the annual Tuckabatchee Council meeting held in Blissfield when Mrs. Galindo was awarded a certificate and a fresh rose for outstanding work as a leader.

The group's first official ceremonial as Camp Fire Girls was held Tuesday at Mrs. Galindo's home. The girls invited their teacher, Mrs. Burtless, to be their special guest at the event.

Working as a group, the girls earned 35 honor beads for such activities as helping with UNICEF, annual candy sale, and the work they did on Christmas gifts.

Mrs. Galindo presented each girl with a candy sale certificate. The girls sold 20 boxes of candy.

Girls in the group are Jamie Browne, Maureen Galindo, Lisa Goll, Kathy Harris, Colleen Kopka, Karen Kapnick, Lavonne Richardson, Suzanne Sanchez, and Susan Wegner.

Sponsors are the Episcopal Church Women of St. Peter's Episcopal Church.

Pastor tell me

By DUANE H. McNEIL

CAN WE REACH THE DEAD?

A great enthusiasm for all types of Spirit dealings has arisen.... Astrology, witchcraft, palmistry, fortune telling, manipulations of Playing Cards and even Ouija Boards have become popular. These facts alone tell something about our present "Restless" generation.

Galatians 5:19-21 lists several things which do not please God. In verse 20 is found Witchcraft. This Greek word can mean all sorts of things which we might use to forecast the future.

King Saul in Old Testament History wanted to reach the dead Prophet Samuel so he visited a witch at Endor. This story in 1 Samuel 28 has some interesting features. The witch in no way could contact Samuel. God allowed Saul to speak with Samuel and the message was the same given to Saul previously.

Some folks have an ability to forsee some events. However, if this were a gift or permanent bestowment, why are they only partially correct?

Preachers who study the Bible can fortell the future. They can tell of the approach of Christ's return. They can forecast Heaven and Hell for the Saved and Unsaved. They can picture misery, unhappiness, unrest, distress and disappointment for Christ Rejectors. Also they can see delight, joy, peace, assurance and satisfaction to those who are Saved. See John 14:1-6.

Mrs. R. Moore Was Nominated

Mrs. Richard Moore has been nominated as president of the Hall Memorial Library Association with the annual meeting to be at 7:30 p.m. Feb. 12 in the Ridgeway Library.

Other nominees are:

Vice President — Mrs. Wayne Mayes, Mrs. Russell Cadmus.

Treasurer — Mrs. Victor Peterson, Mrs. Jorge Galindo.

SPECIAL SCHOOL ELECTION

NOTICE OF SPECIAL ELECTION OF THE QUALIFIED ELECTORS OF TECUMSEH PUBLIC SCHOOLS LENAWEE COUNTY, MICHIGAN TO BE HELD FEBRUARY 10, 1970

To the Qualified Electors of Said School District:

Please Take Notice that a special election of the qualified electors of Tecumseh Public Schools, Lenawee County, Michigan, will be held in the High School Cafeteria, in the City of Tecumseh, Michigan, on Tuesday, February 10, 1970.

The Polls of Election will open at 7:00 o'clock a.m., and close at 8:00 o'clock, p.m.

The following proposition will be submitted to the vote of the electors qualified to vote thereon at said special election:

Shall Tecumseh Public Schools, Lenawee County, Michigan, borrow the sum of not to exceed Nine Million Seven Hundred Thousand Dollars ($9,700,000) and issue its bonds therefor, for the purpose of erecting, furnishing and equipping a new high school building; erecting, furnishing and equipping additions to and remodeling the present high school building for middle school purposes; constructing and equipping physical education facilities; and developing and improving sites?

Section 6, Article II, of the Michigan Constitution of 1963 reads in part as follows:

"Whenever any question is required to be submitted by a political subdivision to the electors . . . for the issue of bonds, only electors in, and who have property assessed for any ad valorem taxes in any part of the district or territory to be affected by the result of such election or electors who are the lawful husbands or wives of such persons shall be entitled to vote thereon . . ."

Several recent United States Supreme Court decisions have indirectly raised questions as to the validity of the above constitutional provision. For this reason, all resident qualified school electors who are registered with the city or township clerk of the city or township in which they reside shall be allowed to vote on the proposition of borrowing and issuing bonds of said school district. The votes cast by those electors who have property assessed for ad valorem taxes within the district or are the lawful husbands or wives of such persons and the votes cast by registered electors who do not have property so assessed will be tabulated separately.

This Notice is given by order of the Board of Education of Tecumseh Public Schools, Lenawee County, Michigan.

Secretary, Board of Education

CLARENCE G. HEIMERDINGER

Prominent Farmer Dies

Services were held Tuesday at the United Church of Christ in Clinton for Clarence G. Heimerdinger, Sr., 76, who died at Bixby Hospital Jan. 31.

He was apparently recovering satisfactorily from surgery when he had undergone Wednesday, when death came unexpectedly. He resided at 11919 Tecumseh Rd.

He was born May 28, 1893, in Manchester and was married to S. Myrle Lemm on June 5, 1920, who preceded him in death in September, 1968.

He was graduated from Clinton High School in 1912 and attended Michigan State University.

Mr. Heimerdinger was a retired dairy farmer. For many years he operated a bottle milk route in Clinton from his farm.

He was a member of the United Church of Christ, serving as clerk for the past 10 years. He also served as a trustee and deacon.

He was a member of the Farm Bureau and had served on the executive board of the Lenawee County Farm Bureau. He was a former member of the Tecumseh Grange and a former chairman of the Agricultural Stabilization Committee. He was cited by the Michigan State University Alumni Association for achievement in agriculture in 1963.

Characteristic of his lifelong service to his neighbors, friends and to his church, Clarence Heimerdinger received mention in the Congressional Record of June, 1965, for his direction of volunteer clean-up of rural areas of Lenawee County, damaged by the Palm Sunday tornado that year.

Surviving are five sons, George, James, Clarence, Jr., William and David, all of Clinton; three daughters, Mrs. Hazen (Lois) Richardson of Onsted; Mrs. Harold (Evelyn) Gregg of Adrian and Mrs. Harold (Ruth) Auten of Westland; a sister, Anna Heimerdinger of Clinton and 21 grandchildren. A brother preceded him in death.

Pastor Earl Lawrence and the Rev. Paul McKenna officiated. Arrangements were by Proctor Funeral Home. Burial was in Riverside Cemetery.

29th Anniversary Is Celebrated

"Those kids are running into our house," Mrs. Lloyd Stites remarked to her husband Sunday afternoon as they returned home after playing cards with their son and wife who live nearby.

The Stites were pleasantly surprised to find the entire family, with the exception of Gordon, who is stationed in Mannheim, Germany, gathered in celebration of their 29th wedding anniversary.

The Stites' residence was decorated with green streamers flowing to a green and white decorated cake on the table, made by Mrs. Jimmie Stites and Mrs. Thomas Ruff, nee Diana Stites.

Allen, at home, was in on the surprise for his folks besides the Jimmie Stites and daughter, Tina and the Ruffs.

Gifts and a huge anniversary card made the day one of happiness for the honored couple, who live at 1954 Russell Rd.

Airman Sebring Receives Award at Japan Base

CLINTON — Airman David Sebring, son of Mr. and Mrs. Claude Sebring of Pennington Rd., was awarded the Air Force Commendation Medal from the commanders call in Class A. blues, Dec. 15.

His commander, Capt. Rutledge pinned the award on him in front of the people from the Tachikawa Air Force Base hospital in Japan.

The award was presented to Airman Sebring for his action and quick response in saving a seriously injured man's life, following an auto accident.

Following his enlistment in the Air Force in August 1966, he completed his basic training at Lackland AFB in Texas and his training to be a medic at Sheppard AFB, Texas. He was a medic at the base hospital at Grand Forks, AFB, N. D. for nearly two years. In July, 1968, he was sent to Japan on a two-year tour of duty.

He works in the emergency room of the Tachikawa AFB hospital.

Explains Danger of Drug Abuse

CLINTON — Drug abuse was the subject discussed by Lenawee County Sheriff Detective David L. Snyder at a meeting of the Clinton Parent Teachers Organization, attended by 60 persons, last Monday.

Det. Snyder explained that the most frequent users of marijuana are the 15-17 year age group, and its use often leads to more serious drugs. Drug users often move up to LSD, which is a great deal more harmful.

He described the use of such things as mouth washes, cough syrup and other hallucigenic drugs, and urged parents and teenagers to be aware of the dangers of these drugs.

George Wolf, president, conducted the business meeting. Next meeting will be in March.

WATER WHEEL MOBILE HOME ESTATES, INC., SOON TO HAVE LIVED-IN LOOK

New Estates About Ready

By MAXINE CALHOUN

CLINTON — The swans are back on the mill pond and with the coming of spring, the natural rustic setting will be restored to the site of the Water Wheel Mobile Home Estates, Inc., at the western edge of the village.

It is expected that within two weeks, the first 20 sites will be ready for occupancy. There'll be 67 units in the first section to be developed in the area nearest W. Michigan Ave.

The mobile home park was in the planning stage for more than a year. Site construction actually began last September.

The former water raceway from the mill pond to Michigan Ave., was drained, filled in and graded over, at the 27-acre park site.

According to Kathy Thomas, president and manager of the park, every effort is being made to retain the rustic beauty of the area and to maintain the natural habitat for wild game.

The pair of swans, which Donald Thomas brought to the pond last spring, disappeared shortly afterwards and were feared stolen. However, they returned to the pond sometime later, but there was no evidence of their having raised a family there.

As soon as weather permits, there will be construction of a boulevard entrance and landscaping will start.

The site borders the River Raisin where a green belt will be developed for picnic areas. The mill pond will be dredged of stumps to allow boating and fishing. Another small lake will be located at the south edge of the park with a nearby swimming pool and recreation building.

Plans call for an eventual 171 mobile home units on lots 45' x 85' minimum.

A concrete road is already in for the first 20 sites, and all streets will be paved to a width of 25 feet. There will be off-street parking for two vehicles at each unit.

All utilities are underground, natural gas is available, and each unit will have a gas pole light. Village sewer and water is installed. There is also underground TV system for VHF and UHF.

Mobile home units will be required to have tow bars removed, be completely skirted, and each unit must have a utility shed.

Engineer for the development is Paul J. Monohon, of Monohon, Associates, Detroit, who has had 20 years' experience in mobile home park development.

The corporation includes a sales organization, which has several model mobile homes on display at the site. Purchasers are guaranteed a location in the park.

Donations Sought for Kidney Victim

Tecumseh Jaycee Auxiliary shifted into high gear in an all-out effort to obtain a kidney machine for a Lenawee County resident, Howard Hyder.

Mrs. Terry Ridgway, chairman, and Mrs. Dyke Helms, co-chairman, contacted Tom Maroney, state chairman of the Betty Crocker Coupon Drive, on Saturday.

They received the following information from him:

"It takes 600,000 coupons to be turned in to General Mills, which in turn will send the Kidney Foundation $3,000—the cost of the kidney machine."

The Michigan Jaycees have turned in enough coupons for six machines, and are now working on the seventh. Four of these six machines have already been placed in hospitals or private homes.

As of Saturday, to Mr. Maroney's knowledge, two had not been placed. He will notify the Kidney Machine Foundation Board of Directors of Howard Hyder's immediate need of a unit for his home. The machines are placed only at the direction of this board, not the State Jaycees.

A savings account has been opened at the United Savings Bank of Tecumseh with a generous $200 donation from Tecumseh Police Department, from the advance proceeds of the March 7 Policeman's Ball, and with a $20 anonymous gift.

Deposits may be made at all windows at Herrick Park or Sutton Road Branches, the savings windows at the main office, or may be given to Arnold Sayler at the main office.

In the event the Auxiliary is able to obtain the kidney machine from the foundation, this savings account will be used to help the Hyders maintain it. Cost of maintaining the machine is $3,000 per year.

The staggering sum of 600,000 Betty Crocker Coupons would take the Lenawee County area at least 2 to 3 years to collect; therefore, help of the State Jaycees and the National Kidney Foundation is needed.

Saturday, Feb. 14, Mrs. Dyke Helms will be going to Flint for the Jaycee Winter State Meeting, so all persons and organizations with coupons (even expired ones) are urged to put them in canisters at the United Savings Bank or Ken-Ray Drug Store.

The coupons will be collected from these two places, Friday afternoon at 5.

Persons unable to get their coupons to the stores may call Mrs. Ridgway, 423-3247 or Mrs. Helms, 423-4458. The Tecumseh Jaycee Auxiliary has not turned in many coupons since the 7,000 turned in in May of 1969. All coupons collected since then have been saved and will be sent with Mrs. Helms.

Saturday, March 14, Tom Cunningham, owner of the Airport Bowl, will have open bowling from 3 in the afternoon until 11 p.m. and all proceeds will be donated to the "Howard Hyder Kidney Machine Fund."

Other projects are also being considered.

A savings account for the Howard Hyder Kidney Machine Fund, started by the Tecumseh Jaycee Auxiliary, was opened Monday at United Savings Bank with a $200 check from the Tecumseh Police Department. Mary Bowers, assistant vice-president at the bank, accepts the check here from Officers Don Paul and Jerry Anderson. Next to Mrs. Bowers is Mrs. John Day, past president of the Auxiliary, and Mrs. Dyke Helms, co-chairman of the Fund. Donations are being accepted at the bank and at its branch offices.

COL. FREDERICK DAVIDS

Police Head Is Speaker for Banquet

Col. Frederick Davids, head of the Michigan State Police, will be the principal speaker here at the Tecumseh Country Club where the local Rotary Club will receive its seventh award from the state for its 1969 safety check program.

Presentation will be made at a banquet on Feb. 24, with festivities scheduled to begin at 5:30 and dinner at 6:30. The banquet is open to the public and reservations may be made by contacting any Rotarian or calling the Country Club.

Besides Col. Davids, the program will include Noel Bufe, Gov. William Milliken's safety representative; Gerald Shipman, executive secretary for the State Safety Committee; and Stanley Johnson, national vehicle safety check representative.

A display of all awards, citations and plaques will be exhibited at the banquet. Tecumseh has also won recognition three times — 1966-'67-'68 — in national contests.

The 1969 safety check program here was conducted largely by the Tecumseh and State Police, the first time that the State Police had concentrated vehicle inspections on a single community.

Cost of the banquet is $3 per person with proceeds to be used for future safety projects.

Voters Dash Hopes for New High School

Nearly 2,000 voters went to the polls here Tuesday and swamped a Tecumseh school request for eight mills and a $9.7 million building program.

Final tally was 1,393 to 514, almost three to one against a project which would have resulted in a new Tecumseh High School and remodeling of the present high school building for a middle school.

A breakdown of the vote shows that 483 property owners voted for the millage and 1,335 property owners against it. There were 36 non-property owners in favor of the program and 103 against.

The voting was one of the heaviest here in years, and predictions that the millage would be voted down were proven correct long before the polls closed. Observers felt that a big turnout would result in defeating the millage.

Although school officials have made no immediate plans about bringing the issue before the voters again, it's possible to do so in August or at the next general election in November.

If an August vote is held, folks will have to use paper ballots. A June election for renewal of school operating millage will be held, and by law the voting machines are then locked up and can not be used for 90 days.

At past public meetings, officials have stated that defeat of the millage would result in it being brought back before the electorate. They pointed out that a growing enrollment has necessitated a building program and a new high school was the logical move.

Split sessions at the high school also have been discussed, and if such action is taken by the School Board and administration, it is conceiveable that athletics, music and other extra-curricular activities would be curtailed or dropped.

THS Theft, Damages Upwards of $1,000

Tecumseh High School was broken into over the weekend with theft and damages estimated to run upwards of $1,000.

Total extent of the school loss is yet undetermined, as a microphone for Donald Brazee, assistant principal, has not been located. He is out of town and officials say they will not know whether it was stolen or not, until he returns.

Entry was gained into the building by smashing a window in the metal shop area, although a window also was broken in the cafeteria.

Items missing, according to Neville Hart, principal, are:

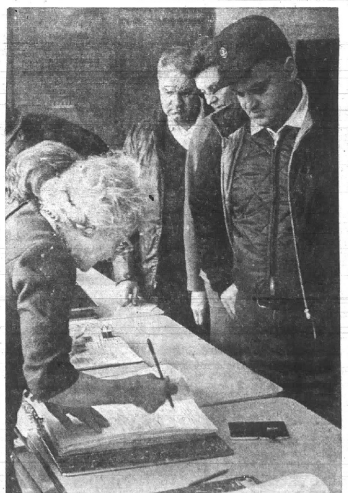
Dance drum set, two microphone stands, microphone and cord, snare drum, stand and sticks, two portable radios, tape recorder, pen and pencil set, $3 in change from the shop, $10 from the desk of Irene Jacobs, between $5 and $6 from the office of Mrs. Wanda Ward, several high school rings which had been turned in to the lost and found department, and a stop watch.

Damages include, besides the two broken windows, a door glass window at the principal's office, two desks, an overhead wood door at the guidance department, and an overhead sliding door to the band storage room.

A portable blackboard in the cafeteria also was damaged, as was an adding machine. A hammer was used to pound the keys of the adding machine.

Several offices had papers and records scattered on the floor.

State and local police investigated Sunday afternoon and several fingerprints were lifted.



POLLS ARE BUSY — Nearly 2,000 voters of the Tecumseh school district exercised their rights at the polls Tuesday when they rejected a $9.7 million school building program. Voting machines were busy especially in the late afternoon and early evening.

State Rejects Aid for Dam

Tecumseh's hopes to obtain state monies for rebuilding the Globe Mill Pond dam were jolted this week when officials received a letter from the Department of Natural Resources that their application had been rejected.

Cal Zorn, city manager, says he will discuss the application with Council next Monday night.

Officials were hoping to qualify and receive approximately $27,000. The letter simply stated that Tecumseh's application was rejected for not meeting the intent of the act.

Application will now be made, according to Mr. Zorn, for financial assistance in the development of Tecumseh Park. Monies sought will again total $27,000.

These funds, plus $12,000 from the Community Fund Foundation, will enable the city to build tennis courts, parking lot, roadway, landscape and do some fencing and grading.

Girl Hurt In Wreck

Jacalyn N. Pearson, 17, and her sister, Ellen, 6, luckily escaped serious injury Monday morning when their sliding auto collided with another in front of the Health Study Clinic on N. Evans St.

According to the police, Jacalyn was headed south when she started sliding on the snow-covered highway and into the path of a northbound car, driven by Thomas R. Borck, 23, of Hudson.

Only Jacalyn suffered injuries. She was taken to Herrick Hospital, treated for bruises and released. The Pearson auto was totalled in the collision and the Borck vehicle extensively damaged.

Police charged Jacalyn with driving too fast for road conditions.

A resume of other accidents is:

Feb. 7 — Anthony J. Marchese, 41, Onsted, was cited for violation of the basic speed law after running into a parked car, owned by David L. Holden, of Sterling Heights. Accident occurred on S. Union St.

Feb. 8 — Richard L. Hawkins, 20, Britton, told police that another driver forced him off N. Evans St., near River Raisin bridge. His car then hit a tree.

Feb. 9 — —Clair Peter Force, 27, Adrian, ran into the rear of an auto driven by Michael R. Doty, 19, Adrian, on Russell Rd.

Feb. 9 — L. L. Wollenhaupt, 125 Maple St., reported that an unknown driver drove onto his yard and over an eight-foot maple tree, breaking the tree off at the base.

McCombs, Palmer in Council Race

Two more petitions have been taken out by residents seeking one of four Council seats up for grabs at the April election.

George McCombs, veteran city official, is collecting signatures as is Murray Palmer, payroll department official at Fisher Body Plant.

Others who have petitions are Wallace Whiting, Dr. Carlton Cook and Harold Easton, all incumbents.

2 Closed Today

United Savings Bank and First Federal are both closed this Thursday in observance of Lincoln's birthday.

Toddler Saved from Drowning

Mark Ruhl, 21-month-old son of Mr. and Mrs. Larry Ruhl, 400 Seneca St., is recovering in Herrick Hospital after nearly drowning Sunday afternoon at the home of his grandparents, the Lester Ruhls, 9556 Milwaukee Rd.

The father said his son toppled into a sump pump well—six feet deep with four feet of water and three feet in diameter. It's believed he was reaching for a balloon and lost his balance.

Workmen in the basement discovered Mark and pulled him out. Wayne Ruhl, 23, an uncle, and Curtis Banks of the Britton Rescue Squad gave him mouth to mouth resuscitation and returned him to consciousness.

They and members of the sheriff's department worked nearly 30 minutes before he was completely revived, and then rushed him to Herrick Hospital.

Mark's father says he's doing well now and expects to bring him home either Thursday or Friday.

Calls Up, Losses Dip

Although Tecumseh firemen answered more calls in 1969 than in the previous year, losses from fire decreased, according to the annual report submitted by Wallace MacGeorge, fire chief.

Last year the department answered 158 calls, compared to 144 in 1968, but losses dropped over $33,000 to $69,575.

Breakdown of the chief's report is:

Fire calls — 97.
Rescue runs — 18.
Assists to other departments — 6.
Wash downs — 6.
Smoke investigation — 3.
False alarms, tornado watches, and other miscellaneous calls — 28.

A resume of fire damages is:
Houses — $14,450.
Other buildings — $23,500.
Contents of houses — $11,600.
Contents other than houses — $11,000.
Cars, boats, grass fires — $9,025.

Mr. MacGeorge also reports that the department donated many man-hours and monies for the betterment of the department and the community. This included attending conventions, first aid classes and flooding ice rinks.

"ANYTHING GOES" — Four of the cast of the new play, "Anything Goes," are in rehearsal for the musical comedy to be presented Feb. 27-28 and March 6-7, besides a Sunday matinee. From left they are Dr. Carlton Cook, Louise Lawson, Dorothy Wetter and Craig Collicott. Tickets are available at Flanders Music, Wright's Drug Store and Mary Sanchez Beauty Salon.

Students Planning Winter Carnival

A Winter Carnival will be held at Tecumseh High School this year for the first time.

Seeking something new to break up the long time between January and spring, the Student Assembly decided to have fun in the snow. The festivities will cover a four-day period.

A concert by Free Fare from the Young American Showcase, will kick-off the Carnival Feb. 18 at 7:30 p.m. in the high school gym. Free Fare is four young people who mix straight talk with the beat. They have been praised by high school principals throughout the nation.

The concert is open to the public and tickets are available at Flanders Music or at the high school.

On Feb. 19, classes will begin building snow or ice statues: the freshmen in the area between the school and the buses; the sophomores on the practice field; juniors on the football field and the seniors, the baseball field.

Judging will take place Saturday by an out-of-town team.

The basketball game that Friday night will be against Blissfield.

A Snow Fair Saturday from 10 a.m. until 5 p.m. in the gym will feature booths by organizations and classes, and is open to the public.

Copies of the snow statues will be sold by the students, after the judging.

Booths will remain in place for the Saturday night Snow Dance, which will have music by W. T. Christy from 9 to 12 p.m.

Classmates of Kay Lincoln, writing to her in Spain, are being reminded by postmaster Jack Metcalf that the air mail rate is 20c per ½ oz. Return addresses are being omitted and Kay will have to pay the postage on the other end. This week alone he received 10 letters going to her with not enough postage and no return addresses.

Young Adult

MY DARLING, MY HAMBURGER by Paul Zindel. In this book Paul Zindel explores the world of four high-school seniors seeking acceptance and caught between a fear of and a desire for intimacy. Maggie and Dennis begin tentative steps toward an understanding of the demands of life makes on all of us.

STARS IN HER EYES by Betty Cavanna. This is not a new story by Betty Cavanna. It is the story of Magda Page, her father, who is a famous television personality, and Magda's desire to be attractive to boys and to appear triumphantly on her father's televison show.

DAY OF THE PIGEONS by Roy Brown. From the moment Mr. Poirot's pigeons fly reluctantly out of their coops, it is clear they have been accidently drugged by Bruce Roper's little brother. This story weaves skillfully back and forth between the innocent pigeon hunt and the development of a more sinister drama.

STEAM CARS OF THE STANLEY TWINS by Robert Jackson. What rolled on bicycle wheels, puffed clouds of white steam, and whistled softly like a teakettle. Why, a Stanley steam car, of course. Riding in it might be two men of identical appearance and expression —the Stanley brothers themselves.

Engagement of Sandra Lee Clack to Noel Ray Evans, Jr., is announced by her mother, Mrs. William Clack, 126 Herrick Park Dr. The bride-elect, formerly of Clinton, attended Lutheran School for the Deaf, Detroit, graduated from high school at the Michigan School for the Deaf, Flint, in 1959, and received her BA in Bible at Central Bible College, Springfield, Mo., in 1963. County Library Is Celebrating Negro History

Lenawee County Library is joining other community organizations in its celebration of Negro History Week, February 8-14. The purpose of the week is "to arouse American people to a keener appreciation of contributions of the Negro to civilization."

A display of fiction and non-fiction books dealing with various aspects of the Negro in America, for children and adults, will be exhibited near the front door of the library throughout the week. All patrons are invited by Mary Hammond to borrow these books.

Letter to the Editor

At the present time the drop-in center at the Community Center is being operated on Monday, Tuesday, Wednesday and Friday afternoons from 3:30 to 6:00. It is our desire to provide the school youth of Tecumseh a clean wholesome place to spend a little time, trying to provide them with activities they enjoy.

In order to maintain equipment and provide supervision of the caliber the Recreation Department desires, we are charging 25c to play the pool table and 10c for the juke box.

We do not desire to charge youth to come in, except for an occasional dance or for live entertainment.

There are two brand new ping pong tables (en route from the factory), two dart boards, shuffleboard, several table games and we are starting to bring in some hobby and craft items.

The programs are still in experimental stages and many problems still have to be worked out. It's hoped to open the drop-in-center at least twice during the week in the evenings, and possibly on alternating Saturday afternoons. Two record hop dances a month are planned with possibly some live entertainment. These programs are being worked out with the cooperation of the Junior and Senior High School of Tecumseh so that duplication of programs will be eliminated.

Where do parents fit in?

In order to have dances and other evening activities, chaperons are required. Are parents willing to spend a couple of hours at the Community Center, no more than three times a year, to make this program a success? Please contact the Recreation Department so a list of available parents can be maintained.

The Tecumseh Recreation Department is continually trying to improve community programs and activities, but only with the help and cooperation of the entire community can this goal be achieved.

Ward Eardley.

Farms Reviewed

Weekly meeting of the Lenawee County Board of Realtors was held Friday at the Adrian Moose Hall with 41 members and guests in attendance.

It was announced that the Lenawee County Board won a 1969 star banner award from the Michigan Real Estate Association for increase of membership for the year.

John Comstock, agricultural agent for Lenawee County, was the principal speaker and his topic was "Where Are Our Farms Going?"

He cited several facts and figures, such as costs of farm production in relation to farm income and pointed out that of 57 million square miles of land on the earth only 5.4% is under cultivation.

Lenawee is considered a farming county as approximately 86% is under cultivation. This is 14% of the total produced by the 83 counties of Michigan.

Mr. Comstock said the average farmer in 1964 had an investment of $62,000 for an average of 152 acres, while today the average investment is $100,000 for 160 acres.

Over the past five years, the number of farms in Lenawee County decreased at an average of 80 per year or a total of 402 less farms. Part of this decrease in numbers is attributable to today's farm being larger in size. There are presently 2730 classified farms with the family-type operation considered most efficient.

Some townships are studying the possibility of creating a zoning classification exclusively for farming rather than present combination of farming and residential zones.

One of the guests present was Wayne Griffin, who was recently named farmer of the year.

The program for Friday's meeting will deal with the duties of real estate brokers and salesmen and their responsibilities to each other. Anyone in the real estate business is invited to attend.

Luncheon is at noon, business meeting and program follows.

Library Offering New Services

Tecumseh Public Library has joined other libraries throughout Michigan in working with the Bureau of Library Services to provide braille, talking books, magnetic tape, large-print books and talking book machines, to all residents of Michigan.

To apply for this free service, an application form and certificate of eligibility which indicates that the applicant is unable to read or use normal printed material, because of a particular physical limitation, should be requested. These may be obtained at the Tecumseh library.

The certificate must be signed by a competent authority. Any member of the medical or allied professions, professional persons in the fields of public health, education, library service, rehabilitation, social work and public welfare, are considered to be competent authority.

The physical limitation must be one which prevents the applicant from reading normal printed material. Examples are those who are blind or so visually limited as to be unable to read and those who have lost their arms or those whose muscle and nerve control are severely impaired.

Also included are individuals suffering from the results of strokes, or advanced stages of cerebral palsy, multiple sclerosis, muscular dystrophy, polio, severe arthritis, or other ailments which make the holding or reading of ordinary books and magazines either impossible or so difficult as to keep them from reading.

The type of materials and how to order them is also available at Tecumseh Public Library. There are books and magazines for adults, young adults and juvenile readers.

The service is being made available by the state and federal government.

If there are questions or if anyone wishes a demonstration of materials, they may call the library.

Sister Camilia, of Siena Heights, a scripture scholar, spoke recently at the meeting of Daughters of St. Peter's Church in the parish hall.

Her subject was prophets of the Bible, and she said that each one is a prophet in his own way and can influence the community, as the men of old did.

Twelve members and eight guests were present as Mrs. Earl Lindsley conducted the meeting. Mrs. Arch Wray gave devotions.

She read from St. Luke and an original poem written by her sister, Mary Jo.

Two Lenten luncheons will be served.

Girl Scouts Plan International Fete

February 22, celebrated in the United States as George Washington's birthday anniversary, is a special day for Girl Scouts and Guides in the U. S. A. and throughout the world.

It is the birthday anniversary of both Lord and Lady Baden-Powell, founders of Scouting. To honor them, it has been celebrated since 1926 as Thinking Day, the day when Girl Scouts and Guides everywhere think of each other.

The idea of Thinking Day gifts, to help the World Association develop the program for more girls, was suggested in 1932 and caught on quickly. Gifts come from many lands every year to the Thinking Day Fund.

The Juliette Low World Friendship Fund had been started previously, and it, too, helps promote Scouting. Therefore, it was decided that Girl Scouts throughout the United States would send their gift to the Thinking Day Fund through the Juliette Low World Friendship Fund.

Tecumseh Girl Scouts are celebrating by having an international banquet on Feb. 23 at the United Products Union Hall from 6:15 to 8:15. Speakers for the occasion will be the girls who visited Mexico last year at the Girl Scouts' Cabana.

All Scouts will bring 1c for each year they are old, and this will go into the Thinking Day Fund.

Describes Trip to Altar Society

Mrs. Robert Murray described the interesting highlights of her recent trip to Mexico for the members of the St. Elizabeth Rosary Altar Society, Wednesday.

Refreshments were served by Mrs. Edward Rapin and her committee.

There will not be a March meeting, since the annual Spaghetti dinner will be served on that night, March 4.

You Told Us

By DOROTHY GRIGG

Congratulations to Vic and Louise Lawson on their silver wedding anniversary and congrats, too, to the coaches and their wives who pulled off the surprise dinner party on the popular Tecumseh mentor and his wife.

Young Bob Lawson went to the Jim Curths, supposedly to baby sit while the rest went out for dinner. A few others gathered to go, too, like the Tom Fagans, the Bob Kieblers, Mrs. Don Brazee, and the Lawson kids, Jim and Debbie and Pat and Jerry Forsyth. All went to Bill Cones in Jackson for dinner and later to the Kiebler residence.

Speaking of anniversaries — The Dallon Stephensons and the Lyle Griggs enjoyed a trip to Bavarian Inn at Frankenmuth Sunday, arranged and financed by their son and daughter, Norman and Carolyn Grigg. Keeping the destination a mystery for about two weeks, the newlyweds finally told the Pas and Mas over C. B. radio en route where they were going. It was her folks' 35th and his folks' 30th they were celebrating. We got the wooden nickels, too, from the wood carver's shop.

'Getting Old, and Keeping Young'

Mrs. Sam Shervino, 215 Bidwell, has a sparkling sense of humor and one of the articles to please her recently was printed in a Presbyterian Church booklet. Here it is for Herald Readers perusal.

"Getting Old and Keeping Young."

"Lord, thou knowest, better than I myself know, that I am growing older and will some day be old. Keep me from getting talkative and particularly from the fatal habit of thinking I must say something on every subject and on every occasion.

Release me from craving to try to straighten out everybody's affairs. Keep my mind free from the recital of endless details — give me wings to get to the point.

I ask for grace enough to listen to the tales of others pains.

Help me to endure them with patience but seal my lips on my own aches and pains. They are increasing and my love of rehearsing them is becoming sweeter as the years go by. Teach me the glorious lesson that occasionally it is possible that I may be mistaken.

Keep me reasonably sweet; I do not want to be a saint—some of them are so hard to live with—but a sour old woman is one of the crowning works of the devil. Make me thoughtful, but not moody, helpful, but not bossy. With my vast store of wisdom, it seems a pity not to use it all, but Thou knowest, Lord, that I want a few friends at the end.

Methodists Plan Lenten Programs

A varied Lenten program has been planned for United Methodist Church by the work area in evangelism.

Beginning this week with Ash Wednesday Services, Holy Communion will be observed with the communicants receiving the sacraments in groups of 12 in the sanctuary.

February 18, a fellowship supper will precede the Lenten Devotional at 6 p.m. The Rev. Donald Porteous will offer meditation during the service.

On February 25 the Rev. Clem Parr, associate pastor of St. Paul's United Methodist Church of Monroe, will be the speaker.

Another fellowship supper on March 4 will precede the devotional period with the Rev. Richard Beemer, minister of the Dundee United Methodist Church, speaking.

"The Guide," a family film, will be the program for the March 11 service.

On March 18 the pastor and a lay speaker will offer the message following the third fellowship supper.

Sunday services during the Lenten period will center around "The Bitter Road," the journey from Bethlehem to Calvary and the Garden.

Special music in the form of an Easter cantata, "Behold Your King," will be presented Sunday morning, March 15.

Appoints Officers

The new noble grand of the Rebekah Lodge, Mrs. Robert Cooper, appointed new officers for the year at a meeting Friday evening.

Mrs. Robert Divins served refreshments.

The next meeting will be held Feb. 20 at 8 p.m. in the Lodge Hall.

Memoriam

In loving memory of our dear son and brother, Ricky Frank Horton, who would have been 21 years old Feb. 13, 1970.

A birthday card we cannot send,
A kiss we cannot give,
But our present will be our memory,
To hold in our hearts forever,
We loved you so.

Forever loved, remembered and sadly missed by Mother, Dad and brother. 2-12c

In loving memory of my sweet mother, Mary P. Jones, who would have been 63 years old Feb. 17, 1970.

There is a sad but sweet remembrance,
There is a memory fond and true,
There is a token of affection, Mother,
And a heartache still for you.

Still loved and greatly missed by her loving daughter, Lee Horton and family.

Memoriam

In sad but loving memory of our dear one, Bert Creger, who left us five years ago on Sunday morning, Feb. 14, on St. Valentine's Day 1965.

Those whom we love go out of sight,
But never out of mind,
They are cherished in our hearts,
By the dear ones left behind,
Loving and kind in all his ways,
Upright and just to the end of his days,
Sincere and true in heart and mind,
Beautiful memories he left to those he left behind.

Sadly missed by wife, Maude, and children, grandchildren and all the great grandchildren. The loved one we are always thinking of and never will forget. 2-12p

In loving memory of Claire W. Minehart, Feb. 12, 1969. Gone but not forgotten.

Gals Trounce Manchester by 45 Points

Girls' varsity basketball team made it five straight wins last week by defeating Manchester, 65 to 20.

Nancy Dustin scored 10 of her team's 19 points in the first quarter to put Tecumseh in front, 19 to 5. She again equalled Manchester's six points in the second quarter to give the Indians a commanding 30-11 halftime lead.

Manchester scored only three points in the third quarter while Betsy Bock, Katie Crause, Nancy Dustin and Julie Desmet each contributed a basket, and Jackie Rodgers connected for four points.

Tecumseh made 22 big points in the fourth quarter against six for the visitors. Miss Dustin led all scorers with 26 points, followed by Jackie Rodgers with 10, Betsy Bock, 9, and Julie Desmet, 8.

Connie Steele led Manchester with 10.

The gals face undefeated Columbia Central Thursday night at 6:30 p.m. C. C. defeated Tecumseh twice last year.

The little squaws defeated Manchester in a real heart-stopper, 22-21. Nancy Hamilton with 8 and Wendy Luce, 7 were leading scorers.

LOSE, 6-3 — In the second inter-recreational department hockey game, Tecumseh bowed here Saturday morning to Adrian, 6-3. In a previous match, the county seaters won, 2-1. Tecumseh goals in a losing cause here were made by John Merz and Craig Van Camp. The game was played on the rink behind city hall. Local firemen flooded and worked on the rink, getting it in to shape for the boys. Ward Eardley, recreation drector, is making plans now to have a game played between Adrian and Tecumseh at the Jackson Sports Arena.

CC Rally Wins

Missed shots and turnovers in the fourth quarter caused a collapse of the Tecumseh Indians Friday night when Monroe CC rallied from a 10-point deficit to win, 70-67.

Trailing, 63 to 54, midway thru the period, CC tallied 12 straight points while the Falcons' pressing defense caused one Tecumseh mistake after another.

Monroe went on to score 28 points in the final quarter with four straight free throws by Robbie Palmer wrapping up the victory.

The game in many instances, was reminscent of one played by the two clubs here last month. At that time, a CC rally just fell short. This time, however, Monroe overcame the deficit, aided not only by faulty play of the Indians but also by some questionable officiating.

Craig Smith, Bill Puffer and Gary Hannibal paced Tecumseh in scoring with Smith taking honors with 17 points. Puffer collected 13 and Hannibal, 11.

The Indians outscored their opponents in every quarter except the last, and appeared to be wrapping up their fifth league win. The loss, instead, dropped them to a 4-5 record and 5-8 overall.

CC's varsity win gave Monroe two victories as the Jayvees topped the Indians in overtime, 77-75.

Pastor tell me

WHAT IS ANTICHRIST?

The Bible speaks of this subject in both the Old and New Testaments. The term antichrist, applies to any and all men who are not aligned personally with Jesus Christ. The term also refers to one man.

I John 2:18 speaks of many antichrists. These two passages and we are told that men who do not acknowledge Jesus Christ to be the Son of God come in the Flesh are of the spirit of antichrist. These two passages and others warn us of the presence of persons who oppose Christ. These persons will not only reject Christ themselves but promote their own teachings.

Second, the Antichrist is a single human being. He will appear in the period of Biblical Prophecy called the Tribulation. I Thess. 2:3-4. He will be a powerful, attractive person. He will be lawless and a blasphemer of God, I Thess. 2:3, 9, 10. He will make a covenant with the Jews, Daniel 9:27 and he will break this. He will be worshiped, Rev. 13:4, 6, 12. He will fight Christ at Armaggedon, Rev. 19:20-21.

We had better make our peace with God while there is still time. See Romans 10:9 and 17.

The banquet was held in the dining room of the Macon United Methodist Church. The women of the church cooked and served the meal.

The Rev. Thomas Badley gave the invocation and benediction.

Gifts were presented to the Rev. Badley for having the youngest son; Jim Rhoades, the youngest father; Clyde Greenfield, of Clinton, oldest father.

Mr. Greenfield also received a gift for having the most combined number of years of ages of his sons and himself.

Drive at $15,750

Christmas Seal campaign contributions in Lenawee County have reached $15,750, reports the Michigan Tuberculosis and Respiratory Disease Association.

This is an increase over last year's total of $14,678, reported at the same time on January 30.

Would Separate District Courts

Senator James G. Fleming (R) today introduced a bill to the legislature to provide separate district courts for Lenawee and Hillsdale Counties.

"At the present time," Fleming said, "the district courts of Lenawee and Hillsdale Counties are in one district with two divisions—when, in fact, they are separate courts operating independently of each other.

"This bill will clarify their relationship, and a companion measure being introduced at the same time will allow any adjoining district court unit to voluntarily provide for and share in the cost of any related service, such as a probation office for the courts."

7 Members Are Inducted by Auxiliary

Seven new members were inducted into the Jaycee Auxiliary Jan. 28 at the home of Mrs. Darrell Staup, who conducted the candlelight ceremony.

New members are Mrs. Dan Henning, Mrs. John Seay, Mrs. Steve Forgacs, Mrs. Dean Bender, Mrs. Clark Nichols, Mrs. Carl Crabtree and Mrs. John Van Orsdal.

Plans were discussed for the annual baby contest, with details to be published later.

Canisters have again been placed in the main office of United Savings Bank and at Ken-Ray Drugs for the collection of Betty Crocker coupons.

Auxiliary members wish to add to the 3,000 coupons they have gathered since the first 5,000 were turned in last May at the state convention for a kidney machine.

Organizations wishing to save coupons for the project may obtain more information by calling Mrs. Terry Ridgway, 423-3247.

Members were told by hospital administrators that it is not feasible to have a kidney machine at Herrick Memorial Hospital at this time. Costs for maintenance are too high for the demand.

STATE OF MICHIGAN

In the Circuit Court for the County of Lenawee

In the Matter of the Complaint of Allison Green, State Treasurer of the State of Michigan, for and in behalf of said State, for the sale of certain lands for taxes assessed thereon

To the Circuit Court for the County of Lenawee:

ALLISON GREEN, State Treasurer of the State of Michigan, respectfully shows unto the Court:

1. That he is the State Treasurer of the State of Michigan and makes and files this complaint under the authority of and pursuant to the provisions of Act No. 206 of the Public Acts of 1893 as amended. Act No. 126 of the Public Acts of 1933, as amended and Act No. 380 of P. A. 1965, as amended.

2. That Schedule A annexed hereto is the tax record required by the said first above mentioned and contains the description of all lands in the county of said county upon which taxes, which were assessed for the years mentioned therein, have remained unpaid for more than one year after they were returned as delinquent, and the description of all lands in said county heretofore bid off to the State of the State and thus held and upon which taxes which were assessed subsequent to the tax for which such lands were sold to the State have remained unpaid for more than one year after they were returned as delinquent, and the description of all lands in said county which are delinquent for any installment of taxes under the provisions of Act 126, P.A. 1933, as amended.

3. That extended separately in said schedule against each description of said lands therein contained are (a) the total amount of delinquent taxes upon said description for the non-payment of which the same are severally to be sold at the next annual tax sale, (b) interest computed thereon as provided by law to the first day of the next ensuing, (c) a collection fee of four per cent and (d) an amount for penses, all in accordance with the provisions of the act first above mentioned;

4. That all of the aforesaid taxes, interest and charges are valid, due, delinquent and unpaid, and have remained delinquent and unpaid for sufficient time to authorize and require, as provided by the foregoing acts, the sale of the aforesaid parcels of land against which they were assessed and are extended in said schedule at the next annual tax sale for the non-payment thereof, and that no payment, interest, collection fee and expenses so extended in said schedule against each parcel of land therein described constitute a valid lien upon each of the said several parcels of land described in said schedule as therein and against which extended as against the private property of the State of Michigan, the payment of which lien the State is entitled to enforce as a preferred or first claim upon such lands by the said acts.

Wherefore your plaintiff prays:

a. That within the time provided by law this court may determine and adjudge that the aforesaid taxes, interest, collection fee and charges as extended constitute a valid lien upon each of the said several parcels of land described in said schedule as therein extended;

b. That within the time provided by law this court make a final judgment in favor of and for the plaintiff and against each parcel of said lands for the payment of the several amounts of taxes, interest, collection fee and expenses, as computed and extended in said schedule against the several parcels of land therein contained;

c. That said judgment provide that in default of the payment by the owner of the said several sums computed and extended against said lands in said schedule, the said several parcels of land, or such interest therein as may be necessary to satisfy the amount adjudged against the same, shall severally be sold as the law provides;

d. That your plaintiff may have such other and further relief in the premises as to this court may seem just and equitable.

And your plaintiff will ever pray, etc.

ALLISON GREEN
State Treasurer of the State of Michigan, for and in behalf of said State.

Visit Colombia

Mr. and Mrs. Jorge Galindo and children, Maureen, James, Anita, Susan, and baby, David, of Ridgeway have recently returned from a one-month stay in Colombia, South America, visiting with Mr. Galindo's family for the first time. Here is a first-hand account of the highlights of their trip by Mrs. Galindo, the former Lois Kiser, daughter of Mr. and Mrs. Wilmer Kiser, 2164 E. Monroe Rd.

We were house guests of Jorge's parents, Mr. and Mrs. Francisco A. Galindo Caballero of Ramiriqui, during the Christmas festivities. Ramiriqui is a small town of about 1,000 people, located 75 miles north of Bogota. It is situated on the side of a mountain and is the largest town in 30 miles.

Thursdays are market days in Ramiriqui, and we saw some very amusing things. Bartering and bargaining are the way of life here. The people bring what they have to sell to the market and buy what they need.

We saw pigs, cows, chickens, goats, horses, turkeys and sheep at the market places. Chickens and turkeys are brought to the market with their feet tied together and draped over an arm, head down. Can you imagine seeing a chicken looking at you upside down? We saw a man put a full-sized pig in the back door of a bus and then climb in and sit on top of it.

The children especially enjoyed the Christmas celebration. For nine days before Christmas the nightly Rosary is said around the main plaza, stopping at each of the four corners. A float with the figures of Mary and Joseph and an empty cradle is carried, preceded by youngsters carrying paper torches.

We were fortunate to have our rooms overlooking one corner of the plaza so we had a birds-eye view. The parade each night is longer and louder (they shoot off fireworks when the parade stops at each corner) until Christmas Eve, when the cradle contains the figure of the baby. Mary and Joseph are played by a girl and boy of the village.

The parties and dancing last all night, pausing only for the midnight Mass.

Between Christmas and New Year's Day we traveled back to Bogota, the capital city of Colombia. It is a city of 1,500,000 people and is located on a plateau, 8,000 feet above sea-level. Part of the city climbs the mountains.

They only have two seasons there — summer now and a season similar to our fall, a rainy season.

The temperatures range from a high of 78 degrees during the day to a low, sometimes of 45 degrees at night.

Many of the houses in Colombia have common walls with the adjoining house. They have enclosed patios at the rear of their houses and most houses have heavy ironwork across the windows for protection as well as decoration.

We were guests of Jorge's brother, Francisco, and his family while we were in Bogota.

We visited the Monserrate, a monastery located on the top of a mountain 1,500 feet above Bogota. The only way to reach the top is a cable car or rope-way car. Being brave souls, we decided to take the rope-way car both ways.

We went from summer weather in the city to rainy fall weather on the top of the mountain. The halls of the church are covered with crutches of people who have been cured by coming to the Conservate and asking for Grace at the Shrine.

We also visited the Museo De Oro (Gold Museum), where artifacts made of gold by Indian tribes in Colombia are displayed. The largest emerald ever mined in the world was found in Colombia and was on display. It weighs 283 carats and is priceless.

The artifact which fascinated us most was a miniature raft portraying the El Dorado. According to the legend, each year many tribes of Indians would gather at a lake near where Bogota is now and give a sacrifice to the gods.

One man was chosen to be the sacrifice, his body was gilded with gold and he was surrounded with treasures and placed on a raft in the lake. The raft was taken to the middle of the lake and then sunk.

Pizarro and the Conquistadors searched for this treasure at the time they plundered the villages but were unsuccessful in finding it. Many others, even up to the present time, have looked for the treasure of the El Dorado but none of it has ever been found.

A miniature raft on display was found only five months ago a great distance from Bogota and is about 500 years old. It is only three by five inches in size and is perfect, even though it has not been restored in any way. It seems to prove that the treasure really does exist.

New Year's Eve in Bogota is quite a sight. At midnight the whole city breaks loose with fireworks like 10 Fourth of July's all at once. This lasted for about three hours, and the parties lasted all night. The next morning the huge city was the quietest we ever heard it.

A refreshing break was enjoyed by the whole family at the natural hot springs of Chocontá. We spent the afternoon swimming in 85-degree water while the air temperature was only about 60 degrees. We were very high in the mountains.

We were happy to see some of our heritage and meet the rest of our family. Although the language and customs are different than ours, we thoroughly enjoyed ourselves. We are looking forward to a time when we might be able to visit this wonderful country again.

Sherry Wolf, daughter of Mr. and Mrs. Clifford Wolf, 6101 Woodland Dr., is a member of the Gymnics at Andrews University, Berrien Springs. Miss Wolf is a freshman music major. The 41 member gymnastic team will tour the Midwest and East Coast this year.

Letters to the Editor

To the students of THS

The majority of THS students are asking, "what is happening to," what they call, "The Teen Club? Why aren't there any dances?"

The legislative body of the T. Samuel Brooks Memorial Teen Club has tried many possible ways of promoting wholesome teenage responsibility and recreation. There has been a planned hayride, which fell through; many dances, where the only people that showed up were the legislature members; a new idea, the folksinger, and also movies.

We have asked for suggestions and these activities are the ones that were suggested by you.

You say, "Tecumseh is a drag, there is never anything to do." Well, you can't get something for nothing. It is going to be just what you make it.

We have tried and we feel that if this organization continues to exist, we need your support. If you are at all interested, show it. Our meetings are public and we are always open for suggestions.

Sincerely,
The T. Samuel Brooks
Memorial Teen Club Leg.

LETTER TO EDITOR ....
The T. Samuel Brooks Memorial Teen Club has been plagued recently by the apparent disinterest of the local teenagers.

In addition to this problem, the legislature or governing branch of this club has been faced with the problem of not having chaperones. Many local parents seem reluctant to serve in this capacity.

In addition to this, the club has not been able to compile a large enough list of potential chaperones. It is our hope that interested parents will volunteer their help to keep the Teen Club going.

If not enough parents offer their help, the Teen Club may have to fold up. We can not and do not feel that it is necessary to hire private police to chaperone your teenagers. Do you want the Teen Club to fold up?

If you don't want this to happen, volunteer your services by calling either 423-3996 or 423-4147. Your call will be very much appreciated by the area teens.

Thank you,
The T. Samuel Brooks
Memorial Teen Club Leg.

Plymouth Valiant Duster 2-Door Coupe

Duster has a bigger engine
Duster's standard 125 hp Six dusts off Maverick's standard engine by 20 big horses. Even beats Maverick's only optional engine by 5. And if you want performance, you can go all the way up to 340 cubic inches with Duster. No Maverick can match that.

Duster has a longer wheelbase
Duster's 108 inch wheelbase is a full 5 inches longer than Maverick's. In overall length, Duster has 9 more inches. Add Duster's extra 352 lbs., and the result is a smoother ride, and more stable handling.

Duster has a 5-year/50,000-mile power train warranty . . . Maverick doesn't.
Chrysler Corporation warrants against defects in materials or workmanship to the first registered owner only, and will repair or replace without charge for parts or labor at any authorized Imperial, Chrysler, Plymouth or Dodge dealership, the engine block, head and all internal engine parts, water pump, intake manifold, transmission case and all internal transmission parts, torque converter, drive shaft, universal joints, rear axle and differential of its 1970 Duster for 5 years or 50,000 miles and all other parts for 12 months or 12,000 miles, whichever occurs first, excluding only tires, normal deterioration due to wear and exposure, normal maintenance services and parts used in connection with such services, repairs required as a result of accident, abuse, negligence, racing, or failure to perform recommended maintenance services. Warranty repairs should be obtained from selling dealer unless he has ceased to do business as an authorized Chrysler Motors Corporation dealer, or the owner is traveling or has moved to a different locality and cannot return to his selling dealer.

Duster has a bigger trunk.
A lot bigger trunk. 15 cubic feet for Duster, only 10.4 cubic feet for Maverick. Just because a car is small on the outside doesn't mean it has to be small on the inside.

Duster has bigger brakes
Bigger brakes mean more stopping power, and Duster's got it. Effective brake lining area for Duster: 153.4 sq. inches. For Maverick: only 126.0 inches. And if you like disc brakes or power brakes, Duster offers those too. Maverick doesn't.

Through My Window

WHERE TO BEGIN

A confession: there is so much going on in our window world lately that I hardly know where to begin or how to go about sharing it. Once the compromise was effected between my liking for a picturesquely snow-covered feeder and the birds' stubborn reluctance to wade through the white stuff even for the tastiest of tidbits, the free-loaders started coming back en masse and they have just never quit. There is action everywhere, all of the time.

A pair of bluejays swoop in, their many shades of blue all brilliant against the snowy background and a strong wind blows their top knots straight up. Do they scream with indignation or are they merely announcing their presence—whichever, most of the other birds scurry for cover.

The junco flock is larger than ever before. Sitting in the snow, their black backs are pretty; flying away from the window, they show us their prim and ladylike white outer tail feathers; perching in a tree and oh, what a lovely round soft gray tummy. These are the males, but their lady friends are just as nice with their more-grayish backs.

Winter-garbed goldfinches everywhere — in the middle of the sunflower seeds, on the branches of the yews, on the mulberry tree, in the covered feeder, bouncing across the creek to forage for the weed seeds.

It must be the males who are showing traces of yellow around the heads. The satiny black wings have intricate markings of white and their short little forked tails are ridiculous.

The upside-down birds, the white-breasted nuthatches, have trouble deciding whether to eat sunflower seeds, scratch feed, or suet.

★

A PAIR OF tiny red-breasted nuthatches practically monopolize the piece of suet on the feeder in front of the south-facing window. For every bite eaten, three or four tiny pieces of suet are taken to the nearby walnut tree and carefully cached away in the rough bark.

These birds are not too friendly, either. (Either referring to last week's tree sparrows who are definitely unfriendly.)

Chickadees come both singularly and in small groups. The weather never seems too bad for these happy little guys. They simply pull their black caps down a bit tighter and face the strongest of winds and the most blizzardiest snowfalls.

After grabbing a sunflower seed, they take it not to a limb which is close and handy but will instead fly across the creek and way over to the fence row. And it is even fun to watch them fly — they have an undulating flight pattern, they scallop along.

Big handsome hairy woodpeckers gobble suet. So far one has never choked but some of their bites are big. Two pairs have been counted. The Glamour Gal has exceptional head markings, the wide black patch on the top looks like rich plush.

★

THE LITTLE downy woodpeckers cavort everywhere. How silly it looks, when one of the little red-breasted leave their own suet to investigate the larger piece on the mulberry tree, to see a downy run from the smaller bird.

Mourning doves start congregating about mid-afternoon. How did doves become symbols of peace? — our members of the clan can be anything but. One actually 'drew feathers' as it drove others off the feeder and most of them will stand up to a bluejay. They usually win, too.

The tufted titmice have forsaken the peanuts in favor of the sunflower seeds. On windy days they have trouble with their top knots, too, and sometimes it even ruffles the back feathers which usually lay so smooth and sleek. Is it imagination or do their big black eyes really sparkle more this cold and snowy winter?

And how about the cardinals? — four of the red beauties, a nice balance of two males and two females. One pair is beautiful, the other breathtakingly beautiful.

Mr. Bright's favorite limb faces the window so that in the morning we have full benefit of the sun striking his never-has-there-been-such-a-bright breast.

Mrs. Bright shows off when we have company, she comes to the near-my-window feeder and invites people to ooh and aah over her sexy red eyelashes.

So it is that this is just a brief sampling of what our window watching has been — do you see why I am in such a quandary wondering where to begin.

Letters to the Editor

To the Editor:

I wish to recite Farm Bureau's position in relation to the grape boycott. "They" are against it.

Farm Bureau is the nation's largest farm organization. It is composed of farmers dedicated to preserve the free enterprise system. The grape boycott and associated union tactics are seen by farmers as a threat against freedom to produce and sell.

Michigan Farm Bureau is the State's largest farm organization. It is asking our government leaders to avoid reactionary approaches to emotion-packed charges made by pressure groups that would lead to unwise programs of little value to seasonal farm labor.

Lenawee Farm Bureau with 1,304 family members is anxious to protect the farmer's right to produce food and fiber without intimidation and coercion.

As a member of Farm Bureau I support these aims and objectives.

The business meeting was called to order by the president, Mrs. Douglas Palmer, who reminded members that they were to assist in serving the roast beef and pork supper at the Congregational Christian Church, Thursday, Feb. 12, starting at 5 p.m.

Seven lap robes have been completed. Devotions were given by Mrs. Raymond Kable with scriptures from the 5th chapter of James and an article "Reading About Prayer."

Mrs. Percy Cadmus presented the program with a book review of "On the Way Home" by Laura Ingalls Wilder.

Local Drive Successful

Local Community Concert chairmen, Mrs. Warren Peck and Mrs. June Green, have announced that their recent membership drive was the most successful in recent years.

As a result of their efforts, and of those in other areas, there will be a total of four concerts offered to members in the season 1970-1971.

The First Chamber Dance Group of New York will be in Adrian in early December. In February, 1971, the Johann Strauss Ensemble of the Vienna Symphony Orchestra will be in the United States for the first time, and they will appear in Adrian during that month.

A third concert by Mr. Karlsrud, a bass baritone of the Metropolitan Opera Company of New York, will also be offered.

The fourth concert will be presented by Ted Alan Worth, an organist of world fame.

Dates for these concerts will be announced at a later date when tour plans are finalized.

There are still a few memberships available for anyone who would like to join the association.

All concerts for the coming season will be presented at the Croswell Opera House in Adrian.

4 Lenten Services at Presbyterian

Four Lenten worship services are planned at First Presbyterian Church.

The first will be held Thursday, Feb. 12, at 7:30 p.m. in Fellowship Center, followed by others each succeeding Thursday at the same time and place.

The Rev. Edmond Watkins will conduct the meditations, concluding with communion on Maundy Thursday, March 26.

Special Lent Services

Emmanuel Lutheran Church, 9950 Ridge Highway, will host the community in a special series of "open house" programs during the Lenten season this year.

Each Wednesday evening from February 11 to March 18, a simple supper will be served at the church at 6 p.m. for members of the congregation and their guests.

Following the supper a special Lenten worship service program will be held in the church.

Opportunity will also be given to those present at the supper as well as at the service to ask questions concerning Lutheran doctrine and practice.

Although everyone is welcome to attend, prior to each Wednesday evening program members of the congregation will call on families living in the area around the church and especially invite them to attend.

Purpose of the program is to provide an opportunity for people living in the community become better acquainted with the Lutheran Church, its doctrines and practices.

People who have no active membership in any Christian congregation are cordially invited to consider membership in Emmanuel Lutheran Church.

Tax Increase by Directive

CLINTON — Discussion at the Clinton Township Board meeting last Monday concerned the problems facing small municipalities, which have been brought about by evolutionary changes.

The members noted that codes and ordinances placed in effect several years ago are now becoming obsolete and unenforceable. Domination by state and federal governments is making it next to impossible for local governments to truly represent their constituents.

Supervisor Harold Calhoun reported that a directive has been received from the state dictating a substantial increase in tax assessments, and there is no recourse from this directive. Local officials are powerless to do other than to comply.

A young couple asked the question, "What right does this municipality have to tell us what kind of home we can live in?"

The board had just told them that they could not move a mobile home onto the seven acres they had just purchased, even though all water supply, sanitation, and electrical regulations were complied with.

County Commissioner Martin Halley briefed the Board on the recreational funds available to the township through the State Recreation Bond issue voted at the last election.

The Board decided that, as an individual community, it could not afford to accept the funds, because of matching fund stipulations and various other governmental strings attached. However, they would be willing to work with other municipalities in a cooperative venture in order to take advantage of those recreational funds.

dream castles

Deep inside each person, where no one can see, stands a dream castle. The nature of it varies according to one's character and personality. An artist may dream of creating a masterpiece—not yet painted—which will inspire many people. Another person may see a vision of how he can make life happier for others.

Everyone must believe in his dream in order to go forward with patience.

Jesus hoped that the world would hear His message through the uneducated fishermen He chose as His close companions. He did not give up His dream that the disciples would carry on His work . . . even when they argued over places of honor in heaven . . . or when Peter denied any connection with Him.

His dream came true. Showing courage and faith, this small group of twelve grew through centuries into today's worldwide congregation of millions.

You will find inspiration and help for your dreams of spiritual accomplishment when you attend the church of your choice.

TR, A BIOGRAPHICAL NOVEL ABOUT THEODORE ROOSEVELT by Noel B. Gerson. At 42, the nation's youngest president, unexpectedly inheriting his role on the death of President McKinley by an assassin's bullet. Theodore Roosevelt was a man of literary and cultural interests, a sportsman, hunter, rancher, soldier and explorer, a promotor of peace in the Old World, author of more than 35 books, a family man and a father. This is a thumbnail sketch of what you will read in this new novel by Gerson.

I SING THE BODY ELECTRIC by Ray Bradbury. This is a new collection of eighteen stories. Rray Bradbury's first in five years. In these stories the reader is conducted on a tour through time and space—into the unbounded dimensions of the future, and through remapped patterns of the past.

COUNTERCLOCKWISE by Mary Jane Ward. Just what is mental illness—to those who suffer from it? This novel concerns Susan Wood, an author, who wavers between insanity and mental health. As a result, the reader is confronted with the reality of much that mental instability means.

COOKING OF JAPAN by Raefael Steinberg. This is another of the books by TimeLife in the series of foods of the world. This book includes the heritage of the past, plus the recipes—you may like to try some of the Japanese cookery.

Young Adult

HOW TO FIX UP OLD CARS by LeRoi Smith. This book is about fixing up old cars. Not just restoring an old Model-T Ford, or creating a shiny hot rod, or breathing life back into the old hand-me-down family bus. A broad look is taken at all the things involved in fixing up any old car, whatever the model.

THREE LIVES OF SHARON SPENCE by Elizabeth Corbett. Pretty slightly spoiled daughter of wealthy parents, Sharon finds herself confronted with a decision which will affect the entire future course of her life. This novel tells the story of the outcome of her decision.

Junior Readers

HORSE OF TWO COLORS by Glenn Balch. This is a story of a Eutaw Indian boy, the Spaniards, and a walled stockade that stood in what is now New Mexico.

PORKO VON POPBUTTON by William Du Bois. Porko was a very fat little boy and all his friends made fun of him. This made him very unhappy and one day he decided to do something about his problem. Eureka, he succeeded.

Small Fry Books

PIG WAR by Betty Baker. This is an I can read history book, and is about an island, thought to belong to America, the people of the fort thought it was British, and therein lies our story.

EMILY'S AUTUMN by Janice May Udry. This little book concerns a cornhusk doll made for Emily by her grandmother. This doll was like the dolls her grandmother had to play with when she was a little girl. Emily talks about the seasons of the year and explains the changes to the doll.

BENJE by Elizabeth Rice. Benje is a little squirrel who caught his tail in a trap and lost most of it. This made him unhappy and all his friends tried to help him replace his beautiful tail.

I'LL FIX ANTHONY by Arnold Lobel. When I'm six I'll fix Anthony. All the things I can't do now, I'll be able to do and that will fix Anthony, my big brother.

GOGGLES by Ezra Keets. "Archie, look what I found," Peter shouted. A pair of "Motorcycle goggles." Now the two boys had something unusual to play with and enjoy.

HAPPY HARRY AND THE SCARECROW by Anne Geelhaar. It was spring in the country. A lonely scarecrow was propped up against a cherry tree. Nobody came to visit the scarecrow. The bees hurried past, and Isabel, the cat, was interested only in birds. The scarecrow was sad. Then one day, the starlings came back for the summer. Now things began to happen.

MERIDETH WAS AFRAID by Mary Veen. Merideth was a horse. A horse who was afraid of many things—such as the dark, mice, dragons who breathed fire. One day, he ran away, because he was so ashamed of his fears. However, everything worked out for Merideth.

LAST ONE IN IS A ROTTEN EGG by Leonard Kessler. This is a sports story about Freddy. Freddy stayed on the side of the pool and always said "I cannot swim in the deep water, I guess I am the rotten egg." In this book, readers will cheer Freddy on to the end—when NOBODY is a rotten egg.

Switzerland Is Goal for Scouts

Girl Scouts of the Irish Hills Council are planning another trip—it will be to the International Girl Scout-Girl Guide Center, better known as "The Chalet" near Adelboden, Switzerland.

At the present there are sixty seven girl applicants and thirteen adult advisors who will start the two and one half-year work and cultural project. Their goal is set for August of 1972.

The girls are members of the eighth, ninth, and tenth grades. Also eligible to go are the girls that went to the Cabana at Cuernavaca, Mexico in August of 1969.

The group will meet once each month on the second Saturday to plan and carry out money making projects. An estimated goal of $600 per person has been set for this trip.

Girls from Jackson, Hillsdale, and Lenawee counties plus the city of Albion will start their first project in Tecumseh with a Valentine bake sale Saturday at Baldwin's Hardware and Carlton and Miller's Meats, from 9 to 3 and at Herrick Park Branch Bank from 9 to noon.

Payrolls Top $57.8 Million

Although local employment stayed approximately the same in 1969, total payrolls hit an all-time high mark of approximately $57,180,000. It's the first time the city ever went over the $50 million figure.

Tecumseh Products easily retained its position as the largest employer with an average employment of 3,543 for last year—and its payroll of $33,937,256 accounts for about 60% of total, local incomes.

Fisher Body was second largest employer with an average of 1,040, down slightly from 1,160 of the previous year. Payroll there topped $8.5 million and purchases of goods and services from 128 county business concerns amounted to $231,000.

Besides multi-million dollar payrolls from the Products and Fisher, four others topped the million dollar figure. They are, in order:

Tecumseh Public School — $1,941,774.
H. W. Tuttle Company — $1,866,000.
Faraday, Incorporated — $1,605,723.
Tecumseh Corrugated Box — $1,062,000.

The schools had an employment of 285; Tuttle's, 292; Faraday, 271; and Tecumseh Box, 129.

Herrick Memorial Hospital continues to inch its way toward a million dollar payroll. Administrator Bill Groover reports the 1969 payroll at $898,000 and an employment of 285.

Considerable pessimism has been evident in national reports, but such is not necessarily true here.

Virgil Tucker, secretary of the Tecumseh Products, says "business looks good for the first six months. However, operations have been curtailed in January and February due to vendor strike."

J. W. "Pat" Meadows, board chairman and chief executive officer at the United Savings Bank, likewise is optimistic about 1970. He says, "Tecumseh and area should have a good year."

Although James Robideau, president of Tecumseh Box, expects this year to be comparable to last, Charles Buhrman at Faraday "expects significant growth in sales in both Faraday and Orrtronics lines."

He adds "factory and office additions are planned for 1970, bringing total facility to 100,000 square feet.

Robert Duhan, assistant school superintendent and business manager, reports the new Sutton Elementary School will soon be completed, that 14 mills for operation will be up for renewal in June, and classes at the high school and junior high are over crowded.

Al Merz, Tecumseh Equipment owner, says "truck business looks real good and farm business probably about the same as 1969, which wasn't bad.

Jack Metcalf says the business outlook for 1970 looks "good." His receipts for 1969 totalled $217,000, and the volume of mail was about 3% over 1968.

Mr. Groover at the hospital expects about the same level of activity but costs to increase between 6% and 10%.

Dike Hodges at Moore Lumber estimates volume to be down about 10%, and Al Meyers, at Meyers Industries, says his outlook and "enthusiasm slightly diminished."

Payrolls and employment figures do not include three, large area plants—Pearless Gear and Budd at Clinton, and Stauffer Chemical, Sutton Rd.

Council OKs Advisory Vote

Final action was taken by Council Monday evening for proposing a city income tax on the April 6 ballot.

The vote will simply be of an advisory nature, and officials have stated that they will abide by the city electorate's decision.

Council is proposing a one percent income tax for city residents and one-half percent for non-residents working within the city limits. Additional revenue for the city is anticipated and a considerable portion will come from non-residents.

If voters show approval of an income tax, property taxes will be dropped five mills, from the current 14 mills, and the 15-mill limitation will be dropped to 10 mills.

Out of the city's present 14 mills, over one mill was voted. Council still could raise local millage by over two mills without a vote of the people, and could do so now.

Officials stated Monday night, however, that property tax would be dropped more than five mills if an income tax resulted in more than sufficient funds to run the city.

Two groups of residents could expect a tax reduction, those with small incomes and those living on social security, pensions or other retirement programs.

Two, possibly three, fact sheets will be distributed by the city to residents throughout the city prior to the election. A general meeting for the public is planned at the Community Center on March 10.

Schools Select 3 Homemakers

Tecumseh, Clinton and Britton High Schools have named their respective 1970 Betty Crocker Homemakers of Tomorrow. They were selected on the basis of scores in a homemaking knowledge and attitude examination given in December.

Debra L. VanSickle, daughter of Mr. and Mrs. Richard VanSickle, Tipton Hwy., is Tecumseh's homemaker; Sally Vreeland, Britton's; and Sandy Lewis, Clinton's.

Debra is a horse woman, owning two ponies, Black Jack and Natasha, and is a member of the Tipton Jets 4-H Pony Club.

She likes to bake, bread especially, on weekends when she has time, but doesn't sew much. A member of Tipton Community Church, Debra is a senior and has been a member of the Latin Club, cadet and senior bands and chorus, and also the GAA track team.

She plans to take a secretarial course at Jackson Junior College following her graduation.

Sandy Lewis, 18, is the daughter of Mrs. Freda Lewis, Newburg Rd. She is a senior at Clinton High School, is on the honor roll and editor of the school publication, "Old Red Schoolhouse." She is also a student assistant in Home Economics I, and a former member of the GAA.

She is a skilled seamstress, sewing most of her own clothing.

Sally Vreeland, daughter of Mr. and Mrs. Sam Vreeland, 10521 Milwaukee Rd., is Britton's number one homemaker. She is the voice on the loud speaker, announcing players on both teams at basketball and football games in Britton each week.

A senior, Sally has participated in school plays, chorus, GAA, bowling, and business clubs, and in 4-H and Future Homemakers for four years.

She was a member of the staff of the school paper, "Reflector," and also the Brittonian year book. She is a member of the Congregational Christian Church.

Sally has been accepted by Western Michigan and Central Michigan Universities and Monroe Community College, but has not decided which one she will attend in the fall.

In addition to receiving a specially designed silver charm from General Mills, sponsor of the annual homemaking education program, the girls are each

FOUR ANGELS — Red dresses and cosmetic beauty of Virtue, Purity, Chastity and Charity suggest that they are sinning more than sinned against in the Tecumseh Players' production of "Anything Goes," premiering Thursday evening with a dress rehearsal. Cast in the roles of angels (?) are Judy Dornan, Ellen Todd, Laura and Linda Hughes. Curtain time is 8 p.m. at the Glass Room of the Community Center, Feb. 27, 28 and March 6, 7.

Musical Comedy Opens Next Week at Center

Tecumseh Players are working hard in rehearsal of the play, "Anything Goes," to have it ready for presentation for student night, Feb. 26, and succeeding evenings, Feb. 27, 28 and March 6 and 7.

Entire action of the musical comedy takes place aboard the SS American, sailing from New York to England. Celebrities aboard included American heiress Hope Harcourt (Judy Hoyt), her foppish fiance, Sir Evelyn Oakleigh (Craig Collicot) and Hope's mother, (Louise Lawson).

Other travelers arriving aboard are Bishop Dobson (Phil Campbell) and Elisha J. Whitney (Ron Wetter) adipose and pompous Wall Street broker.

Reno Sweeney (Dorothy Wetter), ex-evangelist turned to more profitable employment, and her bevy of not-so-angelic angels are also passengers. Billy Crocker (Dennis Bryan), a broken down broker, is actually a flunkey of Whitney.

Reno and Billy, old friends, meet again and Billy plans to stay aboard as a stowaway and break up the proposed marriage of Hope Harcourt and Sir Oakleigh.

Crew chit-chat reveals that Moonface Martin (Dr. Carlton Cook), public enemy No. 13 and a fugitive from the Feds, has boarded the liner with his moll, Bonnie (Diane Harbaugh). Disguised in clerical black, he assumes the title and name of Rev. Dr. Moon.

Billy Crocker gratefully and unquestioningly accepts the passport and passage ticket belonging to Moon's colleague, Snake Eyes Johnson, public enemy No. 1.

Johnson, it develops, will not be making the trip with Moon. At the gang plank, he yields to the Feds. Billy assumes a number of disguises so that he may be near Hope.

Meanwhile Reno has developed a strange new affection for Sir Evelyn. Since Moon's and Billy's disguises are no match for Reno's sharp eyes she recognizes them instantly and with their help, devises a plan to get Sir Evelyn for herself.

Eventually Billy is recognized as Snake Eyes Johnson and Rev. Dr. Moon is urged to hold a revival meeting with the notorious killer as chief confessor.

Reno leads the entire company in a general confession of sins, remorse and a change in conduct.

Cast in supporting roles are: Howard Furry as the Captain; Judy Dornan, Linda Hughes, Laura Hughes and Ellen Todd as the four Angels; also, Bill Fowle, Brad Fowle, Mike Valentine, Chuck Froehlich, April Cook, Bill Cook, and Dean Forsyth.

Tickets for the show my be purchased in Tecumseh at Flanders Music Store, Wrights Drug Store, and Mary Sanchez Beauty Salon. Reservations may be made by calling 423-7670.

Reservations Are Needed for Banquet

Folks who are interested in attending the safety recognition banquet at the Tecumseh Country Club next Tuesday evening have only until Friday, Feb. 20, to make reservations.

The banquet, open to the public, will feature Col. Fredriek E. Davids, head of the Michigan State Police, as principal speaker. Reservations may be made with any Rotarian or by calling the Country Club, 423-2070.

All phases of safety, for which the community and organizations have received recognition, will be honored. This will include the Rotary Club and city's annual safety check projects, and also industrial safety awards received by the Tecumseh Products, Fisher Body and others.

All citations, plaques and awards will be displayed.

The local Rotary Club, winners in 41 of 44 years with five state and three national honors, will receive its sixth safety check award from the state. Col. Davids will make the presentation.

Festivities at the club will begin at 5:30 with dinner scheduled for 6:30. Those interested in attending, may make their reservations now and pay at the door.

5 Running for Council

Five residents will contest for four seats on Council at the April 6 election. Of the five running, three are incumbents.

Those who filed petitions before Monday's deadline are: Lawrence K. Bilkie, analyst at Fisher Body; Dr. Carlton Cook, incumbent; Harold Easton, incumbent; George McCombs, bookkeeper at Schneider Chevrolet-Buick and former councilman; Murray Palmer, payroll officer at Fisher Body; and Wallace Whiting, incumbent.

Two Charged with Thefts

Two 15-year-old Tecumseh boys have been charged with theft of over $200 of ammunition from W. D. Hite Hardware and with plans to take some $2,100 of jewelry from the Gaston jewelry store.

According to the local police, who were assisted by State Police from Clinton, the boys tunneled a hole through the basement wall of the jewelry shop into the basement of the hardware store, next door.

The break-in was discovered shortly after Mike Hite, owner, opened his store Monday morning. A hole, between two and three feet wide, had been dug out of the wall.

Police picked the two boys up at school and they reportedly admitted the thefts, which included approximately $40 of other merchandise from the hardware store.

Tecumseh officers report that all of the ammunition has been recovered. They say the jewelry was hidden to be removed at a later date.

Police theorize that the boys broke through the wall about 7:30 Sunday evening and had been working on the hole for the past month.

Zoning Approved for Apartments

Council approved a zoning change Monday night at a public hearing for the construction of four eight-apartment units at the northeast corner of Russell Rd. and Green Hwy.

Planning Commission had given tentative approval for the zoning change.

The apartments will be two-story and mostly brick veneer. Off-street parking will be provided adjacent to Stacy St.

Stores Have Real Sales

Many downtown Tecumseh merchants are having a George Washington Birthday Sale this weekend with real bargains for shoppers on Friday and Saturday.

In most cases this will wrap up the winter sales in the Tecumseh shops, many of whom have cut prices even further on their merchandise.

Shoppers can read about the bargains in the merchants' ads on pages two and three of Section C.

'Ice Berging' Sends Youth to Hospital

Marc Graf, 16, suffered two broken ankles in an escapade called "ice berging" Feb. 10 near Standish Dam.

Marc, Mark Burkhart and Craig VanCamp were riding ice floes down the river and jumping off above the dam, when calculations went wrong and Marc found himself pinned between the ice and the dam.

Frantic efforts of his two companions with a sled from the nearby Warner house resulted in Marc getting to the hospital and being encased in ice packs to reduce the swollen ankles.

He was released from the hospital Saturday, with both ankles in casts, and in hopes that he could return to school Monday in a wheel chair, but such is not the case.

His mother, Mrs. Richard Graf, stated that she thought it would be another week before her son could handle his classes.

The Graf residence is at 505 Center Drive.

Young Manager Hurt

James Banas, 21-year-old manager of Tecumseh's Woolworth store, is in Toledo Hospital, suffering from injuries received Friday afternoon in a two-car collision which claimed the lives of a Monroe couple.

According to his wife, Marianne, her husband has a crushed left leg, chin cuts and an almost severed tongue. He will be confined in the Ohio hospital for a minimum of five or six weeks.

Visitors are restricted to members of the family.

The youthful store manager was headed west on Deerfield Rd. at the time of the mishap, and on his way to inspect a house to rent for his wife and 18-month-old daughter.

JAMES BANAS

James and Helen Bishop of Monroe were traveling north on Rogers Hwy., and apparently ran the stop sign at its intersection with Deerfield Rd.

Mrs. Bishop, 49, was killed instantly and pronounced dead at the scene. Her husband, 67, died Sunday from injuries at University Hospital at Ann Arbor. He was employed for 28 years at Tecumseh Products, retiring, Aug. 1968.

Funeral services were held Monday for Mrs. Bishop at Dundee with burial in Tecumseh's Brookside Cemetery. Services for Mr. Bishop will be held Thursday at 1 p.m. in Dundee, with burial in Brookside.

City Paying $50

City officials authorized payment Monday night of $50 towards a $115 Petwatchers' bill at the Tecumseh Veterinary Clinic.

BEHIND PAGE ONE

George Washington's birthday is Sunday and he was convinced that the political and material prosperity of our nation could not be sustained without morality and religion.

"The consideration that human happiness and moral duty are inseparably connected will always prompt me to promote the former by inculcating the practice of the latter," he said. "Of all the dispositions and habits which lead to political prosperity, religion and morality are indispensable supports. Let us with caution indulge the supposition that morality can be maintained without religion."

"Religion," said Washington, "is as necessary to reason (intelligence) as reason is to religion. The one cannot exist without the other."

Dog Licenses Are Required by Mar. 1

"Buy Now and Save Later," is the advice of Petwatchers as far as dog licenses are concerned.

After March 1 there will be a penalty charge for both city and county licenses.

A proof of rabies vaccination is required, and licenses may be purchased at the city hall during regular business hours.

3 Participate in Concert

Jim and Marianne Bush and Steve Parkman, participated in a concert by the Michigan Youth Symphony at Marshall, Sunday.

Mrs. Elwood Bush, who attended with her family, reports the concert included the unusual Serenade for Four Orchestras, by Mozart.

It was played by the combination of the Michigan Youth Symphony, divided into three orchestras, and the Marshall High School orchestra. It is rarely possible to find enough orchestras to play the composition, she said.

The concert audience was also treated to a world premier performance of the Symphony Number Three, by Richard Aikman, which received an enthusiastic response. This composition will be heard in Tecumseh, when the Youth Symphony appears in concert, March 14.

A comedy composition, The Worried Drummer, was played by Scott Stevens, percusion soloist from Grand Rapids, accompanied by the orchestra. Scott will appear at the concert in Tecumseh, presenting this same amusing rendition on a variety of instruments.

You Told Us

By DOROTHY GRIGG

It was my Navy son who told me—a really good basic household hint. This was after I had given him a rather stern look brought on by ugly black marks on my carpeting from his grease monkey shoes. "Aw, just put some cornstarch on it, Mom, it'll come right out."

Well, I did and it did. Now I'm reading that cornstarch and talcum powder work as well for grease on all kinds of fabrics that have been defiled by same. It's a mighty handy little trick. Norm can also knit ten times faster than I can, but I'll get my afghan finished some day.

Mr. and Mrs. Terry Holdridge and Tracy of Rochester, N.Y. arrived Friday morning to spend the weekend with his parents, Mr. and Mrs. Lawrence Holdridge. They held an open house Saturday evening for their son's family and also to honor the 23rd wedding anniversary of Mr. and Mrs. John Jones of Kelly Lake. Terrys went back home Tuesday.

Mr. and Mrs. Gus Bishop and Holly of Alma came home for the weekend with his family, Mrs. Orville Bishop, Betty, Bill and Mary Kay, too. Tiny Holly certainly looks like her grandfather. Wouldn't he be proud?

Walter Beck, formerly of Tecumseh, is hospitalized at Wayne Hospital, Greenville, Ohio following a severe heart attack last Tuesday. His daughters, Mrs. Thomas Kampmueller and Mrs. Alvey Vanderpool of Saline came home Sunday, leaving their brother, S/Sgt. Randall Beck, home on emergency leave from Duluth International Airport, with their parents.

A family dinner party in observance of his 83rd birthday anniversary was held Friday at the home of Charles Allen. Mrs. Frank Allen of Clinton decorated a cake with 83 candles in his honor for the dinner. "What a blaze," his wife remarked.

Carla Wilt, daughter of Mr. and Mrs. Carl Wilt of Bellevue, Ohio, was the honored guest at the home of her grandparents, Mr. and Mrs. Dow Bilby Sunday. She is four years old. Others attending were her paternal grandparents, Mr. and Mrs. Elmer Wilt, Mr. and Mrs. Ken Nagorsen, Karen and David of Mt. Clemens, Mr. and Mrs. Walt Wonderly, Gary, Greg, Glenn and Janelle, Earl Bilby, Brenda and Russell and Mr. and Mrs. Clark Nichols, Michael, Mandy and Michelle. Greg Wonderly is nursing a broken little finger he suffered Friday, and Grandma Bilby is still troubled with her fractured arm.

Mr. and Mrs. Paul Speer of Highland, are the parents of a boy, Paul David, II, born Feb. 11. He weighed 6 lbs., 5 ozs., and is the fourth grandchild of the Rev. and Mrs. Harold Speer.

Mr. and Mrs. Jack Lennard have returned from a Florida wedding trip and are living at 1205 Willow St. Kathryn Pence and Mr. Lennard were married Jan. 17. The Jerry Robinettes stayed in the Willow St. home while the newlyweds were away.

Adeline McKenzie, Adeline Handy and Carol Partridge were in Detroit Monday to learn the latest fashions at the hair show at the Sheraton-Cadillac Hotel.

SUPPORTING CAST — Students make up a large portion of supporting characters in the Tecumseh Players' production of "Anything Goes," to be presented Feb. 27 and 28 and March 1, 6 and 7, at the Community Center. From left they are Phil Campbell, Dean Forsyth, Bill Fowle, Mike Valentine, Chuck Froelich, Dale Forsyth, Ron Wetter and April Cook, with Brad Fowle and Bill Cook smiling in front. Curtain time is 8 p.m. except for a Sunday matinee at 2 p.m., March 1.

O'Donnell Gives 'Glimpses'

Joseph O'Donnell presented "Glimpses of World Events" for Monday Club family night, Feb. 16 in the Youth House.

Mrs. Cecil Smith welcomed 52 members and guests to the family night festivities. Mrs. Ralph Comfort led the devotions and gave the invocation.

Mr. O'Donnell, retired from government service, centered his talk on his activities at the White House, film coverage of official visits by foreign heads of state and setting up presidential press conferences.

He displayed autographed pictures of visiting dignitaries and his collection of identification pens he accumulated during his Washington stay.

A framed picture of Vice President Nixon and Premier Krushchev taken during the now famous "kitchen debate" in Russia with caption proclaiming him to be a member of the "kitchen cabinet."

Upon retirement, the speaker was allowed to purchase a government film with which he was closely associated. It was shown overseas before it was shown in this country. Edward Beal projected the film, narrated by Charlton Heston and showing space flights from Cape Canaveral, Russian space flights, coronation of the Pope in Rome, Vietnam conflict, first integrated college in Tuscaloosa, Ala., East Germany and the Berlin Wall, climaxed by President John F. Kennedy's trip to Berlin.

Mrs. Wilfred Waldron introduced the speaker. She also read an original poem by her neighbor, Mrs. Emma Day, entitled "The Fool Hath Said in His Heart: There Is No God."

Mrs. Robert Bacdon, accompanied by Mrs. William Flanders, sang several selections.

Mrs. Smith reminded members of the ingathering for Ypsilanti Hospital to be held March 2 at 10:30 a.m., at the home of Mrs. William Snook.

Club Makes $285

The Voyage en France Club is still working hard.

Friday, Feb. 21, members will participate in the Snow Carnival by putting up a booth in the Tecumseh High School gym. Besides the booth, the club is planning to sell stuffed dolls and other stuffed animals.

On Thursday, March 5, at 8 p.m., the Voyage en France is going to have a spring fashion show at the Presbyterian Church.

The fashion show will be sponsored by Dawn Rene Shop of Devils Lake and there will be refreshments and door prizes.

In the near future the club is going to sell curb numbers in Tecumseh in conjunction with the Jaycees.

Just recently the club has been selling subscriptions to the Tecumseh Herald and made a profit of $285.00 from the project.

Friday the 13th, the club sponsored a plastic products party at the Community Center. They sold over $400 worth of the products, in cooperation with Mrs. Diane McCarty and under the direction of Mrs. Wesley Joachim.

The Voyage en France goal is $4,000, which will pay for half of the members' expenses on the trip to France. Most of the members are planning to go to France this summer, but some will wait until next year.

News from the Tecumseh Library

Young Adult

WHERE THE LILIES BLOOM by Vera Cleaver. The creators of the irrepressible ELLEN GRAE now show us an entirely different way of life, one which is nearly unknown to the outside world, the life of the "wild-crafters" who gather medicinal plants and herbs on the slopes of the Great Smokies — people who are free, proud, and achingly poor. This is the story of a young Appalachian girl.

SPACE HOSTAGES by Nicholas Fisk. A demented Flight Lieutenant, a top-secret spaceship, the world on the brink of nuclear holocaust—this is the background to a science fiction adventure that launches nine children into the terrifying vastness of space.

Junior Books

AGATON SAX AND THE DIAMOND THIEVES by Nils-Olof Franzen. Sweden's answer to Sherlock Holmes, Agaton Sax is an arch enemy of crime and an extraordinary detective. He is a genius at codes, has total recall, keen intelligence and nerves of steel. Agaton flies his own helicopter named Hermes and is aided by a specially built talking wall.

EMILY'S RUNAWAY IMAGINATION by Beverly Cleary. Mama said Emily's imagination was always running away with her, something like the way Emily imagined, a horse had once run away with Mama. Because of her imagination Emily fed rotten apples to the hogs, so she wouldn't waste food. The results were disastrous from Emily's point of view, but they were hilarious to the members of the Ladies' Civic Club, and put them in the mood to agree to the library Emily wanted so badly.

Small Fry Books

HUMPHREY GOES HUNTING by Witali Bianki. Humphrey, a little puppy, is bored. Chasing hens is all very well, but a real hunter goes after wild animals, and so Humphrey goes hunting. He has many adventures, as you can imagine.

McBROOM'S EAR by Sid Fleishan. This is another splendid tall tale from the author of McBROOM TELLS THE TRUTH and McBROOM AND THE BIG WIND. Every word of this new story is just as true as the earlier tales and every bit as funny. Excitement reigns when the grasshoppers arrive and threaten the prize ear of corn that the McBroom children planned to enter in the County Fair.

Run Away!

Tecumseh wrestlers, losers only to Flat Rock in a dual meet, simply ran away with the Huron League wrestling championship Saturday at Blissfield.

The Indians, coached by Pat Connors, rang up 117 points, well ahead of Flat Rock's 96 points, and appear certain to retain at least a tie for conference honors.

Abel Valdez, Gary Jones, Steve Hinkleman and Bob Hackett registered firsts Saturday, with Jim Freshcorn, Marv Maynard, Joe Bailey, Marv Maynard and Earl Ruttkofsky winning second places.

A third place went to Mike Tilton, and Tom Van Sickle and Steve Tilton were fourth place wrestlers.

Connors called Tecumseh's victory a "great job, a great team effort."

Only a dual meet with Grosse Ile remains on the Tecumseh schedule, and a win will produce a sure tie.

Other scores at Saturday's matches were: Grosse Ile 53, Monroe CC 49, Blissfield 38, Jefferson 31 and Airport 7.

Skins Rated 7th

CLINTON — League leading Redskins wrestling team ran their season's score to 10-2 in a match with Addison Thursday, and are now rated 7th in the state.

Clinton won nine of the 12 events.

Falls for Clinton were made by Ron Brueckner at 130 lbs.; Kim Swift, at 145 lbs.; Dave Elliot, at 155; Tom Moore, at 175 lbs.; and Al Roberts, at 185 lbs.

Winning by decisions were Roger Brueckner, at 127 lbs.; Lynn Hawkins, at 98 lbs.; and Carl Anderson, 137 lbs.

Bruce Handy won on a draw, 36-13, for the Redskins.

Assured of at least an LCAA league tie, with their mark of 7-2, Clinton matmen will tangle with Onsted Thursday night at 7:30 p.m. at Onsted. Madison knocked Onsted out of a chance at a tie last week.

There will be a league match at Morenci on Saturday.

Clinton has taken first place in both the Napoleon and Union City Invitationals in recent weeks.

Rams Trounce Indians, 92-71

Flat Rock's hot basketball club, easy winners earlier in the season against Tecumseh, proved it was no fluke here Saturday night when the Rams routed the Indians, 92-71.

Only one loss mars FR's record, which now stands at 13-1. The Indians are 5-9 for the season and 4-6 in the league.

For all practical purposes, the officials could have called the game here at the end of the first period. The Rams poured it on for a 25-8 lead, and then boosted it to 48 to 21 at halftime.

It was no contest as the tall visitors dominated practically everything, letting up somewhat in the second half to allow Tecumseh make the game a bit more respectable. The Indians actually outscored the visitors in the final two quarters, 50 to 44.

Lanky senior Bill Puffer was the only Indian to score in double figures with 13 points. Coach Vic Lawson played his entire squad with 11 players hitting the scoring column.

Coach Jim Curth's Jayvees whipped their opposition, 62-53.

Auxiliary Hosts 24 Scouts

Twenty-four members of Girl Scout Troop 123, including their leaders, Mrs. Richard Egli and Mrs. John Frazier, were guests of Underwood-Orr Unit No. 34 of American Legion Auxiliary recently.

They sang several Scout songs for the members. Mrs. Egli reviewed their calendar of activities since September, and having been a delegate, she brought news from the national convention held in Seattle last fall.

Special favors, made by the girls at the Training School for the junior activities chairman, Mrs. Dorman Vescelius, were presented to the scouts during the refreshment hour.

During the business meeting an announcement was made that past presidents had provided 17 large size feeding bibs for child welfare chairman, Mrs. Robert Koffron, to send to the Home for Retarded Children at Battle Creek.

The unit's rummage sale is scheduled for Feb. 26-27 at the Legion Home, from 9 a.m. to 5 p.m. each day. Good clean used clothing and other suitable articles may be left at the home during afternoons and evenings, or with committee members Mrs. LaMar Rufner, Mrs. Charles Houghtby, Mrs. Byron Goodman, Mrs. Wallace MacGeorge and Mrs. Roger Williams.

Date of the birthday dinner party will be Saturday, March 14, in the Legion Home at 6:30. There will be a guest speaker.

SSSOOP, BRING YOUR BIB — Mrs. Robert McCrate, left, will assist Mrs. Eugene Rebottaro, chief cook, in preparing spaghetti and meat sauce for the annual dinner Wednesday, March 4, at St. Elizabeth School. Mrs. Lawrence Bilkie is general chairman, assisted by Mrs. Edward Rapin, Mrs. Eleanor Kruger and Mrs. Jack Ries.

Linen Shower Is for Mrs. Stone

Mrs. Robert E. Stone was feted at a linen shower on Valentine's Day in the home of her husband's aunt, Mrs. Ellsworth Robison.

A corsage was presented Mrs. Stone, and refreshments were served in the Valentine motif.

During the festivities, a call came from her husband that he was en route home, but his brothers were dispatched to meet him at Metropolitan Airport rather than his bride.

Mr. Stone's leave from Fort Bliss near El Paso, Texas was only long enough to allow him to accompany his wife back so reception plans have had to be cancelled.

PW Plight Documented

WASHINGTON, D. C. — An article documenting the plight of American servicemen who are prisoners of war or missing in action in Southeast Asia is getting world-wide attention and action.

Titled "The Forgotten Americans of the Vietnam War," the article first appeared in the October, 1969, issue of AIR FORCE/SPACE DIGEST magazine, published by the Air Force Association (AFA). A condensed version was the lead story in the November, 1969, issue of READER'S DIGEST.

Written by Louis R. Stockstill, former editor of ARMED FORCES JOURNAL, the article detailed the shocking mistreatment — the physical suffering, degradation and isolation — of American POW's at the hands of their captors. The Communists have refused to give an accounting of the POW's or, to abide by the Geneva Conventions designed to guard the rights and persons of prisoners of war.

The article also described the plight of the men's wives and families — their doubts and burdens — as word is awaited from Hanoi. Hundreds of wives ask themselves daily, "Am I a wife or a widow?"

At the close of his article, Mr. Stockstill urged that individuals write to the ambassadors of foreign nations and to foreign publications to express their concern for American prisoners of war.

BEHIND the COUNTER *with*

CARL LAMB

Is there repeated illness in your home during the winter? "For too many years we have spent most of our time during the cold weather in surroundings that are excessively heated, inadequately ventilated, and completely deficient in proper humidity," says Norfolk, Va., ear, nose and throat specialist, Charles S. Sale.

This hot, dry environment is not only physically uncomfortable, it is frequently harmful to our health, says Dr. Sale. During warm weather we air condition our surroundings for comfort and health. In the winter we heat our surroundings for comfort, but neglect to humidify for our health.

For good health, the membranes of the nose, throat and bronchial tubes require a humidity of 40 to 50 percent. The humidity content of our homes will practically vanish after long periods of heating.

Penetration of bacteria or viruses through a normal nasal membrane is very unlikely. The majority of ear, nose and throat problems during the winter months probably are the result of failure of the nasal membrane to maintain its healthy function.

A relative humidity of 50 percent has a lethal effect on nearly all infective bacteria and viruses. It causes germs emitted by sneezing or coughing to quickly settle to the floor and die. If the air is unusually dry, mucus and saliva missiles dry up and may float as infectious agents for several weeks.

How much water is really needed? A good rule-of-thumb is to add one gallon of water per room per day during the winter heating season. A small pan of water on a stove or radiator is not capable of supplying any more than a fraction of the moisture really needed. Ideally you should try to humidify the entire home. An optimum indoor atmosphere during the winter is 70 degrees F. with relative humidity of 50 percent.

STATE OF MICHIGAN

In the Circuit Court for the County of Lenawee

In the Matter of the Complaint of Allison Green, State Treasurer of the State of Michigan, for and in behalf of said State, for the collection of certain lands for taxes assessed thereon.

To the Circuit Court for the County of Lenawee:

ALLISON GREEN, State Treasurer of the State of Michigan, respectfully shows unto this Court:

1. That he is the State Treasurer of the State of Michigan and makes and files this complaint under, by virtue of and pursuant to the provisions of Act No. 206 of the Public Acts of 1893, as amended, and Act No. 150 of the Public Acts of 1933, as amended, and Act No. 300 of P. A. 1965, as amended.

2. That Schedule A annexed hereto is the tax record required by the act first above mentioned and contains the description of all lands in the aforesaid county upon which taxes, which were assessed for the years mentioned therein, have remained unpaid for more than one year after they were returned as delinquent, the amount of taxes, interest and charges, and the total amount charged against each parcel of land as shown by the records in the office of the County Treasurer of said county.

3. That extended separately in said schedule against each description of said lands therein contained are (a) the total amount of delinquent (a) upon said description for the non-payment of which the same may be sold at the next annual tax sale, (b) interest computed thereon at the rate provided by law to the first day of May, next ensuing, (c) a collection fee of four per cent and (d) $2.00 for expenses, all in accordance with the provisions of the act first above mentioned.

4. That all of the aforesaid taxes, interest and charges are now delinquent and unpaid, and have remained delinquent and unpaid for sufficient time to authorize and require, as provided by the foregoing acts, the sale of the aforesaid parcels of land against which they have been assessed, are extended in said schedule at the next annual tax sale for the non-payment thereof, and that the said taxes, interest, collection fee and expenses so extended in said schedule against each parcel of land therein described constitute a valid lien upon each of the said several parcels of land described in said schedule as therein extended, which extended in favor of the people of the State of Michigan, the payment of which lien this court may enforce as a preferred or first claim upon such lands by the sale of the same.

Wherefore your plaintiff prays:

a. That within the time provided by law this court may determine and adjudge that the aforesaid taxes, interest, collection fee and charges are valid and constitute a valid lien upon each of the said several parcels of land described in said schedule as therein extended;

b. That within the time provided by law this court make a final judgment in favor of the State of Michigan against each parcel of said lands for the payment of the several amounts of taxes, interest, collection fee and expenses, as computed and extended in said schedule against the several parcels of land therein contained;

c. That said judgment provide that in default of the payment as ordered of the said several sums computed and extended against said lands in said schedule, the said several parcels of land, or such interest therein as may be necessary to satisfy the amount adjudged against the same, shall severally be sold as the law provides;

d. That your plaintiff may have such other and further relief in the premises as to this court may seem just and equitable.

And your plaintiff will ever pray, etc.

ALLISON GREEN
State Treasurer of the State of Michigan, for and in behalf of said State.

Dated: January 13, 1970.

Through My Window

SAM THE SQUIRREL-ly

People who know me, even the least little bit, know that cats are not my favorite animals. I just don't like them—they are sneaky, arrogant and not to be trusted. We are all bird and dog lovers, there has never been any need for cats.

Of course, they say there is an exception to every rule, while my no-cat rule is not being contradicted. I must admit that it is bending slightly. There is a funny cat next door. Fred and Carolyn called their kitten Samantha but the mistake was soon discovered and he became just plain Sam. No—plain is definitely not the word for Sam. He wears a gold collar with bells, which hopefully will warn the birds, and he also has a heart-shaped identification tag.

Sam does not act like a cat. Some of his 'carryings on' are much more dog or puppy-like. For example, do most cats chase cars? Often, when Sam is on the prowl and either Dick or Wanda drive in their driveway, he will go charging after the car and follow it way to the garage. Or, he will come when called. We hear a loud "Sam!" and from anywhere is apt to come a black and white streak. Sam runs so fast and carries his tail—well, I cannot really say that it gracefully flows behind him nor is it straight up. When running flat out', Sam arches his tail into an uncertain position halfway between two extremes.

★

THERE IS nothing haughty, aloof, or snobbish about our four-legged neighbor either. He is friendly, sometimes almost too friendly. One day Mom saw him sitting at the top of the creek bank and, since we were more interested in bird watching than cat watching, she decided to invite him to leave. This involved opening a window but before she could even start to say please leave, scram, beat it, or whatever you say to cats, Sam started towards the house at top speed. You never saw a window shut so quickly. One thing we did not need was a cat in the room. Sam is friendly.

Part of the fun with Sam, I am sure, stems from the fact that he really does not know he is a cat. He may not think of himself as a dog but certainly he sees himself as a person, probably a Carmean, a four legged Carmean who wonders why the rest of his family hobbles around on two feet when four is so much easier. There are times, though, when he does revert to being a cat, times when he shows an overzealous interest in birds. One of his favorite studying spots seems to be on my near-the-window feeder. Fortunately, he has never figured out that there is not a bird in his right mind who would dream of coming near the feeder occupied by a cat.

When he crouches beneath the feeder, it could be a different matter as we try to discourage this. A water pistol is most effective. Now we do not even have to give the full treatment, he takes off at the sound of the window being unlatched. Of course, he does not go far—he merely gets out of range, then turns around, sits down, grins, and asks what are you going to do now!

★

SAM IS A climber, he takes lessons from mountain goats, etc. He is, however, no match for a squirrel even though one day he not only felt he was their equal but I believe he actually thought he was one. That was also the day a squirrel discovered it was even more fun to tease a cat than a dog. It all started with a chase across the yard, down the creek bank, and up the maple tree. We thought it strange the squirrel did not open up more of a lead and now we know he was being very careful not to. He was cunningly staying out of reach. Fairly high up the tree they went and, if Sam lagged far behind, the squirrel came back down and taunted him with a flipping tail or some sassy chatter. When it was apparent that Sam had reached the 'top of his mountain' and could go no further, the squirrel came down one last time, inched tantalizingly close, then quickly turned and scampered away. Where did he go, we could almost see Sam wonder about the disappearance. Oops, there was that noise again. Sam snapped his head around and there, in a nearby tree, was the squirrel.

He did not understand tree roads. It took some maneuvering to get out of the maple tree but he finally managed. Then there was a quick dash to the other tree, a charge up to the spot where he squirrel had been, but where was he? Back in the maple tree, where else? Thus it went all morning, can you see why Gertie T. and I did nothing but laugh? At last, completely frustrated as to why he couldn't do what the squirrel did, he gave up. He slowly walked over to the white barrier, crawled to the top and sat down, no doubt to ponder. The squirrel tried getting him back into the trees with no success. As a final insult, he swaggered across the lawn, paraded directly in front of the cat—poor Sam, he was too worn out to even make a bluff towards chasing the squirrel.

So it is that even though most cats still have no place on my list of nice things, I must admit that we do have fun laughing at SAM THE SQUIRREL-ly.

WHAT MAKES THE GENERATION GAP?

The single answer is age. The Bible answer is three fold.

The success of this gap is due to the lack of parental control. The Bible states parents should direct children. Proverbs 22:6, Ephesians 6:1-4. For children to obey, the 5th commandment is given. It is a bad sin not to obey, as bad as murder or immortality.

The source of this gap is the Devil. He wants all of us to disobey God's directions. Full well he knows the trouble, despair, grief and sorrow that will accompany our disobedience. The first commandment in relation to our fellow men is this one. See Exodus 20. In the list of sins In II Timothy 3, disobedient to parents is immediately preceded by blasphemers.

The only solution known is a Biblical answer. Matthew 11:28-30 invites both children and parents to come to Christ with all their problems and burdens. He will help. Also He will instruct us to take His yoke. Obedience to the Lord cannot be real or true without children obeying their parents and parents truly disciplining their children.

This gap is serious. It will be straightened out when both parents and children see they are disobedient to God. We had better get to it before it is too late.

Subject: Athletic Competition Between Monroe Catholic Central and Tecumseh High School
To the Editor:

Having had boys participating in competitive sports for the past 7 years, I have been an avid rooter and spectator for Tecumseh. On some occasions I felt that the officiating was not the best. However, in most cases, the decisions made were usually equally distributed to Tecumseh and their opponents.

On a few occasions, at away games, we did experience almost prejudiced officiating and in some of these cases, as a result, lost the particular contest. In only one case in all of these years, have I ever recognized what appears to be completely bias officiating which I'm sure results in a complete demoralization of our young athletes.

Those of us who witnessed the Monroe Catholic Central JV and Varsity basketball contest on Friday, Feb. 6, 1970, left the gymnasium in disbelief. We immediately recalled similar officiating at a football game between Monroe Catholic Central and Tecumseh High School.

It becomes increasingly difficult to understand how an institution such as Monroe Catholic Central which advocates the love of God, fair play, and honesty, would tolerate this type of sportsmanship.

I asked what steps could be taken to protest such a contest and I was advised that protest of officials could only be made one week prior to the contest. It was obvious to this spectator as well as many others, and I'm sure to the coaches, that the outcome of the game was obvious well before the end of the contest. At this time, a frank discussion between the two coaches and the officials, to establish whether the contest should continue or we should gather up our belongings and leave at that moment, was in order.

Monroe Catholic Central would have had a hollow victory by forfeit had we walked off the court in the last quarter. However, I feel certain that any subsequent contests would have much different officiating. If we recognize that this type of officiating should continue, we would be better off in discontinuing any activities with such a school or simply forfeit the games which in my humble opinion, would be less injurious to our athletes than accepting a defeat as a result of prejudicial officiating.

A disgusted Tecumseh sports fan,

To the Editor:
Dear sir:

Boy am I proud, I live in a town with a population of about 8,000 people, and have less than half of these registered as voters, 3,156 to be exact.

Last Tuesday, Feb. 10, we had a very important day at the polls, and even less than half of the registered voters turned out to vote for the new high school proposal. This in my estimation is bad enough, but to turn this school down really shows what we think of Tecumseh.

I live less than half a mile from the school, and see many kids driving better, and newer cars than I will probably ever be able to afford.

These same parents can't afford a few extra bucks on the taxes to give our kids a better place of learning, but they can give their kids a $4,000 car to race around town in. It doesn't make too much sense. I am sure that the car they go through in school will not help them to secure a good paying position later in life.

I did not go to school in Tecumseh, but I am very proud to say I voted for the school. I hope this will be brought to a vote again, and voted in wholeheartedly.

I think it is about time we started to treat and respect our schools for what they are, not a place to send the kids just to get them out of our hair for the day.

Give our teachers something to work with, make them proud to say they teach in Tecumseh, and they will give you a son or a daughter you can be proud of in any scholastic venture.

Sincerely yours,
Fred Filber,
208 N. Maumee St.
Tecumseh, Michigan

Special Services at Church Friday

BRITTON — Congregational Christian Church will have a special observance of the World Day of Prayer this Friday, Feb. 20, beginning with a breakfast in the parsonage at 9 a.m.

The Women's Fellowship invites all who can to attend and participate.

The World Day of Prayer is observed annually by churches throughout the world; however, this year the Congregational Church is using a different day than most churches. "Blessed is the nation whose God is the Lord", (Psalm 22:12) is the theme for the observance this year, and focuses a spotlight on a disintegrating moral consciousness in the nation, a waning allegiance to the authority of God, and an unresponsiveness toward involvement.

Emphasis will be placed on prayer for spiritual renewal in the nation and personal commitment to the moral and spiritual values set forth in the Scriptures.

Mary Sanchez Is Speaker for Girls

BRITTON — A most enjoyable afternoon meeting was held by the eighth grade Camp Fire Girls at the school library, Feb. 12, when Mary Sanchez, of Mary Sanchez Beauty Salon of Tecumseh, was their guest.

She gave an informative talk on hair problems and their solution. Highlight of the afternoon came when the girls were allowed to try on a variety of wigs and wiglets brought from the shop.

The girls are planning to go to the Mary Sanchez Budget Salon in March, when all the girls will have their hair styled.

Mrs. James Arft is the eighth grade Camp Fire leader.

Jets Are Thankful

The Tipton Jets 4-H Club would like to extend a special thank you to those who contributed to the March of Dimes. The drive was headed this year by Mr. and Mrs. Wesley Whelan.

Boosters OK Band Camp

CLINTON — Sponsorship of the Clinton Band Camp to be held, Aug. 17-22, was approved by members of the Clinton Band Boosters, at a meeting Monday night.

An unusually large attendance of 17 persons marked the meeting, conducted by Rex Winchell, president.

The band camp will be held at Blue Lake Fine Arts Camp, Muskegon, which was highly recommended by Band Director Richard Jorgensen, for its many fine facilities.

More than 30 senior high band members have signed up to attend the camp.

It was determined that three chaperones will be needed, and their camp fee will be paid out of the $95.00 which was left in the camp fund from last summer.

Members voted to send reminders to parents of first year band members of the marching band, that $10 fee for uniforms was due last fall, and is expected to be paid to the Band Boosters as soon as possible. This fee schedule was developed at the time the new uniforms were purchased, in order to have a replacement fund available as the uniforms need replacement, or when additional students join the band.

Arrangements will be made to have the Band Boosters disperse the uniforms and collect the fee from new members joining the band, next fall.

Band activity dates were announced by Mr. Jorgenson, the Junior High Band will attend a Band Festival at Reading, Saturday, Feb. 21, and the Senior Band Festival will be held at Pottersville, March 7.

Tour Slides Are Shown

CLINTON — Slides of India, Australia, and New Zeeland were shown by Mrs. S. A. Colah, of Mt. Clemens, to members of the Priscilla Class of the United Church of Christ Thursday night.

Mrs. Colah, daughter of Mrs. Paul Dunham, and her husband and three small children journeyed to Dr. Colah's homeland, India, during December, and she had many interesting things to describe about the tour.

Mrs. Roy Porter hosted the meeting, attended by 11 members.

Mrs. Roscoe Parker read "Live Each Day" by Betty Bachwell, for devotions.

During the meeting, members rolled 114 rolls of bandages.

Valentine decorated dessert was served by the hostess.

March meeting will be held at the home of Mrs. Edwin Bihlmeyer.

ROTARY SUCCESSFUL — Few clubs have enjoyed such success in projects as the Tecumseh Rotary Club has in promoting vehicle safety here. The 14th award in 16 years was presented at a safety celebration banquet Tuesday night at the Tecumseh Country Club. Some of those attending the fete were, from the left, Murell Clark, local police chief; Stanley Johnson, national vehicle safety check representative; Noel Bufe, representative from Gov. Milliken's office; Col. Fredrick Davids, commissioner of Michigan State Police; Gerald Shipman of Michigan Safety Commission; Dr. Fred Freeman, Rotary Club president; and C. O. Butler, general chairman of the club's safety promotions.

State Officials Attend Safety Award Banquet

Tecumseh was called "safety capital of the world" by Col. Fredrick Davids Tuesday evening at a safety celebration banquet at the Tecumseh Country Club.

The Rotary-sponsored fete featured Col. Davids, head of the Michigan State Police, as the principal speaker, and a presentation to Rotary of the 1969 Michigan Traffic Safety Award.

The award, marking the 14th time in 16 years that Tecumseh has been honored by either the state or National Safety Council, was accepted by Charles O. Butler, general chairman at past Rotary safety check promotions. It was given by Stanley Johnson, national vehicle safety check representative.

Joseph Calamungi, production manager for Stauffer Wacker Silicone Corp., and Dan Fitzpatrick, head of plant protection at Fisher Body, spoke briefly about their safety awards, attained by non-accidents over specific periods of time.

Dr. Sidney Adams, master of ceremonies for the banquet, explained plaques won by the Tecumseh Products. Murell Clark, Tecumseh police chief, pointed out the city's safety practices and programs.

There were 29 safety award plaques on display behind the head table.

Col. Davids spoke about the needs of improving traffic safety in Michigan, and recommended more random inspections of vehicles and drivers. In regard to alcohol, he favored legislation to reduce the permissible level of alcohol in blood from 0.15 to 0.10 percent, in accordance with National Safety Council recommendations.

Other special guests at the banquet included Noel Bufe, representing Gov. William Milliken; Gerald Shipman, of Michigan Safety Commission; Rep. Robert Stites, and Sheriff Richard Germond.

Students Ask Dress Code Be Relaxed

Several students of the Tecumseh High School Dress Code Committee sought further relaxation of the dress code at Monday night's School Board meeting.

The code, as presented to school officals, would leave most of the attire and appearance left up to the student and parent. However, final authority and approval would rest with Neville Hart, high school principal, who attended the Board meeting.

William Macbeth, board member, who moved that the dress code as presented by the students be adopted, failed to obtain a second and was dropped.

Only four members — Mrs. Donald Cobb, Dr. Fred Freeman, Dr. Harold Ocamb and Mr. Macbeth — were present for the session, which was held the fourth Monday night instead of the third, owing to a national school convention last week at Atlanta, Ga.

The Board told the students that the dress code would be discussed at the March meeting.

Although the Dress Code Committee has approved relaxing dress and appearance rules, the Student Assembly at the high school was not scheduled to see the proposed changes until Wednesday.

Boosters To Sponsor Concert Here

The Michigan Youth Symphony, an orchestra of 130 teenage musicians will present a concert in Tecumseh on Saturday, March 14 at 7:30 pm.

Proceeds from the concert will be used for scholarships to Interlochen, one half going to local students and the remaining to members of the Youth Symphony.

The Youth Symphony is considered one of the finest young orchestras in America. During the past twenty years its members have consistently held high positions in the World Youth Symphony at Interlochen. Now it alumni perform with nearly every major orchestra in America, while others are successful teachers, conductors, or composers.

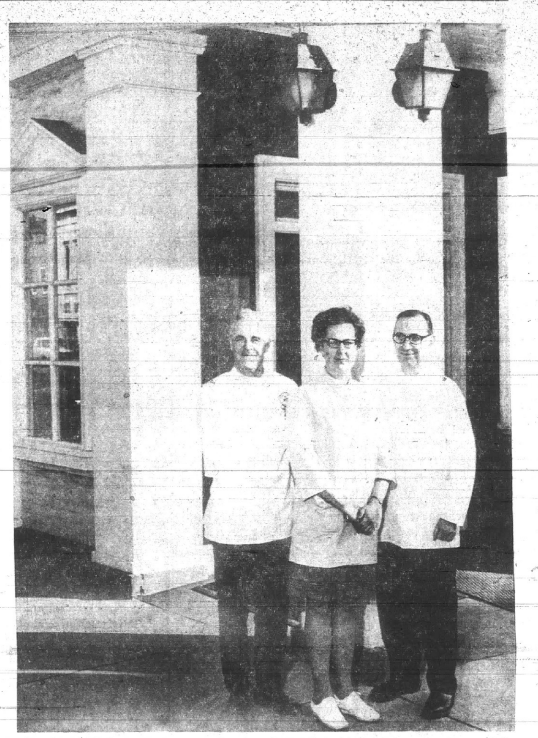
More than $30,000 has been earned by the orchestra for scholarship purposes.

On alternate Saturday afternoons, students assemble from a 150-mile radius in Ann Arbor at the new School of Music to rehearse orchestral masterpieces. Many add private lessons from faculty members, a service approved by the Regents, and open only to Youth Symphony members.

Outstanding students from the Tecumseh area include Marianne and James Bush, Britton; Stefan Parkman (an exchange student from Sweden); Patricia Clement, Blissfield; and Jaroslaw Strychar, Saline.

This concert is sponsored by the Tecumseh Band Boosters.

The concert will appeal to all age levels and will be conducted by Orien Dalley of the University, who is the founder of the orchestra, and will be assisted by Charles Gabrion of Ann Arbor and Donald Grosz of Marshall.



124-YEAR-OLD PHARMACY SOLD — Bill and Ruth Wright sold their pharmacy this week to Carl Lamb, right. The new owner will move Wright's inventory, some of its fixtures, and prescription records to his store, where an extensive remodeling program is now underway. Mr. Wright plans to sell or lease his building, located at the four corners.

Wright's Pharmacy Sold to Carl Lamb

Tecumseh's oldest business, Wright's Pharmacy, has been sold to Carl Lamb, owner of Lamb's Rexall Pharmacy.

Purchase involves fixtures and inventory plus the Wright Pharmacy prescription business. The building is not involved and William Wright, owner of Wright's Pharmacy, says he will either sell or lease the property, located on the four corners in downtown Tecumseh.

Completion of the transaction will probably not take place until next week, at which time stock, inventory and other assets of Wright's Pharmacy will be moved to Lamb's at 120 W. Chicago Blvd.

At the present, Lamb's Rexall is undergoing extensive remodeling with a strong emphasis on departmentalization. Both the prescription and sundry areas are being completely renovated.

Mr. Lamb says he expects most of the stock and fixtures will be moved into his store by Monday or Tuesday of next week. Much depends on how fast his remodeling is done.

He has been a pharmacist in Tecumseh for the past 16 years, starting here in 1954 for the late Ralph Hodges. In 1961, he bought out Cliff Cameron and has operated independently ever since.

He will employ both Mr. and Mrs. Wright as pharmacists in his store.

Wright's Pharmacy is rich in history, dating back to 1846 and the era when Tecumseh was founded. It is said to be the oldest and first real drug store in Michigan.

The Wrights date back to 1831 when Thomas Wright and his family of Northampton, Mass., settled here. He was a farmer and surveyor. In 1839, a son, Moses Wright, opened a general store here, dealing in drugs and medicines among other things.

This type of general store was abandoned in 1846, when Moses Wright, having studied drugs, herbs and chemicals, began to specialize in drugs and medicines and institute what is commonly known as a drug store.

A son, Charles Augustine Wright, was educated in pharmacy and carried on the business into the 20th century. His name became attached to the business for the first time.

His son, Donald Wright, born in 1833, graduated from Northwestern University and worked with his father when he was young, and eventually with his own son, William Augustine Wright, present owner.

Donald Wright was well known in pharmacy throughout the midwest until his death in 1951. His son, William, who first entered the pharmacy with his father in 1940, then took over along with his wife, Ruth Thatcher Wright. Both were pharmacists and graduates of Ferris Institute. He also holds a degree from Kenyon College at Gambier, O.

Until his sale to Mr. Lamb, Mr. Wright had been in the store for the past 30 years, except for six years in the Navy.

Wright's Pharmacy has long been located in one of the most attractive buildings in downtown Tecumseh. The front and exterior were remodeled in 1956, and the interior in 1964. Practically all of the old and most of the young recall the Wright's soda fountain, a memory of the past which was removed in the 1964 remodeling.

More Arrests Are Possible

A narcotics raid on the Norman Quigley residence in Adrian, shortly before 1 a.m., Saturday, may result in more arrests of youths and juveniles in this area.

In the early Saturday morning search, law officers from the Clinton and Blissfield State Police posts, Adrian police, sheriff deputies and Tecumseh's Don Rodehaver arrested 15 youths and apprehended seven juveniles.

One of the juveniles is a Tecumseh High School student and one youth, although giving a Tecumseh address, is not considered a local resident and never attended high school here.

A large quantity and variety of narcotics was found, according to Officer Patrick Coady of the Clinton State Police. He says other arrests may stem from the raid. He and Officer Rodehaver headed the investigation.

The Quigleys were out of town at the time, reportedly vacation-

Players Postpone Musical

Illness has suddenly forced the Tecumseh Players to re-schedule its musical comedy, "Anything Goes."

Instead of staging the play this Friday and Saturday night, the Players will hold its first public showing next Friday and Saturday, March 5-6. Other new dates are March 12-13-14.

A dress rehearsal will be held next Thursday for students and senior citizens. Curtain time is 8 p.m. in the Glass Room at the Tecumseh Community Center.

Members of the Tecumseh Players have been calling ticket holders since Sunday, in an effort to inform them of the postponement and change of dates.

Ticket holders who have not been notified are urged to contact Mrs. Lyle Dornan, 4423-7670.

Draw Bye in Tourney

Tecumseh Indians drew a bye in the first round of district tournament play next week at Bowen Field House on Eastern Michigan University campus.

They will meet the winner of the Milan-Willow Run game on Friday, March 6, at 8:45, after the Saline - Ypsilanti Lincoln game.

Milan has the best record of all teams in the tournament, posting a 13-3 record for the season. Willow Run is 11-6.

Tecumseh, 6-9 for the season, wraps up its regular season this Friday night at Monroe Jefferson. The Indians will be shooting to make it two straight over the Bears.

St. Elizabeth's Spaghetti Dinner Next Wednesday

One of Tecumseh's oldest and biggest annual fund-raising projects will be held next Wednesday when St. Elizabeth Catholic Church holds its spaghetti dinner in the church school auditorium.

Last year, 476 dinners were served, and if the trend towards bigger dinners each year is realized, upwards of 500 will be served next Wednesday afternoon between 4:30 and 7 p.m.

Although men of the church pitch in to help, the project is sponsored and largely conducted by the ladies of the Altar Society.

CARS NOT BUGGIES — In the old days of buggies, Conklin Dr. would not have attracted much attention but those who dared to venture down it Sunday in cars, had second thoughts. A quarter-mile stretch between N. Occidental and Ternes Rd. was turned into a quagmire by the 50-degree weather. City graders have since turned the gravel top into passable condition.

Auxiliary Collects 4,000 Coupons for Hyder Fund

Mrs. Terry Ridgway, chairman of the Howard Hyder Kidney Machine Fund, reports the Jaycee Auxiliary has collected another 4,000 Betty Crocker coupons toward their goal of 50,000 by May 1.

There's $573 in a savings account for the Fund at United Savings Bank, where cash donations may be deposited.

There also has been some money donated in the coupon canisters at the Vescio Tecumseh store.

New Session at Center

Tecumseh's recreation department has started a new session for Senior Citizens, and others not so old, for every Wednesday afternoon from 1 to 3 at the Community Center.

The drop-in will feature games, group singing, movies, ping pong, shuffleboard tournaments and group discussions. Ward Eardley says all citizens are welcomed and urged to bring a friend along.

The director is also looking for folks with talent in the music and entertainment field to help plan future programs.

Puffer Paces Indian Win

Tecumseh avenged an earlier defeat here Friday night when the Indians clipped the Blissfield Royals in overtime, 58-57.

Lanky Bill Puffer, top scorer for both teams, brought the Indians from the brink of defeat to victory. Puffer, fouled at the game's final buzzer in overtime, dropped in his first free throw to knot the game at 57-57, and then sank his second for the Tecumseh win.

Moments before, Royal fans had swarmed onto the floor, thinking their club had registered its second victory over Tecumseh. If Blissfield had not tried for two more points with two seconds left, the Royals undoubtedly would have won.

The shot was missed and Puffer was rebounding when fouled. A winning rally was due the Indians after many frustrating moments on the court this season.

Coach Vic Lawson's club jumped off to an early lead, holding a 14-9 margin at the end of the first quarter. Blissfield gradually closed the gap to 26-25 at halftime and then moved ahead by one point, 40-39 at the three-quarter mark.

The Royals went ahead once by five points in the fourth quarter only to have Puffer and Craig Smith tie the game 49-49 at the final buzzer. Blissfield roared out front by six points in the overtime only to have the Indians fight back and eventually win.

With big Arne Phillips controlling the backboards, the Royals were big favorites to win. Blissfield picked off 40 rebounds to Tecumseh's 32, but shot only 33 percent to Tecumseh's 39 percent.

Phillips, 6'6" center, netted 24 points but failed to control the game as he did in Blissfield's easy win over the Indians on the Royal's court.

Gary Alcock paced the Jayvees to an easy 59-47 victory.

GAA Gals Win Two at Saline

The girls GAA teams journeyed to Saline Monday evening for basketball and came home with two victories. The JV's won, 32-8, with Pat Mannino and Nancy Hamilton scoring 8 and 7 points respectively. The little Indians played their best game of the year.

Varsity racked up a 34-32 victory.

Saline's tough zone defense and sharp shooting Sue Elliott combined to make a tough evenings for the Indians. The score was tied at 11-11 at the half, and the Indians came back to take their biggest lead, 24-17, at the end of the third quarter, mostly on a six-point effort by Jackie Rodgers.

But then Rodgers, speedy guard, Ellen Zimmerman, and tall Julie Desment, all starters fouled out of the game.

The game was tied three times in the last two minutes. Elliott made seven out of eight free throws and two baskets in the last quarter to keep her team in contention.

Betsy Bock contributed four points in the final stanza for Tecumseh. Two of her points were free throws with 13 seconds remaining to ice the victory for the visitors.

The next game is at Columbia Central Thursday.

Betty Heads Program

American flag favors set the patriotic theme for the meeting of the Tecumseh Business and Professional Women's Club February meeting, held at St. Peter's Episcopal Church with 48 members and guests present.

One table was centered with a replica of Washington's monument, a second table had an astronaut walking on the moon, and a third table had a moon and an astronaut planting of the American flag. Red, white and blue flowers were used in all the centerpieces.

Mrs. Frank Lasky, chairman of the hostesses, made all the centerpieces.

Mrs. Betty Flanders presented the program relating the history of how some of our famous musical numbers were written.

"Yankee Doodle" was first and this was played on the flute by Mary Ann Bush.

Then Mrs. Flanders told the history of "Dixie." This was also played on the flute by Mary Ann Bush.

Next was the history of the "Battle Hymn of the Republic" and was sung by Mrs. Robert Bagdon with Mrs. Flanders helping out as a duet.

Bonnie Flanders played "You're a Grand Old Flag" on the piano.

Mrs. Flanders then told of the many musical numbers made famous by Irving Berlin, but she chose "God Bless America" which Kate Smith introduced in 1942. Mrs. Bagdon sang this as a solo, and then all members joined on the second verse.

Four new members joining the club are Mrs. Dan Gould, Mrs. Robert Beard, Mrs. Charles Robinson and Mrs. Richard Cresswell.

The club voted to sponsor a boy to the Wolverine Boys State again this year.

Mrs. Albert Tood gave a very interesting report of the mid-winter County Federation meeting. She and Mrs. Naomi Sallows commented on the talk given by Mr. Harvey Koselka, attorney from Adrian concerning crime involving our youth in Lenawee County.

Mrs. Fred Dickinson reported that reservations have been made for the club to travel to Toledo for dinner and the theater in March.

Hostesses for the evening were Mrs. Lasky, Mrs. David Watson, Mrs. Purnell Osburn, and Helen Bendes.

The April meeting will be held at the Baptist Church with the County Federation officers as guests.

Dental Care for Children

Topical applications of sodium fluoride will again be offered to Lenawee County children this summer, according to the Lenawee Dental Health Committee.

Parents who wish to have their children enrolled in this summer's topical fluoride program have until Wednesday, March 4 to fill out an application blank.

Letters and blanks are being sent home from school with the child in the eligible grades.

All three or four-year-old; kindergarten, second, fifth and eighth graders are eligible. If a child didn't receive an application, a parent may call the school office and get one.

The fee of $3 for the first child and $2 for each additional child to cover the cost of operating the clinic must be submitted along with the registration blank. These are to be mailed direct to Mrs. Roger Richards, 628 College Ave., Adrian.

The procedure consists of four visits to the fluoride clinic which will be held in the various schools in the county. The dates of clinic will be announced in late April.

The child's teeth are cleaned on the first visit and a fluoride solution is applied directly to the surface of the teeth. The fluoride application only is then repeated during the three succeeding visits.

This technique has been shown to reduce teeth decay by about 40 percent compared with the 60 to 65 percent reduction obtained with fluoridated water. Dentists in the area say that in addition to drinking the fluoridated water in various villages of the area, these applications will do no harm.

In addition to providing protection against cavities, the program offers a valuable dental experience for children with no discomfort. Dental health education by the clinic personnel, including instruction in the proper method of brushing teeth, also is an important part of the program.

THS Class Tours Plant at Monroe

Physics class at Tecumseh High School recently took a field trip to the Enrico Fermi Atomic Power plant, located just north of Monroe.

The plant is one of only six "fast breeder" atomic reactors in the world, and when it was built, it was the largest.

The group, whose teacher is Paul Cunningham, was shown around the entire visitor center and was treated to a lecture on atomic energy, in addition to an informative film on uranium.

Included in the tour was a demonstration of steam energy and a novel bicycle, which converted mechanical energy into electrical energy.

About 24 guests greeted Miss Johnson, formerly of Ann Arbor, who has lived with her niece for the past two and one-half years.

A floral arrangement from a friend graced the tea table and a decorated cake, made by Mrs. Thomas Gallant, was served.

Mrs. Douglas Sisson assisted Mrs. Pearson in serving guests from Brighton and Ann Arbor as well as Tecumseh.

Troops Earn Awards

Troop 4 and Troop 32 joined forces over the weekend to earn their "Polar Bear" camping award in the woods off Valley Road. To qualify the boys had to sleep out of doors in temperatures below 32° and cook three meals over an open fire.

Boys from Troop 4 will wear patches marked at the 15 above zero level, the overnight low recorded.

Troop 32 did something new this year. A neckerchief was designed exclusively for the Polar Bear campout. It is red with a white trim and bears a white Polar Bear emblem and white lettering, "Troop 32-1970."

The neckerchiefs were made by Mrs. Joseph Hooper, grandmother of two of the Boy Scouts, and stenciled by Cliff Pifer, ASM and Jim Dart of Eastern Michigan University.

Troop 4 was under the direction of Scoutmaster Dr. Joseph Bachman. Those attending were Don, Eddie and Frank Rapin, Jim Beardsley, Jim Phelan, Bill Rohrer, Mark Koscho, Jim Ford, Carl Bowen, Jim Buttermore and Bob McKee.

Scoutmaster Dick James was joined by Assistant Scoutmasters Rick James, Cliff Pifer and Chuck Skinner and committee member Wayne Sprow, and the boys were Kerry Skinner, Ron Pierce, Chuck Eberline, Steve Robert and John James, Danny Sprow, Chuck Petty, Mike Marsh, Stewart and Doug Schneider, Karl Schamberger and Mike Metzinger.

Only 2 Accidents Are Investigated

Joseph W. Shackett, 46, of 5808 E. Monroe Rd. was charged with driving left of center after a mishap with Leroy H. Hallwill, 51, Addison on W. Chicago Blvd.

TECUMSEH ROAD CLINTON, MICH.

Diane E. Lauer and Roger L. Proctor Marry

CLINTON — St. Dominic's Catholic Church was the setting for the nuptial ceremony which united Diane Elizabeth Lauer and Roger Lester Proctor, Friday evening.

The ceremony was performed by the Rev Dr. Leon Kennedy and the Rev. B. O. Bashore, pastor of the First Baptist Church of Tecumseh.

MRS. ROGER L. PROCTOR

Parents of the couple are Mr. and Mrs. Daniel G. Lauer, 106 Gibson St., and Mr. and Mrs. Lester Proctor, 302 Jackson St.

Gary Hankinson sang "The Lord's Prayer" and "Wedding Benediction." He was accompanied by Melissa Mattis at the organ.

The bride was given in marriage by her father.

Sculptured Venice lace appliques enhanced the bride's gown of white silk organza. It was styled with an empire waist, high stand-up neckline, long Camelot sleeves and featured a detachable chapel train attached at the waist.

Matching lace edged the bride's mantilla which was topped with a veil of illusion. She carried a nosegay of carnations and roses.

Jackie Proctor, sister of the groom, was the maid of honor, and the bridesmaids were Jeannie Lauer, sister of the bride, Mrs. Gary Couture, Waukegan, Ill., and Mrs. Terry Brooks, Lansing.

The maid of honor wore a floor length gown, empire-styled in an orchid shade, and the bridesmaids were attired similarly in pink. Each carried a matching nosegay of carnations and roses.

Terry Brooks of Lansing was the best man. The groomsmen were Daniel Lauer, Jr., brother of the bride; Stuart Proctor, brother of the groom; and John Van Ochten, Essexville.

Guests were seated by Gary Couture, Waukegan, Ill., and Walter Perschbacher, Grand Rapids.

A reception at the Tecumseh Country Club was attended by 250 guests. Hosts for the reception were Mr. and Mrs. Allen Brooks and Mr. and Mrs. Charles Lauer.

The bride is a 1966 graduate of Clinton High School and is a senior at Michigan State University, majoring in nursing.

The groom is a 1966 graduate of Clinton High School and is a senior at Western Michigan University, majoring in secondary education.

Mr. and Mrs. Proctor spent three days on a wedding trip to New York City. They will be spending their weekends at the home of his parents here until graduation.

A rehearsal dinner was hosted by the groom's parents at the Tecumseh Country Club Thursday night.

MELISSA MATTIS

Melissa Mattis Is New President of AWS at WMU

Melissa Mattis was recently elected president of the Associated Women Students in the annual campus-wide election at Western Michigan University.

AWS is composed of three boards, standard, disciplinary, and activities, which deal with revisions of rules and regulations set by the administration concerning women's hours, housing, and activities on campus.

It takes various stands in regard to woman's role and involvement on campus, plans activities and takes an active part in community services, especially working with the nearby State Hospital and Kennedy Center for Retarded Children.

Prior to election as president, Melissa was chosen AWS Girl of the Month on the basis of academic achievement, leadership and service in several organizations on campus.

She is a graduate of Clinton High School and is a junior at WMU. Her parents are Mr. and Mrs. Merval Mattis, Jackson St., Clinton.

Mrs. Adams to Speak at Spring Luncheon

CLINTON — Mrs. William Adams of Grosse Pointe, who addressed the Clinton Woman's Club last April at their spring luncheon, wrote recently from Lockhart, New South Wales, Australia, to her personal friend, Mrs. E. John Hoelzer.

Mrs. Adams, daughter of a missionary who grew up in Africa, has been invited to speak at the April 8 spring luncheon of the Clinton Woman's Club, and it is hoped she will be back from her far-eastern travels in time to keep that appointment.

"We drove up north to Jaffue, Ceylon, the area just south of India, through land that is being claimed from the jungle by manual labor (no machinery), by young men who may purchase and farm the land for rice. A girls' colony is beginning soon.

"We went through one of the wild life sanctuaries and stayed all night at the Wild Life Bungalow—clean, airy, bought our own food, but their cook prepared it. Dogs run wild on roads, barely getting up in time to let us pass, and hundreds of unattended cattle graze the roadsides and too often cross the road as one approaches.

"Buses and lorries of Ceylon take half out of middle and no amount of horn can make them give to let you pass. Fifty miles at a stretch—and the fumes of these old machines is not pleasant. No cars, etc. have been imported since 1948 for the citizens of Ceylon. Jaffue was host early in 1607 to the Dutch—forts, churches, compounds with high walls and moats.

"The English in 1724 and later American missions all made this area the best educated of this area. President Richard Nixon's grandmother (sister of Grover Cleveland) was buried in this mission.

"Ceylon's history was old before Christ and they have saved some of the Hindu monuments and buildings, but a great deal was destroyed.

"Before leaving Dec. 10, I did a Christmas dinner. Turkey with raisin and bread dressing. Potatoes with cheese as they don't mash well. Cabbage with raisins and pineapple (fresh), squash, spinach, carrots, beans, onions.

"Food there is not served hot—but I'll never forget this meal. I had five servants, three cooking areas and we couldn't understand each other, so I'd get one of the daughters to step in and talk. A single burner was off the eating area, a cook there did carrots because the main kitchen was out back connected to the house by porch (two burners), also a big cooking area for servants' food in a high fireplace with wood.

"The third kitchen was upstairs, with three burners and the oven. After I had the turkey ready in the morning we sent it to the bakery. But when I started to serve it—well, we did two more hours in the upstairs oven after the scalloped potatoes came out. We had 17 for sit-down with food on the table. Much good wine helped to keep the waiting easier and Christmas carols by all the group made it seem more like Christmas. Small gifts exchanged — USA razor blades were the most appreciated of all!

"Singapore — 14 inches of rain the first ten hours kind of limited my plans because I didn't get into the Malay area—no roads were passable. Then I checked out for Australia.

"By bus and plane I went to Adelaide. Smaller town, slower, beautiful, clean, located on a bay and again what gardens! From there by bus to Alice Springs. Someone had thought I'd enjoy the bus instead of the train, a 29-hour ride over the most gosh-awful roads, towns over 250 miles apart—all 1,084 miles! We broke down. Something about the suspension, but air conditioner always worked. Food at 12:30 a.m., next stop 10:30 a.m., but the telegraph station would not be open until 12, so it was 4 before we left! Twenty persons on the bus, five children going on to Darwin, another 1,150 miles! They had to spend the night in Alice Springs and were flown into Darwin at midnight the next day.

"I still want to see the Barrier Reef before New Zealand and that could take a month, so just when I get to the Pacific Islands, I can't say.

"It's been difficult to even out the image of our vice president's visit. I'll never know why he was sent or how one person could get such poor press! Australians are at a loss—but that makes two of us. No where did this Australian press give him a break!"

The happy wanderer,
Johnny
(Mrs. William Adams)

New Camaro. Feb. 26th.
We've never announced a car at this time before.
But then nobody's ever announced a car like this before.

Super Hugger
If it were an ordinary sportster, we'd have introduced it at the ordinary time.
Instead, we took the time to build a whole new Camaro.
We started with a sleek new shape and a low road-hugging stance.
And added more hood. A faster fastback. Wider doors. And new deeply contoured bucket seats.
The instrument panel wraps around you. With enough dials to make you think you're piloting a 747.
There are four transmissions. And six power plants up to the Turbo-Jet 396 V8 that you can order.
Pick the one that best suits your driving. Then go pick on an open road.
And make it one with plenty of twisting turns. Because Camaro has a remarkable new suspension. And standard front disc brakes for a leech-like grip on the road.
New Camaro. The Super Hugger.
Other sportsters always feared it might come to this.
And they were right. Only their timing was wrong.
Putting you first, keeps us first.
CHEVROLET
See it. At your Chevrolet Sports Dept.

Benson Speaking in Toledo Hall

Reed Benson, National Director of Public Relations for the John Birch Society, and son of former Agriculture Secretary Ezra Taft Benson, will speak in Toledo on March 6, 1970.

His talk, "Communist-Target Youth — Cannon Fodder for Revolution" is to be held at the West Toledo Knights of Columbus Hall beginning at 8:00 p.m. The program is sponsored by the local Toledo Area Support Your Local Police Committee.

One of very few persons authorized to speak "officially" for the Society, Benson spends a major portion of his time on lecture tours from coast to coast.

In his current talk he claims that Communists are using youth as the shock troops of revolution.

STATE OF MICHIGAN

IN the Circuit Court for the County of Lenawee

In the Matter of the Complaint of Allison Green, State Treasurer of the State of Michigan, and makes and files this complaint under the provisions of and pursuant to the provisions of Act No. 206 of the Public Acts of 1893, as amended, Act No. 128 of the Public Acts of 1933, as amended, and Act No. 380 of P. A. 1965, as amended.

2. That Schedule A annexed hereto is the tax record required by law to be made a part hereof and contains the description of all lands in the aforesaid county upon which taxes have been assessed for the years mentioned therein, have remained unpaid for more than one year after they were returned as delinquent, and description of all lands in said county heretofore sold for taxes assessed for the State and thus held and upon which taxes which were assessed remain unpaid, and the tax for which such lands were sold to the State have remained unpaid for more than one year after they were returned as delinquent, and the description of all lands in said county which are delinquent for any installment of taxes under the provisions of Act 126, P.A. 1933, as amended.

3. That extended separately in said schedule against each parcel of land said lands therein contained are (a) the total amount of delinquent taxes upon said description for the non-payment of which the same may lawfully be sold at the next annual sale, (b) interest computed thereon as provided by law to the first day of the next ensuing, (c) a collection fee of four per cent and (d) the fees and expenses, all in accordance with the provisions of the act first above mentioned;

4. That all of the aforesaid taxes, interest and charges are valid, delinquent and unpaid and have remained delinquent and unpaid for sufficient time to authorize and require, as provided by the foregoing acts, the sale of the aforesaid parcels of land against which they were assessed and are extended in said schedule at the next annual tax sale for the non-payment thereof, and that the said taxes, interest, collection fee and expenses so extended in said schedule against each parcel of land therein set forth constitute a valid lien upon each of the said several parcels of land described in said schedule as therein and against which extended in favor of the people of the State of Michigan, the payment of which lien the said parcels may serve as a preferred or first claim upon such lands for any other claim.

Wherefore your plaintiff prays:

a. That within the time provided by law this court make a final judgment in favor of the State of Michigan against each parcel of said lands for the payment of the several amounts of taxes, interest, collection fee and expenses, as computed and extended in said schedule against the several parcels of land therein contained;

c. That said judgment provide that in default of the payment or redemption of the said several sums computed and extended against said lands in said schedule, the said several parcels of land, or such interest therein as may be necessary to satisfy the amounts adjudged against the same, shall severally be sold as the law provides;

d. That your plaintiff may have such other and further relief in the premises as to this court may seem just and equitable.

And your plaintiff will ever pray, etc.

ALLISON GREEN
State Treasurer of the State of Michigan, for and in behalf of said State.

Dated: January 13, 1970.

Through My Window

A SENSE OF HUMOR

Anthropomorphize. Mr. Webster says that is "to attribute human shape or characteristics to." The 'attributing to' referring to animals or birds and in many circles this is frowned upon. But I make no pretense of writing a highly technical article—and besides, who can say for sure that birds don't have a sense of humor?

One snowy day the phone rang and I heard this bluejay tale. The weather was bad, the wind was strong and, since morning, a fairly heavy snow had blasted our part of the state.

To say that the day was not fit for man nor beast would be to saw an old cliche, it would also be true. My telephone caller had been watching a bluejay. And what an old veteran of our winters he was.

Under the eaves of her porch was a spot where a robin had built a spot where a robin had the robin family had grown and left home, the site had of course been vacant.

Suddenly, however, there was a new tenant. A bluejay moved in—all day the other birds had been braving the blizzard but not one comfort loving bluejay.

He sat snug and warm in the cold nest, perfectly happy and contented to be sheltered from the storm, and watched his free-loading friends shiver. Who is to say he did not have an eyebrow cocked in amusement?

★

IT WAS NOT too long ago that Gertie T and I were watching one of our winter garbed goldfinches play King-of-the Mountain on top of a newly put-out pile of sunflower seeds. He was having quite a time — in fact, he was so busy making sure no one else had a snack that he was not getting anything himself.

Once in a while a nondescript sparrow or perhaps an upside down nuthatch was allowed to land on the edge of the feeder but he was not about to share any of the sunflower seeds. The scratch feed yes, the sunflower seeds no.

Suddenly a chick-a-dee appeared. We saw him come scalloping up the creek. He perched on a small limb of a nearby tree and studied the situation for a few moments.

Then he buzzed down to the feeder, waited until the goldfinch was looking the other way, up-toed in, and snatched a seed practically out from under the goldfinch's feet. One surprised goldfinch and one mischief loving chick-a-dee. The chick-a-dee just had to have that particular sunflower seed, there was a big pile but none as tempting as that one apparently.

As for the poor goldfinch, he almost fell over—it was rather like having the rug pulled out from under him. And who is to doubt that our thief had a twinkle in his eye and a soft chuckle in his throat as he ferried the stolen prize across the creek?

One of my favorite stories, however, appeared many years ago in the Letters to the Editor column of "Audubon Magazine." I do not remember who wrote it or where they lived but this really does not matter. The important thing is the funny titmouse tale they told.

★

IT SEEMS THAT a cat, which had been terrorizing the birds in their neighborhood, had finally gone too far. He had worked himself out on a limb, quite literally out on a limb.

He had gone out so far and the underfooting was so treacherous that he was at a loss as to how to get back. There was also a cocky little tufted titmouse who was more than ready to add to the cat's problems.

It was in the spring and she had a nest to line—it is also possible that she had an old grudge to settle. Whatever the reason, when the bird saw the cat's predicament, something must have clicked in her bird brain.

Time after time, the letter writer said, the bird flew up and pulled a bill full of fur from the cat's back or tail. There was absolutely nothing the cat could do except scream. What do they say about revenge being sweet?

So it is that anthropomorphizing is not the issue here—I realize there may be little scientific basis but never-the-less, I prefer (and surely it does no harm) to believe that birds do indeed have a sense of humor.

Mrs. Oberlin Stages Play

Mrs. Fred Oberlin presented her original play, "February Fantasy" in honor of American Music Month to 18 members and one guest of the Tecumseh Music Club recently at the home of Mrs. Perry Hayden.

The delightful play setting was in the living room of Dorothy Ruthruff and Mrs Elizabeth Wilson, with Mrs. John Wintersteen and Mrs. Clarence Brock visiting in their home. The program evolved from their recollections of times past in the Tecumseh Music Club.

An Oscar Levant record, "Rhapsody in Blue," with the Philadelphia Symphony Orchestra was played.

Mrs.Robert Bagdon sang "Summertime," "The Man I Love" and "Someone to Watch Over Me" by Gershwin, accompanied by Mrs William Flanders.

Mrs. Louis Caterina sang "The Sleep that Flits on Baby's eyes," by John Alden Carpenter, accompanied by Mrs. Oberlin.

Mrs. Truman Rentschler was co-hostess for the evening.

Tecumseh Music Club is affiliated with the National Federation of Music Clubs.

The March meeting will be scholarship tryouts for members of the Junior Music Makers Club.

Famed Visitor Dies

Mr. and Mrs. Jens Touborg returned last week from Green Lane, Ga. where they attended the funeral services for Sasha Siemel, the well known lecturer, photographer, conservationist, and jaguar hunter, previously from the Mato Grosso area in Brazil.

Mr. Siemel, a native of Latavia, spent his younger years in Argentina and Brazil seeking gold and diamonds, temporarily going from ranch to ranch repairing equipment for the farmers and helping them rid their farms of many jaguars who were killing cattle and many natives.

To begin with he used a gun and later learned to kill the jaguar with a spear, which to him was an irresistable challenge. He became known far and wide as the "Tigrero," which means "one who kills jaguar."

His fame reached the United States and many a big-game hunter went down to Brazil to hunt with him and to learn about life in the jungle.

Years ago he had the privilege of guiding two adventure seeking women from Philadelphia, one of whom returned to Brazil later to marry him. In Mato Grosso they raised a family of four children, two boys and two girls.

His son, Sashino, now 23, a graduate of the University of Pennsylvania and working with "Vista" in Colorado, has published a book on his adventures as a boy. Mr. Siemel later settled his family in eastern Pennsylvania where they now live.

Mr. Tourborg read Mr. Siemel's book "Tigrero," became fascinated by the life depicted in his book, and in 1961 contacted Mr Siemel in Mato Grosso through the aid of the Brazilian government. He then joined him in Brazil for a jaguar hunt. They have been close friends ever since, and Mr. Siemel has been a frequent guest in the Touborg home.

Many Tecumseh people have seen Sasha on the George Pierrot adventure program, have heard him lecture, read his book, and have seen his beautiful photography of Brazilian flowers and wildlife.

In December on his way home from a western lecture tour, he was hospitalized for three weeks in Herrick Memorial Hospital. Mr. Siemel was 80 years old.

Duster has a bigger engine
Duster's standard 125 hp Six dusts off Maverick's standard engine by 20 big horses. Even beats Maverick's only optional engine by 5. And if you want performance, you can go all the way up to 340 cubic inches with Duster. No Maverick can match that.

Duster has a longer wheelbase

Chrysler Corporation warrants against defects in materials or workmanship to the first registered owner only, and will repair or replace without charge for parts or labor at any authorized Imperial, Chrysler, Plymouth or Dodge dealership, the engine block, head and all internal engine parts, water pump, intake manifold, transmission case and all internal transmission parts, torque converter, drive shaft, universal joints, rear axle and differential of its 1970 Duster for 5 years or 50,000 miles and all other parts for 12 months or 12,000 miles, whichever occurs first, excluding only tires, normal deterioration due to wear and exposure, normal maintenance services and parts used in connection with such services, repairs required as a result of accident, abuse, negligence, racing or failure to perform recommended maintenance services. Warranty repairs should be obtained from selling dealer unless he has ceased to do business as an authorized Chrysler Motors Corporation dealer, or the owner is traveling or has moved to a different locality and cannot return to his selling dealer.

Duster has a bigger trunk
A lot bigger trunk. 15 cubic feet for Duster, only 10.4 cubic feet for Maverick. Just because a car is small on the outside doesn't mean it has to be small on the inside.

Duster has bigger brakes
Bigger brakes mean more stopping power, and Duster's got it. Effective brake lining area for Duster: 153.4 sq. inches. For Maverick: only 106.0 inches. And if you like disc brakes or power brakes, Duster offers those too. Maverick doesn't.

Changes Minor in Directory

Information on everything, from area codes to overseas calls, can be found in the new General Telephone directory now being delivered to customers in Tecumseh, Britton, Clinton and Tipton.

R. G. Carter, district manager for the company, said there are no major changes in the new directory.

"This directory is larger this year because of expanded listings in both the white and yellow pages," he said. "Community names appear in bold, enlarged type at the upper outside corner of each page to help customers locate names and numbers."

"Places for emergency numbers to be given are located on page one," Carter added. "We want the location of these numbers to be readily available and easy to find."

Carter cautioned customers to leaf through the old directory carefully before replacing it with the new edition.

"Many times important papers, letters or even money, are placed in the telephone directory for safe keeping and forgotten," he said. "Also, remember to transfer that list of frequently called numbers from the old directory to the new one."

This year, more than 39,000 General Telephone directories will be distributed throughout the Lenawee County area, he said.

Pastor tell me

By DUANE H. McNEIL

SHOULD I OBSERVE LENT?

Lent is a 40-day period ending at Easter. It begins with Ash Wednesday. Lent is a period of fasting, which means a planned avoidance of certain foods or other items which would ordinarily be enforced. This observance is generally kept by the churches with a liturgical leaning.

It is a good thing to have changes in our lives. Such changes for the purpose of pleasing God are to be commended. We must remember the change God desires most is Salvation which begins with a New Birth. John 3:3. It is excellent when such changes come from a change within. To display temporary religious attributes is to be a Christmas Tree. To display genuine fruit from within is to be an apple tree. Don't let people distract your desire to please God. Be sure for yourself that the change began inside. II Corinthians 5:17.

To answer a question with a question, if God is pleased with a 40-day refrain from certain items, wouldn't He be more pleased if I ceased those things entirely?

Read Ephesians 2:8-10. God wants you — Saved, Satisfied and Serving.

Pontiac announces the beginning of tomorrow.

The all-new Firebirds are here.

There are four. Why?
People have different ideas of what a sports car should be. Incorporating all of those ideas into one car is equivalent to putting an elephant's trunk, a camel's hump and stripes on a giraffe. You end up with a creature that doesn't do anything well.

So . . . four Firebirds.

Firebird (1). An economical sports car.

Firebird Esprit (2). A luxurious model.

Firebird Formula 400 (3). The Firebird built for drivers.

Firebird Trans Am (4). Our ultimate.

Four distinctly different Firebirds for drivers who agree on only one thing. A sports car.

Comfortable seating for four. Period.
Three have always been a crowd. Especially in the back seat of a sports car. So the new Firebirds have two bucket-type seats in back. Plus two bucket seats up front.

Four comfortable passengers, each in an individual seat.

And a more comfortable ride.
The rear seats gave us room to raise the drive tunnel between them. Which gives the suspension room to travel when you hit a bump. Which, in the Firebird and Esprit, produces a ride that many a full-size sedan would be proud of.

Formula 400 and Trans Am don't have it quite as soft. Enthusiasts like a stiffer ride. Stiffer springs and shocks provide it.

A ride is nothing without quick handling.
We didn't compromise handling a bit. We made the Wide-Track wider. Made fade-resistant front disc brakes standard. And for improved cornering, we installed stabilizer bars up front. And added rear stabilizer bars to Formula 400 and Trans Am.

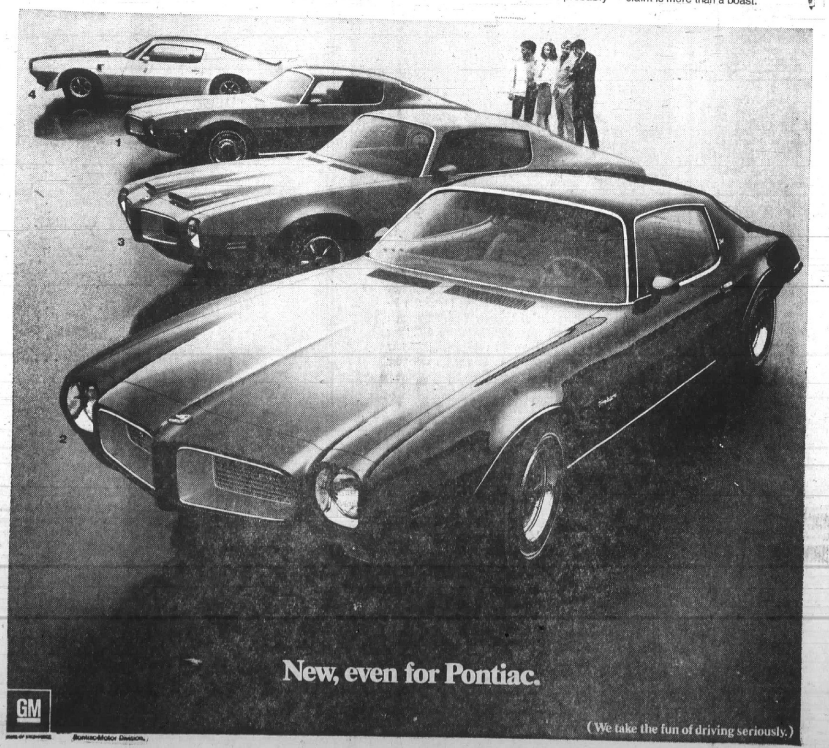
Engines to match.
If you read our descriptions of the four Firebirds, the engine lineup makes supreme sense. The basic Firebird has a 250-cubic-inch six. Esprit—a 350-cubic-inch, regular-gas V-8. Formula 400 has a 400-cubic-inch V-8. And Trans Am features a 400-cubic-inch Ram Air V-8.

Endura bumpers that absorb bumps.
Pontiac's Endura material is probably the best thing to happen to bumpers since bumpers. It's a resilient, rubber-like material that looks like painted metal. It resists dings, dents and chips. And it positively won't rust.

A tough bumper. Covering the entire front end of each Firebird.

The decisive victory of functionalism over faddism.
Instrument panels, for instance. Easy to read. With easy-to-reach controls. We even designed the panels so that any light bulb can be changed in 60 seconds. By you. Without lying on the floor.

But you'll undoubtedly want to find out for yourself. Please do. At a Pontiac dealer's. Then you'll know our "beginning of tomorrow" claim is more than a boast.



New, even for Pontiac.

Art Show at Siena

The Lenawee Fine Arts Association invites the public to a unique art show to be viewed at the Siena Heights new Art Center, Adrian, Michigan, March 3rd through March 15th.

From Toulouse-Lautrec to Peter Max—the art of the poster is special museum display. Both the medium and the message have traveled far from the famous "I WANT YOU" recruiting poster of World War I. Today, the fine art poster is enjoying unprecedented popularity. Major contemporary artists are creating imaginative designs for important events sponsored by cultural institutions.

Thus, 30 fine examples of "The Art of the Poster" at Siena Heights new Art Center will be of unusual interest. The special exhibition has been organized by the Detroit Institute's Project Outreach for display throughout the State.

The poster showing begins with Toulouse-Lautrec's bold effort on behalf of the cafe, **Divan Japonais** (1892); Jules Cheret's **Palais de Glace** (1904); inviting the beholder to enjoy ice skating at the arena; America artist John Sloan's green-gray **Moods** (1895) promoting a short-lived magazine, and Alphouse Mucha's alluring art nouveau lady toying with Job cigarette papers.

From these turn of the century antecedents, the exhibition becomes a colorful Who's Who of contemporary artists' posters: Albers, Anuskiewicz, Brague, Chagall, Ellsworth Kelly, Lichtenstein, Matisse, Miro, Man Ray, Rivers, Stella, Trova, Vasarely, Warhol and others.

Today's most prolific poster producer — Peter Max — is on hand to pay homage to the master with **Lautrec,** and Max's kaleidoscopic **Midget's Dream** will be shown, suggesting, but not revealing, the complexity of the top-secret printing processes that produce the remarkable color nuances of Peter Max posters.

Among the bright and bold designs is a poster especially designed for this exhibition by project director and artist, Irwin Gross. Two signed originals of this limited edition will remain in the Siena Heights new Art Center and Adrian College's Mahon Hall.

A number of the posters were loaned by Vera List of the renowned List Art Poster Program. Several are from the Art Institute's permanent collection and from Bloomfield Hills collector, Bernard Walker.

Jointly funded by The Detroit Institute of Arts and the National Endowment for the Arts, Project Outreach is a federal pilot program aimed at extending the resources of the museum to communities throughout the State.

The hours open to the public are 1 p.m. to 5 p.m. and 7 p.m. to 9 p.m. on Tuesday, Wednesday and Thursday; and 1 p.m. to 5 p.m. on Saturday and Sunday.

2 Amendments for Citizens

Tecumseh City Assessor, Robert Hamden, urges senior citizens to take note of the new legislative action:

To all assessors:

The legislature has enacted and made retroactive to December 31, 1969 two major amendments to Act 6 of the Public Acts of 1966, known as the Senior Citizens Homestead Tax Exemption Act.

The new law, Public Act No. 4 of 1970, is effective with the governor's signature of February 19, 1970.

The amendments broaden eligibility in two ways:

The first of the amendments increases the income limitation from $5,000 to $6,000.00. The law now states, ". . . and whose gross income, as hereinafter defined, combined with the income if any for the immediately preceding calendar year of a spouse and co-occupant and concurrent owners of the homestead shall be not more than $6,000.00 . . ." Therefore, an applicant filing for 1970 exemption could receive income up to $6,000.00 and remain eligible for tax exemption.

The second amendment to the law has eliminated the $10,000.00 state equalized value and the $20,000.00 cash value limitation completely. An applicant filing in 1970 may own any amount of property and remain eligible for tax exemption.

These amendments are effective for the current filing period, beginning December 31, 1969.

Manchester Youth Cited in Accident

David P. Kemner, 20, Manchester, was the driver of a vehicle which was struck broadside at the intersection of Lima Center Rd. at Fisk Rd., then sheared off a telephone pole, at 11:52 p.m., Friday.

Kemner, given a summons for violating the basic speed law, told Clinton State Police he saw the stop sign, but could not stop in time, and slid through the intersection, where his car was struck in the side by a car driven by Joseph C. Smith, 18, 111 Bartlett Rd., Clinton.

Kemner and Stanley Woodard, 19, Clinton, a passenger in the Smith car, sought their own treatment for minor injuries.

Special Service at Gloria Dei

Church Women United will join the millions of people on March 6 in a bond of prayer, spanning six continents. Prayers will be offered in 75 languages and a thousand dialects.

World Day of Prayer is sponsored in the United States by Church Women United and will be celebrated in 25,000 communities.

Here in Tecumseh, everyone is invited to join this worldwide fellowship at the Gloria Dei Lutheran Church at 1:30 p.m. on March 6.

This annual chain of prayer links the first voice at dawn in the tropical Tongas, just west of the International Date Line, with millions of others as it passes throughout the day across oceans and continents.

By nightfall, its message of hope will have followed the sun's arc until the last prayers are said in units of Church Women United in Hawaii and the islands of Alaska.

The theme, "Take Courage," was chosen and made relevant by an International Committee headed by Miss Gudrun Diestel of Germany. The program was developed as a housewife from Egypt, a social worker from Guyana, a church worker from the Philippines, and a woman from the USA discovered a common bond of worship and witness.

The challenge of the 70's across the continents is to bear witness to one's convictions when morals and decadence are at a premium. In India, Kenya, or the USA. It takes courage to be open to the unknown in the 70's which are bringing so many changes to families the world over. World Day of Prayer will be reflecting courage for responsible action.

World Day of Prayer provides an occasion for participation in a nationwide offering committed to helping others "take courage."

This year's emphases are: new religious educational materials for Latin Americans and Spanish-speaking families in this country; support of a secretary for women's work of the Near East Christian Council; the dispossessed Spanish migrant and Indian America communities.

These are part of an intercontinental mission, a fund through which Church Women United expresses its concern for others in concrete terms, including grants for Christian literature on six continents and grants to Christian colleges in Asia and Africa.

Mrs. Russell Allen of Adrian will be the guest speaker, relating tithe theme to the present and the future.

Mrs. Allen, assistant professor of Spanish at Adrian College, has spoken to various Tecumseh groups in times past.

Educational Unit at Macon Church Is Consecrated

MACON—Dr. John Jury, Ann Arbor District superintendent, chose "God's Work Is Done Through My Activity" as his topic for the Sunday morning service. The Junior and Senior Choirs sang special numbers for the Consecration of the new Educational Unit. A cooperative fried chicken and turkey dinner was served to 70 present. An open meeting of the Pastor-Parish Committee was followed with the annual charge conference. Church officers were elected. Goals for the future were discussed. Mrs. Jury accompanied her husband.

They were signed by the entire class and framed, and then presented by the editors of the school paper, Jack Greenfield and Shirly Martin.

James D. Bailey, 17, of Manchester was given a summons by Clinton State Police for no Michigan operator's license and improper parking on the highway without lights, after his vehicle was struck in the rear by Charlie Bozeman, 39, 153 Maple, Britton.

FFA in Review

By PETER FORGACS

BRITTON — The Britton FFA Chapter started in 1952 with Russell Spaulding as the first advisor.

Since that time the local chapter has won 30 awards in leadership contests. It has had five American Farmers, 35 State Farmers, three state officers, nine outstanding chapter awards, four regional officers, also 42 honorary chapter farmers.

This week, February 21-28, is National FFA Week. Vocational Agriculture students in this area along with nearly 9,000 other FFA Chapters, will be celebrating FFA Week throughout the nation.

In activties, to emphasize the importance of agriculture during FFA Week, FFA members are young people who are studying vocational agriculture in high school by developing their skills and knowledge of agriculture.

Members will become leaders in the development of a more prosperous agriculture that will feed and clothe a growing America.

The theme for this year is "FFA . . . Emphasis Agriculture." "Learning to Do, Doing to Learn, Earning to Live, Living to Serve", is the official motto of the FFA, which was organized nationally in November, 1928.

Various contests are conducted among the chapter members, including a contest to find the tallest corn stalk, the bean stalk with the most pods, the highest yield of corn, the most profit per acre of student crop projects, and a pest hunt to help eliminate pests on the farms.

In the spring, a banquet is served by the FFA for parents of the members. Awards are presented and parents are honored. Each year a delicious meal is planned and last year a whole roasted pig was served at the banquet.

The FFA publishes its own magazine, "The National Future Farmer," which goes into the homes of 450,000 members.

The FFA provides an opportunity for youth in agriculture to learn, to do, to earn and to serve. As in the Britton FFA Chapter, members have two and a half acres in which they are able to take soil samples and conduct various experiments. Last spring the members planted corn plots to help feed the hogs they are raising this year.

At the present time, the members have 41 fattening pigs, along with eight others of different breeds. They are housed in three buildings, which members have remodeled to fit different needs. This year the chapter has an investment of over $1,000 in the hog business.

Purpose of this adventure into the swine business is to teach members proper swine management, stimulate interest in livestock and make pure-bred stock available to members at a reasonable price.

Britton FFA officers and advisors for 1969-1970 are:

Pyesident — Dick Schroeder.
Vice-president — Bill Rowe.
Secretary — Doug Wielfaert.
Treasurer — Rick Brown.
Reporter — Peter Forgacs.
Sentinel — Rodney Taylor.
Advisor — Paul Marks.
Junior officers are:

Power of Life Force Within

. . . . HEALTH THROUGH CHIROPRACTIC

Chiropractic is a science built on the premise that within man there is an intelligent, constructive force operating through clearly defined channels.

It is this life force which generates, develops and maintains our bodies in a state of normal health.

Sum and Substance

The analysis of how and where this life force could be interrupted internally, and a method to overcome and correct such interruption, is the sum and substance of chiropractic practice and procedure.

Chiropractors have received comprehensive training to detect abnormal positions of vertebrae and to restore them to their normal position.

Natural Result

Normal transmission of nerve energy is restored, and renewed health is the natural result.

Health is a gift that thrives under chiropractic care; for when the body functions normally, with proper nerve supply, the natural state of health exists.

Empty Without Health

Millions of people have lived full and rich lives without modern conveniences — but without health, conveniences mean nothing.

You owe it to yourself to investigate the merits of chiropractic.

Wes Exelby led the Tory scoring with 19 markers, and Sam Bates was close behind with 18 pointers.

Saturday night the Tories traveled to Madison to provide the Britton fans with more thrills as they beat the Trojans, 77-68.

Britton players in double figures were Wes Exelby with 19, Dave Hawkins 15, and Sam Bates and Gary Maska netted 14 points apiece.

ART AND FLEAS — Art club members at THS held a flea market at last week's Winter Carnival in the gym with teachers and students donating items for sale. Mrs. Dorothy Westdyke, teacher, with Julie Hewlett and Brian Cooley helped to gross $28.80 with the Art Club netting $3.82. Mrs. Westdyke said the important thing was the interest the event created. "We did have a lot of fun."

Britton Bombs Deerfield

By ELMER HALL

BRITTON — The Britton Tories, with an 83-57 win, added another loss to Deerfield's losing streak, making it 45 consecutive games for the Minutemen.

The Tories paced the game from the beginning, never giving Deerfield a chance except the last quarter when Deerfield outscored the Tory substitutes, 21-19.

The Minutemen's bench consisted of nine players and with only four minutes remaining, the fifth Minuteman fouled out to leave four players against the Tories' five.

Scoring honors for the Tories went to the seniors, who played their last home game. Rick Maska paved the way with 25 points, Jim Lister 21, Jim Brown 16 and Bill Tuberville 14.

Tories Bow to Madison

BRITTON — Britton Tories played a non-league game Saturday night against the Madison Trojans and were defeated, 72-61.

The Tories had to battle height all night long and a number of times Britton got just one shot at the basket. Britton trailed in every quarter, but came within seven in the third. The Tories tried desperately in the fourth, but missed several times at the charity stripe with a one and one situation. These could have made a real close game out of it.

Britton had three players in double figures. Jim Lister with 21, Jim Brown, 20, and Rick Maska, 11.

Clinton won 85 points, followed by Madison with 72, Onsted and Manchester tied for third with 58 points. Hudson had 53 and Addison 30.

A narrow lead was gained early in the match by Fred and Monte Gutierrez, both defending state champions, who won on decisions for Madison.

Decisions by Al Roberts at 175 pounds and Bruce Handy, heavyweight, along with a pin by defending state champion Tom Moore at 165 pounds, gave the Redskins the points they needed to finish first.

Moore's pin at 165 was one of only two pins in the finals.

All six schools will be represented in the Class C Regionals Friday and Saturday at Madison High School. The meet starts at 1 p.m. both days.

THERE WE ARE!

It was a newspaper picture of a crowded street. Then we examined it closely. There we were, nameless faces in a crowd to the rest of the world, but important faces to us.

Ours is a world of fast-growing urbanization. More and more people are concentrating in crowded areas. Ours is a world dominated by the gang, the club, the party, even the mob. It's mighty easy to get that "one drop in the ocean" feeling, as if no one knows we are here.

That's why we treasure our church. In it we are individuals. Our minister, our teachers and our friends, even visitors, know us. Each of us is seen as a separate person. Each of us is known to the same loving Father.

You might call us the "fellowship crowd"... a crowd in which we are never lost. Discover for yourself the wonderful blessings your church can impart to you. Attend this Sunday and every Sunday.

City Income Tax Information OK'd for Mailing to Residents

A fact sheet about the proposed city income tax was approved for mailing by Council Monday night.

It consists of answers and questions and will be mailed to every resident in the city. A copy of this fact sheet follows.

As you may have heard or known our City Manager has recommended that we adopt the Uniform City Income Tax Ordinance in conjunction with a 5 mill reduction in the property tax.

Before adoption of a Uniform City Income Tax Ordinance we would like to ask you, as residents of Tecumseh, for your advice. We are therefore placing the following question on the April 6th ballot.

"Shall the City of Tecumseh adopt a Uniform City Income Tax Ordinance pursuant to the State of Michigan City Income Tax Act, Act N. 284 of Public Acts of 1964 as amended to be effective commencing January 1, 1971 and in conjunction thereto adopt an ordinance to reduce the rate of the city property tax to be levied in 1971 and following years to a rate not to exceed 10 mills, as long as said Uniform City Income Tax Ordinance is in effect?

Answers to Common Question Asked About the Income Tax:

Q. What is the Uniform City Income Tax?

A. Act 284 is an act to permit the imposition and collection by cities of an excise tax levied on or measured by income.

Q. How much will this new tax be?

A. The tax is 1% per year on income earned and received each year by residents of the City of Tecumseh and corporations doing business in the City of Tecumseh.

Q. Do people who live outside the city pay the tax?

A. Yes. The tax is ½ of 1% on the total income earned within the City of Tecumseh.

Q. How was this schedule decided on?

A. The City Income Tax was adopted as a law by the Michigan Legislature and signed by Governor Romney, June 11, 1964. This sets up in detail city income tax provisions. Each city may adopt it by passing this state law as a city ordinance. No city can change any of the provisions of the uniform ordinance.

Q. Is all income taxable?

A. No. The following items of income are not subject to the tax:

Gifts, bequests, proceeds from life insurance or annuities, pension and retirement benefits, welfare relief, unemployment benefits (including supplemental benefits), workmen's compensation, and interest on United States Government bonds. There are many other similar types of income not subject to tax, but these are representative of the group and all are detailed in the law.

Q. Is the taxpayer allowed any deductions?

A. Yes. Personal deductions are allowed in the same manner that they are allowed in the Federal Income Tax, $650.00 for the year 1971 and $700.00 in 1972. These amounts are substracted from the gross income before determining the amount of tax.

Q. Are deductions for charitable contributions, interest, taxes and other items also allowed?

A. No. Only the personal deduction is allowed.

Q. Can a person be subject to more than 1% tax?

A. No. Even if a person lived in one city in Michigan and works in another, no one is liable to pay more than 1%. (Does not apply if working out of state.)

Q. Suppose a person works in a city levying the income tax and lives in another city levying the income tax, does he pay in both places?

A. Under the new act he would pay ½ of 1% to the city in which he works and ½ of 1% to the city in which he lives.

Q. What are the benefits to the people in the City of Tecumseh having this new tax?

A. The City Council has determined that the property tax rate will be reduced by 5 mills if the tax ordinance goes into operation. This means that the net individual amount that a typical family will pay is very small.

Q. Can you give an example?

A. Yes. A family with in income of $5,000, composed of a husband, wife and two dependent children, would have a total exemption of 4 times $650.00, or $2,600.00. Their net income would be $2,400.00; their tax would be $24.00. If this family owned a home that had a valuation after equalization of $6,000, the reduction in property tax would be $30.00 per year and the net reduction would be $6.00.

Q. Is the tax withheld by employers?

A. Yes. All employers in the City of Tecumseh must arrange for withholding in the same manner as the Federal Income Tax.

Q. How would Senior Citizens benefit from this new tax?

A. In a great many ways. The Senior Citizens ought to be very much interested in seeing that the tax is put into effect because: First, the property tax will be reduced; Secondly, the deductions that they are allowed double at age 65, and Thirdly, the types of income which most retired people have are the types that are totally exempt from the tax.

Q. How do I know that information about my income will not become public knowledge when I file my return at city hall?

A. The law provides that all of the information shall be kept strictly confidential. It provides very severe penalties to the employees who divulge any of this information.

Q. When will the tax take effect?

A. The tax would take effect January 1, 1971. The reduction in property tax would take effect on the July 1971 taxes.

Q. How can I find out more about the tax?

A. Detailed copies of the tax law are available at Tecumseh City Hall and the Tecumseh Library. There will also be a Townhall Type of Meeting at the Community Center, March 30, at 8:00 p.m.

Additional Tax Facts for Senior Citizens, Local Corporations

INFORMATION FOR SENIOR CITIZENS

Dear Senior Citizen:

Everyone is or should be sympathetic with the plight of Senior Citizens whose fixed incomes seemingly are under constant attack from rising prices and taxes — particularly property taxes.

Sympathy is one thing — **doing something** about the situation is quite another. Purpose of this letter from your City Council is to show you how you and your friends, on April 6, will have the opportunity of joining with other Tecumseh property owners in doing something.

We refer to the vote on the proposed City of Tecumseh income tax. Nobody likes a new tax but let us point out why you, as a veteran Tecumseh resident, should:

1. **Pension, Social Security payments, proceeds of insurance, annuities, workmen's compensation, and social services payments are completely exempted from the proposed income tax.**
2. **The taxpayer is allowed deductions for the full personal and dependency exemptions authorized by the Federal Internal Revenue code.**
3. **As a property owner you are guaranteed a five-mill reduction in property taxes when the city income tax becomes effective.**
4. **Most of you are homeowners and your homes represent your largest single investment accumulated in most instances after years of toil and sacrifice.**

Senior Citizens owning property now are perhaps the most over-burdened group in our City.

The City Income Tax is your opportunity to shift some of that burden to non-property owners and those who work in Tecumseh, use Tecumseh city services, but do not choose to live in Tecumseh.

Tecumseh is entitled to and must have the help of everyone, not just a single group. We know you will make that plain on April 6 by going to the polls with your friends and fellow residents.

INFORMATION FOR CORPORATIONS

Q. Are corporations doing business in the City subject to the income tax Ordinance?

A. Yes. The net profits of all corporations doing business in Tecumseh whether or not they have an office or place of business in the City are liable for the tax under the ordinance. The tax is levied on that part of the net profits earned as the result of work done, services rendered and other business activities conducted in the City.

Q. Are the resident owners of unincorporated businesses, professions, enterprises, undertakings or other activities subject to the tax?

A. Yes. The distributive share of the net profits of resident owners of unincorporated businesses, professions, enterprises, undertakings or other activities as the result of work done, services rendered and other business activities whenever conducted, are subject to the tax provisions of the ordinance.

Q. Does the ordinance also apply to the net profits of non-resident owners of unincorporated businesses, professions, enterprises, undertakings or other activities who do business in the City?

A. Yes. Non-resident owners of the above type of business activities are subject to the income tax ordinance.

Q. Does the ordinance cover dividends, interest, capital gains and other income?

A. Yes. An income tax of 1% is levied on the income of residents of the following nature received after the effective date of the ordinance. All dividends, interest, capital gains less capital losses, income from estates and trusts, net profits from rentals of real and tangible personal property, and other income of residents of the City, to the extent that and on the same basis that such are subject taxation under the Federal Internal Revenue Code.

Q. Are capital gains from the sale of real estate and tangible personal property of non-residents of the City subject to the tax?

A. Yes. Capital gains less capital losses from the sales of real and tangible personal property of non-residents working in the City, provided that such arise from property located in the City, to the extent that and on the same basis that such are subject to taxation under the Federal Internal Revenue Code.

Q. Are the net profits from the rentals of real and tangible personal property of non-residents of the City where such income is obtained from property located in the City subject to the income tax ordinance?

A. Yes. The net profits from rentals of real and personal property of non-residents of City, provided that such arise from property located in the City, to the extent that and on the same basis that such are subject to taxaton under the Federal Internal Revenue Code. "Net Profits" is the net gain from the operation of a business, profession, or enterprise, after provision for all costs and expense incurred in the conduct thereof, determined on either a cash or accrual method, on the same basis as provided for in the Federal Revenue Code for Federal Income Tax purposes, excluding items exempt under the ordinance, but without deduction of Federal and City of Tecumseh taxes based on income and without deduction of net operating loss carry-over or capital loss carry-over sustained prior to the effective date of the tax.

Walters Named To Review Board

Hugh Walters, retired Tecumseh Products executive, was appointed to the Board of Review by Council Monday night.

He replaces Lee Randall on the Board, which starts meeting next Monday.

Kirk Edwards Buys Shop

Kirk Edwards has purchased the J-B Floral Shop, located at 130 W. Chicago Blvd., from Bill Tatro and John Kitz.

Beginning this week, the shop will be known as Edwards' Floral Shop.

Mr. Edwards is a 1967 graduate of Tecumseh High School and a graduate of the American Floral Art School, Chicago. He was employed for two years by the previous owners of the shop, Harold and Alda Pickard, when it was Pickard's Floral Shop.

He recently completed two years' service in the Army, including a year's duty in Vietnam.

Mr. Edwards resides at the home of his parents, Mr. and Mrs. Dorman Edwards, 5317 Monroe Rd., Tipton.

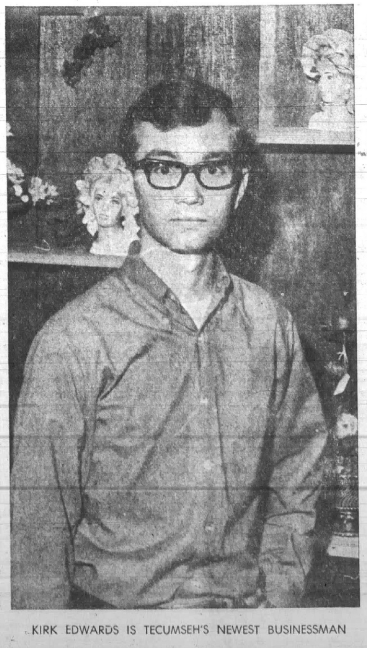
He says he especially likes to create imaginative arrangements for weddings, and plans to arrange a wedding consulting room in his shop.

Since they purchased the florist shop from Mr. and Mrs. Pickard in January, 1969, Bill Tatro and John Kitz have made considerable interior remodeling changes and added decorative cedar shake canopies over floral garden display areas.

They have continued to commute from their homes at Westland and Garden City. Their plans are indefinite.

Mr. Edwards plans to remodel the exterior in the near future.

Mrs. Edith Cook, who has been with the shop since the time of the Pickards, will continue with the new owner.



KIRK EDWARDS IS TECUMSEH'S NEWEST BUSINESSMAN

Mike Hill Wins $30,000 In Doral

Mike Hill, former golf pro at the Tecumseh Country Club, picked up the biggest paycheck of his life Sunday when he grabbed first place and $30,000 in the Doral Open at Miami.

The victory, his first in two years on the PGA tour, will mean much more than $30,000 to the 31-year-old pro, whose residence is in nearby Jackson.

By winning, Mike will not have to qualify for other tournaments this year, and it will assure him a spot in the Tournament of Champions at Las Vegas, where each participating golfer is entitled to a fat paycheck.

Doral's victory also could mean an invitation to the prestigious Masters Tournament next month at Augusta, Ga.

When here at TCC, Mike tried twice to qualify for the PGA tour in Florida and just missed each time. And, during this time, he frequently played friendly matches here with his brother, Dave, one of the country's top touring pros last year and biggest money winners.

In between seasons here, he picked up odd jobs locally and worked with a contractor. These days are over.

In his first year on the tour, he finished second twice, and just missed winning the rich Buick open at Grand Blanc. A fast finish by Billy Casper, acclaimed America's top golfer in 1968, edged Mike. After the tourney, Casper predicted that Mike would be a winner some day and a star on the tour.

CONCERT MARCH 14 — Two area Tecumseh youth, Jim and Marianne Bush, will perform with the Michigan Youth Symphony at the THS gym on Saturday, March 14. Proceeds will be used for Interlochen scholarships. Jim and Marianne, Britton High School students, are son and daughter of the Elwood Bushes.

Postponed Musical Will Open Friday

After illness forced the Tecumseh Players to postpone their musical, "Anything Goes," one week, the production will start here Friday night at the Community Center.

The musical is scheduled for Friday and Saturday evenings and on March 12-13-14. A student and senior ictizen performance is planned for this Thursday night, and will include students from Boysville and folks from Ypsilanti State Hospital.

Tickets are available at the door, or may be obtained by calling Mrs. Lyle Dornan at 423-7670.

Members of the cast are Judy Hoyt, Dennis Bryan, Dorothy and Ron Wetter, Craig Collicott, Louise Lawson, Laura and Linda Hughes, Debbie Cote, Judy Dornan, Ellen Todd, Bill and Brad Fowle, Mike Valentine, Howard Furry, Dr. Carlton Cook, Phil Campbell, Chuck Frolich, April Cook and H. Broderick.

Mrs. Cook, costume coordinator for the play, is being assisted by Mrs. Wilbur Andrews who is also making a wedding gown for Judy Hoyt to wear.

Mrs. Hal Weakly is making a marabou stole and trousers for the Chinamen, and Mrs. John Hopson is making kimonos.

Mrs. Warren Peck is making a kimono for Mrs. Wetter and Mrs. Roger Kapp is fashioning a hot pink blouse for Ellen Todd.

Mrs. Owen Merrill is sewing sleeveless chiffon coats for the angels in the wedding scene.

Mrs. Howard Furry is tailoring uniforms for the captain and the purser, while Mrs. William Adams hand finishes everything.

Others who assisted with the making of costumes are Mrs. Joseph Grey, Mrs. Gordon Comfort, Mrs. Harry Todd and Mrs. Dornan.

Musicians for the comedy are Helen Bendes, piano; Helen Williams, mallet instruments; Phil Bagdon, drums; Jim Bush, bass and Dan Bush, trumpet.

Store Manager Now Recovering

James Banas, manager of Tecumseh's Woolworth store, expected to be released from Toledo Hospital Wednesday.

His crushed leg has been placed in a cast.

Mr. Banas received extensive injuries in an automobile accident, Feb. 13, which claimed the lives of a Monroe couple, Mr. and Mrs. James Bishop.

Bud Guest, popular WJR humorist, will be the principal speaker here on Mayors Exchange Day May 21, during Michigan Week. He will speak during the evening banquet to be held at St. Elizabeth school. Earlier in the day he will participate at the Garden Club show.

The new official **Highway Maps for 1970** have arrived at The Herald and are yours by merely dropping in and claiming.

Eighth grade students here are sharpening their pencils preparatory to writing themes for the Third Annual Freedoms Foundation Essay Contest. Sponsored by **Farm Bureau Insurance Group**, winners will be announced in mid-April, **David Dick**, principal of the Junior High, stated.

"Man that is born of woman," says the prayer book "hath but a short time to live and is full of misery," thus states the Life magazine published Jan. 4, 1883. Property of Russ Garno, the little gem only 3½ x 4½ inches, was published once a week on Thursday for 10c or $5 a year. It is an unusual publication and most expensive for that era. One would need a magnifying glass to read much of it, too.

The solar eclipse of March 7 will begin at 12:16 p.m. for Tecumsehites.

At maximum eclipse, weather permitting, you will be unable to see nearly 78 per cent of the sun. Partial phases of the eclipse will be visible from virtually all of North America. Total eclipse, which will cast a 100-mile-wide shadow on the earth, will be seen along the eastern edges of the United States.

Did you know that **President Richard Nixon** gets his basic day-to-day information about the events of the nation and the world from the same place you do—**the newspaper.** Mr. Nixon carries on a tradition and a habit as old as our country itself. George Washington, too, was an avid reader of the newspapers of his day.

"The Herald did it—sold our house with just one ad," Mrs. Russell McKenzie reported as she cancelled her classified ad for the second week. She said she was so glad to get the job done quickly since her husband, chief Petty Officer Russell McKenzie, has completed his recent assignment which was closing of the Grosse Ile Naval Base, and has been transferred to Port Huename, Calif. Mrs. McKenzie will stay here just long enough to get the paper work done on the house transfer and their five children through school this spring, then she'll join her husband in California.

"Anything Goes,'" an appropriately named play, will be presented the next two weekends at the Community Center. It is directed by Craig Collicot; Don Dobrowsky, music; Diana Harbaugh and Lorraine Pihl, choreography; and John Day and Phil Baker, technical direction. Student night is March 5 and also patients from an Ypsi hospital will come that evening.

Would you believe—a map of Michigan with Tecumseh on it and **no Adrian?** Yes, it's so. **Jesse Sluyters** has hand painted trays of the map of Michigan with county seat missing.

Debbie Cote is an angel, yes, we will agree to that. Oh, in the play, "Anything Goes," **Debbie** is taking the part of one of the four angels, sometimes called Hallelujah girls, to replace Ellen Todd who will now play Bonnie.

Don't get out the nets—yet, but **C. Rhae Henkle** called to tell us there is a live and fluttering butterfly in his heated garage at 1109 Willow Ct. Just in case we didn't believe it was that near spring, Rhae brought the pretty brown and light-spotted thing down to the Herald office. 'Tis so.

Mrs. Dyke Helms needs several more 3-lb. peanut butter jars. She's not that fond of the gooey stuff, but she needs them for canisters for such things as the Howard Hyder Fund and the upcoming baby contest, sponsored by Tecumseh Jaycee Auxiliary. Empty ones will be fine, she says.

Junior and Senior High School students in Michigan and Toledo are "chewing up a storm" in a contest sponsored by the Beech-Nut Gum Co. School sending in the most wrappers to Rock Contest, P.O. Box 3, Blair, Neb., 68008, will win a two-hour "free" rock concert, featuring popular recording stars Tommy James and The Shondells, The 100 Proof and the Flaming Ember. The entire event will be emceed for the winning schools by CKLW disc jockey, Ed Mitchell. In addition, each winning school will receive a gift of $500 in cash to use for scholarships, academic sports or social activities. Some schools have already submitted 30,000 entries, so start chomping, fast. 525 Attend Scout Fete

Bonjour, Hola, Guten Tag, Konnichi or hello are a few of the greetings one could hear at the International Thinking Day dinner, held by the Tecumseh Neighborhood Girl Scouts this past week. About 525 girl scouts, mothers, friends and guests attended.

Each troop represented a country of its choice. Table decorations, food and dress corresponded to that country.

Senior Scouts, Sue Beardsley, Jackie Bailey, Glynis Burns, Vickie Cook, Jera Robinson, and Debbie Shelton, told of their trip to the Scout Cabana in Mexico this past summer. The girls brought back interesting things which were on display.

A special treat was having Mrs. N. D. Ghose, an adult Girl Guide from India, as a guest. She wore the Girl Guide dross from aher country. She came with Mrs. Lee Lincoln, acting executive director Irish Hills Girl Scout Council.

Mrs. Richard Egli served as mistress of ceremonies. The Tecumseh Neighborhood of Girl Scouts owes a big thanks to the United Products Workers Union for furnishing the room to hold this event.

Jean Leonard of Bellevue, O., founder and secretary-treasurer, and 1970 Club President Steven Pogenpohle of Des Moines, Ia., met with Elmer Buehrer, Michigan co-ordinator to formulate plans.

Units participating will be from Michigan, Illinois, Indiana, Pennsylvania, Ohio, Kentucky, Iowa and Canada.

An Edsel automobile will be given as a door prize.

George Underwood will display his full line of Ford vehicles with Ford Motor Co. officials present to answer quesions pertaining to the "Lemon" manufactured in 1958, '59 and '60.

The general public is invited to look over the units of the 200 members, including three owned by Mr. Buehrer, one an ambulance, and one of only 75 made.

Several members have from two to eight units and one as many as 20.

Attend Benefit for Jack Vealey

Mr. and Mrs. Ron O'Neill and Mrs. Doug Hall and David were in Lansing last Wednesday to attend the Jack Vealey benefit basketball game, for Mrs. Hall's brother's family education fund.

Jack Vealey, a speech correctionist for Lansing School District, spent 19 years helping young people with speech problems.

A motorbike accident last summer resulted in brain damage for him and he found himself unable to speak or move about. He also suffered the loss of a leg.

This was bad enough, but a fire in the Vealey residence about four weeks ago caused about $3,000 in damage. It seemed the final blow for the family, but former teacher colleagues and friends came to the aid of the former Macon resident.

Lansing Coaches All-Stars defeated WILS Wise Guys Wednesday night in the Everett High School Gym.

Friends of the Vealey family, or others who would care to add to the college fund for the four Vealey children, may do so by sending contributions to the Jack Vealey Fund, Eastern High School, Lansing.

A boy, Scott Claude, 9 lbs., 15 ozs., was born Feb. 23 to Mr. and Mrs. Gary Crawford at a Flint hospital. The Crawfords with big brothers, Bobbie and Brian, live in Otisville. Mr. and Mrs. Claude Sebring are grandparents of the children. They plan to see the new baby and his family Sunday.

Machine for Howard

A kidney machine has been obtained for Howard Hyder, of Palmyra, through the Department of Vocational Rehabilitation, Ann Arbor.

Tecumseh Jaycee Auxiliary has mounted a considerable effort to raise funds to aid Mr. Hyder in obtaining the expensive machine.

A sum of $730.78 has been donated to Howard Hyder savings account at the United Savings Bank by area residents.

Sum includes $20 in canister donations from customers at the Clinton Vescio store, and $56 from canisters at the Tecumseh Vescio store, where Mr. Hyder had been a manager for the past five years.

The fund now can be used by Mr. Hyder to offset the approximate $3,000 per year cost of maintenance of the kidney machine, or to meet other medical expenses.

Mrs. Terry Ridgway and Mrs. Dyke Helms, co-chairmen of the Jaycee Auxiliary Howard Hyder Fund committee, report 10,000 Betty Crocker coupons have been donated recently. They are still pouring in by mail from Riga, Ridgeway, Britton, Adrian, Waldron and Onsted, as well as in the canisters in local business places.

They will continue to collect the coupons, hoping to reach a goal of 50,000 by May 1, to contribute to the Michigan Jaycee Auxiliary coupon drive for funds to purchase kidney machines for use in the state.

Howard Hyder is staying at the Parkview Medical Center, Ann Arbor, while learning, three days a week, six hours at a time, to use his new kidney machine.

He is able to be home briefly on weekends now, and last Sunday attended his church, Emmanuel Lutheran Church on Ridge Rd. It is expected that he may be able to return home with the aid of the machine, by May 1.

Several other projects are planned to add to the Howard Hyder Fund. A benefit bowling day is scheduled March 28 from 4 to 11 p.m. at Airport Bowl. All proceeds from the open bowling will go to the fund.

Ernie Sanchez and his combo, "The Reasons Five" have donated their music for a benefit dance for the fund, to be held at the Community Center, Monday, March 30 from 7 to 11 p.m.

The band, popular with teen dancers, specializes in top ten musical hits, at Thompson's Lounge, Saline. Tickets will be $1 each with all proceeds for Hyder Fund. Mrs. Clark Nichols is chairman of this event for JC Auxiliary.

A community wide bake sale is planned for April 17 at the Herrick Park Branch of United Savings Bank. Mrs. Lawrence Bilkie, president of the Welcome Wagon Club, is coordinating this project, with all proceeds for the Hyder Fund.

The Sam Brooks Teen Club has donated $10 to the fund from their bake sale held Saturday.

Mayor Harold Easton signs proclamation for "Michigan Careers in Distribution Week," March 8-14, as Laura Mathias of Lenawee Area Vocational Center, sponsor, looks on. Purpose of the event is to encourage and acquaint young people and advisors with unlimited opportunities in modern distribution.

Says Population Will Double In 30 Years

Robert Lorenz, General manager of the Adrian Chamber of Commerce, spoke at the weekly meeting of the Lenawee County Board of Realtors Friday. His topic was "The Challenge for Our Cities, Today and Tomorrow."

He quoted from a recent survey that the population in the county will double in 30 years. We now have 89 units of government for the present 83,000 population which is good.

Mr. Lorenz offered some possible solution, such as upgrading zoning laws to be more realistic, enlarge and unite physical utilities, better planning of all subdivisions so as not to create future problems in school planning as well as sewer problems, assessing properties and land so that the rates would be more uniform in the county, and prompt action on pollution in preparation for future growth.

Mr. Lorenz said that Realtors could assist in these plans by making housing surveys and observe good planning practices in future subdivisions.

Local members attending included Mrs. Dan Gould and Mrs. Vern Manwaring.

10 YEARS OF SERVICE — George Bishop, left, a director of the Tecumseh Products Employees Credit Union for the past six years, retired Saturday night at the Credit Union's annual meeting after 10 years of service. Raymond Frost, president, presented Mr. Bishop a plaque in appreciation of his service.

You Told Us

By DOROTHY GRIGG

The simplist act of service has no cash equivalent. It is the rent we pay for our room on earth. Seems like we better get the rent paid soon, too. Apparently Mrs. Richard Nixon had ample opportunity to see young people "paying their rent" Monday when she visited several state institutions here.

Young volunteers in all hospitals and homes, including the local ones, make a sharp contrast with the street protesters. We thank God for candy stripers and others who "pay the rent" regularly.

2 Playing Basketball for MSU

Emily Manwaring, daughter of Mr. and Mrs. Vern Manwaring, is playing her senior year of women's varsity basketball at Michigan State University.

In her four years at MSU, the team has lost only three games and has gone undefeated so far this year.

She was high scorer with 26 points in a 63-51 win over the University of Michigan, and scored 23 against Eastern Michigan University in a 65-52 victory.

The team has also beaten Calvin College of Grand Rapids, 47-43, and Western Michigan University, 37-32.

Linda Oberlin, daughter of Mr. and Mrs. Fred Oberlin, is a sophomore at MSU, playing her second year on the junior varsity squad. They also have gone undefeated thus far this season.

Both girls are graduates of Tecumseh High School, Emily in 1966, and Linda in 1968, and both received the best senior girl athlete award from the Girls Athletic Association at Tecumseh.

Their remaining schedule includes a second game with Calvin College, Central Michigan University, and Adrian College. The game in Adrian is Thursday, March 12. Junior varsity game is at 6:30 p.m., and varsity at 8:00.

Three Tecumseh students at Western Michigan University are completing their teaching assignments this term. Karen Gottschalk is teaching elementary school at Angling Road near Portage. Frank Michael Zorn is in secondary education at Centerville High School and Terry Victor Lawson in secondary education at Central in Kalamazoo.

Those to assist Dr. Fred Freeman at Rotary meeting Tuesday evening were S. E. Adams, Chester Baker, Blair Bashore, Robert Bonner, C. M. Brown, Leonard Bruner, C. O. Butler, Ambrose Clay, Ralph Comfort, Walter Daniels, Glenn Driscoll, Robert S. Duhan, Art Eaton, Elmer Eberhardt, Gale H. Fisher, and Graham Fleming.

Others on the committee were Robert French, Clayton Greenwald, W. E. Haselwood, Stephen R. Illeck, Ray Jackson, Yale Kerby, Cliff Knudson, Glenn Kohler, Lewis J. Lamm, Richard Lewis W. C. Love, Vern Manwaring and James McDowell.

Among the others attending the meeting were Kenneth McElroy, Pat Meadows, Albert Merz, R. H. Moore, Don Nixon, DavidOusterhout, Paul Roekle, Perry Satterthwaite, E. L. Simmons, Clyde Spivey, Lynn Sullivan, Urka Martin, Frans van Westrenen, Hugh Walter, Fay Whelan, Harvey Wilson, Andrew Woodward, Bill Wright, John Zeigler and Cal Zorn.

A boy, Thomas Matthew, 6 lbs., 4 ozs., was born Feb. 27 to Mr. and Mrs. Stephen Walsh, nee Rosemary Murphy, at the hospital in St. Joseph. The Walsh family moved from Palmyra in October. He was employed in Shepherd and Stoll Pharmacy and also previously for the late Ralph Hodges. The little newcomer evens the family for grandparents, Mr. and Mrs. Wenton Murphy, making their eighth grandchild, four boys and four girls. David has two boys and two girls as does his sister.

Mrs. R. D. Eggleston was in Killeen, Tex., for the month of February with her daughter and husband, Mr. and Mrs. Tommy McCarley. While there she spent a few days in Mexico.

Take Streak Into Tourney

Two closing wins of the season may give the Tecumseh Indians some incentive in their district tournament game Friday night in Bowen Field House on Eastern Michigan University campus.

The Indians, behind Ken Pieh and Craig Smith, edged Monroe Jefferson, 60-57, for their second consecutive win. Blissfield was dumped the previous week.

Coach Vic Lawson's club will play the winner of the Milan-Willow Run game with the tilt scheduled to start at 8:45 in the field house.

Against Jefferson, Tecumseh started slowly and trailed, 15-8, at the end of the first quarter. After narrowing the gap to two points at half time, Tecumseh went ahead, 45-42, at the three-quarter mark.

Pieh's goal in the final seconds gave the Indians a 60-57 lead, and then Smith netted two free throws to put the game out of reach of the Bears. Both teams made 24 goals, but the Indians won at the foul line with a 12-9 margin.

Smith finished the game with 23 points, while Pieh collected 12. They were the only Tecumseh players in double figures.

The victory gave the Indians a 6-6 record in the Huron League, and a mark of 7-9 for the season.

In the reserve game, Coach Jim Curth's five trampled the Jefferson Jayvees, 63 to 28.

Two Not Related

It was erroneously reported in The Herald last week that Norman Quigley of Adrian was once a state liquor inspector. This is not correct as it was James Quigley of 606 W. Pottawatamie who served in this capacity. They are not related.

MARK III

Embarrassing Moments

Not only has the Continental Mark III proved to be the most authoritatively styled, decisively individual motorcar of this generation . . . it has been virtually impossible to keep on hand for showroom display.

Frankly, the overwhelming demand, while most gratifying, has proved at times embarrassing.

If you are an aspiring Mark III owner, you will be pleased to know we've made special arrangements to have one of these fine cars in our showroom for your personal inspection.

We will be happy to write an order to your specifications and promise to do everything possible to expedite early delivery of your own personal Mark III.

One you can display for as long as you like. And without embarrassment.

VOICE of THE HERALD

Pulling for Mike

To golf fans, Sunday was a great day here. Live and on TV—and winning—was Mike Hill, former golf pro at the Tecumseh Club.

He's gone a long ways, and like hundreds of other Tecumseh golfers and fans, we wish him continued success. We'll reserve our Sunday afternoons for the tube and hopes that Mike will be winning again.

Many of us recall how discouraged he sometimes would be after traveling to Florida and trying to make the PGA tour. Twice he came home and his destiny seemed to be that of a resident golf pro.

Mike didn't want that, not at his age, and it undoubtedly was this factor which made him try the PGA school in Florida for the third time—and a successful one it was.

In his first year, he finished second in two major events. Just two years ago he seemingly had the Buick Open won only to bogy the final hole and lose to Billy Casper, then judged as America's finest.

Last year was not too successful and in several tournaments this year, he would be among the leaders in the first couple of rounds only to slip down into the pack.

He didn't slip Sunday. He won, and the Mike Hill future may just be starting for him and his family at Jackson.

There will be no more selling of golf balls and tees over the counter at the Tecumseh Country Club. No more worrying about the shag boys picking up range balls, seeing that tees and cups are changed regularly. He's not a resident pro.

Mike's a full blooming star now—and to think he was once our pro here. We wish him the best of luck and continued success on the golf tour.

$151,000 in Benefits

Tecumseh Products Employees Credit Union held its 15th annual meeting dinner Saturday night, with 540 members and guests attending.

President Raymond Frost reported that there was a 25.7% increase in assets, totaling $2,650,000, and 525 new members, bringing the total membership to 3,653.

Treasurer Joseph Dziachan reported that $97,000 was paid in dividends at 5% on share accounts and 5¼% on deposit accounts. Also $54,000 was refunded to borrowers on interest they paid on loans.

Total benefits paid in 1969 was $151,000.

Following the progress reports was the election of officers. They are:

Board of Directors — Raymond Frost, president; Gerald Driscoll, vice-president; Joseph Dziachan, treasurer and Frederick Ward, secretary.

Other directors are: Lawrence Cote, Kenneth Martin and Ira Manwaring.

Credit Committee — Euan Francoeur, chairman; Kenneth Hinkleman, Jack Ries, Richard Spadafora and Wayne Zettel.

Supervisory Committee — Victor Peterson, chairman; Frederick Bryan and Richard Ganun.

Senator Bursley's LANSING REPORT

Whatever one's opinion might be on the notorious trial of the "Chicago 7"—and I have my private opinion on that—I find it outrageous that private property be destroyed as part of the demonstrations arising from this trial.

At the University of Michigan and Michigan State University and on other campuses throughout the country, student groups meet to protest, talk and ostensibly, peacefully demonstrate against a judicial decision to which they took exception. That is a right to which they are entitled, and I cannot quarrel with it.

Unfortunately, some members of the SDS and a few other irresponsibles capitalized on the protest move of the majority group to throw rocks at banks and store windows and otherwise destroy property. In addition to which, some actually assaulted officers of the law. I hope that those found guilty of such destruction are given good stiff sentences.

Another set of rights are being violated however. On campuses throughout the country, most major American corporations send recruiters to offer jobs to students who have worked for four, six, or even more years to qualify for a skilled and technical job.

If the General Motors Corporation or Dow Chemical or anyone else for that matter, wants to interview and offer jobs to these students, it is their right to have this job opportunity offered them.

I find it morally wrong and inconsistent for other students to boycott such recruitments and prevent students desiring job interviews from having them.

I would point out, that obtaining a college education — at the University of Michigan, for example—is a mighty tough proposition these days. It is harder to get into college than when I graduated years ago, and those students who are studying hard and graduating deserve great credit. They are the silent majority on the campuses.

Club Reviews Scholarships, Music Festival

Ken Prill played a baritone solo, "The Iceberg."

Patti Mannino played a piano solo.

Ken Prill and the Bush family served refreshments.

65th Anniversary for Rotary Club

Rotary Club of Tecumseh joined with the nearly 14,000 Rotary clubs in 147 countries to celebrate the 65th anniversary of the founding of the worldwide service organization. According to president Fred Freeman, the club marked the occasion with a program featuring a safety program of which Tecumseh is proud.

Rotary, the first service club for business and professional men, was organized by Paul P. Harris, a Chicago lawyer from Vermont, on February 23, 1905. As a "cure" for loneliness in the big city, he proposed his idea for a club to three other men — a coal dealer, a mining engineer, and a tailor. Because subsequent meetings were held in members' offices in rotation, Harris suggested the name Rotary.

The first meeting of the Rotary Club of Chicago was held in February, 1905, and by August the club had 21 members, most of them men from small towns. By 1912, there were 50 Rotary clubs and 5,000 Rotarians, and the movement had spread to Canada, England, Ireland and Scotland.

Today, there are more than 658,000 business and professional men around the globe who wear the distinctive cogwheel emblem of Rotary International. They are engaged in service projects at every level, from providing local youth centers to helping fellow Rotarians in India sink wells for small villages in need of pure water.

Rotary Club of Tecumseh, with 40 members from all walks of life, has a variety of activities to help the poor, create friendship at home and abroad, public understanding, and good will to all people.

Patricia Deer, Merelin Young Marry

Patricia M. Deer, daughter of Mr. and Mrs. Richard Deer of Blissfield, became the bride Feb. 21 of Merelin L. Young, son of Mr. and Mrs. Merelin A. Young, 10185 Carson Hwy. at Christ, The Redeemer Lutheran Church in Adrian.

The Rev. Richard A. Chilkott officiated and also sang "The Lord's Prayer," accompanied by Steven Gregg.

White gladioli and red carnations were used in the altar vases for the candlelight ceremony.

A white velvet bridal gown featured an empire waist and A-line skirt with a train attached to a large bow in back.

Scalloped lace trim accented the dress and train and the bouffant headpiece secured to a tiara of rhinestones.

White roses and red carnations made up the bridal bouquet.

Susan Merillat of Blissfield served as maid of honor in a floor length gown of red velvet with long puffed sleeves. A matching bow with brief veil was worn on her head, and she carried white roses and red carnations.

Linda Young and April Deer, sisters of the bride and groom, were bridesmaids in floor length gowns of oyster brocade with red velvet bodices. They also wore matching headpieces and carried red carnations and white roses.

Laura Sieler, of Petersburg, attired as the other bridal attendants, was flower girl, and Stephen Young of Swanton, Ohio was the ring bearer.

LeRoy Sieler, uncle of the groom, was best man, and Frank Harsh and Richard Jackson seated the guests.

A reception for 400 guests was held at Tecumseh Products Workers Union Hall.

The bride was graduated last June from Blissfield High School.

Her husband was graduated from Tecumseh High School in 1966, and after completing short courses in agriculture at Michigan State University, engaged in farming.

They are living at 6407 W. Monroe Rd., Tipton. A wedding trip was taken to the Smoky Mountains and Nashville, Tenn.

Q Why is Consumers Power Company involved in this type of program?

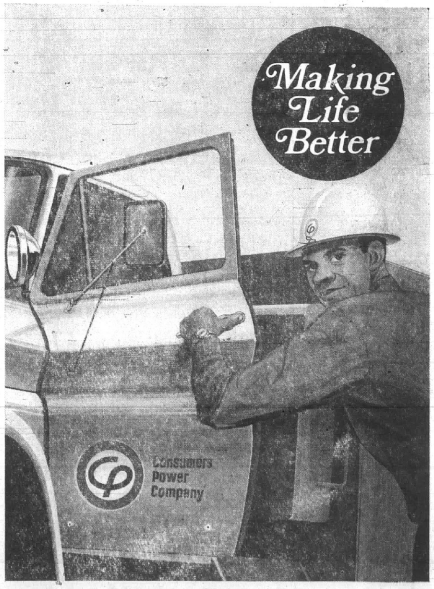
A First of all, it is fair and, secondly, it is sound economics in that welfare recipients can be converted to tax-paying citizens.

Q Aren't you giving "special treatment" to a selected few?

A Yes. In business we face many problems that require "special treatment" or attention to solve problems. Operation Outreach is one example of how we try to help solve serious social ills.

Q Are your total efforts in providing equal employment opportunity directed to the so-called "disadvantaged"?

A No. Many highly skilled and well educated persons who are members of minority groups have long been under-employed. Consumers Power Company believes all persons should have the opportunity to utilize their full talents in making their contributions to business and society. We take affirmative action to make this belief a reality.



John Gray has been working since the age of nine, but this is the first decent-paying job he's had.

Almost 200 men and women like John Gray are helping us to make a point — that there is talent among those who used to be considered "unemployable." Childhood poverty cut short their schooling. Doors were closed to opportunities. They became "ineligible" for good jobs. Today Consumers Power is reaching people like John, using a variety of techniques, including the "Operation Outreach" program. This is an effort involving the cooperation of a number of government agencies. It is part of the responsibility we feel toward the communities we serve — part of helping to make life better.

Stop Cancelled for Bookmobile at Sutton Bank

The Lenawee County library bookmobile will no longer stop at the Sutton Rd. branch of United Savings Bank on Occidental Highway.

Circulation at this stop has fallen steadily during the winter, so that it is not economically feasible to continue the stop.

The decision to eliminate the service at Occidental Highway was made only after a survey of all area residents was taken.

If there is enough interest, the bookmobile may resume service on Occidental Highway during the summer months.

A LEAKY RADIATOR

Pine siskins are small birds — we found that the space devoted to them in bird books was small too. One of our trusted old favorites devotes 24 lines to the description of a redpoll; whereas the siskin was brushed off with a mere 10 lines. Of course, I must admit of being slightly prejudiced; this is our first year of pine siskins and we are most excited with them.

It started in January when we noticed an all-over striped bird on the feeder. There was also a nice population of song sparrows visiting at that time and, as we were frustratingly busy with inside things, the new little guy was not immediately recognized as being somehow new.

He was our midget-sized song sparrow. I should have known better — we all should have known better. Birds do not come as toys and miniatures as do dogs and besides, with the exception of the stripes, there was no resemblance between the two birds.

Like a sledgehammer to the head, the arrival of two more "stripers" jolted us to awareness. These were no song sparrows with serious growth problems, they just couldn't be.

Instead of looking cuddly round, they could have been honor graduates from the latest physical fitness course; their dark brown tops and lighter brown fronts were heavily marked with much darker brown stripes; their wings were decorated with two white bars, and their short little tails were deeply forked. They did not even have the stickpin mark of the song sparrow.

★

THE ONE THING which did bother us at first was the wash of yellow that all of the illustrations showed the pine siskin wearing. Every picture we could find had this yellow on the wings and a flash of it on the tail. Our pine siskin did not show any yellow and we were curious.

A bit of reading solved the problem. Apparently the yellow is visible only when the birds fly and even then one must see them at just precisely the right angle. So far we have not been so blessed.

It was in the discussion of these yellow markings that I found a statement to almost end all statements. Usually the Audubon Bird Guide, by Richard H. Bough, throws me no curves. However — the sentence which starts out describing their striped appearance, pointed bills, and wing bars ends: "and concealed yellow patches in wings and tail are distinctive."

A pointed bill and a pair of white wing markings could be good field identifications but I cannot help chuckling as I wonder about the yellow patches which are concealed.

We have often commented on the colorful way different people describe bird noises. Every ear hears differently and oh, how far-fetched are some attempts at describing sounds.

★

SUPPOSEDLY THE siskin sings a bit like a goldfinch but with a buzzier, huskier voice. Occasionally, someone happens upon exactly the right words and I do love the National Geographic's **Song and Garden Birds'** way of telling how the siskin sometimes sounds.

Like a leaking radiator—don't you know exactly what they mean?

The siskin is very much a today's bird in that he likes to do his own thing. He often travels with a large flock of friends, but not always; he dearly loves evergreen forests, but often becomes quite tame at bird feeding stations; he is a bird of the north, but occasionally drifts far south; he is most erratic in both migration and breeding areas, appearing in and disappearing from areas in response to unknown whims; he is, according to season, both a seed and an insect eater. He also likes salt.

So it is that the pine siskins have favored us this year — they have performed nicely at the feeder, they have triggered some interesting bird book reading, but one important thing remains: they have not as yet allowed us to hear them sound like a leaky radiator.

Hillsdale Club Has Program

A "dry" subject turned into living beauty at the February meeting of the Little Garden Club.

Dry, weathered boards and driftwood already are known to possess beauty in the right places, but who would have thought a chunk of dried fungus or lengths of dried sunflower stalks could be used in eye-pleasing arrangements? Members of the Hillsdale County Flower Arranging Study Group, that's who.

Now members of the Little Garden Club have even more ideas to incorporate into their plans for their May 21 flower show. The show, to be held at St. Peter's Church, includes several classes for dried materials, as well as classes for fresh blooms.

Three members of the Hillsdale group entertained the local gardeners with demonstrations of their work. Mrs. Joseph Kovacich, Mrs. Paul Stone and Mrs. Frank Zehrly also had a wealth of tips for using both cultivated plant materials and "wild" items found in woods, fields and along shorelines.

One wall plaque, including preserved oak leaves and petrified wood as well as natural cones and a statue of St. Francis of Assissi against a background of weathered barn siding, sells at interior decorating shops for $50, the speaker noted.

A large fan of lichen, a fungus which grows on decayed woods, formed the base for a table arrangement. But it brought a warning that before being used it should be doused with gasoline or sprayed with insecticide to kill any inhabitants of the fungus.

To blend in a particular color scheme, driftwood was rubbed with artists' chalks to produce a soft mauve sheen. Driftwood also can be bleached with regular household bleach applied with a brush, or darkened by rubbing with linseed, mineral or salad oil.

Small plastic tubes were fitted into the hollow stems of sunflower plants in another arrangement. This produced a source of water for the fresh flowers used in combination with the dried materials.

The arrangers also gave methods and formulae for drying flowers and foliage. A mixture of 1 pint sand, ½ pint borax and 1 cup cornmeal is a good medium for flower drying, they advised. Yarrow and ferns can be dried in old telephone books, while some vines and branches are placed in a solution of glycerine and water.

The March meeting of the garden club will be a workshop on flower arranging.

Pastor tell me

By DUANE H. McNEIL

WHEN DID JESUS DIE?

A debate of great magnitude exists with this subject. It has gone on for centuries. No one has proved his theory to be the actual true answer.

Among the suggestions are the following:

Christ died on Friday. This is the traditional date. The Roman Catholic Church is probably the greatest proponent although almost all Christendom recognizes this day.

Christ died on Saturday. Not many persons hold to this. There is an avoidance here of the three days and nights. Usually this group says the three days and nights are only a figure of speech.

Christ died on Thursday. Some who believe this get reinforcement from Exodus 12:1-6. If Christ arose on Sunday, the fourteenth day would have to be Thursday.

It really does not matter when Christ died. It is extremely important that He did die, however. Christ died for our sins. Christ died for us. Christ died the just for the unjust. He took our place on the Cross. So we can enjoy His place in Heaven, soon. Believe on the Lord Jesus Christ and thou shalt be saved. Acts 16:31.

During the first two weeks of February when the Lenawee County Library announced that overdue books could be returned fine-free, 36 long-overdue books were returned to headquarters Library in Adrian.

The longest overdue book was due on February 4, 1967.

In addition to the books returned to headquarters, many books were returned at the branch libraries and to the bookmobile. Some patrons paid to replace books which they had been unable to find.

County library patrons are reminded that overdue fines of 5c per day on each item are once again in effect for all outlets. A fine-free period is not an annual event, and patrons are asked not to keep overdue books out in anticipation of another fine-free period.

The maximum overdue fine on any item is $1.50 or the cost of the book, whichever is less.

Our Readers Write

18 February 1970

Dear Herald Staff,

My subscription to The Herald hasn't run out yet, however, my tour of duty here in Viet Nam is just about over and I will be returning to good ole Tecumseh next month. I have received a port call (flight date) of the 16th of March and will be getting aboard a United flight for the USA at about 9:30 a.m., arriving at Travis AFB, California around 2:30 that afternoon. At Travis I will receive what a number of GI's consider the best thing going—MY DISCHARGE from the Air Force.

It has been a long four years and many changes have taken place in Tecumseh since I have been gone, I am sure it won't take me long to find out what is happening about town. Of course, it sure has helped having the Herald come once every week or so, even if it was a month late.

I can contribute one happening here in Viet Nam to the Herald, however, and that is my meeting up with Glen Slick of Ridgeway. I saw his address in the Herald and tried a number of times without success in contacting him, however, he also saw my address and while on one of his missions to Can Tho he was able to stop in for a few hours and discuss some of our old schoolmates and things before leaving for Cao Lanh, his base of operations.

I don't believe there is much else to add with the exception of my request for you to stop the mailing of the Herald to me here so I will close with a note of rapture: "It sure will be good to be home!"

Sincerely yours,
Paul W. Kruse

BBA Host for Fete

BRITTON — The Britton Tory varsity basketball players, cheerleaders and coaches were honored Sunday by the Britton Businessmen's Association.

Fifty-three guests were served a roast beef, roast pork dinner at the Britton Restaurant. Tables were centered with floral arrangements of red carnations and white mums, carrying out the school colors.

Arrangements were made by Sharon's Flower Shop in Britton.

Mrs. Curtis Banks decorated a lovely cake for the occasion. It was a large white sheet cake with a basketball player, resembling a Britton Tory, in the center. On one side, in red, were the names of the coaches, a picture of a megaphone with the names of the six cheerleaders underneath, and a couple of gold trophies.

On the other side of the cake, also in red, was a large "1969-70 Tories," with the names of the 11 varsity basketball players underneath.

Stewart Niblack was the master of ceremonies, and he introduced Mrs. William Raeburn, who in turn introduced her cheerleaders. Stewart Niblack then introduced Coach and Mrs. Jim Landfair. The coach then introduced the varsity players.

Mr. Niblack thanked all who helped make the dinner a real success, with a special thanks to the Ron Joneses, who operate the Britton Restaurant.

Rest of the afternoon was spent socially.

Tory Boosters Club came out on top with a successful evening and a winner of the boosters vs. teachers basketball game Saturday evening, in the high school gym. Over 200 attended.

The fifth and sixth graders provided two great games, but the highlight of the evening was the game of the Boosters and Teachers.

It took an overtime to untie the 61-61 score left as the final buzzer sounded. After a three-minute overtime play, the final tally was 69-63, in favor of the Boosters.

Jim Skelton, who played for the Boosters, was high man for both teams with his 21 points. Coach Jim Landfair was high for the teachers with 19 points, with junior high coach, Mark Lewis, close behind with 18.

Real winners were the cheerleaders, wives of the Boosters, who were gaily clad in red and white football jerseys and tights. The girls put on a great performance as they whooped it up and sparked on the teams each time they ran out on the court.

At the close of the evening, the game ball, which was donated by the L & I Leasing Co., of Britton, was awarded to Mrs. Allen Wagenschutz of Britton Rd.

Hospital Tour Gives Insight

Make the most of what one has—seems to be the theme throughout Ypsilanti State Hospital, an institution for the mentally ill.

It's stretch here and stretch there, but one thing that the need is greatest for, is the least elastic—more personnel, more occupational therapists, more nurses, more people who care for the confused and rejected humans behind the locked doors.

Newest buildings and equipment seem to be used for children. A new school called the York Wood Center, completely separate from the older buildings of the institution, was opened Feb. 15, 1965.

It has light roomy class rooms, swimming pool and a gym with brick walls and vinyl tile floors.

Because of the low frustration tolerance and brief attention span, class sessions are only 30 minutes in length and held mostly in the mornings. Children from 13 years and under are only about a minute from their home base so they may reach classes quickly. Dormitories are divided into four 15-bed units.

Occupational therapy plays a large part in progress of patients, sewing, arts, crafts, many learn modern laundry techniques in the home economics rooms. There are 160 patients employed in the laundry as workers.

Many of the wards have their own laundry unit or small kitchen, where patients may make snacks.

Average stay in the children's unit is about 15 months.

There are 60 children in this unit and another 60 adolescents in another nearby unit with workers, teachers, social and clerical workers on about a one to one ratio with the patients.

Donald Worley, principal of the school, explained the foster grandparents and big brother and sister plan as he escorted a group of news people Thursday through the halls, opening the many locked doors.

And, Lenawee County has appropriated no money for this facility.

Hilda Leimann, a social worker who completed her training at the four-county hospital, continued the tour through the geriatrics area, showing several wards of persons 60 years of age and over.

Here was a lady soaking her foot, there was one asleep, others watching television, a great many just sitting, vacant stares everywhere.

Nine wards of 70 to 80 elderly people make up the geriatrics units, a greater portion of the patients.

Many are not really mentally ill but the idiosyncrasys of old age make them intolerable in the homes of their loved ones, thus they are spending their declining years in the state hospital.

It is comparatively easy to go through court and have a feeble old lady or gentleman committed.

Depending on the personnel of a ward, some are quite colorfully decorated with quilted coverlets on the single beds, lining the 30 to 40-foot walls, and this is home to many. They may have known no other for 15 or 18 years, the average length of time in the geriatrics unit.

There is a patient clothing store where many donations are taken, and for many it is their main source of clothing. Every thing is marked with a prominent "Ypsilanti State Hospital" so there can be no mistake in laundering, though the hospital has its own complete laundry.

Patients are fed in three cafeteries which will accomodate 2,600 to 2,800 persons three times daily.

Grace Heininger, registered nurse and supervisor of the Washtenaw County Unit told of this facility housing all the people from that geographical area with one team of personnel, working in three daily ward shifts.

Highly successful, according to the speaker, the unit started with 90 beds and was soon dropped to 60, one half for men and one half for women—a number determined to be about right for counties one half rural and one half city as is Washtenaw

The co-ed dorm is felt to be especially helpful since the same team of helpers follow the progress of patients there, and patients help each other since situations have so much to do with progress of the mentally ill.

A federal grant of $100,000 per year for three years got the facility underway and proved so successful that the county has funded it since.

Fifty two days is the average length of stay in the unit, over 50% of patients are voluntary, and many are able to commute, some holding their jobs while their problems are worked out.

Others go home weekends and holidays, thereby not losing contact with homelife and receiving the stigma of institutionalization.

Alcoholics are among those patients who are able to help each other. AAA meetings are held each week and sometimes patients attend those in their own community outside of the hospital, another means of keeping them home oriented.

More recently dope addicts are now prevalent among the patients.

Team meetings once a week in Washtenaw County Unit are felt to be most successful, since the team on one shift can discuss the progress of patients with other shift workers, keeping them informed of round the clock activities of those they are trying to help.

Seclusion hours are many times less in the co-ed ward, usually 15 or 20 minutes in a room by himself sets a person to right again, the speaker stated.

About 200 patients are admitted per year with maybe 10 going to long term care units.

A new intermuscular drug, prolixinenanthate, one shot every two weeks, has been most helpful, especially for those who can live in their own homes and be out-patients.

Patient care cost varies from ward to ward. A regular ward is $37 a day, hospital ward, $47 and $61 in York Wood Center for children.

And, Lenawee County has appropriated no money for this facility.

Metal Proves Helpful

Folks who suddenly lose their taste for certain foods, may now have the condition cured by the addition of metals, according to Dr. Robert I. Henkin, a neuroendocrinologist at the National Heart and Lung Institute, Bethesda, Md.

Dr. Henkin has spent the past 12 years developing a new theory to explain how man tastes. Over the past five years he has treated 50 patients who suddenly have lost the ability to taste, plus another 150 patients whose loss of taste was a serious side effect from drugs they were getting for other diseases.

The discovery that small quantities of metals such as copper, zinc and nickel could restore taste came when Henkin was asked to see why patients lost their ability to taste when treated with drugs that contain thiols—a sulfur compound that normally appears in the body. Dr. Henkin thinks there are thousands of people in the country who cannot taste.

Since one Tecumseh area resident lost her taste suddenly last year, following the use of pencillin for a sinus infection, she has learned of several other people who have had similar difficulty. She has learned that doctors generally are not aware of Dr. Henkin's discoveries in this area.

A comprehensive report appeared in a recent edition of The Washington Post. It can be obtained by calling 456-4260.

Sunday II Corinthians 5:11-21
Monday Philippians 2:1-16
Tuesday II Timothy 3:14 to 4:8
Wednesday Deuteronomy 8:11-20
Thursday Deuteronomy 31:1-8
Friday Psalms 25:1-14
Saturday Psalms 28:1-9

A pearl is a thing of beauty—iridescent—a precious gem. An oyster shell is rather ugly—a remnant of a marine mollusk much esteemed as a delicacy. And yet both are built of identical shell-producing cells.

It is happenstance that causes tiny parasites or grains of sand to penetrate the oyster, severing the shell-producing cells and carrying them deep into the oyster to form perfect pearls.

It is no accident that some men from poor beginnings have become great leaders, statesmen or educators. Others from identical surroundings live out their lives in poverty and despair.

The difference is integrity and a yearning for excellence in every part of life—that love of God that illumines and elevates.

Your church can help you to make the most of your life. As you grow to understand God as a part of any real achievement, strength and vitality and joy will enrich your days.

Germany Is Study Topic for Group

"Foods and People of Germany" was the study topic of Northeast Tecumseh Extension Study Group Feb. 24, when members made a potluck dinner from German recipes.

Such dishes as sausage in jackets, cooked sauerkraut, almond studded potato croquettes, sweet sour apples, apple pancakes and non-leavened pancakes with apple filling and whipped cream were served.

Ten members were served dinner at the home of Mrs. Raymond Bird.

A member stated that one thing the group learned was that Berlin is in East Germany and behind the wall, not one part in free Germany and the other behind the wall.

They also learned that beer and wine is used more than water, that they have both light and dark beer and it isn't as high in alcohol content as American beer.

The next meeting will be held at the home of Mrs. Edward Stoelt.

Host Class of '60

Mr. and Mrs. Roger Korte, 3796 Kaiser Rd., will host the Class of 1960 Sunday at 3 p.m., when preparations will be made to organize the alumni banquet for Tecumseh High School.

School Head Has District's Support

By Maxine Calhoun

CLINTON — A most unusual demonstration of near-unanimous support for Superintendent Richard Wegner of Clinton Community Schools was in evidence at an open meeting Monday night.

The meeting was attended by more than 300 persons who filled all the seats and lined the aisles of the Clinton Theatre to hear an explanation of the School Board's recent action to deny a renewal of a superintendent's contract to Mr. Wegner.

The action by the Board came as the result of a 4-3 vote taken unexpectedly at the March 3 special meeting, a meeting called to award equipment contracts.

At the citizen's meeting Monday night, chaired by John Truesdale, village president and theatre owner, board members who attended were Dr. Edwin Wight, Lester Proctor and Thomas Carleton, all of whom had opposed the move to oust the superintendent.

Other members of the Board, President Donald Geiger, Mrs. Henry Louwerens, Harlon Ruhl and David Pratt did not attend, although all four were invited.

Dr. Wight explained the events immediately prior to and during the March 3 Board meeting at which the action was taken. He related how he had learned, about 4:30 p.m. on the day of the meeting, that Mr. Pratt planned to move that Mr. Wegner's contract not be renewed.

"I hadn't heard of anything like this for over a year," Dr. Wight related. He reported that a close vote a year ago had gone 4-3, the opposite way.

He reported that he immediately contacted Mr. Geiger and was advised that the information was correct, and that he would support the move. Mrs. Louwerens also indicated support.

Wight also learned that Board members, Les Proctor and Tom Carlton had not been informed of the impending action.

Dr. Wight explained to the audience that the Board's policy requires that all matters to be voted upon must appear on the agenda three days before the meeting.

Dr. Wight explained how the motion was made at the conclusion of the meeting, which had gone very well" with no disagreements about the acceptance of several equipment contracts.

He said that he had protested that the motion was out of order.

However, Mr. Geiger stated that it was a legal motion and a vote was taken, "following a 10 or 15 minute discussion."

Because the legality of the motion was questioned by the dissenting Board members, a legal opinion was sought by letter from the state's school authorities in Lansing. It should be available by mid-week.

Wight concluded his remarks by stating that he would be happy to see the support of the public for its stand on the matter.

"We (meaning members of the Board) should resign if we do not have public opinion with us."

Mr. Truesdale expressed the opinion that if as many persons intended to attend the March 17 school board meeting, when other members of the Board might be questioned about their action, it would be necessary to hold that meeting in the high school.

A motion to that effect, made by Harold Brown,was approved unanimously by a show of hands.

Mr. Geiger, president of the School Board, has announced that in order to comply with legal requirements, the March 17 regular meeting of the Board must be held at the usual place, the Central Administration office at 8 p.m. However, it will be immediately dismissed and then reconvene at the high school to accomodate interested citizens.

Because of the extremely poor road conditions at the Administration office, citizens would be well advised to go immediately to the high school.

An informative, comprehensive letter from Donald Quick, a former and the first elementary school principal in Clinton, was read by Mr. Truesdale. The letter detailed the many ways in which the administration and programs at the school had been improved by Mr. Wegner.

The letter noted that Wegner had built an administrative team, improved school curriculum, obtained Federal monies for such things as remedial reading, and improved teaching conditions by addition of up-to-date audio visual equipment.

Mr. Wegner was credited with having instituted a student council, safety patrol, junior primary, non-graded class program and added an elementary counselor.

In the past two years, he had developed a successful building program for the new high school.

Quick's letter included the suggestion that the Board policy should be that a person not be able to serve on the board if he has a spouse employed by the school system.

The suggestion received loud applause.

Board member Proctor stated, "I am 100% behind this administrative program."

When someone inquired what were charges brought up against Mr. Wegner, Dr. Wight said he had been told Mr. Wegner did not allow his principals to run their buildings.

Elementary principal Mike Walls refuted the statement, saying, "Ridiculous!"

"I never had a recommendation of mine reversed by Mr. Wegner. He has always discussed my suggestions, then told me to follow through on them."

Walls reported that Wegner had been urged to visit the elementary school recently and told Walls that he had stayed away because he had been criticized for interfering in administration of schools.

The other charge, Wight said, was that Wegner wasn't doing anything about things that were happening in the high school, a charge directly opposite to the other one.

Wight reported that prior to the vote at the Board meeting, David Pratt said, "Things are not going right, therefore I make the motion."

Geiger was reported as having said, "the school is so bad I won't let my kids go there unless a change is made."

High school principal Hodley Cox expressed the opinion, that as a newcomer, he had a very good relationship with the Board and was given the authority to run his building. "I never made a request of Mr. Wegner that was not honored."

Mrs. Floyd Halladay, a retired teacher, asked, "We already have a good superintendent, why should we have to hire another man, who we don't know anything about?"

Proctor stated, "We have a serious situation here. No one knows the building program as well as Richard Wegner. He's on top of every detail."

Proctor related how the school accounts were approved 100% by the auditing authorities.

"We're in the black through Wegner's good judgment. We've made a gain of $127,000 from interest on our bond money while it's invested."

We need the support of the community, he's the key man, and we need to get collectively behind him, Proctor concluded.

A question was raised about the reported inadequate records at the time of the recent thefts.

Mr. Cox replied that all records are available and that 100% of the loss, which occurred over the past four years had been recovered.

It was reported that a representative body of high school students had asked for a reason for the board's action.

A letter was read from Herbert Ayres, president of the Student Government, which requested that Mr. Wegner be asked to remain. It suggested that if no reasons are given, the Student Government would consider further action.

Don Thomas spoke to the effect that the meeting was "the best thing that could happen to the community, that such an interest in the school was shown. "We should retain our love and respect for each other.

"However, we should examine things that have gone wrong with the school. The boss never is always loved by everyone."

Thomas also suggested that when a School Board member has a spouse employed in the school system his "viewpoint can become distorted."

He suggested that the Board could appoint committees to sit down and discuss and adjust these matters. "There is bound to be some unhappiness with the way the school is run. These things can be ironed out, however."

Dan Schindler, counselor, said, "our problems are not the fault of one man. If you want to fire somebody fire us all."

A query was expressed by someone, "Why did it take 18 years to find out Wegner was not worthy of his position?"

Wegner served as a band director in the Clinton schools for many years before he became superintendent when Leon Bodell resigned.

Wight said in conclusion, if the vote is illegal, we can bring it up again, but there is no assurance that it won't be voted the same way again.

"You can fight it again at the June election, when the terms of Geiger and Proctor expire," Wight said.

Petitions were distributed requesting the Board to rescind its action and to offer Richard Wegner a suitable contract for another year.

Copies may be obtained from Lester Proctor.

Supt. Richard Wegner's position as superintendent of the Clinton schools is in jeopardy after the Board voted 4-3 last week not to renew his contract. Public support in the community has mounted in his behalf and a large number is expected to attend next Tuesday's meeting at the high school.

EXCELLENT PERFORMANCES — Three of the top stars in "Anything Goes" appeared in this scene. Craig Collicott was a convincing Englishman, and Dr. Carlton Cook drew the biggest laughs with his antics in the song, "Friendship." Dorothy Wetter sparkled as a madam with eyes on an English husband.

'Anything' Is Good

By Dorothy Grigg

In spite of illness in the cast which forced a week's postponement, the Tecumseh Players are staging a fast moving, colorful musical comedy at the Community Center.

"Anything Goes" is appropriately named with the title being based on events which occur on a ship enroute from New York to England.

Colorful costuming and staging adds considerably to the musical which includes several oldtime song favorites.

There's no question that Dr. Carlton Cook, as Moonface Martin, steals the entire show with his performance in the song, "Friendship," with Dennis Bryan and Dorothy Wetter. It's the highlight of the musical, and the doctor is at his best, including many past noteworthy appearances with the Players.

Dorothy Wetter, playing her part of a madam of harlotry, to the fullest, has one of the toughest roles to fill and does it exceptionally well. She "belts" out several old favorites which were well received by the audience.

Craig Collicut does a professional job in portraying an English gentleman who has a difficult task in catching on to American slang, particularly in his scenes with Reno Sweeney, played by Mrs. Wetter.

Dennis Bryan holds the top male role and brings some relaxation to the stage with his ease in singing.

Other performers to remember include Bill Fowle as the purser; Ron Wetter as the hard drinking Elisha J. Whitney; Ellen Todd and the four angels —— Laura Hughes, Debbie Cote, Judy Dornan and Linda Hughes.

The plot of "Anything Goes" is somewhat far fetched, but the musical moves rapidly, and in this respect it is as good as the Players have done in the past. Supporting roles by Louise Lawson, Judy Hoyt and Howard Furry, although not glamorous parts, help in keeping the play moving.

When a group, such as the Tecumseh Players, works night and day for weeks without any reward except for a chuckle or two and applause from the audience, you have to admire them for their perseverence and courage — plus a good show which beats watching the "tube".

Lawson Quits Top Cage Post

Vic Lawson, 18-year veteran in basketball coaching circles, has submitted his resignation as head coach of the Tecumseh Indians.

Action on his resignation is expected to take place at next Monday night's School Board meeting.

With the exception of three years, 1961-62-63 when he took a leave of absence, Lawson has been head coach for the past 18 years. During his span, the Indians posted an unofficial 163-107 won and lost record.

His record would have been much better except for the last three years when the Indians fielded mediocre teams. This year's team was expected to do much better, at least post a winning season of a 7-10 mark.

It was rumored over a month ago that Lawson planned to resign, and possibly before the season was over. The Indians lacked hustle and spirit which were characteristic of all his teams, even during losing seasons.

One criticism, if it is criticism, is that Lawson was simply too nice. He's known to be quite popular in the Tecumseh coaching staff and with other coaches in the Huron League.

His 1964-65 team of Gregg Allen, Terry Alcock, Jim Lawson, Jeff Osburn and Dave Tilton was one of the best to ever to represent THS.

Although relinquishing the top basketball position, he is expected to continue with football, possibly at the Jayvee or frosh levels.

Likely candidate to take over now is Jim Curth, and it's rumored that he intends to apply. Curth, remembered here as outstanding in football but not as a basketball player, has been very successful coaching the Jayvees during recent years.

As a result, Easter can occur on any one of 35 days, from March 22 to April 25. Last time Easter was celebrated March 22 was in 1818, and the next time will be in 2285. This year's Easter falls on March 29 because the full moon comes on the 22nd.

Clutching a nickel in a hot little hand, the tow headed youngster was trying to "get the most for his money," please his sister and not incur Mr. Krout's wrath. He had other customers.

Quite a task for one small boy, but he did it in record time, to our amusement and amazement. When the 10c goodies are in the same area with the nickel packages, one can't be blamed for attempting to buy the mostest for the leastest, especially when it has to be divided with sis.

One of the few places where the little folk can still find penny candy is Krout's Market, Tipton. Wise man, after all, they have to learn to use the nickels before they can spend the dollars they will earn later, which is more than we can say for the governing bodies.

VOICE of THE HERALD

Community Most Important

A crucial meeting of the Clinton School Board and folks of the community and school district will be held next Tuesday evening at the regular monthly session of the Board.

More is at stake however, than Dick Wegner being retained, or dismissed, as Clinton superintendent. This is important, of course, but the most important matter could well be what happens at this meeting.

Some 15 years ago, a city of some 6,000 in Ohio had a similar situation. The Board had voted 3-2 to drop a popular superintendent. A public meeting was held and the result was disastrous.

The Board did not change its decision, and the meeting developed into a shouting match with emotional outbursts adding little constructive help in the problem.

Out of this meeting grew a real problem. Many friends were no longer friends, folks were snubbed, personality differences became conversational pieces. The town was split.

And, it all developed over the same problem which now persists in Clinton.

We do not pretend to know whether the Board was just or wrong in taking action on Mr. Wegner at its March 3 meeting. We question that such action was ethical and legal, since it was at a special session.

Folks in Clinton should be concerned with its community, a nice place for all to live together as friends and neighbors. Little is gained by splitting a community, and unless spokesmen at next Tuesday's meeting are careful, personality clashes will occur which could take years to mend.

Outside of a job and family, friends are one of the greatest assets for any man or woman. We hope that such a thought is remembered when the public attends the Board meeting.

If a friendly, business like atmosphere prevails, Clinton will solve its school superintendency problem in a manner which folks can be proud.

25th SUNDAY — An open house will be held Sunday, March 15, for friends and relatives of Mr. and Mrs. William Warner in honor of their 25th wedding aoiversary. The event will be held from 2 to 5 p.m. at the Warner residence at 303 Herrick Park Dr. William and Regina Henehan were united in marriage March 17, 1945, in St. Agatha's Church, Philadelphia, Pa. They are parents of eight children, Mrs. Robert (Patricia) Tooman of Clinton; Mrs. Terrance (Jeane) Beland, 111 W. Wildwood Ct.; Ruth Ann of Big Rapids, and Theresa, Nancy, William, Robert and Mary An, all at home. They have one granddaughter. The couple ask that gifts be omitted.

Dinner Meeting Held by Exchange

Twenty members and guests attended the regular dinner meeting of Tecumseh Exchange Club Monday evening, at the I.O.O.F. Hall on Green Hwy.

Exchange member Ray Puffer was in charge of the program and introduced guest speaker, Cal Zorn, City Manager, who presented a very informative report on the proposed city income tax.

A lively question and answer period followed Mr. Zorn's presentation.

President Dunn announced the next meeting would be Ladies' Night, March 23. Dinner will be at Bill Cone's in Jackson.

The Rebekahs served dinner prior to the formal meeting.

Area residents have contributed a total of $835 to the Howard Hyder account in the United Savings Bank, reports Terry Ridgway, co-chairman of the Jaycee Auxiliary project to aid the victim of kidney failure.

Board, TEA Negotiating New Pact

Negotiating teams for the Tecumseh Education Association and the School Board met for the third time Tuesday night in regards to a master contract.

All sessions are closed, and any discussion or progress is withheld.

After the master contract is settled, the negotiating teams are then expected to discuss salary terms for the 1970-71 school term. It is not known whether the teachers will again be seeking salary increases or not, but tearhers in other schools are known to be asking for more money despite increases last year.

Minimum base for teachers here with a degree is $7,000 a year. Those with master's degrees start at a higher level.

Indians Bumped 74-51

Tecumseh's hopes of a big upset over Willow Run rah high in the semi-finals of the district tournament Friday night at Eastern Michigan, but they soon vanished.

For one full period the Indians kept pace with the sharp-shooting Flyers only to be swamped as WR won going away, 74-51.

Good shooting and work on the boards gave Tecumseh fans hopes in the initial quarter when the Indians led for the most part, only to trail, 16-14, at the end of the first eight minutes.

The Flyers wrapped up the game in the second period, scoring 24 points to Tecumseh's seven. WR's rampage continued in the third quarter when the Flyers ripped the cords for 22 points while the Indians were collecting just 13.

It was simply too much speed and ball handling, plus some hot shooting that ended Tecumseh's season. WR found Tecumseh tough on the boards in the opening period only, and then took over for the rest of the game.

Both clubs substituted freely in the final minutes with several Jayvees up for the game getting some varsity action. The Indians, who once trailed by 29 points, actually outscored the winners in the final stanza, 17-12, but the game was already lost.

Sparking the Indians was Scott Dalton with 11 points. Craig Smith tallied 10 and was the only other Indian to score in double figures. Paul Burns led the first quarter rush for Tecumseh when he picked off four rebounds and netted all six of his total points.

The loss gave the Indians a 7-10 record for the season. It not only marked the end for Coach Vic Lawson, who resigned Monday as head basketball coach, but also for seniors Bill Puffer, Burns, Ken Pieh and Mike Kennedy.

Letters to the Editor

TO THE EDITOR:

The City of Tecumseh should give a word of thanks and praise to the Weaver Disposal Company for the tremendous improvement in the trash collection since the end of December.

Speaking only for the end of the city in which I live, the service has improved 200%. Collection is made early on Tuesday mornings just as announced.

The trucks seem to be in excellent condition and are never hanging over with excessive trash. The men driving and collecting are not only neat in appearance, but courteous as well.

The new square-bottomed bag is a decided improvement over those offered by the previous collection agency. Perhaps the volume is the same but to this homemaker it seems that more trash can be contained.

Here's hoping that his excellent service can continue and when contract renewal time arrives — whenever it is — that Weaver is given the opportunity to provide the dependable service lacked for so long.

Kaye M. Steele
(Mrs. William M. Steele, Jr.).

In presenting the women with their pins and certificates, Mrs. Robert Bonner, chairman of the affair, explained that the memberships not only express appreciation of service to the women but the financial portion providing the honor is used by the Women's Division of the church for further mission work around the world.

Young Mothers Club Learns About Drugs

Detective David Snyder of the Lenawee County Sheriff's Department spoke on "Dangerous Drugs and Narcotics", at the Young Mothers' Club, Wednesday evening at the home of Mrs. Harold Iffland.

Detective Snyder pointed out that most youngsters experimenting with drugs are "plain ordinary kids" from well-adjusted families, not just emotionally disturbed or physically handicapped.

He recommended that parents educate themselves about drugs, so they can better answer questions their children ask, and suggested they be able to detect possible signs of drug usage in their own children.

A display of common drugs and household products that are being abused by the young were shown to 13 members and two guests present.

Mrs. Allen Wagenschutz, president, reminded members of the bake sale for the benefit of the Lenawee Institute which will be held Saturday, March 14, from 9 to noon at Bancroft Cleaners.

Members brought Betty Crocker coupons to donate to the kidney machine collection of the Jaycee Auxiliary.

Mrs. Iffland, assisted by cohostess, Mrs. John Stevens, served refreshments.

Next meeting will be held April 1 at the home of Mrs. William Judkins with Mrs. George Rodgers co-hostess.

GM MARK OF EXCELLENCE

10 resounding reasons why you should buy a new Chevrolet instead of a new something else:

1 Higher resale value. Year after year. No other car in Chevrolet's field gives you as much back on your initial investment.

2 Deep down value. Exclusives like flush-and-dry rocker panels and an extra set of fenders keep Chevrolet looking good longer.

3 Smooth, smooth ride. Because of Chevrolet's computer selected springs, Full Coil suspension and advanced body mounting system.

4 Impressive styling. The impression is that it's an expensive car, if you want to make an impression.

5 Massive interiors. Result? Room to stretch out or to sit tall. Chevrolet has more front leg room than any other car in its field.

6 Side-guard beams. Chevrolet puts more between you and the outside. Steel beams built into every door.

7 A finish that lasts. It's unfortunate other cars in Chevy's field don't have a Magic-Mirror finish because it sure keeps its shine.

8 Exceptional engines. Chevrolet's standard 350-cubic-inch V8 runs on regular fuel. Plus there are five more engines available.

9 Tremendous selection. Of colors. Of accessories. Of engines. Of transmissions. Of fabrics. And of models. There are nine big Chevrolets alone.

10 America's favorite. Something a new "something else" can't claim. If actions speak louder than words, doesn't this say something to you?
